### NATIONAL PARK SERVICE

Region Three

Santa Fe, New Mexico

#### Research and Observations

February 6, 1948.

Montezuma Castle received a request from a man who wished to investigate the bottom of Montezuma Well with diving equipment. The matter was  
**MEMORANDUM for the Regional Director, Region Three.** Possible scientific sponsorship of the proposed project.

Following the narrative report for Naturalists of the Southwestern National Monuments for the month of January, 1948: obtain further information on military use these lands are carried on at Santa Fe.

#### Staff Activities - General

King found no time to accomplish work on the Salabina report, but saw Naturalist Dale S. King was in the office except for seven days, January 19-25, which were spent at Bandelier.

Archeologist Charlie R. Steen made one field trip early in the month to visit Casa Grande and Gran Quivira.

The catalog, "American Man of Science" was furnished with a list of  
Administration - Interpretation for inclusion in the forthcoming new edition.

Tumacacori exhausted its supply of 2-fold leaflets, and preparation of mimeographed copies was started at Santa Fe. Jack Hursey of Adams State College at Alamosa, Colorado, visited the home of Naturalist King on Saturday. Reports from the field of estimated needs for sales publications were assembled and forwarded. Since many of the Southwestern National Monuments have no sales or storage facilities for sales literature, our immediate ability to avail ourselves of sales literature is considerably curtailed.

#### Progress in Exhibit Plans and Projects

261, including 11 books, 37 pamphlets and reports, and 115 periodicals. The large number of periodicals  
Pablita Velarde Hardin entered on duty as Museum Preparator at Bandelier January 19. Naturalist King worked seven days at Bandelier preparing air-brushed backgrounds on which Mrs. Hardin will paint illustrations for case No. 16 which deals with native government in the Rio Grande pueblos. Work was considerably hampered by lack of a museum workroom and heat in the museum itself. When empty case No. 16 was opened after eight years, moisture was discovered to have seeped through the outside wall of the building into the case. The wall was painted with Aquella in an attempt to waterproof the case, which also was thoroughly caulked with commercial caulking compound. King also constructed a wooden terrace for the lower part of the case, and made backgrounds for paintings which will be placed in the case entitled "Seasonal Ceremonies of the Pueblos", No. 18. Schauer, Leipzig, 1910.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Region Three  
Santa Fe, New Mexico

February 6, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following the narrative report for Naturalists of the Southwestern  
National Museum for the month of January, 1948:

Staff Activities - General

Naturalist E. S. King was in the office except for seven days,  
January 18-26, which were spent at Bandelier.

Archaeologist Charles E. Brown was in the field trip early in the  
month to visit Santa Grande and Santa Fe.

Administration - Information

Transcript exhausted the supply of 2-fold leaflets, and preparation  
of mimeographed copies was started at Santa Fe.

Reports from the field of outstanding needs for sales and locations  
were assembled and forwarded. Since many of the Southwestern National  
Monuments have no sales or storage facilities for sales literature, our  
immediate ability to avail ourselves of sales literature is considerably  
curtailed.

Progress in Exhibits Plans and Projects

Rebecca Velarde Herbin entered on duty as Museum Proprietor at  
Bandelier January 18. Naturalist King worked seven days at Bandelier  
preparing six-paneled backdrops on which Mrs. Herbin will paint illus-  
trations for case No. 18 which deals with native government in the Rio  
Grande pueblo. Work was considerably hampered by lack of a museum work-  
room and heat in the museum itself. When empty case No. 18 was opened  
after eight years, materials were discovered to have seeped through the  
outside wall of the building into the case. The wall was painted with  
Acrylic in an attempt to waterproof the case, which also was thoroughly  
sealed with commercial caulking compound. King also constructed a wooden  
terrace for the lower part of the case, and made backdrops for paintings  
which will be placed in the case entitled "Seasonal Ceremonies of the  
Pueblo", No. 18.

## Accessions - Other Than Library

Steen cleaned and re-arranged a storage room in the basement of Region Three Office building, and assembled and installed steel shelving which was received during the month. The facilities thus afforded will handle the small collections which are kept here, and will make available space for sales publications of the Southwestern Monuments Association.

## Research and Observations

Montezuma Castle received a request from a man who wishes to investigate the bottom of Montezuma Well with diving equipment. The matter was referred to the Museum of Northern Arizona for possible scientific sponsorship of the proposed project.

Correspondence was initiated with the Army to obtain further information on military men whose names are carved on El Morro.

King found no time to accomplish work on the Malakihu report, but several illustrations were received, and an analysis was made on cotton fabrics.

## Cooperative Activities

The catalog, "American Men of Science" was furnished with a list of Southwestern Monuments personnel for inclusion in the forthcoming new edition.

Professor Fred Worman and Graduate Student Jack Turney of Adams State College of Alamosa, Colorado, visited the home of Naturalist King on Saturday, January 31, discussing with him and Regional Archeologist Erik E. Reed the question of permits for proposed archeological field school work at Bandelier this forthcoming summer.

## Region Three Office Loan Library

Accessions for the month totalled 261, including 11 books, 37 pamphlets and reprints, and 213 periodicals. The large number of periodicals received is due to a gift by a friend of the National Park Service who donated a complete run of "Indians At Work" and, in addition, volumes of The Scientific Monthly and The Journal of Forestry which were donated from another source.

The more important books received were:

Curtin, L. S. M. - Healing Herbs of the Upper Rio Grande  
Laboratory of Anthropology, Santa Fe, New Mexico, 1947.

Franciscan Fathers, St. Michaels, Arizona - An Ethnologic Dictionary of the Navaho Language.  
Max Breslau, Leipzig, 1910.

These studies will be completed by the end of the year. The results will be published in the Journal of the American Medical Association. The results will be published in the Journal of the American Medical Association.

pology).

#### Southwestern Monuments Association

Treasurer Allan Vedder left on January 20 for a 3-week trip to south-  
eastern states, and in his absence Executive Secretary King kept routine  
affairs current.

Twenty-four card dispenser boxes were received from the cabinet maker,  
and approximately half had been sent to the field by the end of the month.  
The display case for Association sales publications at Tusacacori was al-  
most completed at the end of the month, and will be shipped to the monument  
when wiring is installed. Authorization was given to another cabinet maker  
to complete a second case of the kind which will be sent to White Sands,  
where display facilities are meager.

Correspondence ensued concerned a proposed sales publication for Carle-  
bad Caverns National Park. If this project can be completed, sales of the  
publication by the concessioner there will, it is believed, furnished con-  
siderable funds for a proposed Naturalist History Association at that park.

Correspondence with respective custodians indicated that miniature  
photographic sets should be prepared for Chaco Canyon and Gran Quivira Na-  
tional Monuments. Work on these will have to be postponed indefinitely.

Instruction was given to the Custodian of Tusacacori to prepare a  
popular manuscript on his personal time for publication to replace the 25-  
cent booklet which is now on sale there. Supplies of this obsolete booklet  
are almost exhausted, and it is hoped a new booklet can be published before  
the next winter heavy travel season.

#### Photography and Visual Aides

With the employment of Marvin H. Frost, Sr., as seasonal ranger at  
Saguaro National Monument, Custodian Spermyer suggested that the monument  
be furnished with an adequate supply of film so that Mr. Frost's exceptional  
photographic ability may be utilized to build our files of desert pictures.  
Some film was ordered through government channels, and additional supplies  
will be obtained by the Southwestern Monuments Association, if needed.

#### Wildlife Management

The Custodian at Walnut Canyon was instructed to prepare RCP sheets  
for two projects to provide permanent water near the rim of Walnut Canyon

to keep the local herd of deer from concentrating along the public highway, where hunting pressure is terrific.

A list of Southwestern National Monument personnel in New Mexico was furnished to the State Game Warden who will issue non-salaried honorary game warden cards.

#### Ruins Stabilization

Steen visited Casa Grande and Gran Quivira National Monuments to make additional plans for ruins stabilization jobs. A new International dump truck was received for the mobile unit at Chaco Canyon, and a small cement mixer was purchased to be used on various minor jobs throughout the monuments.

Additional correspondence was carried on concerning the problem of attempting to preserve the fresco paintings at Tuzacacori. An expert in the east has asked that the custodian prepare an illustrated report of the extent and nature of work required.

Additional consideration was given to the hive roof at Aztec Ruins National Monument. Timbers of this crib-work structure have rotted and these need replacing unless a decision is made to eliminate this restoration, which, although good interpretively, does conflict with accepted service policy against restorations in place.

#### Aid to Administrators

Due to illness of a secretary, Naturalist King prepared the condensed report for the Assistant Regional Director.

#### Projects for February

King hopes to remain in the office for the greater part of the month to handle routine affairs, prepare the first mail brochure for the Southwestern Monuments Association and work on stabilization and archeological reports.

Steen will go to Casa Grande about February 10 to spend about a month on stabilization of Compound A.

Dale S. King,  
Naturalist.

Approved for Distribution 15/ John M. Davis, February 6, 1948.  
Assistant Regional Director.

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED EXCEPT WHERE SHOWN OTHERWISE

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to solve the problem and determining the resources that will be needed to implement the plan. Finally, the last step in the process is to implement the plan and monitor the results. This involves putting the plan into action and tracking the progress of the solution. Once the problem has been solved, the final step is to evaluate the results and determine if the solution was effective. This involves comparing the results of the solution to the original problem and determining if the problem has been solved. If the problem has not been solved, the process may need to be repeated.

NATIONAL PARK SERVICE

Arches

NATIONAL MONUMENT

Moab, Utah

January 27, 1948 43

19

MEMORANDUM FOR the Regional Director, Region Three:

The following is a narrative report for Arches and Natural Bridges National Monuments for the month of January, 1948:

GENERAL: Travel for the month was very slow, due in part to the extremely cold weather and snow. This has been the longest period of continuous below freezing temperatures experienced in Moab for many years.

The custodian was on annual leave for four days during the latter part of December.

WEATHER: Below freezing temperatures were experienced throughout the month, with snow on two occasions. For the last four days a cold north wind has been blowing. The old-timers predicted a thaw about January 25th but it has not arrived to date.

TRAVEL: A total of 32 cars and 87 people visited the area during the month. This about doubles last months travel and is approximately four times that for the same month last year. We had representation from Arkansas, California, Colorado, Idaho, Montana, New York, Utah and Wyoming.

INTERPRETIVE SERVICES: No guided trips were taken during the month. Twelve people were contacted at headquarters and 85 people visited the Windows section unattended.

COOPERATING GOVERNMENTAL AGENCIES: A warning sign, regarding excavation of Fossils under the Antiquities Act, has been received from the Bureau of Land Management with a request that it be placed at the site of the Dalton Wells dinosaur deposit. This will be accomplished as soon as the frost leaves the ground so that the necessary excavation can be made.

Road construction by Grand County has progressed very well despite the cold weather and the small construction crew, consisting of a bulldozer operator and a compressor man and driller. The crew returned to work on January 5th, after the holidays. On January 24th I drove the pickup into the Devil's Garden section, the first time a car has been in this area. The road has been completely roughed out to the site of the contemplated parking area. Two more culverts remain to be installed and

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
JANUARY 1934  
NATIONAL MONUMENT  
JANUARY 1934

AS  
JANUARY 1934

RECOMMENDATION FOR THE NATIONAL MONUMENT, Big Hole River

The following is a description of the Big Hole River and the  
Big Hole National Monument for the month of January, 1934.

GENERAL: The Big Hole River is one of the most beautiful  
scenic spots in Montana. It is a beautiful river with many  
rapids and falls. The river is about 100 miles long and  
flows into the Big Hole Lake. The river is a great place  
for fishing and hunting. The river is a great place for  
camping and picnicking. The river is a great place for  
boating and swimming. The river is a great place for  
all kinds of outdoor recreation.

The monument was established for the purpose of  
preserving the river and the surrounding area.

LOCATION: The monument is located in the Big Hole  
River valley. It is about 100 miles long and  
flows into the Big Hole Lake. The river is a great  
place for fishing and hunting. The river is a great  
place for camping and picnicking. The river is a great  
place for boating and swimming. The river is a great  
place for all kinds of outdoor recreation.

LAND: A total of 10,000 acres of land was  
acquired for the monument. The land is mostly  
prairie and forest. The land is a great place for  
fishing and hunting. The land is a great place for  
camping and picnicking. The land is a great place for  
boating and swimming. The land is a great place for  
all kinds of outdoor recreation.

WATER: The Big Hole River is a beautiful  
river with many rapids and falls. The river is a  
great place for fishing and hunting. The river is a  
great place for camping and picnicking. The river is a  
great place for boating and swimming. The river is a  
great place for all kinds of outdoor recreation.

CLIMATE: The climate is generally dry and  
warm. The temperature is usually between 40 and 60  
degrees Fahrenheit. The climate is a great place for  
fishing and hunting. The climate is a great place for  
camping and picnicking. The climate is a great place  
for boating and swimming. The climate is a great place  
for all kinds of outdoor recreation.

VEGETATION: The vegetation is mostly prairie and  
forest. The prairie is a great place for  
fishing and hunting. The prairie is a great place for  
camping and picnicking. The prairie is a great place  
for boating and swimming. The prairie is a great place  
for all kinds of outdoor recreation.

Page 2, Arches Narr. Rpt., Jan., 1946

considerable drilling and sheeting must be done for drainage ditches. Foreman Beeson estimated that this spur would be ready for finishing on January 31st but the cold weather of the last three days will probably prolong this estimate. To date 8.8 miles of road have been constructed. The total length of the Devil's Garden spur is 8.2 miles. Work will be started on the Fiery Furnace and Delicate Arch spurs during the coming month.

PRIVATE LANDS: Secretarial approval has been received for the purchase of the Turnbow property, near Delicate Arch, and final details on the contract will be taken care of during the next two weeks.

ROADS: The approach road into the Windows section has been rough but passable during the entire month. Freezing weather has prevented maintenance by the State but it is hoped that we will get a thaw during the early part of next month so that this road can be placed in better shape.

MAINTENANCE: The 3 kw power unit ceased functioning on December 27th. It was taken to Moab for repairs where it was found that a valve spring had broken. Repairs were completed on January 8th and it was returned to the monument and installed.

NATURAL BRIDGES NATIONAL MONUMENT: No activity at this area during the month due to snow on the approach road.

A radio broadcast over KSL at Salt Lake City on January 26th stated that the Carbon County Chamber of Commerce at Pricce, Utah had taken exception to the expenditure of money for the construction of a bridge over the Colorado River at Hite, Utah. They stated that the funds necessary for this construction could be better used to replace the present inadequate bridge spanning the river at Moab on US 160. Public sentiment seems to be against the Hite project in this vicinity.

(in trip.)

Russell L. Mahan  
Custodian

Page 2, Serial 1000, 1001, 1002

considerable drilling and shooting was done in the vicinity of the  
Tennessee River and the results of this work will be ready for  
on January 15th but the only results of the last three days will be  
daily working this morning. To date 1.5 miles of road have been  
excavated. The total length of the road is 1.5 miles.  
Road will be started on the river between and between and about during  
the coming month.

REMARKS: Excavated material has been removed for the purpose  
of the Tennessee River, and the results of this work will be  
ready for the coming month.

REMARKS: The work was done in the vicinity of the Tennessee River and  
the results of this work will be ready for the coming month.  
The work was done in the vicinity of the Tennessee River and  
the results of this work will be ready for the coming month.

REMARKS: (Please note below any factors influencing interpretive service, such as:  
museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

Extremely cold weather had adverse effect on travel.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.

"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.

"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
AZTEC RUINS NATIONAL MONUMENT  
AZTEC, NEW MEXICO

24 January 1948.

MEMORANDUM for the Regional Director.

There follows the report of activities in Aztec Ruins for January 1948.

WEATHER. Generally excellent with cold clear days and no snow or rain. Travel has done fairly well, but has not come up to expectations even with the fine traveling conditions that have prevailed.

MAINTENANCE. Considerable time and effort have been expended in removing and repairing the domestic water pump and motor, uncovering the water storage tank and exploring for leaks and in repairing worn out plumbing and sink equipment at the residence.

The manholes recently added to the ruins drainage ditch are now complete with new concrete pipe placed into position and manhole covers completing the project.

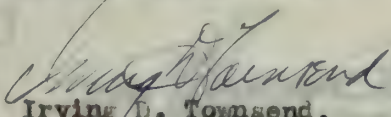

PERSONNEL. The Custodian began annual leave the 19th January and was relieved by Park Ranger Tom Onstott from Bandelier. We are grateful to the Custodian of Bandelier and others of the Regional Office who made it possible to send Ranger Onstott to Aztec as relief man.

SPECIAL ACTIVITIES. The Custodian presented the colored 16mm Carlsbad Caverns film to the Aztec Parent Teacher's Association. Altho it is a sound film the picture is being presented as a silent and is to our way of thinking a very fine picture depicting the beauties of the "Caverns". We have plans for using the film for the next 2 1/2 months in and around Aztec. The film was shown a second time on the evening of the 20th, to the MIA of the local Mormon Church by Ranger Onstott.

TRAVEL. The 385 visitors to the monument this month made an 80% increase over the same month last year. Twenty-five states were represented in this month's count, but there were no foreign visitors.

Interpretive Services. 286 people in 67 parties went through the ruins, over twice as many as for the same month last year. 385 people in 90 parties visited the museum.

in triplicate

  
Irving D. Townsend,  
Custodian.

MEMORANDUM FOR THE REGIONAL SUPERVISOR

Re: AZTEC RUINS NATIONAL MONUMENT, AZTEC, NEW MEXICO. The purpose of this memorandum is to inform you of the results of the recent inspection of the monument by the National Park Service. The inspection was conducted by the Regional Supervisor and the National Park Service representative. The results of the inspection are as follows: The monument is in good condition and the ruins are well preserved. The surrounding area is well maintained and the monument is a fine example of the Aztec ruins of the Southwest. The National Park Service representative has recommended that the monument be designated as a National Monument. This recommendation is based on the fact that the monument is of great historical and scientific interest and is well suited for the protection and preservation of the ruins.

The National Park Service representative has also recommended that the monument be included in the National Park System. This recommendation is based on the fact that the monument is of great historical and scientific interest and is well suited for the protection and preservation of the ruins. The National Park Service representative has also recommended that the monument be included in the National Park System. This recommendation is based on the fact that the monument is of great historical and scientific interest and is well suited for the protection and preservation of the ruins.

The National Park Service representative has also recommended that the monument be included in the National Park System. This recommendation is based on the fact that the monument is of great historical and scientific interest and is well suited for the protection and preservation of the ruins. The National Park Service representative has also recommended that the monument be included in the National Park System. UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
BANDELIER NATIONAL MONUMENT

SANTA FE, NEW MEXICO

January 28, 1948

Memorandum for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of January, 1948

Weather

In keeping with the cold waves that have been striking other parts of the country the mercury registered 18 degrees below zero the night of January 27 and was the coldest temperature recorded since weather records have been kept at the monument. This followed by one day the third 7 inches or more snow of the winter. A total of 18.5 inches of snow was received during the month.

Special Activities

The Custodian attended a meeting in the Regional Director's office on January 6 with members of the regional office staff and Mr. Diluzio of the Atomic Energy Commission, Los Alamos, N. Mex. to discuss the right of way for a road through the Otowi section of the monument to serve Los Alamos, connections for power and telephone lines for the monument from Los Alamos lines, and proposed boundary changes to give a common boundary with Atomic Energy Commission lands.

Ranger Onstott attended a meeting of the American Anthropological Society in Albuquerque December 28-30 and the Custodian with Foreman Orem attended the regional archeological meeting in the regional office on December 30.

Roads and Trails

Work was begun the middle of the month on clearing a section of trail just below the lower falls in Frijoles canyon that was blocked by a rock slide several years ago. The removal of the rock was completed but surfacing with dirt and gravel was delayed by the heavy snow at the end of the month. Some work was also accomplished on clearing the trail above the falls of small rocks that have fallen in to it during the winter.

FOR DEFENSE

BUY  
UNITED  
STATES  
SAVINGS  
BONDS  
AND STAMPS

We were very pleased to receive word that a patrol grader has been awarded to this area from surplus property and that it will be received prior to the heavy travel season. This piece of equipment has been needed since the State stopped maintenance on highway #4 and will enable us to keep the approach road in much better shape.

Slowly melting snow kept the ruins trails in a soft, sloppy, condition during most of the month and made walking somewhat disagreeable for the visitors. Drainage and crowning of the trails will help to improve this condition.

#### Approaches to Monument Area

It was with a great deal of pleasure that it was learned that the State Highway department has finally received the steel for the Otowi bridge on the Hojague cutoff and that prospects are good for its early completion by early summer. This will eliminate the last detour on State highway #4.

#### Interpretation

A total of 48 parties were guided through the ruins during the month and 27 parties were conducted through the museum. In addition there were quite a number of visitors that went through the museum but did not take a ruins trip. The museum was so cold, however, that the visitors did not spend much time there. It would be a distinct advantage to the visitors and to the interpretative program if some heat could be furnished in the museum.

#### Museum Activities and Exhibits

Mrs. Pablita Velarde Hardin, noted Indian artist from Santa Clara pueblo, began work on exhibits for three of the museum cases on January 19. She will prepare paintings for exhibits on Indian government, seasonal ceremonies, and the use of animals. We are indeed fortunate to secure her services at this time and completion of these cases will finish an entire room of exhibits on which she started work in 1939. Naturalist King spent one week in the area outlining the material and information that is to go into the exhibits.

#### Travel

In spite of inclement weather at the beginning and end of the month travel to the monument showed a marked increase over the same period last year. 378 persons visited the monument which is a 52% increase over January 1947 and gives us a 44% increase with 3510 persons for the travel year.

## DECLARATION OF PRINCIPLES

It was very clearly stated at the meeting that the purpose of the meeting was to discuss the various problems of the community and to find ways of solving them. It was also stated that the meeting was to be a free and open discussion of the various problems of the community and that no one was to be allowed to speak without having the right to be heard.

It was also stated that the meeting was to be a free and open discussion of the various problems of the community and that no one was to be allowed to speak without having the right to be heard.

### Ranger Service

Ranger Onstott was detailed to Aztec National Monument on January 18 to act as Custodian during the absence of Custodian Townsend and will return about the middle of February. This puts a strain on the schedule of conducted trips but by the cooperation of other personnel we are able to maintain the high standard for which Bandelier is known.

### Building Fire Protection

The quarterly inspection of building fire hazards was conducted by ranger Keefe and a leak was discovered in a connection of the propane gas system in residence #1. This was corrected by the maintenance man as soon as it was reported.

### Stabilization

The ruins stabilization crew continued work to the middle of the month when it was necessary to discontinue activities until the weather permits the use of cement. "After" pictures were taken of 12 rooms and "before" pictures were taken of 75 rooms in Tyuonyi ruin. The walls of 75 rooms of tiers 30 through 51 were cleaned in preparation for packing with soil cement which makes a total of 155 rooms that are ready as soon as weather permits.

"Before" pictures were taken of rooms 1 through 211 in the Long House ruin and dry masonry was set on some of the walls and where foundations were showing to a depth of three courses of stone.

### Personnel

It was with much regret that we said good by to clerk Glen Bean who transferred as ranger to Organ Pipe Cactus National Monument on January 24. Glen served in this area for a little over a year and his work was outstanding so that he well deserved the promotion to a higher position. The best wishes of the Bandelier staff go with him to his new assignment.

1941-1942

It was this same evening that we were told of the death of the  
old lady, and we were told that she had died of a heart attack.  
The old lady was a very old woman, and she had been very ill for  
some time. She was a very kind and gentle person, and she had  
been a great help to us in many ways. We were all very sad to  
hear of her death, and we were all very grateful to her for all  
that she had done for us.

CANYON DE CHELLY NATIONAL MONUMENT  
CHINLE, ARIZONA

January 26, 1947

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument during the month of January, 1948.

Weather

The weatherman was good to us this month and we have had a very mild January with a Maximum temperature of 62 degrees and a minimum of 8 degrees. However as this report is being written we are having the biggest storm and coldest daytime weather in my five years as custodian.

Administration

The Custodian returned to duty from annual leave on January 8. A laborer was hired to take care of the physical improvements and on my return I found everything in good order. Much time was spent in taking care of the office work and correspondence that piled up during my absence. One trip was made to Gallup, New Mexico for supplies.

Maintenance

More material was dumped on the approach road and it was bladed by the Indian Service. The Pump engine was worked over and is still pumping although each time it goes on the blink I wonder if it hasn't given up the ghost. The Gas tank on USI 13719 was removed and various and sundry leaks repaired with solder. Patrols to Antelope and White house were made.

Publicity

The latest advertisement for the Allis-Chalmers Company features a picture of the White House ruin. I ran across this in the last issue of News-week.

Travel

Travel was heavier than any previous January with 48 visitors. A total of 7½ hours was spent in guide work and two and a half hours in orientation talks at Headquarters.

Visitors

Mr Preston Walker, Editor of the Grand Junction Daily Sentinel and an old School day friend of the custodian visited the area with his wife and stayed overnight.

General

Mr. L.H.(Cozy) McSparron underwent an other operation for his stomach trouble early in the month and has just returned home . He is still pretty weak but thinks that he will be helped greatly.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

Capulin New Mexico,  
January 26, 1948

Memorandum for the Regional Director  
Region Three, National Park Service,  
Santa Fe New Mexico,

There follows a report of the activities in and around Capulin Mountain National Monument for the month of January, 1948,

Only about seventy five visitors thru the month bringing total visitors to date for the travel year to fifty one hundred seventy five, and the total visitors for the fiscal year to date to twenty four thousand six hundred seventy five,

Weather was fairly nice for the first ten days but since then it has been rather rugged, about twenty inches of snow has fallen and there is now on the ground about ten inches, so far this month we have had five snows from two to six inches each totalling about twenty inches, Cattle men are uneasy and hay is selling for thirty five to forty dollars per ton, this is just about a record all time high, some texas cattle brought in for the winter are not doing so well while the local cattle here in much better condition,

The Custodian has removed the snow from the road on the Monument so many times this winter that he has just about lost heart, It is now too deep to even attempt to remove with the equipment that I now have and think I will beg to the State to give me one round with their heavy equipment, This of course will be several days for the State is real buisy right now with troubles of their own removing snow from the principal Highways in this District,

We are planning on getting the gravel spread on the half mile from this Monument to Federal Highway 64, this will give us an all year round road to the Monument, We hope to get this done in the coming month,

Seventeen deer was sighted in the crater a few days ago by some visitors, They appard to be quite gentle,

Very Respectfully,  
Homer J. Farr,  
Custodian

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

January 26, 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows the narrative report for Casa Grande National Monument for January, 1948.

General: The winter visitor season is now in full swing with both Tucson and Phoenix outdoing themselves to keep the visitors entertained. Rodeos, horse and greyhound races, are recording record attendances, and payoffs on the betting have been the largest paid out in this section. Water is still a major problem and there is now a move on foot to set up regulations to control it's use. There is a race on between the legislators and the land speculators. The speculators are trying to sink as many wells as possible before the regulations go into use. Coolidge Dam reports the smallest amount of water in reserve at this date since water use was started. Farmers are being warned to plant on basis of present supplies of water and not count on replenishment of the supply later.

Weather: With the exception of the first day of the report period the days were warm, with plenty of sunshine. Maximum temperatures ranged in the high 60's and 70's, and three days the 8, 9, and 10; maximums reached the low 80's. Nights were cold and with the exception of 6, all minimums recorded were below freezing. The low was 20 above registered on the first. Compared to last year the month as a whole was warmer. No precipitation was recorded during the month.

Visitors: January 1948; 5539; January 1947; 4556; Travel year to date 1948; 14,620; Travel year to date 1947; 12,372. The biggest visitor total registered at this monument since the charge was put into effect was put through the turnstiles this month. The biggest month prior to this was Feb. 1947 with 5517. If we get the same per centage of increase that we have been getting we should have well over 6000 in February. Revenue from ticket sales amounted to \$929.10 with 3097 tickets sold. SMM Association sales for the month was \$255.10.

Interpretive Services: Of the 5539 visitors to the area, 3706 made the Ruins trip, in 214 trips averaging 51.4 minutes. 3394 made the museum trip in 179 trips averaging 27.4 minutes. Question of the month: "Does a person die when an Indian scalps you?"

REPORT OF THE NATIONAL PARK SERVICE ON THE PROGRESS OF THE NATIONAL PARK SERVICE DURING THE YEAR 1907

REPORT OF THE NATIONAL PARK SERVICE ON THE PROGRESS OF THE NATIONAL PARK SERVICE DURING THE YEAR 1907

Maintenance: Doors and windows in quarters # 2-4 were partly rebuilt and all outside woodwork repainted. The bathroom was given one coat of enamel and the other rooms are being keatoned. The water pipe on the main line sprung a leak and on digging it out we found that chlorine had eaten through the T joint making it neccessary to replace it. This could mean that we will be having trouble with the rest of the line soon and may require replacement of pipe and valves throughout the system.

Administration & Protection: Architect Saunders was in and checked over the roofing job on the utility area buildings, which was done by the Tucson Roofing Co. The roof has been leaking some and it was decided that part of it was due to faulty workmanship and some of it due to not going far enough with the specifications on the repair work. Two trips were made to the Adamsville site checking for vandalism. We believe that if this is to be our responsibility, that it should be fenced and psoted soon because the present system of protection is not satisfactory.

Trips Taken: Maintenanceman Barnett made one trip to Phoenix to secure materials and parts for repair work on the water line and other systems.

NPS Visitors & Visitors of Note: On Jan. 5, Custodian Eggermayer and Maintenanceman Barney of Saguaro were in to pick up some equipment. Jan. 16 Architect Saunders and his wife were in. Jan. 21, Custodian Supernaugh brought in some equipment to be repaired.

Mechanics Activities: Leave was taken by mechanic Stonehocker through Jan 2, of the report period. The following equipment was worked on and general repairs made to the following.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

January 25,

1948

MEMORANDUM for the Regional Director, Region Three,  
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of January, 1948.

This month, there were eleven visitors to Chaco Canyon. They came in four automobiles from the states of:- New Mexico - 2 cars, 6 visitors; Nebraska - 1 car, 3 visitors and Washington - 1 car, 2 visitors. All eleven persons took the ruins trip and listened to the museum talk. The visitors formed four parties. The custodian spent five hours and fifty-five minutes with them.

The coldest this month was -10 degrees on January 1, and the warmest was 65 degrees Fahrenheit on the eighth of January. This month, we have had two nights of sub-zero weather and .52 of an inch of moisture as compared with a year ago when there were 10 nights of sub-zero weather (once 24 below), some rain and 13 inches snow.

The Farmington Chamber of Commerce, the Gallup Chamber of Commerce and other interested parties were contacted by various Chaquenos in regard to the roads. As a result, a grader, a dump truck and a crew of men spent four days on the north approach road. It is now in excellent shape. We have promises on the south road.

The Chaco roads were graded by Chaco personnel.

The Custodian attended the meeting of archaeologists at Regional Headquarters, which was held December 30 and 31. From there he took annual leave, and was gone eight days.

Forester Harold Ratcliff was here January 19 through January 22 to determine the possibilities of livestock crossing permits.

The Custodian spent two days with the operator of the Trading Post in getting the annual financial report straightened out.

NEVADA: BUREAU OF LAND MANAGEMENT, CARSON CITY, NEV. (1914-15) - 100 PAGES.

NEW HAMPSHIRE: BUREAU OF LAND MANAGEMENT, PORTSMOUTH, N. H. (1914-15) - 100 PAGES.  
NEW JERSEY: BUREAU OF LAND MANAGEMENT, TRENTON, N. J. (1914-15) - 100 PAGES.

NEW YORK: BUREAU OF LAND MANAGEMENT, ALBANY, N. Y. (1914-15) - 100 PAGES.  
NORTH CAROLINA: BUREAU OF LAND MANAGEMENT, RALEIGH, N. C. (1914-15) - 100 PAGES.

The pickup was taken in to Gallup for more adjustments, for it is still within the three month guarantee.

The Trader reports that he is getting more rugs than last month, that trade is holding up well for this time of year, and that he has instituted a bonus system in payment for the Navajo rugs. In each given period, the producer of the rug judged the best will be given a prize or bonus. He has disposed of the jewelry left over from last year, and will get in a new stock for the 1948 year.

At the end of the month, there were on hand:-

Free two-fold leaflets describing Chaco Canyon National Monument, approximately..7940  
National Park Location Map, Number 6....."..... 319

There follows the report of Archeologist Gordon Vivian.

Irving McNeil, Jr.  
Custodian

The trip was made by Tomlin to the annual meetings of the Southern Intercollegiate Association and the National Conference.

Report for Edward Wong's appointment to the M-6 position, Washington, D.C., came through and he arrived on July 2nd, 1954. He has been almost as busy without pay since the 15th of this month, called to duty, for major, by courtesy illness in the family.

The third part of the south sea speech continues. On Immigration matters in the last weeks of January. Canada and Twining was large and held about 1911 which has been recently broken up. Since called on here mentioned one large set of colored houses for a landing with, United Republics from the last class, caught up in the reports and spread across the globe getting out from 1911. NATIONAL PARK SERVICE

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

January 26

19 48

MEMORANDUM for the Custodian,  
Chaco Canyon National Monument.

Continued cold weather and Navajo Relief have put a stop to laying repair masonry at Chetro Kettle. When the weather slowed this work down we sharply curtailed the size of the crew. Those laid off applied for the Red Cross - Navajo Service Relief. With the forms "Requests for Assistance" circulating, the rest of the men but two promptly quit and applied for aid. The two men still working have also applied for assistance but as it hasn't arrived yet they are still on the job.

Five days, one work week, have been lost to the weather.

One trip was made to Santa Fe to attend meetings of the American Anthropological Association and the Regional Conference.

Papers for Raymond Rixey's appointment to the SP-6 position, Archeological Aide, came through and he entered on duty Dec. 29th. He has been absent on leave without pay since the 16th of this month, called to Raton, New Mexico by serious illness in the family.

The first part of the month was spent continuing the foundation repairs in the east section of Chetro Kettle and replacing one large patch laid about 1932 which has just recently broken out. Since relief we have completed one large set of external braces for a leaning wall, hauled concrete sand from the San Juan, caught up on the reports and forced ourselves into getting out some 20 pages so far, of data for a stabilization manual.

The external braces were set on the south wall of room 57. This wall is 22' long, 11' high and leans slightly more than a foot or over half of the width of the wall. Concealed plate and beam anchors were set in the wall of kiva J and in the juncture of I and J. A continuous plate was run along 57 and tied through the wall to the anchors by means of three turnbuckles. The plate will not be visible to visitors, the anchors are covered and it only remains to conceal the turnbuckles.

For the next month we plan to continue work on the manual, complete some experiments begun last summer on casting lintels, run tests on some waterproofing material and when the weather improves either straighten or apply braces to room 70 E.

REMARKS: (Please note below any factors influencing interpretive service, such as:  
"museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

~~Museum too far from main highway, and approach roads not paved. Both factors  
tend to decrease winter travel.~~

\* INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

CHIRICAHUA NATIONAL MONUMENT

Doa-Saberos, Arizona.

January 25, 1948.

MEMORANDUM for the Regional Director,  
Region Three.

There follows a report of activities at Chiricahua National Monument for January.

General. Ranger Ray Ringenbach arrived January 13, having transferred from Organ Pipe Cactus to fill the permanent ranger position at Chiricahua. Maintenance Man Marble took one days annual leave and ten days sick leave for a minor operation. Custodian Cooke took one days leave for dental treatment. After weathering quite a little sickness for the past three months it now looks as though the maintenance man and custodian can be classed, once more, as able bodied workers. With the permanent ranger position filled again, we now hope to get some work done.

Weather. Two snows fell during the period. One of 10 inches just before New Years Day closed the road for two days. A lighter one fell January 18 but did not seriously effect the road. Total precipitation for the month was 1.36 inches.

Weather records were compiled for 1947 and some interesting facts revealed. The total precipitation for the year was 15.93 inches; the lowest of the eight years on record at Chiricahua. Of this moisture over half, 8.08 inches, fell in August. The first six months of the year had only 2.78 inches of moisture.

Inspections. Architect Saunders and Mrs. Saunders spent part of January 14 at the monument. Some minor questions in regard to the enlargement of the headquarters parking area were ironed out very satisfactorily.

Complaints. One verbal complaint was received by a New York man who got stuck in the snow on New Years Day and blamed the Park Service for not having an notice up that the road was impassable. After considering the fact that the gentleman thought that he was on the through road to Rodeo and that he had quite a little scotch under his belt, the Custodian eased out of the picture and left him to find his way back to New York.

Approaches to Monument Area. The road over the mountains to Rodeo has been closed since the first of the year, and will likely stay closed until towards Spring. All other approach roads remain in fair condition.

1. The first of these is the fact that the Government has been unable to secure the necessary funds to carry out its policy of non-interference in the internal affairs of the Republic. This has been due to the fact that the Government has been unable to secure the necessary funds to carry out its policy of non-interference in the internal affairs of the Republic.

THE ABOVE IS A SUMMARY OF THE INFORMATION RECEIVED FROM THE  
INTERVIEW WITH THE WITNESS. THE WITNESS STATED THAT HE  
RECALLED THE FACTS OF THE CASE AS SET FORTH IN THE  
FOOTNOTES TO THE ABOVE SUMMARY. THE WITNESS STATED  
THAT HE HAD NO OTHER INFORMATION TO OFFER.

1. The first of these is the fact that the majority of the population of the United States is of European descent. This is true of the United States as a whole, and also of the individual States. The majority of the population of the United States is of European descent, and this is true of the individual States. The majority of the population of the United States is of European descent, and this is true of the individual States.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research. It also provides a brief overview of the methodology used in the study.

[illegible][illegible]

Interpretive Service. 646 visitors were contacted in the museum in 163 parties.

Increase in Travel. 781 visitors were recorded at Chiricahua for the month. This compares with 532 for December and 599 for January of last year. Our lead is now 9% over last travel year.

Insect and Tree Diseases. A study of the flat head borer infestation in the Douglas Fir stands has been started by the Custodian and can probably be completed during the next month.

*Clair V. Cooke*

Clair V. Cooke,  
Custodian.

Information Service. 644 visitors were contacted in the museum in 1965.

Interest in Travel. The visitors were contacted at intervals for the month. This compares with 111 for January and 189 for January of last year. The total is now 31 over last travel year.

Interest and Travel. A report of the first week's interest in the museum is given below. The figures are given in the following table.

CLARENCE COOPER

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

~~El Morro~~ NATIONAL MONUMENT

~~Ramah, New Mexico~~

January 25, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows the report of activities in El Morro National Monument for the month of January, 1948.

WEATHER: For January we have had unusually warm and pleasant weather in spite of a record low for the year of 14 degrees below zero. The maximum temperature stayed above 50 degrees for 17 days and for nine days was above 40 degrees. There were only 5 days when the maximum dropped below 40 degrees. Only five inches of snow fell during three light storms giving us a total precipitation of .30 inches.

APPROACH ROADS: Due to very light snow and unexpected maintenance our roads have been in better shape than any time during the year. However the visitor does not realize this because he hasn't any idea how bad they can be, and the usual complaint about the road is still the first words uttered by every party. The excuse from the State Highway Department for the delay of the survey of Highway #53 is that they are unable to get the necessary Federal Aid. A check with the PRA is being made by the Regional Office to confirm this statement before the local people in area start to blow their tops.

TRAVEL: Travel to the monument came with the pleasant weather. A total of 62 people from 10 different states arrived at the area in 21 cars. Checking the travel reports from 1937 I find that this month's report sets a record for the month of January. Fifty-six people made the tour of the Inscription in 18 trips and the total guide time amounted to 19 hours and 35 minutes. Six people arrived for information only.

RADIO CONTACT: On January 20th. and 21st. very satisfactory contacts with Regional Office KNKO and Bandelier National Monument KNEP were made. On January 25th. KNEP attempted to contact Chaco Canyon National Monument KNKA. Both stations were able to hear each other, but not plainly enough for satisfactory conversation. Another attempt for this contact will be made on January 26th. Communication with the Regional Office for El Morro and Chaco would mean a great deal for our mail service at times reverts back to the Pony Express days.

MONTHLY GENERAL REPORT OF DISTRICT OFFICE  
OF NATIONAL PARK SERVICE

El Morro National Monument

**GENERAL:** With the unusually warm weather it was possible to accomplish unheard-of jobs for this time of the year. A gate valve below the doping tanks was replaced, excavating to a depth of four feet and finding no frost. Ground was leveled for the generator house. Four tons of coal were transferred from the outside bin to the cellar bin. One load of wood was cut and hauled. General cleanup of the area and many other small jobs which normally have to be done in the fall or spring were possible. Two trips to Grants and Gallup for supplies were made and one run to the regional office.

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

JANUARY 26

48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira National Monument for the month of January, 1948.

General. After a snow-bound beginning January turned out to be an unusually warm and pleasant month. Travel was good for January, but confined mostly to local people.

Weather Conditions. A snowstorm of 10½ inches on December 30 brought 0.87 inches of moisture. Roads to Mountainair drifted in and were not reopened until January 5. A high of 62° was recorded on January 8; a low of 10° on January 2, 17 and 20.

Inspections. Two members of the Regional Office personnel visited Gran Quivira this month, archeologist Steen on January 10 and architect Saunders and Mrs. Saunders on January 23. Both men brought news of increased activity for this spring. Local residents are pleased with the prospect of temporary employment.

Maintenance. The 2-wheel trailer was completed early in the month and given a coat of green paint. Its use simplifies the hauling of water, flammable, etc. to the area.

A break in the telephone line caused by the December 30th storm was repaired.

A road drag was constructed and the entrance road smoothed up after the storm. The drag is a bit too heavy for the 1937 Ford, but if a heavier truck becomes available later, should enable the Custodian to keep the road in good condition and the growth or weeds down along the shoulders. A new culvert was ordered by the Regional Office to replace the rotten wooden one at the gate which bypasses the cattle guard.

Weeds have now been removed from the ruins. The acquisition of a new weed burner should solve the weed problem in the future. It is a very effective outfit.

During the month the pit toilet was moved to a new location where it can be more readily located by the public.

The old path from the register box up to and over the west wall of the ruin was torn up. Shrubs growing in the ruin will be transplanted to the path and with a little judicious placing of rocks this path should be obliterated next summer. It is the old footpath which was still used by locals to the detriment of the walls they crawled over.

Approaches to Monument Area. Grading, preparatory to oiling, has now been completed on approximately 5 miles of the 8½ planned on Hiway 10 from Mountainair. State road maintenance on the remaining 20 miles didn't amount to much this month.

Interpretive Service. 29 parties totalling 68 people were conducted through the ruins during the month. Average trip time, 50 minutes.

On December 29 a party of 3 from California arrived equipped with a home-made radio detector device to reclaim the Gran Quivira treasure for the Catholic Church (on a percentage basis of course). Unfortunately or otherwise their batteries were dead so that the tons of gold of Gran Quivira remain unmolested. Since they could not return they were kind enough to tell me exactly where to dig. It is a comfort to me to know just where all the gold is buried -- especially with the cost of living rising every day.

Increase or Decrease in Travel. As indicated below travel for January showed an increase over last year. Total cars for the travel year are above last year, but total visitors for the travel year remain behind.

	CARS	VISITORS
January, 1948	31	77
January, 1947	20	72
Increase or Decrease	11	5
Percent	55.00%	6.94%
This travel year	129	370
Last travel year	110	390
Increase or Decrease	19	-20
Percent	17.27%	-5.13%

In Compliance with FC 601 - Gran Quivira 2-fold Leaflets on hand -- 5350.

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as:  
"museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LINE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE  
GREAT SAND DUNES NATIONAL MONUMENT  
MOSCA, COLORADO.

January 26, 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for January, 1948.

WEATHER. The old year left us with a cold snap--December 28 registered -7; 29, a -5 and 31, a -1. Winter weather made a come-back during January with night temperature readings of zero to 26 above and daytime readings of 6 to 55 above.

Snow fell on December 30, January 18, 22, 23, 24, 25 and 26. Snow began falling the evening of the 22 and continued off and on during the next four days. There is about ten inches of snow around headquarters with drifts over three feet high in places. A wind of about 40 miles per hour is blowing and as this report is being written, the temperature stands (sits would be a better term) at -4.

Its surprising (to us) to note that all snow has been blown off the road as far as our visibility (500 ft) permits. How the approach road is faring during this storm is unknown.

TRAVEL. One hundred seventy-nine visitors in sixty-six cars, visited the Sand Dunes during this report period. Eleven states were represented. Twelve people had lunch in the picnic areas.

INCREASE IN TRAVEL. Travel increased over last month, due to warmer weather over week-ends. Sunday contact (5 days) amounted to seventy-one visitors.

January, 1947 travel figures show 32 cars and 110 visitors.

ROADS. The state graded the approach road on December 29 and it has remained in excellent shape for the month. At present writing it may be covered with snow and also drifted.

New directional signs have been placed at the junction of Highway 17 by the state and this should increase our travel when the tourist season begins.

The monument road is in good condition, but it is doubtful if a car could now drive down to the lower camp-ground due to accumulated snow on that poor section of the road.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

January 26, 1942

MEMORANDUM for the Regional Director,  
Region Three.

There follows the report of activities in Grand Teton National  
Monument for January, 1942.

The 24th year left at with a calm and...  
-A- 24-25 and 26-27. Winter weather was a...  
with night temperature readings of zero to 20 above and daytime readings  
of 8 to 24 above.

Snow fell on December 20, January 12, 13, 22, 23 and 26. Snow  
began falling the evening of the 22 and continued off and on during the  
next four days. There is about a foot of snow on the mountain peaks.  
with little snow on the valley floor. A foot of snow on the valley floor  
is being blown and this report is being written. The temperature  
stands (after wind) at -1.

The country (to us) is that all snow is on the floor of the  
road as far as our visibility (100 ft) permits. Now the road is  
is being blown into snow is unknown.

One hundred seventy-nine visitors in eight-six cars, visited the  
area during this report period. Seven states were represented.  
Twelve people had lunch in the picnic area.

Travel increased over last month. The number of  
visitors over week-ends. Twenty-eight (28) cars amounted to twenty-one  
visitors.

January, 1942 travel figures show 22 cars and 110 visitors.

The state of the country road on December 22 and 23 was  
viewed in excellent shape for the month. At present visiting it may be  
covered with snow and also drifts.

Now directions at the junction of Highway 19  
by the state and this should increase our travel when the tourist season  
begins.

The monument road is in good condition, but it is possible it is a bit  
now drive here to the lower camp-ground and to the monument area on  
the east side of the road.

WILDLIFE. Five coyotes, three skunks and one porcupine were seen at headquarters.

ACTIVITIES. Bids were sent out to firms in Alamosa and Monte Vista for oil furnace and linoleum for kitchen and bathroom in custodians residence; and toilets for public restrooms in the checking station. It is doubtful if the large sized oil furnace can be obtained at this time; also there is again a shortage of toilets and it is understood the town of Alamosa could sell 500 over-night if they could be obtained. It is hoped that at least a bid will come thru on the linoleum.

Bids were also issued to Alamosa and Mosca garages for repair on the automotive equipment at Great Sand Dunes.

The Serval propane refrigerator was finally received; it is an eight cubic foot Deluxe model. It weighed 540 pounds and required four men to load it at Mosca and then unload it and place it in the kitchen. Approval must be obtained from the Director's office in order that a propane system may be installed. The garage at present is a mighty fine ice box, but it is hoped that the propane system can be installed at least by spring, as it will be a wonderful treat for us to use such an elegant refrigerator.

The kitchen sink drain became thoroughly stopped up and two days were required to reopen it. The first attempt was made with the garden hose but with no luck. In the past this system had worked out well. An inspection was made via hose and heavy wire of the vent pipe. By poking and prodding, about a pound of putty was pushed down the pipe and then removed by the spoonfuls thru the pipe under the sink. Evidently when the plumbing was put in, whenever a teaspoonfull of putty would have done the job, a handfull was gobbled around the joints. After opening the vent pipe, darkness set in and stopped work. The next day a rush trip was made to Alamosa to buy a 50 foot auger and cleaner to boil out the stoppage. A trial run was made with the auger and then again; the two cans of cleaner were spooned into the pipe and once more the kitchen sink is functioning.

The repaired Ford dump truck was received from the Heide Garage in Mosca. The Dodge 4x2 is to be taken in as soon as weather permits, to install a new left front spring which was made at the Denver Spring Co. This should make a decided improvement in the smoother riding of the pickup.

Routine duties were performed at headquarters; contact duty on Sundays; shoveling snow; hauling fuel oil and gasoline from Alamosa and office work kept current.

A trip was made to Region Three Office on January 15 and 16, my lieu days.

GSD

It was also suggested that the above should be referred to the  
relevant authorities.

[illegible]

1. The first group of people who are interested in the study of the history of the United States are the people who are interested in the history of the United States.

[illegible]

The first thing I noticed when I stepped out of the car was the cold. It was a sharp contrast to the warm blanket of the car. I looked around, trying to get my bearings. The street was empty, the only sound being the distant hum of traffic. I felt a sense of isolation, a feeling that I was alone in a vast, unfamiliar world. I took a deep breath, trying to steady myself. The air was crisp, almost invigorating. I knew I had to find my way, to figure out where I was and what I was doing there. I started walking, my feet hitting the cold pavement. The silence was deafening, but I pushed through it, determined to find my way out of this strange place.

DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Montezuma Castle National Monument  
Camp Verde, Arizona

January 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of January, 1948.

Visitors this month - 1325; travel year to date - 5242.

Administration The custodian and his family was on annual leave Christmas week for a very enjoyable visit with Custodian Jackson and family at Tumacacori. We also took the opportunity to acquaint our daughters with the monuments enroute.

The 176 franked mailings allowed for the rest of the fiscal year beginning November 1, 1947 imposes a severe limitation. When we subtract those already used and allow for those needed to make remittance from ticket sales, we have left less than two mailings per week. Stamps supplied by Southwestern Monuments Association have enabled us to answer requests for information.

Considerable time was required to secure finger prints and Loyalty data from two Indians hired for four days last August.

Most of January 15 was spent conferring with Architect Saunders on matters pertaining to Montezuma Well.

Archaeologist Schroeder was on duty 12 days at Montezuma Well and was otherwise occupied as follows: On travel status December 27 - 31 to attend archaeological conferences in Albuquerque and Santa Fe; 4 hrs. sick leave January 6 in A.M.; 6½ days working at the Castle.

As this is written Ranger and Mrs. Leding and their daughter are recovering from what appears to have been a case of food poisoning.

Weather The weather has remained ideal for travel with day temperatures ranging in the sixties and nights in the twenties. There has been no moisture of any kind.

Maintenance The water heater in Residence No. 1 failed and the coil was removed for cleaning.

Redecoration of the kitchen in Residence No. 1 is almost complete.

Our water pump was cleaned, adjusted, and the oil changed.

FOR THE YEAR 1922

At Montezuma Well rubbish clean-up was continued with 15 loads taken to the dump. An outhouse near the quarters was torn down, old wagons and broken farm machinery were removed, and the barn area partially cleaned.

Interpretation The museum catalog was checked and all loose pictures re-glued. The rubber cement used on these pictures is unsatisfactory, and dry mounting tissue was used in replacing them. Work was continued to bring our museum catalog record up to date.

Archaeologist Schroeder's article on Montezuma Well is carried in the current issue of Plateau. It is being considered as a reprint for sale.

Fact files at the Well were brought up to date, a few more artifacts were catalogued, and a label was made for the Mesa Verde mummy at the Castle.

Two reels of pictures, "Glimpses of the National Monuments and National Park in Arizona" and "Pima Indian Basketry and Pottery Making" were shown to 750 school children and adults in the Verde Valley. These included schools at Camp Verde, Cottonwood, Clarkdale, and Jerome and the Camp Verde P.T.A.

Protection Cattle have been coming through the water gap at the Well regularly and leaving evidence of their visit around the museum and picnic grounds which are not fenced off from the water gap.

Boundary In rechecking the boundary markers set by Engineer Bradley it was found that the stake and pile of rock set up on the bank of a wash on the southwest corner of the property had been washed away.

Roads Surveyors working on the proposed Black Canyon Highway have located preliminary stakes through a canyon about one mile west of the Well which is the nearest approach of the road. The last location stakes are two miles north of Camp Verde on the east side of the river. Other preliminary stakes pass the Castle entrance.

The county road from McGuireville to the Well is being widened in spots and the bed is being improved.

Use of Monument Facilities By The Public There were 1106 visitors to Montezuma Castle who came in 335 cars and 219 visitors in 67 cars were counted on the 12 days when Schroeder was on duty at the Well. We are unable to make any estimate of visitor use at Montezuma Well when Schroeder is not there because we are out of guide booklets for the trail. When these are available, the number removed from their box gives us some idea of the number of parties who have visited the area.

Schroeder was on duty at the Castle Christmas Day and contacted 14 cars with 54 visitors. Leding on duty at the Castle New Year's Day contacted 16 cars with 50 visitors.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

MEMORANDUM for the Regional Director, Region Three

There follows a monthly report of activities in this area for the month of January 1948.

WEATHER: We believe we have reached something of record with 16 consecutive sunny days in January. To date this year we have recorded only one cloudy and one partly cloudy day. Two inches of snow fell on the 18th and two inches fell last nite, at 2 P.M. it is still snowing. Minimum temperature was 11 degrees and the maximum was a rosy 54 degrees.

ROADS: All approach roads have been open all month. The Indian service blade came in but the road was so deeply frozen that very little earth was moved. On warmer days we gave the entrance road two round-trip treatments with our homemade drag and the surface is smooth.

VISITORS: 20 Visitors arrived at this area in 7 cars but all had purposes other than ruin trips.

PROGRESS REPORT: Concrete forms were removed from the gas pump base and the area was covered with gravel.

Thirty feet of stockade fence was removed and installed where it now permits a roadway to the gas pump in the enlarged utility area. Faulty bearings on one of the Kohler units were replaced by the Custodian.

Several roadside directional signs were uprooted, brought in, rerouted and repainted as needed and replanted where needed.

Six large junipers have been mortised for additional two post signs.

A lumber bunk was constructed to preserve our precious salvaged scraps of packing cases, apple boxes and peach lugs which comprise our lumber stock pile.

A belated report on Roads and Trails work progress was furnished your office.

This office also furnished (as far as our authority permits) a revised outline for the Master Plan. It is hoped that a revised edition of our 8 year old plan may be coming soon.

ORGAN PIPE CACTUS NATIONAL MONUMENT

Box 32, Ajo, Arizona

January 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of January, 1948.

WEATHER

All month has been very clear and dry. A rain is needed but it looks like a good flower year anyway. A low of 21 on January 1 set a station record. Maximum for the period was 85 on the 9th which is also a record for that date.

TRAVEL

Travel set a record mark this month with 9092 persons through the area. Out of state visitors have increased at a great rate and travel on to the Gulf very heavy with fishing reported good. The proportion of campers to total travel seems to be lower this winter.

GENERAL

All the time that could be spared from maintenance work was spent on contact and keeping office work current.

One trip was made to Chiricahua National Monument with Ranger Ringenbach's furniture.

One day was spent with Architect Saunders checking rehabilitation work.

PERSONNEL

Ranger Ray Ringenbach was transferred to Chiricahua on January 11 and was replaced by Glen Bean on January 24.

The maintenance-man position was filled by Arthur Guinn, formerly with the P.R.A. here on the Organ Pipe highway.

DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Saguaro

NATIONAL MONUMENT

Tucson, Arizona.

January 26

48.  
19

MEMORANDUM for the Regional Director,  
Region Three.

There follows the monthly NARRATIVE REPORT of activities at  
Saguaro National Monument for the month of January, 1948.

WEATHER. Snow fell at Headquarters on the night of December 30 for the second time in the past nine years. Approximately two inches was measured at Headquarters, with nearly five inches falling at Madrona Ranger Station. The remainder of the month was warm, with temperatures of 80, 83, and 80 degrees on the 7th, 8th, and 9th setting a 57 year record for temperatures in the Tucson vicinity in January. On all of these three days Tucson was the warmest spot in the United States.

INSPECTIONS. Architect Ken Saunders and his wife were in for a half day on the 18th, to look over our roof repair jobs, and obtain information to write up specifications thereon. Bill Supernauth, of Organ Pipe, was in over the night of the 13th, to pick up the surplus coils from our large water tanks.

MAINTENANCE. Our two new 4000-gallon water tanks are now assembled, and ready to set in place. Water drainage structures were placed on two miles of the Madrona - Grass Shack trail, and tread was repaired on the last one-fourth mile of this section. The Loop road was dragged, and culverts cleaned; however, due to lack of rain and heavy travel, this road is not in the best of condition at present. All outside trim, and all but the two rear windows of the Headquarters building were painted during the month. Our radio antenna masts were reset on concrete bases, and permanent guys installed. The repaired dump truck, horse-trailer, and water pump were brought back from Casa Grande on the 5th, when the Chevrolet pickup was left there for body and frame repairs.

APPROACH ROADS. Terrible!

COOPERATING NON-GOVERNMENT AGENCIES. Mr. J. H. Feth, Geology instructor at the University of Arizona, has done quite a bit of work in connection with mapping the ground-water strata within the west section of the Monument. He, with the approval of Dr. Clark, of the U.S.C.S. for whom the work is being done, has promised us copies of his maps and reports, which should be completed this year.

TRAVEL AND INTERPRETIVE SERVICES. With 3204 visitors, arriving in 990 cars, 54 horses, and one motorcycle, all previous records for January were broken. This almost doubled the December travel, and exceeded that of last January by 948 persons; furthermore, with the exception of one month when travel was estimated, rather than counted, all previous records for any single month have been broken. A total of 1042 persons, in 300 parties, was contacted at Monument Headquarters. This is also a new record, as is the 5070 minutes contact time spent. Our visitors registered from 38 states, Canada, the Canal Zone, Puerto Rico, and France.

EXHIBITS. Planting of a new arboretum of local cactus species and landscaping of the area in front of the Headquarters, started early in the month, is approximately 50% completed. This improvement is drawing much favorable comment and interest from visitors. Work on what we hope will be a rather impressive multiplex display of colored cactus prints is also under way. Both projects should be completed by the end of this month, unless we are overwhelmed with visitors.

PERSONNEL. Mr. Marvin H. Frost, Sr., was appointed to the Temporary Ranger position, effective January 7. Mr. Frost, a resident of Tucson since 1940, is known to many Southwestern Monuments personnel. We believe that this appointment sets some kind of a record, as both of his sons have, in past seasons, also been employed as Seasonal Rangers at other monuments.

Mr. Newell Bundy entered on duty as Laborer on January 7th; this again brings our trail crew up to four men, as he replaces Mr. Robert Divison, who has not returned to work since December 27.

PUBLICITY. The Tucson Star has carried one long and two shorter articles on this monument during the month. Also, we had a front-page photograph of the snowfall of December 30 in the same publication. Local radio stations have been most cooperative in helping us to familiarize Tucson residents with road conditions enroute to the monument, and in attempting to stop local filling-station operators from routing visitors to Saguaro via Vail, a practise which has caused much complaint in recent months.

PUBLIC HEALTH. The water supply sample from Madrona Creek on January 1 was again reported unfit for human use. It is very doubtful if there will be any sample taken February 1, unless we receive rain, as the pot-holes in the creek are again dry, and it appears that we must soon begin hauling water again.

Don W. Eggermayer  
Custodian.

1. The first of these is the fact that the Government has been unable to secure the necessary funds to carry out its policy of maintaining the value of the pound at its pre-war level. This has been due to a number of factors, including the fact that the Government has been unable to secure the necessary foreign exchange to finance its policy.

[illegible]

1. The first of these is the fact that the Government has been unable to secure the necessary funds to carry out its policy. This is due to the fact that the Government has been unable to secure the necessary funds to carry out its policy.

10. The small group consisted of five or six people in January 1961. This group began to grow up in the first half of the year and in January 1962, it was estimated that it consisted of about 100 people.

1. The first of these is the fact that the Government has been unable to secure the necessary funds to carry out its policy of maintaining the value of the pound at its pre-war level. This has been due to a variety of factors, including the fact that the Government has been unable to secure the necessary foreign exchange to finance its policy.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

Temporary Ranger position filled January 7, 1948. Arizona

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

January 31, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities of Sunset Crater National Monument for the month of January, 1948.

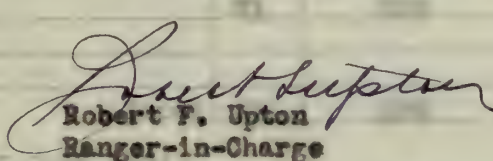

Visitors this month: 315

Travel year to date: 3223

Travel: Visitation has held up well in spite of adverse road conditions. 125 visitors registered during January, an increase of 24% over that recorded for the same period a year ago. The remarks taken from the Register indicate that several parties left their cars somewhere between Hiway 89 and the registration area, continuing on foot for the remaining distance. Occasional snows have closed the road, for at least a portion of the month.

Weather: Freezing temperatures during the major portion of each day have been the rule. Periodic snows have blocked roads, particularly during the last half of the month.

General: The approach and entrance road remains very rough. The general appearance of the area has been good with no indication of vandalism noted. The area is surprisingly clean considering the steady flow of travel.

No personnel in residence on the Monument during the month of January.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

2. Title

Following is a report of activities at Ponto National Monument  
for the month of January, 1948.

Weather. A few cool days at the first of the month brought  
a little snow, which melted in a short while. Most of the month  
as bright and warm, but the nights of the 17th and 18th showed a  
drop to 26°, which the water of the. An immediate, though brief,  
drop in the travel resulted from the cold.

Approached to Monument. The approach trail is in fair condition,  
though corrugated in many places. The entrance road is a bit rough,  
due to lack of maintenance and heavy travel.

Interpretive service. Of 2612 visitors to Ponto in January,  
1896 made the climb to the Cliff Dwelling, in 204 parties. As it is  
impossible to take round trips with all the parties, the Ranger or  
Custodian remains in the ruins much of the time in the afternoons,  
conducting tours as the visitors reach the cliff dwelling. 2652  
persons visited the museum, unattended much of the time. Due to  
visitor pressure, no trips are made to the Upper Ruins on Sunday,  
and very few on week days.

Travel. Travel for January was nearly triple that of December  
1947, and set a January record with 2612 visitors as compared with  
2122 for January last year. Travel increased greatly during the year-  
end holidays, and has continued to pour in.

General. Work progresses slowly on the reconstruction of the trail  
to the lower ruins. It is hard to find enough earth among the rocks  
to work with. A broken spring on the Dodge pic-up was replaced, with  
Ranger Hendricks doing the work. A broken gas line likewise, and manage to  
keep it running part of the time. Considerable work has been done  
around the ravine which serves as a utility area. Due to the travel, and  
a couple of days when the custodian had the flu, the office work is  
hard to keep caught up.

Visitors. Miss Shirley Cooke, of Chiricahua, visited a week end  
at Ponto during the interim between semesters at the University of Arizona.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

TUMACACORI NATIONAL MONUMENT  
Tumacacori  
Box 2225, TUCSON, ARIZONA

Tumacacori, Arizona

January 26, 1948

MEMORANDUM for the Regional Director,  
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of January, 1948:

WEATHER CONDITIONS: Severe drowth conditions continue, with only .19 inch of precipitation. Temperatures ranged from minimum of 18 on January 1 to maximum of 83 on January 8, 9, and 10. Cattle ranges are in such bad shape cattlemen are having to ship their cattle to winter pasture lands. Wells in Nogales have the lowest winter water level in history.

MAINTENANCE: Routine was kept current, and numerous minor repairs made on buildings and equipment. Pruning was done on the grounds and in the patio garden. Verbenas and Mierembergias were planted. One sizable young mulberry was transplanted from the patio to the grounds. Watering has had to be resumed. Ammonium sulphate has been given in judicious doses to numerous trees and shrubs. Hinges have been installed above museum cases, so that burned out light bulbs can more easily be replaced. Steps in the museum building have been painted white, because so many visitors stumble on steps only two inches high, not seeing them.

MAJOR REPAIR AND REHABILITATION: The interior of the custodian's residence was repainted, and the floors of the living room, dining room, and hallway sanded, shellacked and waxed. Covering of the museum building roof with two new layers of asphalted felt and aluminum paint is almost completed. All this work is being done by a contractor.

INTERPRETIVE SERVICE: 2,089 visitors went on 258 guided trips through the mission and grounds, receiving an average of 37.65 minutes per trip. 3,932 visitors saw the museum. 3,956 persons received combined Information and Interpretation Service.

INCREASE OR DECREASE IN TRAVEL: Our visitor total of 4,065 for this month sets a new travel record for this monument, not only for January, but for all time. Highest previous January brought 2,792 visitors, in 1947. Highest previous month was February, 1947, with 3,481 visitors. (All this shows no reference to the 4,850 attendance in April, 1939, which is the month in which the museum was dedicated, and did not reflect a true travel picture).

The high travel figure for this month is not of great value statistically, because this is the first time the monument has been adequately staffed during a peak travel month. With a seasonal ranger on duty there has been somebody at hand to record many

museum visitors, and consequently to make many more informational contacts, with persons who otherwise could have been in and out unseen.

**VISITORS:** December 28 - Ken Stott, Jr. Curator of Mammals and Publications, San Diego Zoo.

December 29 - The Brandeis School, from Tucson, with 65 persons.

December 31 - Maintenceman and Mrs. C.D. Barnett, Casa Grande National Monument.

January 5 - Ranger and Mrs. Roland Richert, Tuzigoot National Monument.

January 13 - Bill and Catherine Wilson, of Rainbow Lodge, and formerly Acting Custodian and HCWP of Navajo National Monument.

January 24 - Zachary Gold, well known writer of short stories for the Saturday Evening Post.

**INSPECTIONS:** January 19 and 20 - Architect Kenneth Saunders went over the repair and rehabilitation program in great deal with the custodian, and checked the work of the contractor.

**PUBLICITY:** December 28 - Ray Manley and Howard Binney, photographers, were in getting pix for a spread in National Geographic.

January 15 - Barry Goldwater, well known Arizona Sportsman and photographer, was in taking pictures.

**GENERAL:** Affairs at Tumacacori are going along in good shape, with everything as quiet and restful as Grand Central Station in New York.

Earl Jackson,  
Custodian.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
-----TUSIGOOT----- NATIONAL MONUMENT

-----CLARKDALE, ARIZONA-----

-----JANUARY 28,-----, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tusigoot National Monument for January, 1948.

Travel Data: 1225 persons in 358 parties. Travel this month more than doubled any previous January since Tusigoot was established. Visitation for January, 1941 was 508 and for 1947 - 580. This visitor year promises to touch 15,000. Fully 90 per cent of all travel is from the north and northeastern states where people are trying to escape to Arizona's milder climate.

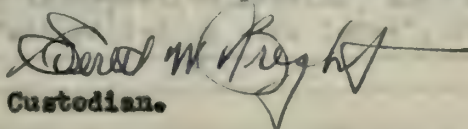

Guide and Contact Service: Museum, ruins and orientation contacts totaled 3065 for the month. 1101 people in 296 parties were shown the museum, and 1074 people in 281 parties were conducted through the ruins. The average time spent by each party in the museum receiving an orientation lecture was 22.4 minutes while the average conducted tour through the ruins required 22.3 minutes per party.

Personnel Time: Museum: 110 hours, 35 minutes. Ruins: 104 hours, 50 minutes. Total time for Bright: 165 hours, 25 minutes. For Richert: 50 hours.

N.P.S. Visitors: Tusigoot welcomed Architect Kenneth M. Saunders on January 14. Fortunately Kenneth arrived at the time the new re-roofing job for the Museum and Garage buildings was underway, and had an opportunity to inspect the materials used while the job was in progress. Ranger and Mrs. James B. Orr from Lava Beds National Monument visited the Monument on January 23.

Maintenance and Administration: The re-roofing of the Museum and Garage buildings, by the Webb Construction Company, Prescott, Arizona, was completed on January 17. Since it has not rained or snowed we have not had an opportunity to test for leakage. However, it appears as though they have done an excellent job. Some work was performed beyond what the contract called for. USDI L-13858 received a left door glass and a new set of water hose. When spare time from interpretive duties would permit Ranger Richert has been placing new descriptive labels in all display cases in the Museum.

Publications: 8950 Tusigoot two-fold leaflets and 300 mimeo informational sheets on hand. No other free or for sale publications on hand at this Mon.

  
Custodian.

TITLE

Everett W. Bright,  
Custodian.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 5TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NATIONAL MONUMENT  
Walnut Canyon National Monument,  
Flagstaff, Arizona.

January 31, 1948.

MEMORANDUM for the Regional Director, Region Three.

19

There follows a report of activities in Walnut Canyon National Monument for January, 1948:

Weather. One inch of precipitation in the form of snow fell, and there were several nights of just below zero temperatures. Our entrance roads were blocked by snow drifts twice for a few hours only before the County snow plow cleared them.

Total precipitation for Flagstaff in 1947 was 13.13 inches while the 52 year average amounts to 21.17 inches. 1939, with 12.91 inches, is the only one of the past 52 years with less moisture than 1947. The top year was 1905 with 34.53 inches.

Visitors. Of the 434 total, 295 were contacted, and it is estimated that 150 made the ruins trip unattended despite the snow on trail.

Activities Other than Routine. The Custodian was in travel status about 5 days to attend a ruins stabilization meeting in Santa Fe, and he was on leave about 14 days of period. The Ranger reported several days of leave.

Difficulty was experienced with the light plant and the stand-by plant was placed in operation. Some 15 new light fixtures were installed, and a plaster patching job was accomplished in a residence.

Local Forest Service officials were contacted to learn what they knew about a central repair shop being built in Flagstaff. This repair shop is under the supervision of their Regional Office, and the facilities will probably be available to NPS areas in this vicinity.

Recommendation for the National Monument, Jackson, Wyoming.  
There follows a review of activities in the National Monument for January, 1948:

During the month of January, 1948, the National Monument was open to the public. The weather was generally clear and cold. The snow was deep and the roads were icy. The visitors were mostly from the nearby towns and the surrounding area. The activities were mostly hunting and fishing. The game was abundant and the fishing was good. The weather was generally clear and cold. The snow was deep and the roads were icy. The visitors were mostly from the nearby towns and the surrounding area. The activities were mostly hunting and fishing. The game was abundant and the fishing was good.

Total precipitation for the month of January, 1948, was 1.1 inches. The temperature was generally below freezing. The wind was mostly from the north and west. The snow was deep and the roads were icy. The visitors were mostly from the nearby towns and the surrounding area. The activities were mostly hunting and fishing. The game was abundant and the fishing was good.

JANUARY TRAVEL, 1948

Visitors 6325 Cars 1693

1948 TRAVEL YEAR TO DATE

Visitors 21312 Cars 5900

-----

If January is any indication of what we may expect in '48 we be unto the White Sands. November, December, January, February, and March are our five slowest months, based on previous records. January this year has surpassed any one of these five months in the history of the Monument. It shows a little over 100% increase over last January, which was also a record month since actual travel statistics have been kept.

The Travel Year To Date shows over 3,000 increase and the Fiscal Year To Date shows 11,132 increase over last year, which was the record year at that time.

No doubt much of this increase can be traced directly to the open weather. The month has had but one or two bad days. Temperatures have ranged from 1° above January 1 to 68° on the 18th, with an average afternoon temperature of 55°.

No official trips were made off the Monument. Several patrols were made within the area accompanied by Messrs. Davis, McCollm, Kell, and Alleman. The western portion of the Monument was examined in preparation for boundary revision studies. An inspection was made on an application for an airport lease adjoining the Headquarters area to the north and a conference was held with the applicants.

Considerable work is being done by the State on major roads affecting our area. U. S. Highways 360, 54, and 70 are all being improved and repaired which should add materially to our feeder routes.

The open weather has allowed Joe to keep his roads open and in very good condition. The Grazing Service picked up their Power Control Unit recently, having picked up the Carryall several months ago, leaving us with only the 212 road patrol to fight the sand drifts during the windy season.

In sheer desperation we finally started tearing the plaster off our parking area walls, with our own force of course. We have cleared the front wall and will, as we can, catch the others. It is a decided improvement but goodness only knows when we can put on new plaster.

1. The first of these is the fact that the Government has not been able to secure the necessary funds to carry out its policy of non-interference in the internal affairs of other countries. This is due to the fact that the Government has not been able to secure the necessary funds to carry out its policy of non-interference in the internal affairs of other countries.

ALBUQUERQUE, NEW MEXICO

(2) Monthly Narrative Report 26-Jan-1948

The concession is showing a substantial gain. An interesting comparison from the record; In January, 1940 gross receipts were \$84.25, in January, 1948 the concession gross will run over \$2,000.00.

Museum contacts were normal, limited somewhat by the chill in the lobby. We are heating the museum but an oil stove is not adequate to heat the lobby. We are getting few complaints, however, so guess the public is not too uncomfortable.

Park Service visitors during the month included Messrs. Davis, McColm, Kell, and Alleman from the Regional Office. Mrs. and Mrs. Roland Richert from Tusigoot spent a couple of hours with us and Mr. and Mrs. Irving McNeil, Jr., from Chaco Canyon came up from El Paso where they were visiting.

We dare not venture a guess as to what we might accomplish next month. If the weather holds good visitors will likely take most of our time. Unfavorable weather will give us a chance to make some repairs to tables and do a little more toward moving into the new picnic area.

We have been informed that during runway construction at the White Sands Proving Ground a quantity of broken pottery and evidences of walls were encountered, indicating occupancy by some ancient civilization. It is not likely we can delay or prevent Army construction to any great extent but I plan to go down, in accordance with instructions from your Office, to inspect the site and secure any artifacts of worth that can be obtained. From reports I have heard no pictures will be possible unless I can prevail on the Army to take them for me.

We are proud of our record for the month and hope we were able to give our visitors a large measure of satisfaction in visiting our National Park Service area.

in triplicate

Johnwill Faris,  
Custodian.

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

January 31, 1948

**MEMORANDUM for the Regional Director, Region Three.**

There follows a report of activities at Wupatki National Monument for the month of January, 1948.

Visitors this month: 187

Travel Year to date: 875

**Weather:** Relatively mild winter weather prevailed during most of the month except for two "cold snaps". The lowest temperature recorded was 8° above and precipitation totaled .04 inches in the form of snow. The outlook for precipitation was optimistic this last fall, but the sudden change in storm patterns brings little hope that the long drought has been relieved.

**Roads:** The Wupatki entrance road has been open the entire month, although the one from Sunset has been closed. Lack of moisture shows in the condition of the road.

**Travel:** Visitor use exceeded that for any previous January, showing an increase of 70% over that of last January. Both the travel and fiscal year figures show more than a 30% increase over 1947. Perhaps this will be another record travel year in spite of predictions to the contrary.

**NPS Visitors:** Architect Saunders, Assistant Regional Director Davis, and Chief Clerk Gastelum visited the area during the month. Matters discussed included the Repair and Rehabilitation Program, wage board surveys and general monument problems. It was particularly convenient to have both John Davis and Louis Gastelum here at the same time for a discussion of problems. Ranger and Mrs. Orr of Lava Beds National Monument were monument visitors the latter part of the month.

**Spring Flow:** The flow of the Wupatki Spring increased to 881 gallons per 24 hours compared to 621 for last month. This is a normal increase, but still is only 60% of what is considered normal flow. Heiser Spring on the other hand continues to decrease with 1234 gallons per 24 hours compared to 1309 gallons last month.

Working Paper 02-01, National Bureau of Economic Research, Cambridge, MA, 2002.

... ..

... ..

Grazing: The C O Bar Cattle Company turned stock in about January 1st. An estimated 275 head is somewhat less than last year but possibly this is due to the fact that more water tanks are distributed over the range to the north of the monument and the cattle have not become accustomed to using the Deep Well tank exclusively.

For the first time in several years we have been having difficulty with cattle drifting in from Joe Kellam's range to water at Heiser Spring. Any where from ten to thirty head have been watering there and continue to return in spite of the efforts on the part of Mr. Kellam to prevent it. It is a situation which we can eliminate only by having the south boundry fenced. These cattle are taking feed which would be used by the Navajo sheep, making our grazing control problem more difficult.

Mr. H. Kirby is hauling water from Heiser Spring for his stock on the Coconino National Forest. Due to the decreased flow he has been allowed only 3600 gallons per week from the spring and has had to haul from other sources. His business is not an economically sound one for this reason.

Personnel: Ranger Upton was on annual leave from the 11th through the 21st. Sick leave totaling 13 days was taken by personnel of this area as a result of the wide spread influenza epidemic.

Special Activities: The custodian attended the Stabilization Conference in the Regional Office on December 30 and 31. One day was also included at the AAAS meetings at Albuquerque, New Mexico.

General: Considerable time was spent repairing light plants. A new 3 KW Onan was set up at Heiser and after 75 hours of operation required new valve springs. Valves were ground and new rings installed. Shortly afterwards the same job was necessary on the 3 KW Onan at the Wupatki residence. It is readily apparent that some of these generators were merely thrown together during the war.

Laying a flagstone floor in the basement and the completion of considerable back office work were the other major accomplishments.

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE, NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NATIONAL PARK SERVICE

Region Three

Santa Fe, New Mexico

March 9, 1948.

**MEMORANDUM for the Regional Director, Region Three.**

Following is the narrative report for naturalists of the Southwestern National Monuments for the month of February 1948:

Staff Activities - General

Naturalist Dale S. King was in the office during the month.

Archeologist Charlie R. Steen left February 9, visited Tumacacori, Casa Grande, and Saguaro, and started stabilization work at Casa Grande on February 16.

Planning

King participated in discussions on master plans for Wupatki, Sunset Crater, and Walnut Canyon and accomplished some work on the general portions of the written outlines for these monuments.

Research and Observations

Basketry specimens from Malakihu Ruin on Wupatki National Monument were sent off for identification.

Pictures were received from Miss Katharine Bartlett of the Museum of Northern Arizona of skulls which will appear in a forthcoming report on Montezuma Castle and Montezuma Well.

Region Three Office Loan Library

Accessions for the month totaled 106, consisting of 7 books, 5 reports, 26 pamphlets, and 68 periodicals.

The books were:

Haile, Berard

Head and Face Masks in Navaho Ceremonialism

Howard, George D.

Prehistoric Ceramic Styles of Lowland South America,  
their Distribution and History.

Dear Sir:

Reference is made to the letterhead memorandum dated March 10, 1944.

Reference is also made to the letterhead memorandum dated March 10, 1944, and the letterhead memorandum dated March 10, 1944.

REPLY TO LETTER OF MARCH 10, 1944

Reference is made to the letterhead memorandum dated March 10, 1944.

Reference is also made to the letterhead memorandum dated March 10, 1944, and the letterhead memorandum dated March 10, 1944.

REPLY TO LETTER OF MARCH 10, 1944

Reference is made to the letterhead memorandum dated March 10, 1944, and the letterhead memorandum dated March 10, 1944.

REPLY TO LETTER OF MARCH 10, 1944

Reference is made to the letterhead memorandum dated March 10, 1944, and the letterhead memorandum dated March 10, 1944.

Reference is also made to the letterhead memorandum dated March 10, 1944, and the letterhead memorandum dated March 10, 1944.

REPLY TO LETTER OF MARCH 10, 1944

Reference is made to the letterhead memorandum dated March 10, 1944, and the letterhead memorandum dated March 10, 1944.

The letterhead memorandum dated March 10, 1944.

Very truly yours,  
Director

Enclosed for the National Park Service are two copies of the letterhead memorandum dated March 10, 1944, and the letterhead memorandum dated March 10, 1944.

#### Southwestern Monuments Association

Treasurer Alan C. Vedder vacationed from January 20 through February 20, and consequently King spent considerable more time on Association routine than normally. Vedder worked five days and during that time 28 letters, 52 covers, and 23 purchase orders were accomplished. One deposit was made.

King prepared a rough draft of material to be sent to the mailing list in our first mailing. He edited in final form a pamphlet which will be placed on sale at Montezuma Well and put it in the hands of the printers.

Display cases for Tumacacori and White Sands were completed during the month except for installation of wiring and electrical fixtures.

Additional correspondence was carried on with the naturalist at Carlsbad Caverns to continue planning of a booklet which may be printed for that area.

Discouraging news was received from a friend of the Association who had hoped to obtain funds to insure the early publication of a Westshrift volume in honor of a Southwestern scientist. Almost three times as much money must be obtained as now in hand to publish this worthwhile volume.

The Association gave permission to a geologist from California Tech to use three of its Kodachromes in a forthcoming textbook on geology, provided that credit is given to the National Park Service.

#### Ruins Stabilization

An excellent report on the condition of wall paintings at Tumacacori was received from Custodian Jackson and forwarded to the Director's Office.

Steen started work on Compound A at Casa Grande on February 16, pointing of walls with caliche, after removing the concrete coverings. He

found that use of concrete plaster many years ago was unfortunate, because the original caliche walls have melted away underneath the concrete in many instances. While outlining wall bases and adjusting drainage, he discovered that almost all walls in Compound A are at least three feet thick, rather than being narrower as formerly believed.

Projects for March

King will be in the office most of the month, except for short trips to Bandelier and Albuquerque, will spend considerable time on master plans, and hopes to complete preparing mail material for the Southwestern Monuments Association.

Steen will return to the office from Casa Grande about the middle of the month.

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of February, 1948:

GENERAL: A few visitors entered the area during the month despite poor travel weather. On our one or two warm days several cars visited the Windows section.

WEATHER: Snow fell on January 26th, February 6th, 7th, 10th, 11th, 23rd and 24th with a good rain on February 22nd. Cold winds blew intermittently during the month. Our coldest night for the year occurred on January 26th when the thermometer registered zero degrees. The nightly temperature has been down around 15 degrees for practically the entire month.

TRAVEL: A total of 30 cars and 94 people visited the area during the month. This was slightly over our travel for last month and an increase of about one third over February, 1947. Most of the visitors were local people.

INTERPRETIVE SERVICES: Nine parties of 28 people were contacted at headquarters. A total of 83 people visited the Windows section unattended. No contacts were made in the Windows section and no guided trips were taken during the month.

SPECIAL ACTIVITIES: A trip was made to Fruita and Grand Junction, Colorado on February 10th in company with County Commissioner L. L. Taylor to contact Mr. Emmett Elizende regarding the option to purchase the Turnbow property.

COOPERATING GOVERNMENTAL AGENCIES: Very little road work was accomplished by the Grand County construction crew during the month due to unusually cold weathers and snow storms. At this writing the roughing out of the Devil's Garden spur has been completed. The grader is working on finishing of the upper end of this spur. The bulldozer is doing some further work on the sand cuts between the Salt Valley Wash and the parking area. One surfacing material site has been designated and a large stockpile has been made. If our clear spring weather continues the bulldozer should start on the Delicate Arch spur about March 1st. Surfacing will probably start

surfacing about that time. Drifting sand has caused trouble in some of the outs and they are going to install snow fence at these points to try to eliminate this. They may have to postpone work on the Flery Furnace and Klendike Bluffs spurs as the county equipment will soon be urgently needed on other county roads.

PRIVATE LANDS: The option for the purchase of the Turnbow property has been obtained and approved, thus clearing up the private land problem in this monument.

MAINTENANCE: Our water pump ceased functioning on January 28th. It was dismantled on February 13th and it was found that the working valve had become detached from the sucker rod. After removing and replacing the sucker rod twice we finally got it to functioning again and at this writing our storage tanks, 20,000 gallons, are full.

The winds of the last month have removed practically all of the roof covering on the warehouse roof. Temporary repairs have been made over the office portion with the hope that funds will be made available for permanent repairs.

NATIONAL PARK SERVICE  
AZTEC RUINS NATIONAL MONUMENT  
AZTEC, NEW MEXICO

24 February 1948

MEMORANDUM for the Regional Director.

There follows the report of activities in Aztec ruins for February 1948.

WEATHER. A low of minus 16 with 7 inches of snow was reported for the 15th of Feb. This cold spell slowed travel for three or four days, but with the coming of warmer weather from the 18th on travel increased.

MAINTENANCE. Much time was spent clearing away snow and checking drains where the snow began to melt. The snow was so deep and held outside maintenance to a minimum.

PERSONNEL. Custodian Townsend is still on annual leave. Ranger Lloyd E. Pierson reported for duty Feb. 8. Ranger Tom Garrett returned to Lascelier, Feb. 13 leaving Ranger Pierson in charge.

SPECIAL ACTIVITIES. Ranger Ora E. Clark gave a showing of the film on National Monuments of the Four Corners to 60 pupils of the local high school Feb. 11.

TRAVEL. There was a decrease in travel this month as compared to that of a year ago this month. 306 visitors were reported for this month compared with 406 a year ago. 14 states and British Columbia were represented in this month's 73 cars.

VISITORS. Custodian McNeil and wife of Glass Canyon; Feb. 6., Al Lancaster of Mesa Verde; Feb. 21 and Jean Pickler and Phil Van Cleave of Mesa Verde; Feb. 22.

Interpretive Services. 234 people in 43 parties went through the ruins and 306 persons in 57 parties visited the museum.

BANDELIER NATIONAL MONUMENT

SANTA FE, NEW MEXICO

March 1, 1948

Memorandum for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of February, 1948.

Weather

The Monument was practically snowed in all of this month and we did not have time to catch our breath after one snow before another one came along. Altogether more than 36 inches of snow and .57 inches of rain were received during the month. The 24 inches of snow received on the 11th. is the heaviest snowfall recorded since weather records have been kept at the Monument. Following the heavy snow temperatures went to 15 degrees below zero and after four days warmed up to -4 below.

Special Activities

The Custodian left for southern New Mexico on the 27th. to interview applicants, for the vacant clerical position, at Albuquerque and Artesia. A stop was made at Carlsbad Caverns National Park enroute.

Inspections

Chief of Development Vint with Associate Regional Director Patraw, and Architects Cornell and Carter made an inspection of the tentatively proposed changes in the approach road on the 22nd. They also looked over the PCP priority list and discussed the need for some additional proposals.

Status of Private Lands

Negotiations were started for the acquisition of a small tract of private land in the Otowi section of the Monument by donation from the Atomic Energy Commission.

Roads and Trails

FOR DEFENSE  
The heavy snows followed by thaws made a mess of the approach road kept it virtually impassable except with chains for most of the month.

Re: Banquier National Monument, Santa Fe, New Mexico.

There follows a report of the activities at Banquier National Monument for the month of February, 1938.

Summary

The monument was practically unused in all of this month and we did not have time to carry out much after the snow had melted. The snow was still on the ground in some places at the end of the month. The amount of snow melted on the trail is the least amount reported since winter. The amount of snow melted on the trail is the least amount reported since winter. The amount of snow melted on the trail is the least amount reported since winter.

Special Activities

The Banquier trail for winter has been on the trail. The Banquier trail for winter has been on the trail. The Banquier trail for winter has been on the trail. The Banquier trail for winter has been on the trail. The Banquier trail for winter has been on the trail.

Inspection

Chief of Development with Associate Engineer - Inspection. Chief of Development with Associate Engineer - Inspection. Chief of Development with Associate Engineer - Inspection. Chief of Development with Associate Engineer - Inspection. Chief of Development with Associate Engineer - Inspection.

Records of Private Lands

Inspection was started for the collection of a small amount of private land in the Grand Canyon of the Colorado River. Inspection was started for the collection of a small amount of private land in the Grand Canyon of the Colorado River. Inspection was started for the collection of a small amount of private land in the Grand Canyon of the Colorado River.

Notes and Remarks

The heavy snow which fell on the trail on the 1st of the month. The heavy snow which fell on the trail on the 1st of the month. The heavy snow which fell on the trail on the 1st of the month. The heavy snow which fell on the trail on the 1st of the month. The heavy snow which fell on the trail on the 1st of the month.

The small tricycle grader was not quite up to clearing the ditches or pushing the snow off of the road. The heavy road patrol grader was received on the 24th. but was not in operating condition and will not be so until it has had an overhauling. It is expected that this much needed piece of equipment will be ready for use before the heavy travel season so that the approach road can be placed in good condition.

Received also during the month was an asphalt heater for road patching that will be put in use as soon as weather permits.

#### Approaches to Monument Area

The State is progressing with the erection of the steel framework of the Otowi bridge and prospects are good for its early completion.

#### Interpretation

As there were practically no visitors to the area this month the contacts dropped to the lowest for some time. Only 17 parties were guided through the ruins.

#### Museum Activities and Exhibits

Artist Pablita Velarde Gardin has been working on the completion of the Pueblo government case for the ethnology room of the museum and practically all of the paintings are finished except for those that are to be put on the glass front of the case. Work was started on paintings for the cases on Pueblo religion and seasonal ceremonies.

#### Travel

Travel was 80% lower this month than that of February last year and only 121 persons came to the Monument. This was due almost entirely to bad roads and cold weather. There were twelve days on which no one visited the Monument and several days on which only one or two cars would get through. This contrasted quite sharply with the fifty percent increase in travel during January.

#### Visitors

Mr. and Mrs. D. Lynde Blount, Paris, France were visitors to the area on the 8th.

#### Stabilization

Some work was accomplished during the month on the completion of room sheets for work done on the community house. Bad weather prevented any outside work on the ruins.

The small intestine is the longest part of the digestive tract, and it is here that most of the digestion and absorption of food takes place. The small intestine is divided into three parts: the duodenum, the jejunum, and the ileum. The duodenum is the first part, and it is here that the food is mixed with the digestive juices from the stomach and the pancreas. The jejunum is the middle part, and it is here that most of the digestion and absorption of food takes place. The ileum is the last part, and it is here that the food is absorbed into the bloodstream.

THE UNIVERSITY OF CHICAGO PRESS

The book is concerned with the structure of the world of the mind and the world of the body.

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the results of its investigation of the activities of the American Friends Service Committee in the Philippines.

These findings are consistent with the findings of the previous studies. The results of the present study suggest that the use of the computerized system for the assessment of the patient's knowledge and understanding of the disease and its management is a valid and reliable method. The results of the present study also suggest that the use of the computerized system for the assessment of the patient's knowledge and understanding of the disease and its management is a valid and reliable method. The results of the present study also suggest that the use of the computerized system for the assessment of the patient's knowledge and understanding of the disease and its management is a valid and reliable method.

(200) FRED W. OLIVER

**CANYON DE CHELLY NATIONAL MONUMENT**  
Chinle, Arizona

February 26, 1948

MEMORANDUM for the Regional Director, Region three.

The following is a report of activities at Canyon de Chelly National Monument during February, 1948.

Weather Conditions

The cold wave prevalent throughout the southwest during the early part of the month did not bypass Canyon de Chelly, and we have had thus far the coldest and wettest February in a number of years with the accompanying mud.

Our lowest temperature occurred on February 12, when it registered a -13 degrees and is the lowest registered during my five years as custodian. For five days the maximum temperature did not rise above freezing. Our highest Maximum temperature was 67 degrees on February 21. Moisture has measured .91 inches.

Administration

Patrol trips were taken in both Canyons via Horse. Water is very high for this time of year. Two trips were made to Gallup, New Mexico, one on February 7, and one on February 20. These trips were made for supplies and care and repair of equipment. Considerable time was spent in getting office work and correspondence to date.

Maintenance

Due to wet weather considerable maintenance work was done on the road. Holes were filled and the road was dug to White house during the short period when they were dry enough to work. The pump engine was again worked over. Small repair jobs and redecoration of the Custodians Quarters have been carried on.

On February 20, while taking the Dodge 4x2 USI-31791 into Gallup to get a new gas tank installed, The right front spindle of the wheel broke and the wheel came off. Luckily I was driving slowly or it might otherwise have been serious. The Dodge was taken to the Navajo Chevrolet Co. for repair And I returned to Canyon de Chelly with friends.

Publicity

Dr. Earl Morris forwarded me a copy of the February issue of NATURAL HISTORY magazine for February which carries a fine article titled "The Tomb of the Weaver" written by Dr. Morris, and is the story of one of his finds in Canyon del Muerto near Antelope house.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
SOUTHWESTERN NATIONAL MONUMENTS

COOLIDGE, ARIZONA

Capulin New Mexico,

February, 25, 1948,

Memorandum for the Regional Director  
Region Three National Park Service  
Santa Fe New Mexico.

There follows a report of the activities in and around Capulin Mountain National Monument for the month of February 1948.

Approximately seventy five visitors to the old Volcano this month bringing all visitors travel year to date to fifty two hundred fifty and those of the fiscal year to date to twenty four thousand seven hundred fifty.

It was planned to have the state place gravel on the entrance road from Highway sixty four to our boundary line this month but the deep snows have prevented the beginning of the work. It is hoped to have this done during March.

Again this month the porcupines have been doing damage to the pinon trees in the monument. Strict search has been made in and about the timber but so far not one has been located. The snow has been so deep that going is almost impossible.

Weather has been the chief topic of the winter but no one here has been able to get the weather man to do anything about it. He merely lets you wait and then tells us about it. Almost four months of solid snow covering the ground this is the longest spell of snow covered ground this country has record of. Today it is raining on top of about six inches of snow but does not seem to melt the snow.

Roads on the monument remain closed for the upper half. As at this writing there is about five feet on the road along the upper half of the Mountain. There has been no cars to the top this month. They are only to half way. At this point there is an extra wide place where one can turn around nicely.

Very Respectfully,  
Eugene J. Farris  
Custodian,

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

February 25, 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows the narrative report for Casa Grande National Monument for February, 1948.

General: Everything hits at once it seems. Record visitor attendance, stabilization crews with the resulting bookkeeping, request for wage board schedules, and a request for an inventory, are just a few of the things hit during this report period. We tried hard to keep up and feel that we about held our own.

Weather: Variations from a minimum of 19 degrees above to a maximum of 83 were registered during the month..46 inches of rain was measured in the rain gauge. Compared to other years the month was about average in this respect.

Visitors: February 1948 - 5800; February 1947 - 5517: Travel year to date- 1948 - 20,420; Travel year to date 1947 - 17,889. All the records since the charge was put into effect went by the boards for the second consecutive month, Revenue from ticket sales amounted to \$ 1095.00 with 3650 tickets sold. The biggest day ever recorded, with 453 visitors checked in was February 1. Also the biggest single party, 97 people, was taken through the Ruin.

Interpretive Services: Of the 5800 visitors to the area, 4357 made the Ruins trip in 242 groups, averaging 51 minutes per trip. 4115 made the museum trip in 205 groups averaging 30 minutes per trip. 1443 people visited the area for a quick look but did not make the Ruins trip.

Maintenance: With the exception of the porch, painting was completed on the inside of Quarters 2-4. The sewer field was regraded, leveled, and the weeds removed, so there would be a uniform runoff.

Ruins Stabilization: Archeologist Steen arrived on the Monument Feb. 11, to start the Ruins Stabilization. He lined up a crew of 8 men, and except for an occasional resignation has been keeping them busy. To date the North building drainage ditches have been dug, and gravel and paper placed in the ditches. The walls have been cleaned and all refuse removed from the compound, capping and patching of the walls with caliche has been started.

2000

1997-1998

THE FOLLOWING INFORMATION WAS OBTAINED FROM THE  
BUREAU OF THE ARMY, WASHINGTON, D. C.

1. General: The following is a list of the names of the persons who were present at the meeting held on the 1st day of May, 1900, at the residence of the late Mrs. J. W. Smith, in the city of New York.

1. The following information was obtained from the records of the Department of the Interior, Bureau of Land Management, regarding the land owned by the United States in the State of California:

[illegible]

Interpretive Summary: Of the 4000 patients in the study, 1000 were the only child in the family, 1000 were the first child, 1000 were the second child, and 1000 were the third child. The study found that the risk of a child being the only child in the family was significantly higher than the risk of a child being the first, second, or third child. This finding has important implications for the study of the genetic and environmental factors that influence the risk of a child being the only child in the family.

total and are publicly known and to which the information  
has, direct, indirect or other access. It is not to be  
disclosed to the public or to any other person.

[illegible]

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Administration & Protection: A trip was made to the Adamsville Site with Archeologist Steen, checking over the area for vandalism. A well driller was contacted and from information he gave us, it seems that we will have to lower the sucker rod depth on our well, before irrigation starts, or we will soon be pumping air. G. Fitzpatrick, successful bidder on Invitation # 33-43 for Chevrolet Stake Truck and the Ford with the homemade semi-trailer, removed them from the monument on February 4 & 6.

Trips Taken: February 4 & 5, Mechanic Stonehocker was on a trip to Saguaro National Monument, repairing and bringing in equipment. Feb. 16, he made a trip to Phoenix to pick up repair parts.

Mr. Allen  
U.S. Visitors and Visitors of Note: On January 26, of the Weather Bureau Office, in Los Angeles, was in to check over our rain recording gauge and weather equipment. February 9, Custodian Supernauth and Ranger Bean of Organ Pipe Cactus, were in to pick up some OPC equipment.

Mechanics Activities: General repairs were made to the following equipment:

Area from.	Equipment.
Casa Grande Nat. Mon.	Chevrolet Pickup
Saguaro	Chevrolet Pickup Light Plants
Organ Pipe Cactus	Ford Pickup Road Grader.

Personnel: The Archeologist P-1 Position was filled by Dan Davis. He and his wife Joan arrived on the monument February 1, with Mr. Davis reporting for duty on the third.

Leaves Taken: Mechanic Stonehocker took one day of sick leave on the 9.

A. T. Bicknell,  
Custodian.

1. The first of these is the fact that the

[illegible]

Examinee's Name: \_\_\_\_\_  
Date: \_\_\_\_\_

1. The first part of the document is a list of names and addresses, which are arranged in two columns. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list includes names such as "John Smith", "Mary Jones", and "Robert Brown", along with their respective addresses in various cities and states.

1. The first step is to identify the problem. This involves understanding the situation and the goals that need to be achieved. It is important to gather all relevant information and to define the problem clearly.

*[Faint, illegible handwritten text]*

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

~~Chaco Canyon~~----- NATIONAL MONUMENT

-----  
Bloomfield, New Mexico

February 25,

1948

MEMORANDUM for the Regional Director, Region Three,  
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of February, 1948.

Chaco Canyon, this month, had twenty-one visitors, from the states of:- Arizona - 1 car, 3 visitors; Colorado - 1 car, 2 visitors; New Mexico - 5 cars, 15 visitors and Pennsylvania - 1 car, 3 visitors. These people formed six ruins trip parties and five museum parties. The custodian spent nine hours and fifteen minutes with them.

As was October, November and December, this month was unusually cold. The coldest was 16 degrees below Fahrenheit zero on the 29th of January, and the warmest was 62 degrees on the 18th of February. There were four nights of sub-zero weather. There was rain or snow on eight different occasions, which totaled 1.14 inches of moisture.

The State approach road to the north was bladed in the early part of the month as was the Monument road. However, the spring thaw plus the moisture this month has made a quagmire of them. Recently, it took one of the men 5 hours to go to the highway and return. He was not stuck at any time. We have had gasoline ordered for the greater part of the month, but we can not get delivery, and from the way it is snow-raining now, we don't know when we will get delivery. Nevertheless, everyone in the canyon is taking his turn at bat for the roads. Mr. Whiteman, of the Trading Post, is getting the greatest number of hits. Besides attending meetings, and plaguing the Chambers of Commerce, we had a top of column, front page article about the condition of the Chaco roads in the Farmington paper. We are hoping for better road conditions in the future.

A number of small jobs were completed this month. Some of our signs were painted, some oiled. Doors were repaired and rescreened. The exterior of the office was painted during an interim of the bad weather.

10-10-1964

[illegible]

As you observe, however, the results are not uniformly good. The results are in general better than those of the other two, but they are not as good as the results of the other two. There are two main reasons for this. First, the results are not as good as the results of the other two. Second, the results are not as good as the results of the other two.

[illegible]

A number of small boats were impounded along shore. Some of the larger boats, some of which were impounded and towed ashore. The collection of the boats was delayed owing to the fact that the boats had been damaged.

Chaco Canyon National Monument

Gate latches were made in our own blacksmith shop, and hinges ordered from a commercial blacksmith shop for our gates. When they are installed, we expect a decrease in the trespassing problem.

The plumbing shop was cleaned and the tools greased. The tools, shovels and others, were cleaned and sharpened for the spring work. The warehouse, oil house and the like were cleaned.

Inventory was taken this month.

The usual routine duties were performed which included aiding persons in stalled and stuck cars.

The Trader reports that though he has received more rugs this month than last, and his total sales stand up well, he has not done as much cash business, and that he is consistently drawing customers from farther and farther away. In preparation for the summer months, he has painted the woodwork in the curio room, and is making arrangements for an entirely new set of picture packets for sale.

Projects for the ensuing months:- The planting project should be well under way this next month. If the weather ever clears up (we have had four consecutive weeks of inclement weather), we expect to continue repairing the roads, continue with the painting job, initiate repairs on the residence, connect the new water tank and generally get ready for the travel season.

At the end of the month, there were on hand:-

Two-fold leaflets describing Chaco Canyon National Monument, approximately...7440

There follows the report of Archaeologist Gordon Vivian.

Irving McNeill, Jr.  
Custodian

These findings were made in our own laboratory about the same time as the  
commercial distillation of the oil. The oil was distilled, we suggest  
a technique in the commercial process.

The finding that was observed and the results showed. The results showed  
that, were observed and observed in the oil. The results showed  
and the oil was observed.

However, we have this result.

The same results were observed which included other results in  
oil and other oil.

The results show that the oil is not observed in the same way as the  
oil and other oil. In the oil, we have the same results, and the  
oil is completely different from the other and the other. In the  
oil, we have the same results. In the oil, we have the same results.  
For the same reason, it has been found in the oil, and it is  
different from the oil of the same results.

The results for the same reason. The results for the same reason  
are the same. In the oil, we have the same results. In the oil,  
we have the same results. In the oil, we have the same results.  
In the oil, we have the same results. In the oil, we have the same results.  
In the oil, we have the same results. In the oil, we have the same results.

It is not the same. It is not the same.

The results for the same reason. The results for the same reason.

There follows the report of the results of the oil.

19

MEMORANDUM for the Custodian,  
Chaco Canyon National Monument.

There follows the report of Mobile Unit activities in your area for the month of February, 1948.

We had fully expected and planned to be back at work at Chetro Ketl by the end of this report period but rain, snow and the sloppy condition of the ruin have held us away.

Raymond Rixey returned overdue from leave on February 2nd. He had been caught with his family by the blizzard at Raton, New Mex. One trip was made to the Regional office to take delivery of a new dump truck.

The first two weeks of the report period saw the roads in passable shape and some 10 yards of concrete sand were hauled and stockpiled. The roads have been impassable the past two weeks and the two remaining Navajo have been laid off.

Most of the month has been spent on the stabilisation manual. At present we are writing up some experiments conducted last winter on soil-cement.

Drawings were made of a number of the wood items recovered from room 93, Chetro Ketl and these loaned to Dr. Hill at the University for possible identification by several of his Pueblo students and informants. It is hoped that the drawings can be taken to Pueblos where Hill has contacts.

In this same connection one day was spent at the University checking references on ceremonial paraphernalia, altar set-ups etc. Several soil samples made up into cylinders were taken to Albuquerque for tests to determine what happens when soil mortar in ruin walls is baked by various electrical methods. The hope is that it might be possible to burn the clay to brick without discoloring it.

Ray Rixey has worked out a method for casting small concrete poles, lintels etc. He is now in production and is making them for use. He has also made waterproofing tests on porous stone and put in his spare time working on the wood material from room 93.

Chiricahua NATIONAL MONUMENT

Dos Cabezos, Arizona,

February 25, 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows a report of activities at Chiricahua National Monument for February.

General. The Custodian took two days annual leave during the month. Operator Marble returned to work on February 16 having recuperated from an operation performed last month. One day annual leave was taken by Ranger Ringenbach.

One official trip was made into Willcox to pick up propane and kerosene.

Monument signs and markers were repainted, rest room and shower room plumbing repaired and general cleanup in campground and utility areas was accomplished during the month.

Weather. Two and two-hundredths inches of rainfall were recorded for the period. Three inches of snow fell on the tenth at Headquarters, and Massai Pt. and higher elevations were blanketed with snow on the 25th. Temperature went to 6 degrees above, which was the coldest for a number of winters.

Roads and Trails. The road to Massai Pt. was kept open all month though several trips with the dump truck were necessary to break track through the snow and pull out several cars which had slipped into the ditch.

The Custodian and Ranger made a horseback trip over the trail system to acquaint Ranger Ringenbach and to estimate work for the coming months.

Communications. Two trips into Portal were necessary to repair the telephone line. The road over the mountains to Rodeo is still closed and the shortest route to Portal is via Apache Pass, Bowie, and San Simon. This is a lot of miles to travel just to untangle two wires.

Radio contact with Saguaro and Organ Pipe Cactus was discontinued two weeks ago due to battery difficulties.

Approaches to Monument Area. Approach roads into the monument remain in fair condition in spite of the rainy weather. Several visitors did complain, however, of a bad stretch between Elfrida and the monument where the road is undergoing construction.

Informational Service. 2,879 visitors were contacted in the summer, the camp being  
and at the other station. Three other camps and one  
other were contacted.

In January the investigation was continued at the station  
local in houses to 100 persons and a thirty minute one at the other  
about 100 to 200 persons on the 25th of January.

Travel. The station has four lines which are used for the transport of  
the 10th, and 11th persons of the 10th, and 11th persons of the 10th, and 11th  
visitors to the 10th. Total travel for the month was 1,113 persons as compared  
to 781 for last month and 1,441 for a year ago.

Insect Infestation. Study of the flat and other infestation in the  
houses in the area was completed and reported on.

Canadian.

impossible to discuss this. While on the one hand we have been extremely busy and on the other hand we have been very busy with the work of the monument. The situation is such that the working force of the monument is very small and the work is very heavy.

## GRAN QUIVIRA

The 1,400' of ... GRAN QUIVIRA, NEW MEXICO ...

FEBRUARY 25 48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira National Monument for the Month of February, 1948.

General. Travel was practically at a stand still this month with only 15 cars, 13 of which were reentries. Of the two first entry cars, one had been stuck and slept out on the way here, waiting for the roads to freeze. The occupants of the second car were very unhappy over the road conditions.

Weather Conditions. This is the big topic for discussion this month. The first blizzard hit on January 27 with 5" of snow and -5° temperature. The power line and telephone line went down and roads were blocked until the 29th, which made for a nice quiet weekend. A rain with 4" of wet snow on Feb. 4 was followed by a second blizzard with 5" of snow and -6° on Feb. 11. More snow arrived today to finish up the month. Moisture for the report period totalled 1.63". This compares very favorably with .13" in February, 1947 and .03" in February, 1946. The bean farmers are beginning to dream of bumper crops.

Special Activities. On Feb. 24 I gave a talk accompanied by slides to the Gran Quivira grade school, covering Grand Canyon and the Indian country.

Maintenance. During the month the pit toilet was refurbished and given a coat of paint inside and out. It now compares very favorably with similar edifices in other areas.

New cupboard doors were built as needed in the kitchen.

High winds on Feb. 23 and 24 knocked out one window in the tool shed and kept the Custodian occupied tying down the roof which threatened to depart with every gust. Since the repair and rehabilitation program calls for a new roof this spring, the work should be greatly simplified. We can cut the wires and the old roof will be out of our way.

One day was spent in helping Mr. McGrady locate and repair the break in the telephone line caused by the storm of Jan. 27.

Repair and Rehabilitation. Plans drawn by Architect Saunders for remodeling the tool room to include a museum and rest rooms were received. When completed Gran Quivira will have a very satisfactory interim set up.

Approaches to Monument Area. Roads to the area have been alternately very bad or impassable throughout the period and are still in that condition. State maintenance is much like the opening days of World War II "too little and too late."

#### NATIONAL PARK SERVICE

The 1.63" of moisture with freezing and thawing proved too much for the Monument's 3/4 mile of entrance road and the thin gravel coat broke through for practically the whole length. Resultant ruts were too deep to negotiate for several days. However the homemade drag has it back in fair shape now. When the truck is received from Arches, I have made arrangements with the U.S. Forest Service to secure "patching" gravel from the Forest and by next winter should have it back in good shape. The drag is too heavy for the old Ford, hence I will need a new clutch on my next trip to town.

There follows the report of activities in Great Salt Lake National Monument: A culvert was received and installed at the cattle guard during the month.

Interpretive Service. 11 parties, 38 people were conducted through the ruins. Average trip time, 37 minutes.

Increase or Decrease in Travel. A big decrease this month due to bad roads.

Region Three.

There follows the report of activities in Great Sand Dunes National Monument for February, 1948.

WEATHER. Terrible, simply terrible! Much has been heard about winters in the San Luis Valley - its true and even more so.

A minimum of 31 below zero was registered on January 28, with Alamosa making headlines with a reading of 50 below zero. The mercury thermometer broke at 46 below and an alcohol thermometer was substituted. Life magazine of February 9 also gave Alamosa more publicity.

There were twenty nights during this report period that registered below zero and I mean way below. This leaves only eleven nights with readings above zero, and the highest reading was 28 above on February 20.

The maximum of fifty-six was registered on February 20. There were thirteen days with readings above thirty-two degrees, and eighteen days with readings below freezing.

Snow fell on January 26,27,28,29,30 and 31; February 1,5,7,10,11, 12,19,22,23,24 and 25. An estimated snowfall of twelve inches fell during this report period.

There were nine cloudy days, eighteen partly cloudy and only four clear days.

The three big storms occurred on January 26 and 27; February 10 and 11; and February 22 and 23. These came from the northeast with terrific winds averaging forty miles per hour. The first storm lasted thirty hours; the second for twenty-four hours and the third only fifteen hours.

The wind caused the snow to drift in front of the residence (see pictures) and on the monument road and the approach road. Drifts averaged from four feet at the monument, to seven feet out in the valley floor.

Snow drifts in front of custodian's  
residence at Great Sand Dunes

The State Highway snow plow opened the approach road on January 29, February 10 and 15. At present writing the monument road is in excellent condition, but the approach road is muddy and with one bad stretch due to melting snow and no drainage at this one wet spot.

During these storms, the wind blew out the flame in the oil stove which is in the hall. Luckily it did not affect the oil stove in the basement, and by keeping a roaring fire in the living room fireplace, the temperature managed to remain about fifty in the house. Needless to say, we spent our waking hours huddled about the kitchen coal range. The draft control on the hall stove was moved in an attempt to keep the fire going; if another wind storm blows out the flame, a new draft control will be installed.

Snow was blown thru all windows in the residence and newspaper was placed between glass and venetian blinds. Masking tape now replaces paper. It is hoped that the attached pictures show justification for installing storm windows and doors at this area. The wind truly blows, or how else would we have the sand dunes?

On January 29, the water pressure dropped to nearly nothing and our worst fears were true - the water line had again frozen. Its little consolation to report that it isn't the main line of 2800 feet which I had attempted to cover. This time it is the buried pipe between the settling tank and the storage tank. If blue print specifications for a five thousand gallon tank had been built instead of the present tank, which only holds a little over sixteen hundred gallons, we might have had enough water to last until the spring thaw.

Water is now being hauled from Mosca, Colorado in a fifty-five gallon barrel, as it is impossible to obtain water either from Mosca Spring or Mosca Creek due to snow and ice.

TRAVEL. Thirty-five visitors in fourteen cars, visited the Sand Dunes during this report period. Only the State of Colorado was represented. No one was able to drive down to the lower picnic area, because of snow clogged road.

DECREASE IN TRAVEL. Bad weather and bad roads caused the decrease. January, 1947, travel figures show 72 cars and 235 visitors.

ROADS. Monument road to headquarters is in excellent condition; road to lower picnic area in poor condition due to snow. The approach road is bad in stretches due to melting snow drifts.

The State Highway snow plow opened the approach road on January 29, February 10 and 11. At present writing the approach road is in excellent condition, but the approach road is mainly and with one bad stretch due to melting snow and no drainage at this one spot.

During these storms, the wind blew out the time in the all time which is in the hall. Luckily it did not affect the oil stove in the basement, and by keeping a running fire in the living room fireplace, the temperature managed to remain about fifty in the house. Besides to say, we spent our winter hours huddled about the kitchen coal range. The first control on the hall stove was moved in an attempt to keep the fire going; if another wind storm blew out the time, a new kind of control will be installed.

Snow was blown thru all windows in the residence and newspaper was placed between glass and window blinds. Making tape now repairs paper. It is hoped that the attached pictures show justification for installing storm windows and doors at this area. The wind surely blows, or how else would we have the sand dunes!

On January 29, the water pressure stopped to nearly nothing and our water faucets were fine - the water line had again frozen. The little connection to report that it isn't the main line of 1000 feet which I had attempted to cover. This time it is the buried pipe between the settling tank and the storage tank. It has quite definitely broken. A five thousand gallon tank had been built instead of the present tank, which only holds a little over sixteen hundred gallons, we might have had enough water to last until the spring thaw.

Water is now being pumped from house, Colorado in a fifteen-gallon barrel, as it is impossible to obtain water other than house. Spilling of house water due to snow and ice.

Twenty-five visitors in fourteen cars, visited the Sand Dunes during this report period. Only the State of Colorado was represented. No one was able to drive down to the lower picnic area, because of snow clogged road.

WINTER IN THE SAND DUNES. Bad weather and bad roads caused the decrease. January, 1937, travel figures show 75 cars and 200 visitors.

WINTER. Approach road to headquarters is in excellent condition; road to lower picnic area in poor condition due to snow. The approach road is bad in stretches due to melting snow dunes.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

**WILDLIFE.** Deer were driven down to areas around headquarters where they were able to feed. Three herds were seen and there were about twenty-five in each group. Five frozen chickadees were found at the back door. Snow drifts along the back patio wall made it possible for the rabbits to enter the yard and feed with the birds.

**ACTIVITIES.** The entire report period was spent in shoveling snow, hauling water, fuel oil, wood, coal, ashes and garbage.

The windows were sealed with strips of masking tape. The draft control was changed on the hall stove.

The usual office work kept current. The Superintendent's Monthly Narrative Report for August-September, 1947, Region One; August-September, 1947, Region Two and Four; and October-November, 1947, Region Two and Four were received and read with interest.

The Heide Garage at Mosca was awarded the contract for automotive repairs.

**PUBLICATIONS.** There are on hand, 1688 mimeographed informational leaflets.

Montezuma Castle National Monument  
Camp Verde, Arizona

February 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of February, 1948.

Visitors this month - 1464 to the Castle and the Well; travel year to date - 6706. Visitors to the Castle were 302 less than the 1417 counted in February, 1947. Considerable cold stormy weather with snow at higher elevations probably accounts for most of this drop. Nevertheless we had three and one-half times as many visitors as the 318 counted in February, 1941.

Weather We have received .87 inches of moisture since last report with a few traces of snow. The minimum temperature was 8° above zero on February 12 and the maximum was 78° on February 21.

Administration Our annual inventory was completed and Board of Survey Reports prepared.

Photographs taken annually to check on re-vegetation of the protected area across from the Castle were taken. A report will be submitted as soon as these are processed.

Hastings was on duty Sunday, February 22, and noone was on duty at the Well.

A contract to complete repair of the quarters at Montezuma Well and install a septic system was awarded to E. Broughton of Cottonwood. Repair of the museum is included.

All the tillable land at Montezuma Well under lease by the Montezuma Dairy has been seeded to oats.

Maintenance and Improvements Our "No Cat and Dog" sign is attached to a false post which looks so secure that visitors jump onto it and get a bad fall. The support for this was altered to make it more secure.

The larger bedroom and the livingroom at Residence No. 2 were re-decorated.

Our soda and acid fire extinguishers were discharged and refilled.

Memorandum for the National Director, National Park Service

Re: The National Park Service's interest in the National Castle

The National Park Service's interest in the National Castle is based on the fact that the Castle is a historic building and is located in a historic area. The National Park Service is interested in the Castle as a historic building and as a historic area.

The National Park Service is interested in the Castle as a historic building and as a historic area. The National Park Service is interested in the Castle as a historic building and as a historic area.

The entrance gate was repaired and our general information sign returned to its original base. This sign was removed from its heavy log base when our entrance road was altered and it has since been resting on a temporary base.

Pick-up I-13852 was taken to Prescott for alignment of the front end.

Exterior wood work at the restrooms and all wooden signs in the area of visitor use were given a coat of raw linseed oil.

The residence at Montezuma Well is being made ready for a paint job and improvements of yard and ditches continue. A propane system was installed by the Verde Valley Butane Company.

A new visitor register stand was constructed according to drawing Mont. 2028. It still is in need of staining and weatherproofing and a cement base.

A new wooden sign pointing the direction to Montezuma Castle was placed at McGuireville.

National Park Service Visitors Ranger and Mrs. Jim Orr from Lava Beds National Monument were here January 24.

Assistant Regional Director Davis and Chief Clerk Gastelum were here January 29 to discuss administrative problems.

Mr. and Mrs. Lon Garrison and two children and Mr. and Mrs. Hub Chase were here from Grand Canyon on February 22.

Personnel Ranger Leding was on sick leave January 21 through the 26th. Mrs. Leding and their daughter were also sick. Leding was on annual leave a half day on February 14 and all of February 15, 18, and 21.

Archaeologist Schroeder was on annual leave January 30 to look after his sick family ill with a cold.

Publications Sales Receipts on the "Serve Yourself" plan have been showing a considerable shortage which is greater on week ends. On Saturday, February 21, while Archaeologist Schroeder was in the Castle with a party our change box was relieved of about \$2.40.

The last copy of "A Visit to Montezuma Castle" by Earl Jackson was sold February 22. This leaves our Pinkley booklets the only information on the Castle offered for sale.

Museum Activities Ranger Leding completed cataloguing a collection of pottery and other artifacts donated to the monument by E. W. Richards of Camp Verde.

At Montezuma Well the project of making out catalogue cards for the archaeological specimens acquired with the property was completed with exception of a few restorable pottery vessels. Specimens numbered include 242.

UNITED STATES

The evidence was not presented and the evidence was not presented in the original case. This case was removed from the jury box and the evidence was not presented and it was not presented in the original case.

February 1-1912 was taken as the date of the trial.

and.

Examination was made of the evidence and all evidence was taken as it was taken.

The evidence at the trial was taken as it was taken and the evidence was taken as it was taken.

A new witness was taken and the evidence was taken as it was taken.

Examination was made of the evidence and all evidence was taken as it was taken.

Examination was made of the evidence and all evidence was taken as it was taken.

Examination was made of the evidence and all evidence was taken as it was taken.

All specimens have been removed to one of the locked adobe cabins pending repair of the museum.

Work began on a rough draft for a proposed museum display at the Well for an unattended museum. During seasons of heavy travel it is anticipated the man on duty will be busy with visitors at the Well most of the time.

Archaeology In the course of renovating the fields leased by the Montezuma Dairy, a portion of an Indian ditch, similar to that by the museum, but smaller was revealed. The south end of the ditch is located 60 feet within the south edge of the fields near the shed and runs from northeast to southwest. About 20 feet of the ditch was evident, and about another 50 feet can be traced by the occasional showing of chunks of limestone. The top of the ditch was from 6 to 8 inches below the surface.

The pits in the burial grounds were mapped in order to have accurate locations in case some of them are to be backfilled.

Visitors There were 1115 visitors to Montezuma Castle who came in 291 cars and 349 visitors in 113 cars were counted in the 19 days a man was on duty at the Well. Tickets were sold to 283 visitors, 25 children used Complimentary Admission Tickets and 42 children were admitted free.

Contact Time Total contact hours at the Castle- 104.75; Hastings 55.75; Leding 38.50 and Schroeder 10.50. Seventy-seven trips were made through the Castle for 350 visitors and 419 visitors saw the museum in 96 groups. One hundred and fifty-nine visitors received information outside the ruins or museum.

NAVAJO NATIONAL MONUMENT  
TONALEA, ARIZONA

Feb. 25, 1948

MEMORANDUM for the Director, Region Three

There follows a report of activities in this area for the month of February 1948.

WEATHER: On two occasions the snow depth has reached 7 inches. Maximum temperature was 53 degrees on the 18th. Minimum temperature 3 degrees below zero on the 12th. Precipitation 1.50 inches. The snow has melted so rapidly that small gully washers arose. While at the pumphouse on the 19th it was estimated that the stream flowing off the bare rocks and passing the pumphouse was 30 times greater than the stream we were pumping.

VISITORS: 5 visitors arrived at this area, all with purposes other than ruin trips.

ROADS: Passable only by cars wearing chains. Deep ruts and mud have made the roads difficult. The snow depth has also impeded travel.

PROGRESS REPORT: Some progress has been made in each of the following: Additional road signs were layed-out, routed, painted, mounted on posts but as yet not installed. Road repair as needed to keep the road passable.

Because of the small size of the residence and the volume of our files it was imperative that something move out. We moved several wheel-barrels of files to the contact station. All files pertaining to the Naturalist Division are now in the contact station.

SPECIAL EVENT: On Feb. 22nd we attended the formal opening of the Guest Ranch at Kayenta. (This is the old Wetherill Colville establishment, now under management of Bennett Hyde).

CONCLUSION

The following action was suggested by J.W. Brewer, Jr., Custodian and was approved. The following action was suggested by J.W. Brewer, Jr., Custodian and was approved.

RECOMMENDATION

It is recommended that the following action be taken: The following action was suggested by J.W. Brewer, Jr., Custodian and was approved.

~~ORGAN PIPE CACTUS~~ NATIONAL MONUMENT

-----P. O. Box 38, Ajo, Arizona-----

February 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of February, 1948.

WEATHER

A new record minimum temperature for Organ Pipe of 18 degrees above zero was twice reached during the month on January 29 and Friday, February 13. Weather for the entire month was below normal in temperature, although a maximum temperature of 85 degrees was recorded on February 17. Travel increased as a result of the cold waves, though, as visitors came our way to escape the even colder weather to the north. 0.12 inches of precipitation fell during the month.

TRAVEL

The total travel this month of 8369 visitors brought the total for the travel year to 38186. Campground use is increasing and we have real need now for some developed area. On February 22, 1025 persons crossed the international line. This is about average for weekend travel which gives some indication of the growing importance of this section.

GENERAL

Contact and interpretation was given all the time which could be spared from other work. Some time was spent to acquaint our new ranger with the area. One trip was made to Casa Grande to pick up the Ford pickup which Gene had overhauled and on to Phoenix to pick up supplies. The inventory was made of non and semi-expendable property and supplies.

REHABILITATION

The electric motor for operating the water pump was installed and put into operation. Work on installation of the tank for the water system was continued.

MAINTENANCE

Minor overhaul of both the 3 KW light plants to replace broken valve springs and to grind valves, work on the S & M Chevrolet pickup to put it

...for the ... ..

There follows a review of activities for these three weeks and a summary for the month of January, 1968.

2000

A new report of the Department of the Interior, Bureau of Land Management, dated March 1, 1964, at Washington, D.C., is being furnished to you for information. The report is entitled "The Status of the Public Lands in the State of Nevada, 1963". It contains a summary of the public lands in the State of Nevada, as of the end of 1963, and a summary of the changes in the public lands during the year 1963. The report is being furnished to you for information.

2022

The above information was obtained from a review of the files of the Department of the Interior, Bureau of Land Management, and the Bureau of Reclamation, and is being furnished to you for your information.

1953]

the following was made of him and his associates:

1. *Introduction*

THE NATIONAL ASSOCIATION OF PUBLIC DEFENDERS HAS BEEN ELECTED BY THE JUDICIAL BRANCH OF THE U.S. SUPREME COURT TO BE THE OFFICIAL ORGAN OF THE JUDICIAL BRANCH OF THE U.S. SUPREME COURT.

1974

11. The following information is being furnished to you for your information only. It is not intended to be used for any other purpose.

in operating condition awaiting transfer orders from Region Three, continued work on the new residence, and routine odd jobs kept the maintenance man busy during the month. The patrol grader is now ready for us at Casa Grande.

ACCIDENTS

Another cow was killed along the highway just north of headquarters on the night of February 10. Speeding motorists traveling to and from Rocky Point, Mexico continue to find cows quite a traffic hazard.

WILDLIFE AND FLOWERS

Desert flowers are now starting with small poppy displays being most general now. The flower season has been held back by the cold weather but we anticipate a good flowering year. Some moisture still remains from the showers last November.

PROJECTS FOR COMING MONTH

General interpretation and office work will consume a great deal of time in March. We plan to start the revision of the master plan in connection with the anticipated visit of Mr. Vint and Region Three officials. The return of the patrol grader will enable the maintenance man to get at some badly needed road work.

William R. Supernaugh,  
Custodian.

in a general condition of affairs which was not  
satisfactory to the Government, and which was not  
satisfactory to the people. The Government is now  
working for a new basis.

1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 2626, 2627, 2628, 2629, 2630, 2631, 2632, 2633, 2634, 2635, 2636, 2637, 2638, 2639, 2640, 2641, 2642, 2643, 2644, 2645, 2646, 2647, 2648, 2649, 2650, 2651, 2652, 2653, 2654, 2655, 2656, 2657, 2658, 2659, 2660, 2661, 2662, 2663, 2664, 2665, 2666, 2667, 2668, 2669, 2670, 2671, 2672, 2673, 2674, 2675, 2676, 2677, 2678, 26

1. The first of these is the fact that the United States has a long and distinguished record of leadership in the world. This is reflected in the fact that the United States has been a member of every major international organization since its inception. This includes the League of Nations, the United Nations, the North Atlantic Treaty Organization, the Organization for Economic Cooperation and Development, and the World Trade Organization. The United States has also been a leading force in the development of international law and the promotion of human rights.

NATIONAL PARK SERVICE

Saguaro National Monument  
Tucson, Arizona

February 26, 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows the monthly narrative report of activities at Saguaro National Monument for the month of February, 1948.

WEATHER. Temperatures ranged from a low of 18 degrees on the 10th to a high of 80 on the 19th. Precipitation occurred on six days during the month, with two other days being overcast. Four nights brought temperatures below freezing. At the end of the month approximately 16 inches of snow is on the ground on top the Rincons.

SPECIAL ACTIVITIES. Ranger Wilde made a trip to Organ Pipe Cactus on February 18, to obtain sign material given us by Bill Supernauth.

N.P.S. VISITORS. Charlie Steen was in on the 15th to borrow a backpack pump for use in the stabilization work at Casa Grande.

MAINTENANCE. Due to the unfavorable weather, little was accomplished on the Madrona - Grass Shhck trail; twenty man-days were spent on the tread and water drainage. The 4000-gallon water tank at Madrona was set on concrete bases, primed, painted, connected, and filled. Both of the horse drinking fountains in the Madrona Corral were replaced, the old ones having frozen and burst. The main water line at Madrona also froze, and several sections were replaced between tanks and the residence, and in the pump intake line. Both outdoor toilets at the Headquarters were moved from their old location behind the building to a point east of the parking area, repaired, painted, and reroofed. The Headquarters pump also froze, necessitating minor repairs which could not be accomplished until parts were finally located in Tucson. The new underground 550-gallon gasoline tank was set, and will be put into service as soon as present supplies of gasoline are used so that we may move the pump. The project of constructing and placing new signs within the monument area is complete; we intend now to begin making and setting directional road signs on approach roads.

The Monument Loop Road was dragged after four first and third rainy days, and is in fair condition. However, it cannot be put into first class shape until delivery of the long-awaited motor patrol.

Washburn National Monument  
Yellowstone, Wyoming

February 14, 1925

Director, National Park Service,  
Washington, D.C.

Dear Sir: Please find enclosed report of activities of  
Washburn National Monument for the month of February, 1925.

Washburn National Monument was a day of its opening on the 10th  
of a day of its opening. The monument was opened on all days  
except the 10th, with the main gate being opened. The main  
gate was opened on the 10th. It is the end of the main gate  
which is located on the 10th. It is the end of the main gate  
which is located on the 10th.

Washburn National Monument was a day of its opening on the 10th  
of a day of its opening. It is the end of the main gate  
which is located on the 10th.

which is located on the 10th.

The monument was a day of its opening on the 10th  
of a day of its opening. It is the end of the main gate  
which is located on the 10th.

APPROACH ROADS. On February 2, the Pima County District Court ruled that the incorporation of the "Rincon Village" area east of Tucson was unconstitutional. With this ruling, it again becomes possible for the Pima County Highway Department to maintain the section of East Broadway beyond the end of the pavement. After two periods of heavy maintenance, each of nearly a week's work, this stretch is again in fair to good condition for the first time since last May. Thus, one of our worst problems has been solved, with a resultant increase in travel and a decided decrease in complaints.

TRAVEL AND INTERPRETIVE SERVICES. Again this month all previous visitor travel records were broken. A total of 3415 people, from 44 states, D.C., 3 provinces of Canada, England, and South America were counted; these visitors arrived in 1125 cars, 55 horses, two motorcycles, and three bicycles. This is an increase of 211 persons over January's record visitation, and an increase of 563 people, or 19.8%, over February, 1947.

Of the above total, 1639 persons, or 48%, were contacted at the Headquarters. This number, percentage, and the total contact time of 7380 minutes, or an average of 17.0 minutes for each of 435 parties, are likewise new records for this monument. It is believed that improved road conditions, considerable recent local publicity, and the greatly improved appearance of the Headquarters area are responsible for the increase in public informational service, since all our past reports show that only about one-third of the visitors stop at the office. The increased average time spent by most visitors is possible due to improvement of our still inadequate exhibits.

A new, experimental, interpretive device - the guided Auto Caravan - was begun on February 15. Now, that is, at Saguaro. In spite of other local activities on that day, 52 people turned out for the trip, which is scheduled for the hours from 2 to 5 P.M. each Sunday during the month, and will continue into March if public response warrants. We intended to begin these trips on the 8th, but inclement weather interfered. On the 22nd, although travel was heavy, not enough people arrived until too late to complete the trip. If successful this year, this activity may be continued on a larger scale next winter, personnel permitting.

EXHIBITS. Work on the new arboretum in the front yard of the Headquarters, is approximately 90% completed. Visitors comment frequently on both its appearance and on its interest. Similarly, frequent compliments are received on the photographic exhibit in the small multiplex on the front porch. This last has proved to be more of a job than we bargained for, as plans for its final content are enlarged weekly. Both color and black and white prints are being used, and we have now decided to include bird subjects, along with cacti, flowering plants, insects, and reptiles. This project, with anticipated revisions, will probably be a continuing and never-ending job, but well worth-while from an interpretative view.

SMM Association sales have been excellent, and may surpass those of last month, our previous record month.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

VANDALISM. Without having kept a record of individual instances, we believe this to be the worst travel season the present Custodian has ever seen in respect to instances of wilfull or thoughtless vandalism on the part of visitors, particularly adults. It has become necessary for one man to spend each Sunday afternoon patrolling the Loop Road, in a rather hopeless attempt to stop digging of cacti, smashing and removal of dead Saguaro skeletons, and cutting and initial-carving on trunks of living cacti. Three wood-haulers have been encountered, and relieved of their loads, in the past month. Fires built in impromptu fire-places along the Loop Road, are so frequent that patrols are made each Sunday evening, after five P.M., and often a second patrol after dark.

WATER SUPPLY. Beginning the last Friday in January, it was necessary to again haul water to the Madrona Ranger Station. All of the time of one man was spent on this work, until the creek began flowing again on February 10. A total of 6500 gallons was hauled in this period. At the present time all storage tanks are full, and the creek running in greater volume than it has had in the past 15 months.

PUBLIC HEALTH. No water supply sample was taken this month, as there was no water on February 1. The present storage, except in the new tank, is water from the Tucson supply, so no analysis was deemed necessary.

All but one of the monument employees at the Madrona Canyon area have been ill with colds during the month. Time taken off totaled four days.

REVERSE PROCEDURE. When a man bites a dog, it is always news. Upon the occasion of his visit to Saguaro, last week, Mr. John D. Rockefeller, Jr., expressed his regret that he did not have any book which described and identified the local cactus species. Ranger Frost, who had contacted Mr. and Mrs. Rockefeller, and who had formerly been a neighbor of theirs at Northeast Harbor, Maine, stopped by their hotel on his way home, and left a copy of Dr. Shreve's "Cactus and Its Home" at the desk for Mr. R.

We have been wondering ever since if "Pop" Frost had heard of the incident wherein the late Will Rogers presented John D., Sr. with a dime upon meeting him for the first time.

Don W. Eggermayer  
Custodian.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

February 28, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities of Sunset Crater National Monument for the month of February, 1948.

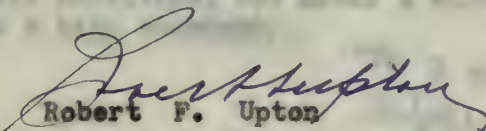

Visitors this month: 397                      Travel year to date: 3620

Travel: Heavy snows have blocked all roads for most of the month. 159 visitors registered in spite of the adverse conditions. This represents a decrease of 22.8 % for the same period a year ago. Total travel estimates are continued on the same basis by adding an additional 60% to the number registered.

Weather: Temperatures have remained near or below the freezing point for the month. Roads were blocked by heavy snows most of the time. Observations made the latter part of February indicate that 3.21 inches of precipitation fell during the past quarter. At the time of this inspection it was estimated that from four to six inches of snow lay on the level.

NPS Visitors: During the latter part of the month Chief of Development Tom Vint, Regional Engineer Lassiter, Regional Architect Cornell and Architect Lovelady visited the area with the intention of inspecting the proposed location of the new entrance road. However deep snow and adverse weather conditions prevented them from accomplishing the study they desired.

Road: The Saginaw Manistee Lumber Company began clearing the entrance and monument road of snow the latter part of the month, preparatory to logging operations to the south and also to the east of Sunset. The deep drifts along the base of the crater have been plowed but the entire road is rough and slippery in spots. No travel has gone through on the Sunset-Wupatki road. It will again be necessary to erect signs closing this portion as soon as the actual logging operations begin, as the presence of logging trucks on the narrow roads creates a hazard to the visitor.

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United Kingdom regarding the progress of its investigation into the activities of the British Security Co-ordination Unit (BSCU) in the United States. This is a matter of great importance, as the BSCU was the main source of information for the British Government regarding the activities of the United States Government in the United Kingdom. The Commission is therefore unable to provide any information regarding the progress of its investigation into the activities of the BSCU in the United States.

1. The following information was obtained from the records of the Federal Bureau of Investigation, New York City, New York, dated 10/10/50, and 10/11/50, and 10/12/50, and 10/13/50, and 10/14/50, and 10/15/50, and 10/16/50, and 10/17/50, and 10/18/50, and 10/19/50, and 10/20/50, and 10/21/50, and 10/22/50, and 10/23/50, and 10/24/50, and 10/25/50, and 10/26/50, and 10/27/50, and 10/28/50, and 10/29/50, and 10/30/50, and 10/31/50, and 11/1/50, and 11/2/50, and 11/3/50, and 11/4/50, and 11/5/50, and 11/6/50, and 11/7/50, and 11/8/50, and 11/9/50, and 11/10/50, and 11/11/50, and 11/12/50, and 11/13/50, and 11/14/50, and 11/15/50, and 11/16/50, and 11/17/50, and 11/18/50, and 11/19/50, and 11/20/50, and 11/21/50, and 11/22/50, and 11/23/50, and 11/24/50, and 11/25/50, and 11/26/50, and 11/27/50, and 11/28/50, and 11/29/50, and 11/30/50, and 12/1/50, and 12/2/50, and 12/3/50, and 12/4/50, and 12/5/50, and 12/6/50, and 12/7/50, and 12/8/50, and 12/9/50, and 12/10/50, and 12/11/50, and 12/12/50, and 12/13/50, and 12/14/50, and 12/15/50, and 12/16/50, and 12/17/50, and 12/18/50, and 12/19/50, and 12/20/50, and 12/21/50, and 12/22/50, and 12/23/50, and 12/24/50, and 12/25/50, and [illegible]

There is a large number of people who are interested in the history of the country and who are willing to contribute to the preservation of the old buildings and the old ways of life. It is the duty of the government to protect these things and to make them available to the people. The National Historic Landmarks Program is a part of this effort. It is a program that was created in 1960 and it has been very successful. It has helped to protect some of the most important places in the country and it has helped to make them more accessible to the people. The program has been very successful and it is a good example of what the government can do to protect the country's heritage.

Tonto National Monument  
Roosevelt, Arizona

February 27, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of February, 1948.

Weather. The first two weeks of February were colder than usual with temperatures down to 20° F, which is enough in this part of Arizona to freeze water lines, which it did. Most of the month has been colder and cloudier than usual, except February 22, which set a heat record in Tucson. On February 23 we had a general dust storm. Roosevelt Lake continues to be very low, with little prospect of its filling this year.

Approaches to Monument. The Apache Trail is in fairly good condition. The Queen Creek Canyon section of Highway 60 is being widened, and cars are held up sometimes several hours for blasting and rock clearing, which affects our travel.

Interpretive Service. With more visitors than last month, it was necessary to declare the Upper Ruin closed, as we cannot give adequate service even then. Without a lot of planning, stabilization and extra personnel to protect the Upper Ruin, it should stay closed.

Travel. 3017 persons in 833 cars visited Tonto in February. 1106 visited the Lower Ruin. While this was an increase of 400 persons over the preceding month, it was about 200 less than February 1947. Cold weather, construction on Highway 60, and the fortunate decision of 101 cars and 4 busses of Dons, not to stop here, account for the difference.

Roads and Trails. The resignation of trail laborer Eugene Cook on February 23 completes the first round of trail repair. The path to the Lower Ruins is in fair condition, but needs a considerable amount of work to bring it up to a high standard.

Information from the

1. The first of these is the fact that the majority of the population of the United States is of European descent. This is true of the United States, Canada, and the United Kingdom. The second is the fact that the majority of the population of the United States is of European descent. This is true of the United States, Canada, and the United Kingdom. The third is the fact that the majority of the population of the United States is of European descent. This is true of the United States, Canada, and the United Kingdom.

1. The first of these is the fact that the majority of the population of the United States is of European descent. This is a fact which has been recognized by the government and the people of the United States for many years. It is a fact which has been recognized by the government and the people of the United States for many years.

Tonto National Monument  
Bureau of Land Management

Roads & Trails, contd. The mile of entrance road is wearing down to the subgrade, with rocks starting to come through. It needs considerable work with equipment that I do not have.

Visitors. Archaeologist Dan Davis & Mrs. Davis from Casa Grande; Ranger Frederick Brueck, Mrs Brueck & son, from Grand Canyon, and Custodian Clair V. Cooke & Mrs Cooke of Chiricahua visited Tonto this month.

General. The State Highway Department offered to replace our signs at the intersections of the Apache Trail with Highway 60 and 80 - 89 with new signs of similar design and wording. As ours are badly beaten up, the custodian was glad to receive that offer. The one new sign here was put up at the Miami junction.

The 3 K.W. plant quit operating, and will be taken to Casa Grande along with the Dodge pickup, which needs brakes repaired and other work.

Several loads of gravel were hauled for the ravine which serves as a utility area. Considerable work has been done on labels for the various desert plants here which interest the visitors considerably.

Visitor contact takes up most of our time, making it difficult to keep up with maintenance and office work at times.

Ranger Hendricks and the Custodian & wife heard a very good lecture on the archaeology of Gila County, by Dr. Deric O'Bryan of Gila Pueblo in Globe.

Charles C. Sharp  
Custodian

and others in the collection. The title of the collection is "The Life of a Slave Girl" and the author is Harriet Jacobs. The book is a first-hand account of the life of a slave girl in the antebellum South. It is a powerful and moving work of literature that has been widely read and studied. The book is available in many formats, including hardcover, paperback, and audiobook. It is a must-read for anyone interested in the history of slavery and the lives of African Americans.

Tonto National Monument  
Roosevelt, Arizona

February 27, 1948

Memorandum for the Regional Director, Region I, Inc.

Following is a report of activities at Tonto National Monument for the month of February, 1948.

Weather. The first two weeks of February were colder than usual with temperatures down to 20° F, which is enough in this part of Arizona to freeze water lines, which it did. Most of the month has been colder and cloudier than usual, except February 26, which set a heat record in Tucson. On February 23 we had a general dust storm. Roosevelt Lake continues to be very low, with little prospect of its filling this year.

Approaches to Monument. The Apache Trail is in fairly good condition. The Queen Creek Canyon section of Highway 60 is being widened, and cars are held up sometimes several hours for blasting and rock clearing, which affects our travel.

Interpretive Service. With more visitors than last month, it was necessary to declare the Upper Ruin closed, as we cannot give adequate service even then. Without a lot of planning, stabilization and extra personnel to protect the Upper Ruin, it should stay closed.

Travel. 3017 persons in 833 cars visited Tonto in February. 1106 visited the Lower Ruin. While this was an increase of 400 persons over the preceding month, it was about 900 less than February 1947. Cold weather, construction on Highway 60, and the fortunate decision of 161 cars and 4 buses of Dons, not to stop here, account for the difference.

Roads and Trails. The resignation of trail laborer Eugene Cook on February 23 completes the first round of trail repair. The path to the Lower Ruins is in fair condition, but needs a considerable amount of work to bring it up to a high standard.

General Statement  
of the  
Committee

January 10, 1911

The following is a summary of the results of the investigation conducted by the Committee during the past year.

The first two years of the investigation were devoted to the study of the general conditions of the industry. It was found that the industry was in a state of depression, and that the conditions were unfavorable to the interests of the workers.

The third year of the investigation was devoted to the study of the conditions of the workers. It was found that the workers were in a state of poverty, and that the conditions were unfavorable to their interests.

The fourth year of the investigation was devoted to the study of the conditions of the employers. It was found that the employers were in a state of poverty, and that the conditions were unfavorable to their interests.

The fifth year of the investigation was devoted to the study of the conditions of the community. It was found that the community was in a state of poverty, and that the conditions were unfavorable to the interests of the workers.

The sixth year of the investigation was devoted to the study of the conditions of the industry. It was found that the industry was in a state of depression, and that the conditions were unfavorable to the interests of the workers.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century.

The first thing I noticed when I stepped out  
 of the car was the cold. It was a sharp contrast to the  
 warm blanket of the car. I shivered as I walked  
 towards the entrance. The air was crisp and  
 clean, a welcome change from the stuffy car.  
 I took a deep breath and felt a sense of  
 relief. The world outside was so different from  
 the one inside. I was finally here, in the  
 place I had been waiting for. The door was  
 open, and I stepped out. The cold air hit me,  
 but it felt good. I was finally free.

TUMACACORI NATIONAL MONUMENT  
Tumacacori, Box 2225, TUCSON, ARIZONA

Tumacacori, Arizona

February 25, 1948

MEMORANDUM for the Regional Director,  
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of February, 1948:

WEATHER CONDITIONS: The growth has relented this month, with 1.21 inches precipitation! which is about normal for February. Minimum temperature of 12, on January 29, was unusually low, occurring at the same time that a record low of 6 was recorded in Nogales, 18 miles south. Maximum of 85 occurred on the 17th. Terrific winds, of gale proportion, occurred on the 23rd.

MAINTENANCE: Routine was kept current.

MAJOR REPAIR AND REHABILITATION: The contractor finished covering the museum building roof with two new layers of asphalted felt and aluminum paint. He has done nothing yet on the repair of the museum entrance and its ramp construction.

INTERPRETIVE SERVICE: 2,235 visitors went on 260 guided trips through the mission and grounds, receiving an average of 35.3 minutes per trip. 4,132 visitors saw the museum. 4,154 persons received combined Information and Interpretation Service.

INCREASE OR DECREASE IN TRAVEL: The visitor total of 4,303 persons for this month sets a new all-time record for regular travel. Next highest month was January, 1948, with 4,065 visitors. February 22 was the biggest travel day we have seen here, with 311 visitors, and 152 guide tickets sold.

VISITORS: February 5 - Perry R. Taylor, of the Bureau of the Budget.  
February 18 - Father Victor R. Stoner, well known mission history authority.

INSPECTIONS: February 12 - Archaeologist Charlie Steen checked over last season's ruins stabilization work, and approved coming work for next season.

PERSONNEL: Our full staff of two permanents and one seasonal were on duty practically all month. Jackson took 2 hours sick leave, and 8 hours annual leave. Brewer took two hours annual leave.

TUMACACORI, TUCSON, ARIZONA

Memorandum

February 22, 1933

TO: DIRECTOR, NATIONAL PARK SERVICE  
FROM: SUPERVISOR, TUMACACORI NATIONAL MONUMENT

Subject: Monthly Narrative Report for Tumoracori National Monument  
for the month of February, 1933.

Weather Conditions: The month has been marked by a series of light to moderate rains. The temperature has ranged from a low of 45 to a high of 75. The wind has been generally light and variable. The humidity has been moderate. The precipitation has been about 1.5 inches. The weather has been generally favorable for the monument.

Visitation: Visitation has been fairly good.

Work Done: The maintenance staff has been busy with the usual work of the monument. The grounds have been kept in good condition. The buildings have been well maintained. The staff has been very efficient.

Incidents: A few incidents have occurred during the month. A few visitors have been seen. A few animals have been seen. A few birds have been seen. A few insects have been seen. A few plants have been seen. A few trees have been seen. A few flowers have been seen. A few fruits have been seen. A few vegetables have been seen. A few grains have been seen. A few legumes have been seen. A few nuts have been seen. A few seeds have been seen. A few spores have been seen. A few viruses have been seen. A few bacteria have been seen. A few fungi have been seen. A few protozoa have been seen. A few metazoa have been seen. A few plants have been seen. A few animals have been seen. A few insects have been seen. A few birds have been seen. A few mammals have been seen. A few reptiles have been seen. A few amphibians have been seen. A few fish have been seen. A few mollusks have been seen. A few arthropods have been seen. A few cnidarians have been seen. A few chordates have been seen. A few echinoderms have been seen. A few poriferans have been seen. A few protists have been seen. A few bacteria have been seen. A few viruses have been seen. A few fungi have been seen. A few protozoa have been seen. A few metazoa have been seen.

Remarks: The visitor index for the month shows a total of 1,234 visitors. The index shows a steady increase in the number of visitors throughout the month. The index shows a total of 1,234 visitors. The index shows a steady increase in the number of visitors throughout the month. The index shows a total of 1,234 visitors. The index shows a steady increase in the number of visitors throughout the month.

Summary: February 2 - 1933. The visitor index for the month shows a total of 1,234 visitors. The index shows a steady increase in the number of visitors throughout the month. The index shows a total of 1,234 visitors. The index shows a steady increase in the number of visitors throughout the month.

Conclusion: February 22 - 1933. The visitor index for the month shows a total of 1,234 visitors. The index shows a steady increase in the number of visitors throughout the month. The index shows a total of 1,234 visitors. The index shows a steady increase in the number of visitors throughout the month.

Recommendations: The full effect of the monument and the surrounding area is being felt. The monument is being well maintained. The surrounding area is being well maintained. The monument is being well maintained. The surrounding area is being well maintained.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

**RED CROSS:** The staff took a Standard course in Red Cross First Aid earlier this winter. On February 12 we received full equipment for a Red Cross First Aid Station and installed it. Tumacacori now has the only emergency First Aid station in this county.

**PUBLICITY:** Nogales and Tucson newspapers gave us good spreads on the January record travel figures (which were mailed out to them under paid postage). Publicity was also given to the installation of the first aid station. In fact, we have no trouble whatever getting newspaper publicity on any information we dish out.

**GENERAL:** Everything is going along in good condition. It has been a Godsend having a seasonal ranger this winter. I don't know how we ever got along without one before.

-----TUSIGOOT----- NATIONAL MONUMENT

-----CLARKDALE, ARIZONA-----

-----FEBRUARY 26, 1948-----, 19-----

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tusigoot National Monument for February, 1948.

Travel Data: Although adverse weather conditions prevailed throughout the month we had the greatest February travel in the history of the monument. 1147 people in 346 parties. The present 1948 travel year promises to pass last years high by several thousand.

Guide and Contact Services: Museum, ruins and orientation contacts totaled 2732 for the month. 1008 people in 265 parties were shown the museum, and 1016 people in 251 parties were conducted through the ruins. The average time spent by each party in the museum was 21.4 minutes while the average conducted tour through the ruins required 20.8 minutes per party.

Personnel Time: Museum: 95 hours, 40 minutes. Ruins: 87 hours, 05 minutes. Total time for Bright: 97 hours, 35 minutes. For Richert: 85 hours, 10 minutes.

N.P.S. Visitors: Tusigoot welcomed Assistant Regional Director John M. Davis and Chief Clerk Luis Castellum on January 30. We find that periodic visits by the Regional Office Personnel is highly beneficial to the areas concerned.

Special Visitors: On February 1, a caravan of 30 automobiles with 109 people, visited the monument. The party consisted of young people representing 16 nations. This Moral Re-Armament Group, sponsored by the National Committee of Invitation, is presenting, "THE GOOD ROAD" a new musical revue, in various parts of the nation and in foreign countries.

Maintenance and Administration: More sewer line trouble. A section of about 40 feet completely disintegrated due to growth expansion of plant roots which had broken into the line at various places. The entire length has been cleared away and repairs will be made as soon as new tile can be obtained. New nature trail signs were placed along path leading to the ruins describing the common and scientific names of different kinds of cactus. Ranger Richert completed the placing of new descriptive labels in all display cases in the Museum. The annual task of dweeding of rooms in the ruins was started during the latter part of the month.

Publications: 8950 Tusigoot two-fold leaflets and 50 mimeo informational sheets on hand. No other free or for sale publications on hand at this Monument.

~~Walnut Canyon National Monument~~ <sup>NATIONAL MONUMENT</sup>  
Flagstaff, Arizona.

February 28, 1948

MEMORANDUM for the Regional Director, Region Three.

19

There follows a report of activities in Walnut Canyon National Monument for February, 1948:

Weather. With several good snows during period, the City of Flagstaff feels confident of having enough water for the coming year. Fourteen below on the 11th, was our coldest day since 1945.

Visitors. Of the 341 total, 311 were contacted, and it is estimated that 140 made the ruins trip unattended despite the snow on trails. Our travel-year-to-date figure is running behind last year's because our entrance roads are in worse condition from more precipitation.

Inspections. Mr. Davis and Mr. Castellum were here for a full day discussing administrative matters. Mr. Carlson made a brief stop to leave some forestry supplies for Wupatki and Navajo. Mr. Vint, Mr. Cornell, Mr. Lovelady and Mr. Lassiter spent most of a day here going over the PCP for Walnut Canyon, and inspecting the proposed approach road.

Activities. Beyond the routine chores, we have principally been concerned patch plaster and painting the interior of the Custodian's residence. We haven't finished but what we have done is OK if we do say so ourselves.

SNM Association. Last month I should have stated how pleased we were to have the Association bind five volumes of the Arizona Highways for our library. Our show case was broken into and looted the morning of Washington's birthday. This is the fourth time we have lost several books. All publications have been removed and will not be displayed until some improvements are made on the case.

REPORT OF THE NATIONAL PARK SERVICE  
ON THE PROGRESS OF THE NATIONAL MONUMENT

February 22, 1942

REPORT FOR THE NATIONAL DIRECTOR, NATIONAL PARK SERVICE

There follows a report of activities in the National Monument for February, 1942:

February. All several good snow during period, the City of Flagstaff feels excellent of having enough water for the coming year. Fourteen below on the 11th, and our coldest day since 1942.

February. Of the 24 total, all were contacted, and it is estimated that 140 were the only uncontacted people in the snow on trails. Our travel-year-to-date figure is showing better than last year's because our entrance roads are in good condition from snow removal.

February. Mr. Davis and Mr. Hamilton were here for a full day discussing administrative matters. Mr. Hamilton was a brief stop to have some forestry supplies for report and review. Mr. Vint, Mr. Cornell, Mr. Lovelady and Mr. Hamilton spent most of a day here going over the 1941 for January Canyon, and reviewing the proposed approach road.

February. Beyond the morning check, we have practically been concerned with water and painting the interior of the building's residence. We haven't finished but what we have done is OK if we do any no ourselves.

February. Last month I should have stated how pleased we were to have the National Park Service of the National Park Service for our library. Our snow was broken into and looted the morning of Washington's birthday. This is the first time we have lost several books. All publications have been removed and will not be displayed until some improvements are made on the case.

MEMORANDUM for the Regional Director, Region Three.

FEBRUARY TRAVEL - 1948

Visitors 4621 Cars 1378

1948 - TRAVEL YEAR TO DATE

Visitors 25,933 Cars 7,273

February lagged somewhat behind the same month of last year but this is definitely traceable to adverse weather conditions. It was necessary to close the road into the Sands four days and two other days the weather was very bad curtailing travel in any direction. On several days both the states of New Mexico and Texas were requesting all non-essential cars to stay off the highways due to snow, ice, or dust.

A record low for White Sands was reached the night on January 30 when the mercury dropped to minus 8. Just for contrast the high was 74° on February 19. Moisture totaled almost an inch, much of which was snow.

Two official trips were made off the Monument, both to El Paso via the White Sands Proving Ground. Accompanied by Ranger Steel a hurried inspection was made of the ruin sites reported recently. They seem to be typical of the Pularosa Basin, similar sites have been studied for some time.

Museum visitors seemed to have lingered longer than usual and, of course, the regular questions were presented to us in various forms. The "54" Association held their annual convention in Alamogordo and many of the delegates visited the White Sands. It is the hope of the Association to get Highway U. S. 54 paved throughout its entire course. When this is accomplished we should certainly notice a decided increase in visitation.

Heavy winds and storms have proved a nightmare to our road man and it is entirely possible that, unless we can secure equipment or borrow from the Army, our roads will be closed. The small patrol is simply not large enough to carry the spring load by itself.

A start at moving the picnic area has been made - the toilets have been moved and the road blocked leading into the old area. The first Sunday the new public use area was in operation we ran over a thousand visitors. This heavy use quickly brought out several weak points which will be corrected as time permits.

(2)

February 26, 1948  
Narrative Report

An attempt is being made to repair all our picnic area disposal units. We are trying to get out an inventory, wage scale survey, and numerous odds and ends.

The White Sands Play Day has been set for April 10 and we will be glad again to see it come and go. The Chamber of Commerce and Otero County school officials are looking for the largest crowd in the history of the event.

Concession sales are running a little lower than last February but are still well ahead of former years.

No complaints were received by this office and we will make every attempt to carry on in such a manner as to prevent one.

Johnwill Faris,  
Custodian.

February 18, 1948  
Executive Report

(8)

An attempt is being made to repair all our ships now damaged  
while we are trying to get out as many as possible, and  
maximum odds are being made.

The ships which they have been out for repair is not as well  
as they were when they were out for repair. The number of ships and crews  
which were out for repair is not as high as it was when they were out for  
repair. The number of ships and crews which were out for repair is not as  
high as it was when they were out for repair.

Investigation also are making a little more than they were before  
and will still make a little more.

No complaints were received by this office and no other party  
except as they are in such a manner as to prevent work.

Director

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

February 28, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of February, 1948.

Visitors this month: 172                      Travel Year to date: 1047

Weather: During the past month the weather was more typical of January with daily temperatures in the forties and fifties, brief snow flurries, and cold winds. Precipitation is still below normal.

Roads: The Wupatki entrance road has been open the entire month. The small amount of precipitation received has settled the dust anyway. The approach from Sunset Crater has been closed.

Travel: Visitation has shown a 26% decrease for the same period of a year ago. This is in keeping with reports of travel in the Flagstaff vicinity which has fallen for the past six weeks. No doubt caused by the general winter weather with its disagreeable traveling conditions. The travel year however shows an increase of 25% over that of last year.

Grazing: The CO Bar cattle, grazing under permit, have not been as numerous as last year, but we are having more difficulty with trespass grazing in the Wupatki Basin. As reported last month, Joe Kellam's cattle have been drifting in to water at Heiser Spring. The maximum number to date has been about seventy-five head. This varies considerably for the owner rounds them up and takes them back on his own range at every opportunity. The only solution to this problem is fencing along our south boundary.

Kirby continues to graze under permit on the Coconino Forest adjoining our south and west boundaries. He has mentioned that this is positively the last year he will be permitted to graze in this area. An interesting observation on grazing in the cinder area came from Mr. Kirby. While there is an excellent stand of grama and gallenta grass forming a dense cover on some of the more consolidated soils, cattle tend to avoid this grass and prefer to browse in the rocky sections and on the hills. It is Kirby's opinion that the grass of the cinder area lacks some essential mineral.

Memorandum for the National Park Service, National Monument

Re: Report of activities of National Monument, 1945.

1. The National Monument, established in 1908, is located in the State of Washington.

2. The National Monument is a large area of land, containing a large number of buildings and other structures. It is a very important area, and it is very important that it be properly maintained.

3. The National Monument is a very important area, and it is very important that it be properly maintained. It is a very important area, and it is very important that it be properly maintained.

4. The National Monument is a very important area, and it is very important that it be properly maintained. It is a very important area, and it is very important that it be properly maintained.

5. The National Monument is a very important area, and it is very important that it be properly maintained. It is a very important area, and it is very important that it be properly maintained.

6. The National Monument is a very important area, and it is very important that it be properly maintained. It is a very important area, and it is very important that it be properly maintained.

Where his cattle have eaten the grass he does not feel that they are in as good condition as when they feed on similar species outside of the cinder. This interesting observation on cinder ecology should have more study.

Special Activities: Dr. H. S. Colton, Museum of Northern Arizona, planned to visit the monument this month in order to select archeological sites for excavation this summer. Pressure of other work prevented his doing so, but he hopes to have one or two small projects in this area, ones which can be completed and ready for publication by the end of the summer.

What might have been a small "gold mine" for some prehistoric Wupatki trader was reported by one of our Navajos, Julius Choe. A deposit of hematite across the river from Crack-in-the-Rock Ruin was visited and recorded in the files. It consists of large and small nodules of hematite in what is apparently the lower Chinlee formation. Some of it is of excellent quality for making red paint and undoubtedly was utilized by the prehistoric inhabitants of this vicinity.

Spring Flow: Wupatki Spring increased in flow from 881 to 993 gallons per day over the past month, whereas Heiser decreased 98 gallons to 1136 gallons per day. The use of this water by trespass cattle deprives Navajo stock of their water.

NPS Visitors: Regional Engineer Lassiter inspected the proposed water line, spring development and several other projects early in the month, returning again with Chief of Development Tom Vint, Regional Architect Cornell and Architect Lovelady. At the latter inspection the entire time was spent on matters basic to future Master Planing and it is hoped that we can reach final decisions within the relatively near future.

General: The conversion of the "boiler room" in the basement of the proposed public contact building into office space was completed and the moving of the office accomplished at long last. The knocked down water tank, 4000 gallons, was hauled from Grand Canyon and now rests on the cinder slope of Woodhouse Mesa above the residence. Figuring that hauling each piece up through the deep cinders for 100 feet was an awful chore, we brought it down in one single two ton box from the top of the mesa.

REMARKS: (Please note below any factors influencing interpretive service, such as:  
museum closed for repairs", "closed for season", "naturalist on sick leave", etc.  
Unusually cold weather and snow on approach road had adverse effect on travel.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME \_\_\_\_\_  
TITLE Lloyd M. Pierson  
Acting Custodian.

REMARKS: (Please note below any factors influencing interpretive service, such as:  
"museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

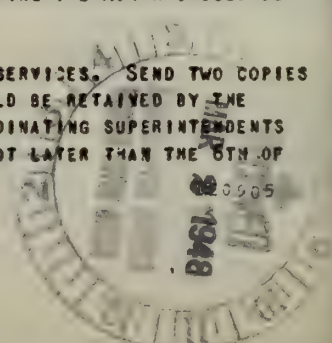

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Area closed for winter due to snow on approach road.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Charles E. Barry  
TITLE Assistant

REMARKS: (Please note below any factors influencing interpretive service, such as:  
Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 15TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

\*\* Visitor total includes 139 runarounds.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, MOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Region Three

Santa Fe, New Mexico

April 8, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for naturalists of the Southwestern National Monuments for the month of March 1948:

Staff Activities - General

Naturalist Dale S. King was in the office except for a one day trip to Sandelier March 2 and another to the University of New Mexico March 3.

Archeologist Charlie R. Steen spent the month at Casa Grande National Monument on ruins stabilization activities.

Interpretive Administration

King attended a meeting of instruction in personnel rating methods. He wrote several letters to persons applying for seasonal and permanent positions with the National Park Service.

Planning (Other than Museum)

Statements for the prefaces for the Master Plans of Sunset Crater, Wupatki, and Walnut Canyon National Monuments were prepared in rough draft and sent to the field for suggestions. Fieldmen of the three monuments then prepared the information sections which were edited by King and turned over to the Branch of Plans.

Progress of Exhibit Plans and Projects.

King visited Sandelier National Monument on March 2 and inspected the excellent paintings prepared by Mrs. Fabilita Velarde Hardin for the pueblo government case in the museum there. Kodachrome pictures were taken for the Southwestern Monuments Association.

Discussion was had with architects regarding the proposal to rehabilitate a small building at Gran Quivira for use as an interpretive and office station.

UNITED STATES GOVERNMENT

1. The first of these is the fact that the United States has a long and honorable tradition of supporting the principle of self-determination for all peoples. This principle is enshrined in the United States Constitution and in the Declaration of Independence. It is a principle that has been the cornerstone of American foreign policy for over a century.

2. The second of these is the fact that the United States has a long and honorable tradition of supporting the principle of democracy. This principle is enshrined in the United States Constitution and in the Declaration of Independence. It is a principle that has been the cornerstone of American foreign policy for over a century.

3. The third of these is the fact that the United States has a long and honorable tradition of supporting the principle of human rights. This principle is enshrined in the United States Constitution and in the Declaration of Independence. It is a principle that has been the cornerstone of American foreign policy for over a century.

4. The fourth of these is the fact that the United States has a long and honorable tradition of supporting the principle of international law. This principle is enshrined in the United States Constitution and in the Declaration of Independence. It is a principle that has been the cornerstone of American foreign policy for over a century.

5. The fifth of these is the fact that the United States has a long and honorable tradition of supporting the principle of peace. This principle is enshrined in the United States Constitution and in the Declaration of Independence. It is a principle that has been the cornerstone of American foreign policy for over a century.

6. The sixth of these is the fact that the United States has a long and honorable tradition of supporting the principle of justice. This principle is enshrined in the United States Constitution and in the Declaration of Independence. It is a principle that has been the cornerstone of American foreign policy for over a century.

7. The seventh of these is the fact that the United States has a long and honorable tradition of supporting the principle of freedom. This principle is enshrined in the United States Constitution and in the Declaration of Independence. It is a principle that has been the cornerstone of American foreign policy for over a century.

8. The eighth of these is the fact that the United States has a long and honorable tradition of supporting the principle of equality. This principle is enshrined in the United States Constitution and in the Declaration of Independence. It is a principle that has been the cornerstone of American foreign policy for over a century.

9. The ninth of these is the fact that the United States has a long and honorable tradition of supporting the principle of solidarity. This principle is enshrined in the United States Constitution and in the Declaration of Independence. It is a principle that has been the cornerstone of American foreign policy for over a century.

10. The tenth of these is the fact that the United States has a long and honorable tradition of supporting the principle of cooperation. This principle is enshrined in the United States Constitution and in the Declaration of Independence. It is a principle that has been the cornerstone of American foreign policy for over a century.

## Cooperative Activities

Additional progress was made toward obtaining an appointment as collaborator for a noted anthropologist and historian.

Copy negatives were made of a series of photographs by Custodian James Brewer of Navajo showing the steps in construction of a Navajo Hogan, and prints of these copy negatives sent off to Dr. Ruth Underhill of the Education Department of the United States Indian Service. Dr. Underhill plans to use them in a forthcoming publication on the Navajo Indians.

## Region Three Office Loan Library

Accessions for the month totalled 102, consisting of 18 books, 3 reports, 51 pamphlets, and 30 periodicals.

King rearranged the current periodical file.

Books received were:

## Southwestern Monuments Association

Treasurer Alan Vedder worked 22 days, which is the greatest number of any month he had held the position. This was due to increased work, such as preparing purchase orders to stock headquarters for mail sales, checking old invoices and purchase orders, posting journals, checking donations, posting turn-ins, etc. A total of 310 covers were mailed including 21 letters, 78 purchase orders, 1 disbursement, and 2 deposits including 57 items.

Page proof for an Association pamphlet on Montezuma Bell was sent to the printer March 22.

Copy was prepared and sent to the printer for the Association's first mailing which is expected fairly early in April.

The Director of the National Park Service accepted the deed for the Hubbard property near Aztec Ruins National Monument, which was tendered to him by this Association.

Display cases were finished for Tumacacori and White Sands, and the former was delivered before the end of the month.

The Association received a donation of 4,750 stencils from a local publisher, and employed a clerk to place these in order.

During the month the Association continued to donate postage so that the Regional office could answer informational requests and letters of application for employment.

Because the Association will list subscriptions for New Mexico Magazine, the editor kindly placed all of the national monuments in New Mexico on his free mailing list.

## Ruins Stabilization

Steen continued work of repointing and capping walls at Casa Grande with caliche. He experienced difficulty in excavating caliche on the monument, but was able to make arrangements to obtain a good supply from the Arizona State Prison in Florence. He expects to complete the Casa Grande work and return to Santa Fe the second week in April.

## Aid to Administrators

Regional Archeologist Erik A. Reed and Zing visited the University of New Mexico March 8, conferring with Anthropologists Hill and Reiter and Comptroller Popejoy regarding the proposed exchange of university lands in Chaco Canyon National Monument. General agreement was reached on most matters, and this long-delayed project appears to have a chance for consummation.

Discussions were had with a salesman for a duplicating machine which perhaps can be purchased for the Regional Office.

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of March, 1948:

GENERAL: Extremely cold and stormy weather has been the rule throughout the month and the travel has been down to a minimum due to snow and slick approach roads. This has been the coldest March this country has experienced for many years.

TRAVEL: A total of 43 cars and 133 people visited the area during the month, with representation from Arizona, California, Colorado, Idaho, Illinois, Michigan, New Mexico and Utah. The bulk of the travel was from Colorado, Idaho and Utah.

INTERPRETIVE SERVICES: Two guided trips were taken during the month into the Devils Garden, Windows and Courthouse Towers sections with 4 people. Twenty six visitors were contacted at headquarters and 17 people in the Windows section. One hundred and sixteen people visited the Windows section unattended. Fourteen requests for information were received and answered during the month.

WEATHER: Snow fell on February 28th and March 2nd, 3rd and 4th with rain on March 19th and 20th. Cold winds blew intermittently all month and freezing temperatures were experienced each night until March 20th.

PRIVATE LANDS: The Abstract of Title and Warranty Deed, covering the purchase of the Turnbow property, was submitted to Regional Office for action.

NATIONAL PARK SERVICE VISITORS: Landscape Architect Allenman of Region Three Office arrived at the monument on March 8th. We spent from the 9th to the 13th on the inspection and alignment of roads being constructed by Grand County and looking over various sites for trail construction in the vicinity of Delicate Arch.

NEWSWORTHY VISITORS: Mr. Jack Bred, photographer from Tucson, Arizona

Memorandum for the National Park Service, Washington, D.C.

The following is a summary report for the National Monument for the month of March, 1901:

General: The weather was very warm and the wind was from the south. The country was very fertile and the soil was very rich. The people were very happy and the country was very peaceful.

Local: A number of people visited the monument and the people were very happy. The people were very friendly and the country was very peaceful. The people were very happy and the country was very peaceful.

Remarks: The monument was very beautiful and the people were very happy. The people were very friendly and the country was very peaceful. The people were very happy and the country was very peaceful.

Page 2, Arches Narr. Rpt., March, 1948.

stopped by on March 11th to advise me that he would pay another visit to Arches during May or June.

Josef Muench, photographer from Santa Barbara, California, visited the area in company with Harry Goulding of Monument Valley on March 13th, 14th, 15th and 16th. He covered the Devils Garden, Delicate Arch, Windows and Courthouse Towers and was so well pleased with the possibilities of the area that he plans to return in April for further work.

GENERAL PUBLICITY: The Utah State Department of Publicity and Industrial Development held a showing of colored movies at Moab on March 24th. Included in one subject "The Crimson Cliffs", were several shots of the features of Arches and Natural Bridges National Monuments, as well as features at Deadhorse Point and Monument Valley. They have 25 duplicates of this picture being shown throughout the United States and it will certainly go far toward publicizing Southeastern Utah.

COOPERATING GOVERNMENTAL AGENCIES: Very little was accomplished on road construction by Grand County during the month. Extremely cold and stormy weather made construction very difficult. About 1 mile of the Delicate Arch spur has been roughed out with the bulldozer leaving approximately  $\frac{1}{2}$  miles yet to be constructed. Most of the heavy dozer work has been done on this spur and the balance should go fast. The grader has the Devils Garden spur in good shape, with the exception of the last  $\frac{3}{4}$  mile which is in shale and has been too wet to finish. One trip was made by the grader over the portion from the Balanced Rock to the top of the switchbacks and ditching was completed on one side. Surfacing has been stockpiled for use on the Devils Garden spur. The crew left the job on March 13th to accomplish much needed maintenance work on various county roads and it is hoped that they will be available to finish the monument roads by April 5th. It is possible to reach the Turnbow cabin via the new road by using the Salt Valley Wash for part of the distance. The Devils Garden spur is impassable for visitors due to a stretch of about 150 feet of heavy sand that has drifted into one of the cuts. It is hoped that the use of snow fence will eliminate this trouble.

SPECIAL ACTIVITIES: On March 1st I accompanied the three Grand County commissioners on a trip over the new roads being constructed to the various sections of the monument. They were very enthusiastic over the work accomplished to date.

ROADS: The state maintenance crew spent 5 days on the maintenance of the Windows approach road during the month. It was graded on February 27th and 28th, but storms shortly thereafter washed out several short sections and it was in poor condition until March 17th, when they spent three days in putting it back in shape. It is now in fair condition.

stopped by on the 11th to advise us that he would pay another visit to Archon during the summer.

Joseph Edward, photographer from Santa Barbara, California, visited the area in company with Harry Campbell of Monterey during the week of April 1st, 1968 and 1969. He observed the Devils Postpile National Monument and was well pleased with the possibilities of the area that he plans to return in April for further work.

[illegible]

of the Valley. The Valley is a narrow strip of land, only a few miles wide, and is surrounded by high mountains. The Valley is a fertile plain, and is one of the most productive regions in the country. The Valley is a beautiful region, and is one of the most attractive places in the country. The Valley is a great place to live, and is one of the most desirable places in the country. The Valley is a great place to visit, and is one of the most interesting places in the country. The Valley is a great place to work, and is one of the most profitable places in the country. The Valley is a great place to play, and is one of the most enjoyable places in the country. The Valley is a great place to live, and is one of the most desirable places in the country. The Valley is a great place to visit, and is one of the most interesting places in the country. The Valley is a great place to work, and is one of the most profitable places in the country. The Valley is a great place to play, and is one of the most enjoyable places in the country.

On the 1st of March, 1900, the first of the series of cruises was made. The weather was very unfavorable, but the work was pushed to the limit. The results of the day's work are given in the following table:

1. The above information was given to me by the witness on 10/10/50. The witness is a reliable source of information and has been reliable in the past. It was given to me in confidence and I am not to discuss it with anyone. It is now to be kept confidential.

Page 3, Arches Narr. Rpt., March, 1948.

**MAINTENANCE:** Merle E. Winbourn of Moab, Utah was entered on duty as laborer, Leadman on roads and trails maintenance on March 4th. He was laid off on March 5th, pending approval of employment papers, but hope to have him back on the job April 1st.

The 3 KW power unit ceased functioning again during the month. It was found that two valve springs had broken this time, it seems to have a weakness for breaking valve springs. It was repaired and again in operation on March 24th.

The water installation at the Windows parking area was opened for the summer on March 26th. The drinking fountain, etc was set-up and the tank filled by hauling water from headquarters.

Funds have been made available for the reroofing of the warehouse. It is hoped that this job can be completed during the coming month.

NATIONAL PARK SERVICE  
AZTEC RUINS NATIONAL MONUMENT  
AZTEC, NEW MEXICO

24 March 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows the report of activities in Aztec Ruins for March 1948.

**WEATHER:** The weather has been cold and brusque during most of the month with the last few days tempering toward Spring. Travel has reacted accordingly with a recent increase in visitation.

**MAINTENANCE.** The clearing of brush around the recently acquired Hubbard Mound has been commenced,

The Chaco Canyon crew has taken all of the usable logs from the roof of the small covered kiva "E" for treatment at Chaco. When the job is completed they will be returned for use at Aztec.

The water system is being worked on during spare time, at the residence, the museum and at the well site. The heating unit on the hotwater tank had become completely filled with lime deposits and was replaced. The waste disposal from the residence was cleaned, the sewer pipes having become completely occluded.

**SPECIAL ACTIVITIES.** The Custodian presented a talk on the National Park Service, illustrated by the Carlsbad film and the Four Corners film to a local organization March 15. These films are certainly appreciated by all who are able to enjoy them and we wish there were more time, as well as more pictures for presentation.

On a recent day off the Custodian and Mrs. Townsend enjoyed an aerial visit to Hovenweep, Natural Bridges, Monument Valley, Rainbow Bridge, Marble Canyon, Zion National Park, Bryce, Canyon de Chelly and Chaco Canyon. There is certainly much rough country one misses (or doesn't miss) while taking this circuit.

**TRAVEL.** There was a decrease this month of 100 visitors as compared to March 1947. This month we had 330 visitors in 104 cars from 23 states and Hawaii.

**VISITORS.** H.A. and Mrs. Powers and family, Park Naturalist, Hawaii National Park, visited March 20. They expressed considerable regret at not being able to get into Mesa Verde because of snow, altho they drove up to the entrance.

**Interpretive Services.** Of the 330 visitors in 89 trips who enjoyed our museum there were 218 in 60 trips conducted thru the ruins.

DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
BANDELIER NATIONAL MONUMENT

SANTA FE, NEW MEXICO

March 29, 1948

Memorandum for the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of March, 1948.

Weather

In this year of record weather another one was broken during this month. The low of -6 degrees on the 11th. is the lowest temperature recorded during March since weather records have been kept in this area. The high of 72 degrees on the 23rd. thawed us out some, however, and we began to think that spring might arrive here after all. There was a total of 9.7 inches of snow during the month and 1.23 inches of moisture.

Special Activities

The Custodian continued to spend much of his time in the office on clerical duties. Mr. U. D. Walker, Artesia, N. Mex. was selected to fill the clerks vacancy but he declined after some delay which still leaves us short handed.

Roads and Trails

It was necessary for the maintenance crew to spend a good deal of time on the approach road to keep it passable after the snow started to melt off. Ditches were opened, water was diverted from the road and culverts were opened to help to take care of the runoff. A few windy days helped to dry out the road and by the end of the month it was in fairly good condition.

The section of trail below the lower falls in Frijoles Canyon that was cleared of rock earlier this year was surfaced with dirt and gravel.

Work was begun on the repair of the trail bridges on the trail to Ceremonial Cave. Practically all of the timbers are having to be replaced.

Work had been completed on the overhauling of the diesel patrol grader by the Atomic Energy Commission at Los Alamos, N. Mex. but there will be a delay in putting it in use because of the necessity of ordering some missing parts.

## Interpretation

Of the 397 visitors to the Monument, 258 visited the ruins in 54 parties. An average of 70 minutes was spent with each party. A total of 118 persons were guided through the museum and 300 in all visited it but their stay was short due to the cold.

## Museum Activities

Mrs. Pablita Velarde Hardin, artist from Santa Clara pueblo, has finished the paintings for the museum case on Indian government and has started on the paintings for the case on Seasonal Ceremonies. Some difficulty was experienced with painting some of the figures on glass but after experimenting with fingernail polish as a base the paint went on successfully.

Photographer Haynes spent one day at the Monument taking color photographs of Mrs. Hardins paintings. Almost without exception they came out very nicely.

## Travel

The very poor road conditions during most of the month limited the visitors to 397, which is a little less than half as many as for the same period last year. This reduced the total for the travel year from a decided increase to about the same as last year. However the few good days at the last of the month showed an up surge of visitors that indicates that we will have our hands full as soon as the weather does warm up a little more.

## Concessioners

Concessions operator, Mrs. Frey, returned to the Monument and began preparations for opening the Frijoles Canyon Lodge on the first of May. Some consideration was given to opening the coffee shop on week ends during April but this will depend on warm weather since the building is too cold under present temperatures.

## Inspections

Archeologist Reed made an inspection of the proposed road location, to be constructed by the Atomic Energy Commission, in Sandia Canyon. No archeological sites were found to be visible on the surface of the ground.

Mr. Jesse Nusbaum, accompanied by Mr. Vas Dias visited the area on the 22nd.

Introduction

It was not without its difficulties. The village of the  
is situated. In winter it is almost as quiet as a tomb. A  
half of its houses were pulled down and the rest is all  
ruined. It is said that the village was once a town.

General Description

The village is situated on a hill, and is a very beautiful  
place. The houses are built of stone and are very  
large. The village is very old and has a long history.

## Miscellaneous

Arrangements were completed with the Atomic Energy Commission at Los Alamos to secure six expandable trailers, two of which will come to this area, and four will be distributed to other monument areas. This will improve considerably the housing problem for seasonal personnel.

Information from the National Committee, August 1946.

The following is a report on activities in regard to the National Committee during the month of April, 1946.

### Summary

*F. W. Binnewies*  
Fred W. Binnewies  
Custodian

A reservation adopted by the Board of Directors of the National Committee at its meeting on April 10, 1946, at Santa Fe, New Mexico, was to send a letter to the Secretary of the Atomic Energy Commission, Washington, D. C., asking for the loan of six expandable trailers for use at the monument. This letter was sent to the Secretary of the Atomic Energy Commission on April 10, 1946. The letter was also sent to the Secretary of the War Relocation Authority, Washington, D. C., and to the Secretary of the War Relocation Authority, Los Angeles, California.

### Details

Although only 475 acres, it contains some of the most beautiful scenery in the State. The monument is situated on the south side of the Rio Grande, about 10 miles from the mouth of the river. The monument is situated on the south side of the Rio Grande, about 10 miles from the mouth of the river. The monument is situated on the south side of the Rio Grande, about 10 miles from the mouth of the river.  The new bank was opened on the 11th of  
 the month.

11-11-11  
 11-11-11

CANYON DE CHELLY NATIONAL MONUMENT  
Chinle, Arizona

March 26, 1948

MEMORANDUM for the Regional Director, Region three.

The following is a report on activities at Canyon de Chelly National Monument during the month of March, 1948.

General

A resolution adopted by the Navajo Tribal Council on March 20, 1948 to control prices and collect rental fees based on percentages of gross sales is causing considerable furor among the traders and Navajo Indians. It will directly affect the operation of our operator at Canyon de Chelly, and indirectly the administration of this National Monument.

Weather

Although only .71 inches of moisture were registered here, the surrounding area received much more. Storms have kept the Ganado road in almost impassable condition the early part of the month. Minimum temperatures have averaged lower than normal with a low of 12 degrees. Maximum temperatures were mostly below 45 degrees but have been rising steadily the latter part of the month and have shown a high of 68 degrees.

Administration

A trip was made to Santa Fe to discuss concession affairs on March 24. Eight hours of annual leave were taken in order to accept delivery on a new Chevrolet sedan. A trip was made to Gallup, New Mexico on February 26 to return USI- 31791 which had been undergoing repairs.

Maintenance

The bad weather has held up starting minor repairs on quarters but has necessitated considerable work on roads. We have kept them fairly smooth with the old piece of iron we use as a drag and have filled some of the worse holes on our approach. The Indian service grader made one trip over from Chinle. Spring cleanup and checking and repair of tools has been carried on at spare moments.

Travel

Travel figures fell far below those of past years due, in a large part, to the road conditions and disagreeable weather.

Only 25 visitors were counted arriving in six cars. Two parties comprised of eight visitors were conducted to White House Overlook. A total of four hours was spent in guide and contact work.

REPORT OF THE COMMISSIONER OF THE GENERAL LAND OFFICE  
TO THE SECRETARY OF THE INTERIOR

May 15, 1900

Washington, D. C.

The following is a report on activities in regard to land  
in the State of Texas, 1900.

General

A resolution adopted by the Senate on March 10, 1900,  
in which it was provided that the land in the State of Texas  
shall be sold to the highest bidder, and the proceeds of the sale  
shall be used for the benefit of the State.

Land

Although only a small amount of land was sold in the State,  
the amount of land sold was more than in any previous year.  
The land was sold in the State of Texas, and the proceeds of the sale  
were used for the benefit of the State.

Land

A bill was introduced in the House on March 10, 1900,  
which provided that the land in the State of Texas should be sold  
to the highest bidder, and the proceeds of the sale should be used  
for the benefit of the State.

Land

The land was sold in the State of Texas, and the proceeds of the sale  
were used for the benefit of the State.

Land

The land was sold in the State of Texas, and the proceeds of the sale  
were used for the benefit of the State.

The land was sold in the State of Texas, and the proceeds of the sale  
were used for the benefit of the State.

Publicity

I received word from Dr. Thomas B. Noble of Indianapolis that his book titled "Camera and Cliff dweller" would be published this month. He stated that Canyon de Chelly was the central location.

Postal Service

Mrs. Emma Guillet, the wife of the custodian, has assumed the duties of postmistress at Chinle. For the first time in two or three years I can now be confident of receiving my mail before it first makes the rounds of the reservation.

NATIONAL PARK SERVICE  
SOUTHWESTERN NATIONAL MONUMENTS

COOLIDGE, ARIZONA

Capulin, New Mexico

March 27, 1948.

ADDRESS REPLY TO  
THE SUPERINTENDENT

Memorandum for the Regional Director  
Region Three National Park Service  
Santa Fe, New Mexico

There follows a report of the activities in and around Capulin Mountain National Monument for the month of March, 1948.

Just about one hundred fifty visitors were at the Volcano during March, 1948, bringing the total visitors of the travel year to date to 5,400, and travel for the fiscal year to date to 24,900. There were no special visitors during the month.

Roads on the Monument have been maintained in fair condition up to within one half mile of the top of the volcano, but the last half mile has been covered with from two to six feet of snow almost the entire winter until the last few days. The snow has been melting and the custodian has removed some of it. Only yesterday was the road opened and passable all the way to the top.

The weather, same as last month, has been the chief topic of conversation for the people of the community. 87 1/2 inches of snow has been officially recorded during the past four months, and some traces of rain. A low temperature of 25 degrees below zero was recorded for the first part of this month. Thirty four different days during the past winter the thermometer has been below zero. The lowest reading was in February, 28 degrees below zero. However, spring has arrived all at once, and the snow is all gone except in drifts and we now have a temperature reading, high, 50, low, 24 for the past day or so.

As yet the state has been too busy pushing snow from the main travel arteries to give any attention to the half mile spur between our Monument and Highway 64, but we surely hope to get this graveled during April.

Very respectfully,

Homer J. Farr  
Custodian

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
CASA GRANDE NATIONAL MONUMENT  
COOLIDGE, ARIZONA

March 25, 1948.

MEMORANDUM for the Regional Director,  
Region Three.

There follows the narrative report For Casa Grande National Monument for March, 1948.

General: A new radio station is being built in Coolidge and should be ready for operation about the first of June. They have been looking for a slogan and someone has suggested "Located near Coolidge, Arizona, the home of the Casa Grande Ruins". With this being sent out over the airways morning and night, it lookslike we aregoing to get some high pressure advertising, whether we like it or not. With our pump now drawing water from the 140 foot level, instead of the 102 foot level we feel much safer and are'nt worrying too much about running out of water for another year at least.

Weather: A faint hint of what is coming this summer in the way of heat was experienced on the 13th with a temperature of 82 being registered. Low minimum for the month was 24 with a high of 52. .20 inches of rainfall were measured.

Visitors: March 1948-4355: March 1947- 4193: Travel year to date- 1948 24,775: Travel year to date- 1947 22,082. This is a drop from February totals but is an increase of 162 over March of Last year. For the tenth consecutive month our records show an increase in travel and for the past three months we have been in the 5000 per month category. Records issued by the Chamber of Commerce indicate that there is now no lack of accomodations for winter visitors and there is a drive on to get the visitors here earlier in the season and to keep them here longer.

Interpretive Services: Of the 4355 visitors to the area, 3112 made the ruins trip in 202 groups, averageing 51 minutes per trip. 2819 made the museum trip in 189 groups averageing 28 minutes per trip. 1243people visited the area for a quick look but did not make the ruins trip.

Maintenance: With the aid of the Indian Service Irrigation crew the suction cylender on the pump was lowered to 140 feet in the well. 3/5 of the old wooden storage garage was torn down, the lumber and tin cleaned of nails, and piled in the truck ready for moving away. Shutters and windows in quarters # 6-3 and in the pump house were painted. The pressure air line in the pump house was replaced and changes in valve arrangements made. A new twelve drawer work bench was built in the pump house. The barrow pits were cleaned out along the approach road. The boundry fence was checked and "No Hunting" signs were

1990-1991 was a very difficult year for the United States. The economy was in a deep recession, and the government was facing a large budget deficit. The Clinton administration was in its first year, and the country was still recovering from the end of the Cold War. The year was marked by several major events, including the signing of the North Atlantic Treaty Organization (NATO) expansion agreement, the signing of the Dayton Accords, and the signing of the Kyoto Protocol. The year also saw the beginning of the Clinton administration's efforts to reform the federal government and the economy.

COOLIDGE, ARIZONA

put up. The electric range in quarters 2-4 has been causing much trouble and considerable time is spent keeping it in working order until it can be replaced, the needed parts are unobtainable. The roofs were checked again after the rains and were patched where needed.

Ruins Stabilization: Archeologist Steen and his crew have almost completed the thick first coat of caliche cap on the walls and have gotten a good start with the last thin coat of caliche which they are painting on with brooms. They were forced to lay off several different days due to the rains but worked the following Saturdays to keep on schedule. They expect to finish up in the first week of April. Laborer Leadman Woodruff had an attack of some type one morning and was off the remainder of the day but has been on the job ever since and feels fine.

Administration and Protection: Assistant Regional Director Davis and Chief Clerk Castellum were here March 3 to go over administrative matters. Signs were put up at the Adamsville Site for the protection of the area.

Trips Taken: February 25 & 26, Mechanic Stonehocker was at Organ Pipe Cactus National Monument, February 27 and March 5 he was in Phoenix for repair parts. On March 8 Custodian Bicknell went to Tucson to see Mr. J. D. Rockefeller Jr. and on March 13 he went to Phoenix on Monument business.

NPS. Visitors and Visitors of Note: On February 27 Ranger Wilde of Saguaro and Mr. Frost visited the area to pick up equipment. March 3 General Operators Byrum C. Woller and Marvin O. Boulton of Big Bend picked up the International Tractor. March 8 Custodian and Mrs. Sharpe of Tonto brought in the pickup and light plant for repair.

Mechanics Activities: General Repairs were made to the following equipment:

Area From.	Equipment.
Organ Pipe Cactus	Road Grader
Saguaro	Chevrolet Pickup Light Plant
Casa Grande	Chevrolet Pickup Well Pipe and Repairs
Big Bend	International Tractor

UNITED STATES

~~Chaco Canyon~~-----NATIONAL MONUMENT

~~Bloomfield, New Mexico~~-----

~~March 26,~~-----, 19~~48~~

MEMORANDUM for the Regional Director, Region Three,  
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of March, 1948.

There were no visitors to Chaco Canyon this past month due to the condition of the roads. Old timers state that this past was one of the longest drawn out and wettest winters in their recollection. The roads have been a sea of mud. A trip to the highway took hours instead of minutes. The roads seemed at times as if they had no bottoms. In regard to this, the Farmington Chamber of Commerce and many business men have been kept informed. In part concerning the roads, the Secretary of the Chamber made a trip to Santa Fe and was promised that improvement of the Chaco road situation would be made by the State Highway Department. Therefore, the bad roads of the past winter, may prove a blessing in the long run.

The Custodian took annual leave, expected to be gone about eight days, but unusual weather conditions were encountered, also, sickness in the family. He was gone a total of 22 days!! Gordon Vivian was acting custodian in the interim, and as is usual with Gordon, he made an excellent job of it.

The coldest this month was 9 degrees Fahrenheit on the 12th of March, and the warmest was 68 degrees on the 23rd of the month. The total precipitation was .71 of an inch.

The tree planting program was delayed one week by the condition of the roads. However, in the past few days, the trees have been brought in from Bernalillo, and the planting is underway now.

Several days were spent this month in preparations for the Soil and Moisture program. The truck was put in shape for the trip, the tools were sharpened and the like. Also, several days were spent repairing the roads.

On a number of occasions this month, livestock have been driven off the Monument when they were near the fence. Nevertheless, those on the interior of the area were not driven off because of the lack of a horse.

The Trading Post was repointed. The Operator believes that the job was well worth the money spent for he figures that he will save one fifth to one fourth on his fuel bill. The number of rugs taken in this month nearly doubles that of any month recently. The sales are still holding up, too. He has contacted a Navajo silversmith who is to make jewelry for the Trader this year. If he can arrange it, the Operator wants to place the Navajo working in the store building where the visitors can watch him.

Projects for the ensuing months:- continue the tree planting; be in the painting and building repairs again; get the roads in shape; caulk and connect the water tank and get ready for the summer visitors.

There follows the report of Archaeologist Gordon Vivian.

Irving McNeil, Jr.  
Custodian

Some of my time has been taken up with visiting Bureau administration during the absence of the Marketing Service due to illness. Two parcels were made through the mail this week of the Bureau. These are clothing and shoes. The mail a half hour later were taken on the 10th and 11th.

There were 12 mail drops sent off the line, three were half pounds. 12 mail trips were made out -- one to Navajo in the early part of the month and three later in the month to pick up freight and the 10th and 11th were made. 12 mail trips were made out -- one to Navajo in the early part of the month and three later in the month to pick up freight and the 10th and 11th were made.

In the month two trips were made to Navajo Park, two trips to Fort Dodge for supplies while the contractor refused to deliver because of road conditions, one to Navajo and three for supplies and freight and three to Navajo to mail all of the mail things from Navajo for Navajo.

Bloomfield, New Mexico

March 28 1948

MEMORANDUM for the Custodian,  
Chaco Canyon National Monument.

There follows the report of Mobile Unit activities in your area for the month of March 1948.

This is the year that March came in like January. As a result of continued freezing nights, snow and wet conditions in the ruins, repair was not resumed at Chetro Kettle as planned for the last half of month.

The crew consisted of the archeologist, archeologist aide and one Navajo employed as needed.

Some of my time was taken up with routine Monument administration during the absence of the Custodian March 2nd to 23rd. Two patrols were made through the central part of the Monument. None to detached sections. One and a half days leave were taken on the 25th and 26th.

Roads were in bad shape most of the time. When they were half passable 12 truck trips were made out -- one to Thoreau in the early part of the month and three later to Gallup to pick up freight and the 200 sacks of cement recently contracted for.

To the north two trips were made to Blanco Post, two trips to Farmington for gasoline which the contractor refused to deliver because of road conditions, one to Durango and Aztec for supplies and freight and three to Aztec to haul all of the roof timbers down here for treatment.

NATIONAL MONUMENT

Charles S. Sargent

Stamford, New Mexico

March 19 1914

Director for the National  
Charles S. Sargent National Monument

There follows the report of Mr. S. S. Sargent in your area for the

month of March 1914.

This is the year that has been in like last year. As a result of

continued freezing nights, snow and wet conditions in the winter, repair was

not resumed at Sargent's Hotel as planned for the last half of month.

The crew consisted of the archeologist, archeologist and one helper

employed as needed.

Some of my time was taken up with routine monument administration during

the absence of the archeologist March 2nd to 12th. Two patrols were made through

the central part of the monument. One to detached sections. One and a half

days were taken on the 25th and 26th.

Goods were in bad shape most of the time. When they were half usable

12 truck trips were made out -- one to Thoreau in the early part of the month

and three later to Gallup to pick up freight and the 200 sacks of cement

recently delivered.

To the north two trips were made to Blanco Fort, two trips to Farmington

for gasoline which the contractor refused to deliver because of road conditions,

one to Gallup and later for supplies and freight and three to take to Gallup all

of the road timber down here for treatment.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

There are 250 timbers from the small Aztec kiva not counting odds and ends, chinking etc. They've been sorted and decayed parts of the usable ones trimmed out. Of the 250 some 185 will be usable when sound portions of the larger pieces are salvaged. Damage to the timbers appears to be about equally divided between decay from moisture and wood borers of some kind.

A vat of barrel halves welded together was constructed in which 2 to 4 logs at a time are being soaked in the Penta Preservative solution. Sixty have been treated to date.

Some progress was made on the manual. Photographs for stabilization records were assembled and a little typing done on duplicate copies of the records. A few more pieces of the wood material from Chetro Kettle were put together and the vegetal material returned from the University of New Mexico was sent off again to Ann Arbor.

A fair supply of concrete lintels for future repair work <sup>was</sup> ~~was~~ cast.

CHIRICAHUA NATIONAL MONUMENT

\_\_\_\_\_ Dos Cabezas, Arizona, \_\_\_\_\_

March 26, \_\_\_\_\_, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is the Monthly Narrative Report of activities at Chiricahua National Monument for March, 1948.

General. The interiors of the three residences were painted, shower room plumbing repaired, campground restocked with fire wood, and routine duties performed during the month. Three official trips were made to Willcox, and one to Rodeo for supplies and freight. One trip was made to Tucson for wage board data and supplies.

Weather. High winds and general cold weather predominated throughout the month. Several light flurries of snow occurred at the higher elevations. Precipitation recorded at headquarters totalled .18 of an inch. Spring water flows on the monument are somewhat better than last year but hardly up to normal. A small stream of water has started flowing past the administrative building in Rhyolite Canyon, where none flowed last year. However two years ago and previous there were good flows of water down this canyon for a couple of months each winter.

Inspections. Assistant Regional Director Davis and Chief Clerk Gastelum spent the 17th and 18th discussing Chiricahua's various problems and projects.

Maintenance. Due to freezing and thawing there has been considerable rock fall in the roads and trails. Road maintenance has continued throughout the month. The road has been graded and as much of the rock removed and ditches cleaned as time would allow.

Ten man days were spent on the telephone system brushing out the line toward Portal and repairing minor trouble. We hope to be able to complete the line maintenance both to Portal and Sugar Loaf before fire season rolls around.

Our Jefferson-Travis radio is again in operating condition and contact with Saguaro and Organ Pipe Cactus will be resumed.

Approaches to Park Area. The approach roads are in poor condition this month and several complaints were received. The Douglas approach road is under construction for paving and some ten miles is considered "Dangerous but passable", and the Bowie and Willcox roads need grading

Discipline, Institute National Training Corps and State Police  
Operations Manual for JPR and JPR Development Division's mission  
to train and develop.

1. The first step is to identify the problem. This is done by asking the following questions: What is the problem? What are the symptoms? What are the causes? What are the effects? What are the consequences? What are the risks? What are the opportunities? What are the challenges? What are the solutions? What are the alternatives? What are the options? What are the choices? What are the decisions? What are the actions? What are the steps? What are the tasks? What are the responsibilities? What are the roles? What are the functions? What are the duties? What are the obligations? What are the commitments? What are the promises? What are the agreements? What are the contracts? What are the deals? What are the transactions? What are the exchanges? What are the interactions? What are the relationships? What are the connections? What are the links? What are the ties? What are the bonds? What are the connections? What are the links? What are the ties? What are the bonds?

There was also some work on the relationship between the two  
lines between which the twisted wire was placed. It was found  
that the twisted wire was not as strong as the straight wire  
and that the twisted wire was not as flexible as the straight wire.

Our Information Service helps in operating conditions and  
 constant view of the world and the future will be necessary.

1. Introduction (10-15 min). The speaker should first introduce the topic and then state the purpose of the presentation. This may be done by stating the importance of the topic and the need for the presentation. The speaker should also state the objectives of the presentation and the topics to be covered. This may be done by listing the topics and the objectives. The speaker should also state the time available for the presentation and the time for questions and answers. This may be done by stating the time and the time for questions and answers.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

badly. The road over the mountains from Rodeo remains closed and probably will receive no work until sometime in May.

Interpretive Service. 606 persons in 182 parties were contacted in the museum. One auto caravan and two hikes over the trails were conducted.

Travel. Travel fell below that of last year by an even 600 visitors. This is probably due to the poor condition of approach roads and unfavorable weather conditions. Total travel for the month was 838 visitors in 241 cars.

Building Fire Protection. Ten lengths of 1½ inch hose were received and also a fog-nozzel. This hose is to replace our 2½ inch hose which will be shipped to Petrified Forest as soon as adapters are received so that the 1½ inch hose will be usable. With this hose distributed to our four fire hydrants we should have quite good building protection.

Water System. The spring reservoir was cleaned out and new screen installed. Meter readings and a study of the water flow in accordance with instructions received from Engineer Lassiter are being continued. Present indications are that the system will take care of all our needs this year. Two Sunday School conventions had to be refused the use of the camp ground last year due to the small flow of water.

BUREAU OF LAND MANAGEMENT

badly. The road over the mountains from before leaving about 1941  
probably will receive an asphalt surface in 1942.  
Investigative Report. 600 persons in 1941 parties were conducted  
in the museum. The area covered and the hikes over the hills were  
not dated.

Travel. Travel fell below that of last year by an even 600  
visitors. This is probably due to the poor condition of highways  
roads and unfavorable weather conditions. Total travel for the month  
was 300 visitors in 1941 cars.

Building fire protection. Ten tenths of 10 inch hose were received  
and also a fire alarm. This hose is to replace the 10 inch hose  
will be added to the existing hose as soon as it is received so that  
the 10 inch hose will be complete. With this hose distributed to our  
four fire stations we should have quite good building protection.

Water system. The spring reservoir was cleaned out and new pipes  
installed. Two new lines and a body of the water flow is now being  
with installations received from another location are being completed.  
Present indications are that the system will take care of all our needs  
this year. Two Sunday school conventions and a released the use of  
the camp ground last year due to the small flow of water.

~~El Morro~~ NATIONAL MONUMENT

~~Ramah, New Mexico~~

~~March 25,~~ 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in El Morro National Monument for the month of March, 1948.

WEATHER: From nine storms during the month we received 31 inches of snow and 1.81 inches of precipitation. Maximum temperature reached 60 degrees and the minimum dropped to 15 degrees below zero.

APPROACH ROADS: Both roads were impassable for tourists during the entire month and even the local gente would not venture forth except on tractors. This Custodian on a return trip from Gallup made a good start on a subway between Ramah and El Morro. There comes a ray of hope for the future, however, from Charlie Carter. Charlie reports that the P.R.A. has received a formal request from the State Highway Dept. for federal aid on the construction of a portion of Highway #53, i.e., Ice Caves to the Zuni Reservation line, via El Morro and Ramah, and that they had approved this project.

TRAVEL: No Hay! For the first time in two years we ring up a goose egg visitor count.

RADIO CONTACT: Only two contacts with Chaco Canyon were made this month. Mac has been on annual leave and I spent the last scheduled Sunday in a mud hole. Contact with the Regional Office has been very good and convenient.

GENERAL: A full week was spent in completing a very tardy inventory. Outside of the trips to Gallup for supplies the remaining time was spent in the office on file work.

Number of copies of free publications on hand as of the end of March, 1948.

#### GRAN QUIVIRA, NEW MEXICO

Memorandum for the Regional Director, Region Three. The following is a report of activities at Gran Quivira National Monument for the month of March, 1948. MARCH 25 1948 48

The following is a report of activities at Gran Quivira National Monument for the month of March, 1948.

General. March came in like a lion, which was in keeping with the way February departed. Travel was less than 50% of March last year. The road to Mountainair is in good shape now, but the Carrizozo approach around Claunch is practically closed by drifting sand. The last week has brought the first "bona-fide" tourists in some months.

Weather Conditions. Snow on February 26 and 27 and March 1, 3, 4, 9, 10, 11, 15 and 18 totalled 0.84 inches of moisture. I am assured by the local residents that the minimum of zero on March 5 and 10 below on March 11 set new records, or were at least "very unusual".

Special Activities. The custodian was in the Regional Office March 17 & 18 discussing the repair and rehabilitation program and other monument matters.

Work is underway on a wage-board survey.

PCP sheets and priority lists were revised and submitted.

A 2000 word article on Gran Quivira for possible publication in the New Mexico Magazine was prepared during the month.

Maintenance. Several days were devoted to dragging and filling holes on the entrance road, water and wood were hauled, and the pressure pump cleaned and oiled. New tool racks were constructed in the pump house as there will not be room for them in the present tool house after it is reconverted.

The new 150 gallon water tank transferred from Bandelier was mounted on the trailer.

On March 4 a truck driver, evidently in a hurry, missed the turn at the overpass coming out of Mountainair. Among other things he removed 3 telephone poles. The custodian and Mr. McGrady devoted March 6 to repairing the damage.

1. The first part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

2. The second part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

3. The third part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

4. The fourth part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

5. The fifth part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

6. The sixth part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

7. The seventh part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

8. The eighth part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

9. The ninth part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

10. The tenth part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

There will not be more than in the present time, as it is  
 stated and cited. The fact remains that in the past there  
 on the subject of, and, after the war, and the present  
 covered by the law is divided and still a law.

The new ISO 9000 series has been developed from ISO 9001 and ISO 9004.

[illegible]

Repair and Rehabilitation. Bids are being prepared in the Regional Office for lumber to re-roof the old tool house. Work on repairing the walls and floors should begin shortly after April 1.

Arrangements have been made to have the living room replastered sometime in April.

Approaches to Monument Area. The Mountainair approach was graded on March 9 and 22, and is now in good shape. G. I. Martin, contractor, now has the base coat on approximately  $7\frac{1}{2}$  miles of the  $8\frac{1}{2}$  under construction. The Carrizozo approach is alternately impassable and nearly so between here and Claunch due to blowing sand.

The state maintainer made two trips over the Monument entrance road on March 22, which put it in good condition. Such cooperation is appreciated.

Interpretive Service. 13 parties totalling 37 visitors were conducted through the ruins. Average trip time, 41 minutes.

Research and Observations. The Monument bird calendar and files were reactivated March 1. They had lapsed since 1943. Two pairs of Cassin's Purple Finch were observed February 27, a new record for the monument. Six American Merganser were observed outside the Monument area, a new record for the vicinity.

Increase or Decrease in Travel. Bad weather and roads through March 18 cut the travel to less than one-half of last year's. As indicated below travel for the travel year is also considerably behind 1947.

	<u>CARS</u>	<u>VISITORS</u>

Custodian.

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the People of the East (CLPE) in the United States. This is a serious matter, as the CLPE is a known and active organization which has been operating in the United States for many years. It is therefore essential that the Commission be kept informed of any developments in this regard.

...and the ...  
...and the ...

The following information was furnished to the Bureau by the Department of the Interior, Bureau of Land Management, on 10/10/61:

The State Department will not say what the document contains, but it is expected to be a report on the activities of the Soviet Union in the Far East.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The process of urbanization is the movement of people from rural areas to urban areas. This is done for a variety of reasons, including the search for better living conditions, the desire for education, and the need for employment. The process of urbanization has led to the growth of large cities and the decline of small towns. This has had a significant impact on the way we live and work. For example, it has led to the development of new technologies and industries, and it has changed the way we think and behave. The process of urbanization is still going on, and it is likely to continue for many years to come. This means that we need to be prepared for the challenges that it will bring. One of the main challenges is the need for housing. As more people move into urban areas, there is a need for more housing. This can be met in a variety of ways, including the construction of new housing and the renovation of existing housing. Another challenge is the need for transportation. As more people live in urban areas, there is a need for more transportation. This can be met in a variety of ways, including the construction of new roads and the development of public transportation systems. The process of urbanization is a complex one, and it is one that we need to understand if we are to live and work in the 21st century. It is a process that has shaped the world as we know it, and it is one that will continue to shape the world for many years to come. We need to be aware of the challenges that it brings, and we need to be prepared to meet them. Only then can we ensure that the process of urbanization is one that benefits all of us.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE  
GREAT SAND DUNES NATIONAL MONUMENT  
MOSCA, COLORADO

March 26, 1948.

MEMORANDUM for the Regional Director,  
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for March, 1948.

WEATHER. This has been a long, hard winter and it is hoped that the pleasant weather of the past few days really means that Spring is coming to stay in the San Luis Valley.

The snow gauge at Wolf Creek Pass which measures twelve feet, was for the first time, buried in over this amount of snow. If the snow in the surrounding mountains, should suddenly thaw and pour into the valley, there would be a serious flood condition for both the San Luis valley and the Rio Grande river.

A minimum of 10 below zero was registered on March 11. The maximum of 66 above was reached on March 24.

Snow fell on February 29; March 1,2,3,4,5,8,9,10,15,16,18,21 and 25.

Strong winds blew on February 29; March 1,3,4,6,9,10,14,17,20, 24 and 25.

Our 5th and we hope last severe storm from the northeast occurred on March 3 and 4.

Our good luck piece of last year, Herkimer the chipmunk, showed up on March 19, but todote has not charmed the water line into thawing as he did a year ago.

TRAVEL. One hundred and two visitors in fifty-one cars visited the Sand Dunes during this report period.

Fifty cars came from Colorado; one car from New Mexico. Very few cars ventured down the road to the lower picnic area.

One written request was received and ten informational leaflets were sent to a Kentucky Travel Bureau.

RECEIVED  
JAN 10 1964  
U.S. DEPARTMENT OF AGRICULTURE  
WASHINGTON, D.C.

DECREASE IN TRAVEL. Although travel was triple that for last month, it is still very low due to weather and poor roads.

For March 1947, there were 82 cars; 256 visitors.

ROADS. The approach road from Highway 17 is rough and for the most part of the report period, it was wet and muddy. The grader was busy in the lower sections of the road, trying to spread the ponds of water to allow the road to dry for further blading. It is understood more work will be done as soon as conditions permit.

The monument road to headquarters is in good condition todate, due mainly to proper grading and drainage. However, with the strong winds now drying out the road, it won't be long until it is the usual washboard road.

The road to the lower picnic area is very poor with deep ruts and much mud. As soon as conditions permit, the road will be dragged with the state loaned railroad iron drag.

N.P.S. VISITORS. Architect Saunders and Acting Regional Chief of Lands Kell visited the monument on March 3. The weather was very nasty during their visit but it was nice having their company, and we could all suffer together.

Saunders went over furnace installation in the custodian's residence and discussed other repair and rehabilitation projects. This also included the installation of the propane system for the Serval refrigerator.

Kell went over land problems and changes in the boundary.

ACTIVITIES. Usual routine duties of hauling water, fuel oil, gasoline, wood, ashes and garbage. Office matters were kept current.

The 3 KW light plant was repaired at the monument by the Heide Garage. The valves were sticking and the timing was corrected. The plant is again in good working condition.

The Ford dump truck was returned to the Heide Garage in an attempt to try and increase the gasoline consumption.

The Dodge 4x2 was repaired, a new front wheel bearing replaced, grease job and other minor repairs.

Great Sand Dunes National Monument

Although there was a slight drop in temperature,  
it is still very low due to weather and poor season.

For March 1947, there were 25 days; 103 visitors.

The approach road from the north is a rough one for the most  
part of the year. It was not until the winter was  
over in the lower section of the road, trying to avoid the ponds  
of water to allow the road to dry for further travel. It is under-  
stood that work will be done to make the road more comfortable.

The approach road to the north is in good condition. It is  
not really a proper road and is not. However, with the snow  
which was lying on the road, it was not long until it was  
no longer usable.

The road to the lower section is very poor at this time  
and much work. As soon as the snow melts, the road will be  
usable and the work done will be finished.

At the moment, the road is not usable. It is very poor  
and the work done is not good. The road is very poor and

The Monte Vista Plumbing and Heating Company was awarded the contract for furnishing and installing the oil furnace in the custodian's residence.

Much time was spent at the Alamosa County Court House on land description in deed books and information obtained for the NPS-L-3 forms for this monument.

A trip was made to Region Three Office on March 22, 23 and 24, to discuss monument and administration problems.

PROJECTS FOR ENSUING MONTH. This should be an exciting month if all goes as planned. Installation of the furnace and propane system.

A trip to Saguache to obtain land description for three sections of land in that county to complete the NPS-L-3 forms.

God willing, the water line may thaw and with improvement in the weather, many jobs can be tackled and perhaps completed.

Ted C. Sowers,  
Custodian.

Great Sand Dunes National Monument

The House of Representatives and Senate have passed the  
bill for the purpose of amending the act in the  
construction of the same.

Such time was spent at the Alaska State House on the  
construction of the same and information obtained for the  
purpose of the same.

A trip was made to Nelson's Office on March 12, 13 and 14,  
to discuss matters and administrative problems.

The Alaska State House. This would be an excellent source of all  
information in the construction of the same and the same of the  
same.

A trip to the Alaska State House on March 12, 13 and 14,  
to discuss matters and administrative problems.

Notwithstanding the above, the Alaska State House is  
the source of all information in the construction of the same and the same of the  
same.

NATIONAL PARK SERVICE

Montezuma Castle National Monument  
Camp Verde, Arizona

March 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of March, 1948.

Visitors this month to Castle and Well - 1589; travel year to date - 8295.

Weather Stormy weather throughout the month has decreased travel. Snow fell on several occasions at Flagstaff and Prescott with snow and rain at the Castle.

Administration Difficulty has been encountered in finding a qualified candidate for our temporary position.

Plans for exhibits in the Montezuma Well museum are being developed. Leaflets for the self-guiding trail at Montezuma Well are needed and are being printed. These are to sell on a serve-yourself basis at five cents each.

Several trips have been made to Montezuma Well to check on remodeling and improvements being installed by contract.

Visitors There were 1172 visitors to Montezuma Castle and 417 to Montezuma Well. Cars counted at the Castle - 346; at Montezuma Well 115. Tickets were sold to 332 visitors; 70 children or Indians were admitted upon payment of tax only and 33 children were admitted free.

Contact Time Total contact hours 137.25. Hastings 82; Leding 55.25. One hundred and eight trips were made through the Castle for 435 visitors and 476 visitors saw the Castle museum in 98 groups. Visitors who received information outside the ruins or museum totaled 304.

Maintenance A bad break re-opened in the roof of Residence No. 2 and efforts were made to temporarily repair it.

The living room in Residence No. 1 was cleaned and redecorated. Ranger Leding repainted the museum and oiled the floor.

Ladders leading into the Castle were given a coat of raw linseed oil.

Approach Roads The county road from McGuireville to Montezuma Well has been widened and improved including the entrance to the Well.

Case No. 10, 1910

... ..

1947 - date

occurred for any temporary position.

For the purpose of this study, the following definitions were used:

13. The following information was obtained from the records of the Federal Bureau of Investigation, Washington, D.C., dated 10/10/68:

[illegible]

...and the public has known and continues to know

Laborers feeding into the Canal were given a coat of red flannel oil.

and if I am unable to give you a copy of the Agreement I will  
send you a copy of the Agreement and a copy of the Agreement to the Agreement.

**Construction and Improvements** E. G. Broughton, Cottonwood contractor started work at Montezuma Well on March 1. He has reshingled and braced the residence roof, installed new cabinets in the kitchen and built closets in the bedrooms. A new vent is being installed for the fuel oil heater. The museum has been re-roofed and the inside walls re-plastered. The flagstone floor in the museum has been covered with a cement floor and a septic system installed for the residence. As soon as painting the interior is completed, the quarters will be ready for occupancy.

**Equipment** A heating stove was purchased for use in the residence at Montezuma Well.

**Research** Sherd collections of archaeological sites at Montezuma Well were completed and the sites were photographed.

**Park Service Visitors** Custodian and Mrs. Riffey were here from Grand Canyon National Monument.

**Regional Architect Saunders** checked work at Montezuma Well on March 16.

**Protection** Two "No more carving, please" signs were made and posted on the picnic ground to protect our sycamore trees from further depredations.

**Vandalism** on three wooden signs was investigated and suspected culprits were warned.

**Publication Sales** Total sales for the quarter was \$139.79 and \$124.04 was collected. The difference is due to serve-yourself sales' shortages and on one occasion the change box was robbed of its entire contents.

Homer F. Hastings,  
Custodian.

law is considered, the company will be ready to accept the law as applied to the individual. It would be applying the law to the company as a whole, but it would be applying the law to the company as a whole, and not to the company as a whole.

That applicant is not a contributing or assisting agent, as defined in 18 USC 878(a)(1), in the commission of any offense prohibited by 18 USC 878(a)(2).

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

RECEIVED BY THE DIRECTOR, FBI, 11/11/68

1. The first of these is the fact that the Commission has not yet received any information from the Government of the Republic of China (Taiwan) regarding the situation in the Republic of China (Taiwan) since the end of the Second World War. This is a serious omission, as the Commission is required to provide a comprehensive report on the situation in the Republic of China (Taiwan) to the United Nations General Assembly. The Commission is therefore unable to provide a complete and accurate report on the situation in the Republic of China (Taiwan) to the United Nations General Assembly.

Information and Technology and Social Science will be applied.

NATIONAL PARK SERVICE

NAVAJO NATIONAL MONUMENT  
TONALEA, ARIZONA

March 23, 1948

MEMORANDUM for the Director, Region Three

There follows a monthly report of activities in this area for the month of March 1948.

WEATHER: Foul. Since our last report we've recorded precipitation on 13 days. High temperature was 54 degrees on the 13th. Low 4 degrees on the 11th. Total precipitation 1.41 inches. Average snow depth was 8.5 inches on the 10th. Fast thawing and a heavy run-off alternating with snow and freezing kept us wishing for a dog-sled and a rowboat.

VISITORS: 50

VISITORS: 43 Pasadena Boy Scouts arrived in a stake truck on the 22nd. They had come to within two miles of the headquarters area in a 40 passenger motor coach but because of the deeper snow and rutted roads above 8700 feet they abandoned the coach and came in in the stake truck. Because of a shortage of time these fellows elected to see Betatakin from the rim. (The road to Segi Point has not yet been opened.) The Custodian broke trail thru drifts 18-20 inches deep to Betatakin Point. We took along the two new telescopes (1907 U.S.S. Milwaukee). These fine old scopes help to bring Betatakin up a lot closer and the cross-hairs can be trained on a feature of special interest such as Kiva, grinding room etc.,. The field of view is so large that the cross-hairs are needed.

ROADS: Good below 8700 feet. Roughly rutted, partially inundated and strewn with snow-drifts above 8700 feet. We have been dragging the lower roads and as snows run off we come higher up with the drag. The entrance road is smooth except for the home three miles.

CASUALTY REPORT: Three months and 294 gallons after we took delivery of 500 gallons of gasoline our converted water tank was empty! Excavating it today revealed a leak in the man-hole we had worked so hard to seal. It is hoped we can correct this failure with another type gasket.

GENERAL: Correspondence and files are current. Some additional work was accomplished on road signs. Some tattered volumes were rebound for the library. A storage cabinet was built and painted for the service porch. The furnace was dismantled and cleaned thoroly. Tons of snow were shovelled and acre-feet of water divereted from roads and trails.

Two trips are on schedule for Kest Seel and the season seems to be starting with a bang!

J.W. Brewer, Jr.,  
Custodian

THE UNIVERSITY OF CHICAGO  
CHICAGO, ILLINOIS

There follows a summary report of activities in this area for the month of April 1966.

CS : 2007.01.01 V

Notes: Good below 8700 feet. Fairly mixed, partially laminated sandstone with some shales above 8700 feet. No trace of a bedding plane here and no more than 10% shale at other levels.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

~~ORGAN PIPE CACTUS~~ NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

March 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of March, 1948.

WEATHER

The weather for March has been cooler than normal with a resulting delay in the flower season. Maximum temperature was 80° on March 23 and minimum was 25° on March 6. The total rain was 0.84 inch, 0.51 of which fell on March 18.

GENERAL

Tom Vint of the Director's Office and Messrs. Davis, Cornell, Lassiter, Levelady, and Gastellum of the Region Three Office visited us on March 4 to 6 in connection with future development of the area and revision of the master plan.

Paul Balch of the Region Three Office inspected the section of boundary fence built last winter and investigated soil conservation problems on March 3 and 4. He then took the Soil and Moisture pickup to Lake Texoma.

Gene Stonehooker brought our patrol grader from Casa Grande on February 25.

TRAVEL AND INTERPRETATION

Travel and interpretive contacts increased considerably with 8692 people visiting the monument. The contact station was manned on only 20 days due to the demands of other work but the number of contacts increased 27%. A large proportion of the travel was from Southern California.

ROADS

G. L. McLane, District Engineer of P.R.A. and Bruce Ellis, County Engineer's Office, made an inspection of the Sonoyta Highway with Mr. Vint and Region 3 officials on March 4.

Travel and information concerning the project was provided to the project manager, who was responsible for the project. The project was completed in 1972, and the results were published in the journal "Journal of the American Statistical Association".

1. The above information is being furnished to you for your information only. It is not to be used for any other purpose without the express written consent of the Bureau of the Census.

## ROADS (continued)

The county has been widening the roadway through dips where loose sand had filled in. A great improvement has been made. A minor accident to an automobile on March 21 due to a bad shoulder in a spot being worked by the county shows that much is still left to do. The county crew has also begun repair of the spots washed most badly by flash floods.

Repair of our patrol grader has enabled the roads and trails man to begin work on patrol roads.

## MAINTENANCE

The pump for the well was pulled and repaired on March 15 and 16. Water was hauled from the border for domestic and campground use while the pump was out of commission.

Another valve spring on the 3 KW Onan light plant broke and was replaced.

## BOUNDARY

An International Boundary Commission surveying party is camped at Quitobaquito and surveying 11 miles west from our boundary for the new fence. Invitations to bid for this contract on this section have been put out.

## PUBLICITY

The influx of Southern California visitors this month came partly as a result of articles about the area and Rocky Point, Mexico appearing in Sunset Magazine and the publications of the California Automobile Association.

Articles by Roscoe Willson of Phoenix appear in the Sunday edition of the Arizona Republic and to date have mentioned the monument and its attractions in each. One article was devoted almost entirely to us.

Publicity about the desert flowers of this area was given by Desert Magazine in an article and by Richfield Oil Co. in their Friday night newscasts.

## ACCIDENTS

A truck with shrimp from Rocky Point overturning against a rock out 2 miles<sup>t</sup> north of headquarters and the car leaving the road as a result of a blowout comprises the list of March accidents.

REPORT OF THE COMMISSIONER  
OF THE GENERAL LAND OFFICE

(Continued)

The survey has been completed and the results of the same have been reported to the Department. A great improvement has been made in the accuracy of the survey and it is now possible to state that the survey is a great improvement on the previous one. The results of the survey have been reported to the Department and the same have been used in the preparation of the map of the Territory.

NATIONAL PARK SERVICE

Saguaro National Monument  
Tucson, Arizona

March 26, 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows the monthly Narrative Report of activities at Saguaro National Monument for the month of March, 1948.

WEATHER. Temperature range during the month was from 79 degrees on March 24 to 31 degrees on the night of February 29, when snow fell at the monument headquarters for the second time this winter. Precipitation totaling approximately one inch occurred on two other days during the month. Although several days were windy, the month as a whole was less so than any other winter month we recall.

SPECIAL ACTIVITIES. The custodian made one official trip, to Casa Grande on March 24, for the purpose of delivering oak lumber for a new truck rack, and to pick up our overhauled 3-KW light plant.

INSPECTIONS. On March 6, Chief of Planning Vint, Assistant Regional Director Davis, Regional Architect Cornell, Engineer Lassiter, and Architect Lovelady made an extensive examination of boundary problems. March 9 and 10 Mr. Davis returned with Chief Clerk Castellum, to work out plans of operation for the remainder of this fiscal year.

COOPERATING GOVERNMENT AGENCIES. Dr. Lake S. Gill, of the Bureau of Plant Industry, was in briefly on February 26, for work in connection with the bacterial necrosis of the Saguaro cacti.

MAINTENANCE. With the exception of one working day, the trail crew has spent the entire month on the improvement of the Madrona - Grass Shack trail. Present work is almost 3 miles above Madrona, which is about the limit for economical work from that location. Plan is to move the crew to Grass Shack the last week in April, water permitting. Minor repairs were made to the Madrona corrals, and the second water fountain replaced. Completion of the planting in the Headquarters arboretum must await next winter's resting period of the cacti; all scheduled planting for this year is completed. The photographic display on the Headquarters porch is likewise completed, but will no doubt be enlarged slightly as an indefinitely continuing project. Ranger Wilde spent one day in repairing three breaks in the telephone line near Madrona Ranger Station, after which service is again possible in a limited way. Bids for repairs to roofs of the buildings at Madrona were received and distributed; bids will be opened on March 30, and we hope that the work will begin soon after that date, as much property in the barn is being seriously damaged by water leaks. The Loop road was dragged once during the month.

Approved: \_\_\_\_\_  
Special Agent in Charge

These follow the specific investigative report of activities of  
various National Government and the month of March, 1942.

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the Americas (CLA) in the United States. The Commission is therefore unable to determine whether the CLA is active in the United States or whether it is merely a front organization for the CIA.

[illegible]

APPROACH ROADS. The Broadway approach road has only been graded once in the past month, and is fairly rough in spots. The Pima County Highway Department has done considerable work on the Vail approach road, widening several blind turns between Headquarters and the Lazy Vee ranch, and eliminating the bad wash just beyond that ranch. However, there have been two very serious accidents at the first turn one mile south of the Monument entrance this past month; one car turned over, and a jeep hit and demolished a large Saguaro when it skidded on the turn. The cactus, which probably weighed two tons or more, came down in a pile, largely on the jeep, and we will never understand why the occupant was not killed. As it was, he suffered serious injury. Placing of a proper warning sign should eliminate most of the danger at this turn. In all, we know of an even dozen wrecks in the first six miles south of here on the Vail road in the past year.

TRAVEL AND INTERPRETIVE SERVICES. All previous records for March of preceding years were broken when 3329 persons visited Saguaro in this 29-day month. This is the second highest total for a single month, and only 86 people less than last month; it is also the third consecutive month in which all previous records for travel of corresponding months has been broken. These visitors registered from 39 states, Guam, Canada, England, and two parties from Denmark. Increase over March, 1947, amounted to 1050 people, or 46 %.

Of the above totals, 1319 people, in 376 parties, were contacted at Monument Headquarters. Total contact time of 105½ hours for the month is second only to that of last month, the all-time record. Average time for each party contacted was 16.8 minutes, a slight drop from February.

PROTECTION. On March 7, while on patrol, Ranger Wilde arrested four hunters who had killed a javelina some two miles inside the monument boundary. He took them before U. S. Commissioner Thomas H. McKay on the following day; the hearing was continued until the 10th, when the Commissioner held all four for the U. S. District Court, on \$200 bail each. Date of trial is uncertain, as the District Judge has been ill for several weeks. Patrols have been made each Sunday this month.

Only one wood-hauler was encountered this month - a decided improvement, and he was stopped just as he was starting to load his truck.

FOREST PROTECTION. The Saguaro Fire Plan was completely re-written, and is being mailed to the Region today, for mimeographing, if approved. All needed supplies and equipment for the fire season is on order as of this date.

PERSONNEL. Ranger Frost took one day sick leave on March 4, and the Custodian was on sick leave the 5th and 6th; old debbil common cold in both instances. Laborer Newell A. Bundy injured his back lifting a rock on the trail the morning of March 8. He was taken to the doctor at once, and finally hospitalized March 10, being released on the 16th. He is still under treatment, and under orders from Dr. Glyne to do no work for at least another week.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

A new wage-board survey was completed by Ranger Wilde, and turned over to Chief Clerk Castellum on the 10th. Indications are to the effect that our rates are somewhat below those paid in this vicinity, and some adjustment seems justified.

MISCELLANEOUS. With some misgiving, and with considerable regret over leaving old friends in the Southwestern National Monuments, the Egermayers will be leaving for Lake Texoma on April 6. In the ten years (lacking 25 days) since we first came into the Park Service, and especially since coming to Saguaro in 1939, we have had many and varied experiences, mostly pleasant. We have learned many things, some of them the hard way, as is not unusual in this group of areas, and have made, we hope, many friends. Our sincere hope is that the next ten years will be as productive of service, knowledge, friendships, and enjoyment as have these just past. Our best wishes stay with all the personnel of the Southwestern National Monuments.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

March 31, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities of Sunset Crater National Monument for the month of March, 1948.

Visitors this month: 422 Travel Year to date: 4042

Travel: Visitation for March has shown a decrease of 14 % from that recorded for the same period a year ago, with 284 persons registering throughout the month. Some visitors have been using the Sunset-Wupatki connecting road, particularly during the latter part of the month.

Weather: With the approach of spring and its accompanying warmer days, the snow has melted and only remnants of the larger drifts remain. Most of the flats and the southern and western exposures are again bare.

Roads: The entrance road from Highway 89 is in fairly good condition. The Saginaw Manistee Lumber Company has been hauling logs to their mill in Flagstaff over the entrance road. Maintenance on the part of the lumber company, has it in general fair condition. The connecting road with Wupatki is open and is in fair shape for this time of the year.

General: Logging activities, which have been concluded for this year, were concentrated to the south of Sunset this spring. For the most part the loggers used only a portion of the approach road, from which side roads were developed, extending to the south and east of the Monument.

Plans are under way for a Rural Electrification development in the area immediately south and west of Sunset. This survey is in progress at the present time. It will serve users along Highway 89 as far north as the Highway Camp. This would bring electrical facilities to within two miles of Sunset Crater.

DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Tonto National Monument  
Roosevelt, Arizona

March 25, 1948

MEMORANDUM for the Regional Director, Region Three.

19

Following is a report of activities at Tonto National Monument for March, 1948.

Weather. Much of the month has been cloudy and cold, without resulting in much rainfall, however. It was cold enough to continue to freeze the water pipes. March 23 and 24 were quite warm, with temperature up to about 75°.

Approaches to Monument. The Apache Trail is the same as ever, corrugated in places, but not a bad gravel road.

Inspections. Assistant Regional Director Davis and Chief Clerk Castellum were at Tonto March 2, and spent several hours discussing fiscal and administrative problems with the custodian and ranger.

Archaeologist Steen spent most of a day here, filling out own knowledge of Tonto archaeology and history, and going over museum problems.

Interpretive Service. Visitor contact and interpretation in the Lower Ruins took up most of our time during March, with 960 being visitors out of a total of 2295 for the month.

Travel. 2295 persons in 637 vehicles visited Tonto this month. That compares with 2496 in March 1947. Cold weather, high prices in the Valley, and national unrest contributed to the decrease. The last few warm days showed an increase, with 295 on March 21, a heavy travel day.

Roads & Trails. The State maintenance man, Ab Sanders, bladed the entrance road last week, and offered to help clear the ditches when we have the roads and trails laborers on the job.

Visitors. Ranger and Mrs. John Riffey from Grand Canyon Monument stopped in a while, and Archaeologist Davis from Casa Grande was in.

General. The Dodge pickup and the 3 Kw light plant were taken to the Casa Grande shop. Charlie Steen brought the plant up March 13, and returned the 2 Kw plant. The pickup is still in the shop, as some parts were not available locally. The light plants will be re-located by the adobe tool shed, thus making the area quieter at night, and eliminating the makeshift shed by the museum. Contact, reports, and maintenance kept us busy this month, and will do so through April also.

Charles C. Sherr  
Custodian.

TUMACACORI NATIONAL MONUMENT  
**Tumacacori**  
BOX 2225, TUCSON, ARIZONA  
**Tumacacori, Arizona**

March 27, 1948

MEMORANDUM for the Regional Director,  
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of March, 1948:

WEATHER CONDITIONS: Rain seems to be fairly close to average, with .62 inches since February 24. Maximum temperature of 80 on March 23, with minimum of 17 on March 5. Spring has been delayed with more cold nights than usual. Range is still not up to par, and flower displays are mediocre, but better than last year for the opening period. A temperature range of 50 degrees occurred on March 22.

MAINTENANCE: Routine was kept current. The lobby table came apart, and was put together more securely. One tree was transplanted from the patio garden to the front of the museum building. Considerable flower planting has been done in the patio garden, and quite a bit of irrigation has been necessary on the grounds.

INTERPRETIVE SERVICE: 1,710 visitors went on 248 guided trips through the mission and grounds, receiving an average of 34.45 minutes per trip. 3,152 persons saw the museum. 3,160 persons received combined Information and Interpretation Service.

MUSEUM AND EDUCATION: On February 28 the Custodian presented an illustrated talk on Southern Arizona reptiles to 20 members of the Yale Club in Tucson.

INCREASE OR DECREASE IN TRAVEL: 3,258 visitors came to the monument this month, exceeding by far the highest previous March record of 2,571 for last year.

VISITORS: March 2 - Archaeologist and Mrs. Dan Davis, Casa Grande National Monument.

March 7 - Scottsdale High School Spanish Class of 14 persons.

March 20 - Coolidge High School Spanish Class of 48 persons.

INSPECTIONS: March 8 - Chief of Development Thomas C. Vint, Assistant Regional Director John Davis, Regional Landscape Architect Harvey Cornell, Regional Engineer Lassiter, Architect Lovelady, and Chief Clerk Castellum, gave a thorough inspection to the monument and detailed consideration of its problems.

Tombstone, Arizona

June 27, 1928

Memorandum for the National Director,  
National Park Service

Follows the monthly narrative report for Tombstone National Monument  
for the month of June, 1928:

GENERAL COMMENTS: This seems to be fairly close to average, with  
82 inches about January 24. During the month of June the  
with a maximum of 17 on March 2. Spring has been delayed with some  
night than usual. There is still not so far, and times display  
and better than last year for the spring season. A  
temperature range of 10 degrees occurred on June 22.

WATER: During the last month, the lake level was about 100  
and 100 feet above normal. The lake was replenished from the  
ground in the front of the monument building. During the  
last year in the lake water, and since a bit of irrigation has been  
necessary on the grounds.

WATER SUPPLY: 1,750 visitors went on 100 miles into the  
mountain and forests, resulting in a total of 44.43 miles per day. 3,125  
persons saw the animals. 2,150 persons received medical attention and  
1,250 persons received medical attention.

WATER SUPPLY: On February 22 the water level was 100 feet  
and on February 23 the water level was 100 feet.

WATER SUPPLY: 1,750 visitors went on 100 miles into the

80 1008  
1008 80

UNITED STATES  
DEPARTMENT OF THE INTERIOR

**PUBLICITY:** March 13 - Representatives of Reid H. Ray Film Industries were in taking movie shots for one of a series of short playlets which will feature the Tucson region in "Tucson Travels", to be shown in theatres of the middle west.

**PERSONNEL:** Seasonal Ranger Conrad worked his last duty day February 29. On March 22 Laborer (intermittent) Ramon Orozco was put to work for a few days to fix up our trails and roadway from the parking to the residences. After the end of the month he will work on mission stabilization.

**COMMUNITY:** On February 27 we attended an evening meeting in Nogales which resulted in ~~organization~~ organization of the Pimeria Alta Historical Society. There were about 30 persons present, and much enthusiasm was shown. The Society wishes to collect historic materials for museum display in Nogales, to write down authentic historic material, and to erect suitable markers to attract tourists to historic spots in the region of Nogales. We injected a caution note into the meeting about increase in vandalism to historic spots if publicity and markers are not accompanied by increased custodial care.

On March 3 we learned to our dismay that the last remnant of original wall of what is believed to be part of the original Spanish presidio at Tubac, historic old town three miles north, had been torn down by the owners and the adobe bricks sold.

On March 10 Weldon Bailey, son of the man who donated part of the lands of Tumacacori National Monument to the government, and for long a rancher in the neighborhood, died of a heart attack.

**GENERAL:** The monument is ticking along all right, but it keeps us as busy as a one-armed washerwoman without a scrub board. We would have been swamped without a seasonal ranger this winter. We need, badly, for the seasonal ranger job to be at least a five month job, instead of the three months we had this season.

Nothing short of a war or a depression will prevent the increasing flood of visitors to this region from growing. Within a few months a fine paved highway will extend from the border to the famous Mexican fishing resort of Guaymas. The first link of work in the alteration of the Tucson-Nogales highway from a hazardous narrow route to a super-highway has started. Within three years at the most this route will be almost a boulevard.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
-----TUSIGOOT----- NATIONAL MONUMENT

-----CLARKDALE, ARIZONA-----

-----MARCH 26, 1948-----

19-----

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tusigoot National Monument for March, 1948.

Travel Data; 1359 visitors broke the record for March at Tusigoot. Past highs were 654 for 1941 and 1055 for 1946. Visitation has been on a steady incline, breaking all previous corresponding months, since the first of the year, and the 1948 travel year promises to set a new high. The above-mentioned 1359 visitors arrived in 420 cars. 22 people walked out to the monument.

Guide and Contact Service; Museum, ruins and orientation contacts totaled 2608 for the month. 1196 people in 362 parties were given an orientation lecture in the museum, and 1058 people in 351 parties were conducted through the ruins. The average time spent by each party in the museum was 22 minutes while the average conducted tour through the ruins required 21 minutes per party. Maximum service was given to the visiting public.

Personnel Time; Museum: 130 hours, 15 minutes. Ruins: 121 hours, 05 minutes. Total time for Bright: 113 hours, 45 minutes. For Richert: 137 hours, 35 minutes.

Special Visitors; On March 23, a group of 27 from the Department of Adult Education, San Jose, California.

Maintenance and Administration; Due to heavy visitation little time can be found to perform maintenance work around the monument. However, Ranger Richert has managed to complete, inbetween parties, the deweeding of all rooms in the ruins and a simonizing and polishing job on our ford pickup 1-13850. The Verde Hardware Company of Cottonwood is still unable to fill the remaining 297 feet due on our order of 2-inch galvanizes steel water pipe because of failure of suppliers. However, we do have promise of delivery within the next 30 days. Fortunately no breaks have developed during the past four or five months. To avoid breaks the pressure has been reduced so low that the water is barely pushed to the monument.

  
Custodian.

March 31

48

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in Walnut Canyon National Monument for March 1948:

Weather: There has been quite a bit of snow during the last month and many of our would-be visitors have, no doubt, been discouraged. This weather caused the roads to be first blocked with snow and then mud. One group of visitors demanded and received "safe escort" back to the highway.

Visitors: 241 visitors entered the Monument and 96 of these were contacted. It is estimated that only 30 people made the trip into the Canyon.

Activities: The Monument was short handed during the month since Custodian Beaubien was called away to Denver for a few days.

A spray gun, belonging to Wupatki, was used to finish painting the Custodians house. Ranger Upton from Wupatki helped for three days on the painting and one day on clean-up etc.

One day was spent looking for a break in the water supply line. Fortunately no break existed. A faulty float valve was responsible for the cutting off of our water.

N.P.S. Visitors: Mr Saunders and wife stopped in the area a short while to deliver the new bids for the museum roof. Ranger and Mrs E. Byrd and Naturalist Don Watson All of Mesa Verde Park were guests this past month at Walnut Canyon.

John A. Ambuchon  
Acting Custodian

CONFIDENTIAL

There follows a report of activities in "Anti-Corruption Nationalism"

Further; there has been quite a bit of snow during the last month and many of our winter-be visitors have, no doubt, been disappointed. The weather saved the woods to be first bloomed with snow and this will, no doubt, be a great help to the birds and the forest.

APR 19 1964

The engine off of our water  
 pump was started. A long time was required to  
 get it going. We were looking for a break in the water supply line.  
 The pump was on clean-up and  
 the engine off of our water  
 pump was started. A long time was required to  
 get it going. We were looking for a break in the water supply line.

W.F. Vetter: Mr. Vetter was stopped at the same place as the other two men and was taken to the same room. He was also taken to the same room.

MARCH TRAVEL - 1948

Visitors 6132 Cars 1675

1948 - TRAVEL YEAR TO DATE

Visitors 32065 Cars 8953

-----

After falling down last month we can again brag about March, 1948, beating all records. 6,132 visitors in 1,675 cars tops all previous records for March. This record was set in spite of several adverse days when high winds and dust storms reduced visibility to less than a hundred feet. Winds of over 50 miles per hour with gusts as high as 75 miles per hour were recorded at the local air base. This, of course, has its effect on our road and we are barely able to keep them open at all. High for the month was 74° on the 22nd of February and low was 14° March 12.

A couple of trips were made to El Paso for supplies and equipment. One trip was by Ranger Chittum for the purpose of securing a number of truck wheels surplus to Army needs at Fort Bliss. We plan to use these as grills for our picnic area. They are a long way from those designed by our technical branch we had long since reached the point where we had to have something and the approved plan was financially out of the question. Even the wheels, had we been forced to buy them, would have been out of our reach since even junk yard prices are from \$4.00 to \$12.00 each. The Army gave us 26. By the middle of April we hope to have the picnic area completely made over and, for the first time in Monument history, have facilities somewhere near normal demands. We will have 17 shades with fire grills at each shade, at least ten garbage disposal units, and several tables and grills without shade.

With the visitor flow holding up as high as it is we have simply given up all hopes of catching up on the odd jobs. Two laborers were secured and we can at least see over now. All the plaster has been removed from the Parking Area and Utility Area walls, this has added greatly to their appearance. The old picnic area has been dug out of the drifting sands and moved into the new area. Our old (? 1936 ?) wooden pit toilets have been repaired and are being repainted. Joe has had several days assistance on his work which the several days of high wind make even more necessary. I am trying today to solicit Army help through the loan of heavy equipment in order to get our road to passing width again.

This is a task of great importance and one which requires the cooperation of all concerned.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
BUREAU OF LAND MANAGEMENT  
MONTHLY NARRATIVE REPORT (2) March 22, 1948

Our museum has functioned in its usual efficient manner. Some repairs to lights during the month resulted in full case lighting again, the first time we have had full efficiency in some time. More museum contacts have been made and a little more time devoted to each group.

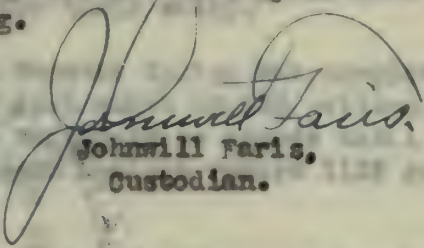

The heavy winds and dust storms were responsible for a car accident in which three boys were cut up badly, one also suffering a dislocated shoulder. They were beyond mere first aid and we rushed them on in to the hospital. I assisted the doctor and I guess all three are out and about by now. The car was nearly a total loss.

We are well planned, by various occasions, far past our ability to fully handle with our present staff. Easter Services are planned again this year and already plans are well laid for the largest Play Day ever. The Army is again cooperating with a V-2 Rocket display and the Air Force will exhibit radio controlled missiles, etc. The Governor, State Superintendent of Schools, and other officials have announced their intention to be present.

We had a visit with Region Three Officials in the person when Assistant Regional Director Davis and Chief Clerk Castellum came by. We poured our many troubles on their shoulders and it was surprising how, in such a short time, they enabled us to solve so many of our woes.

No complaints were received on either the Service or the Concession.

And, with all these woes, perhaps I better await April when we will have much more cause for crying.

  
Johnwill Faris,  
Custodian.

NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

March 31, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of March, 1948.

Visitors this month: 322                      Travel Year to date: 1369

Weather: Snow flurries and showers with a total precipitation of .34 inches was recorded for the month. The usual windy days with occasional dust storms remind us that spring is upon us.

Roads: The presence of some moisture has helped to keep the entrance road in fair condition. The approach road from Sunset Crater has been open most of the month, with some cars coming in from that direction.

Travel: Visitation for the past month has shown an increase of 47% over that recorded for March of last year. The travel year indicates a similar increase with 30% more visitors as of this date. With this as an indicator it would appear that another record travel year lies ahead.

Grazing: The grazing of trespass stock has been reduced to a minimum. This was accomplished in part at least, by allowing Mr. Kirby to increase the amount of water hauled from the Heiser Spring so that there was no overflow. This resulted in forcing those cattle that have been straying in from the south to go elsewhere for water. At the same time it has worked a definite hardship on the Navajos who have been accustomed to depending on Heiser as a watering place for their sheep.

Spring Flow: Further development of the Wupatki Spring was completed. This has increased the flow over that of last month by 128 gallons per day. At the same time Heiser Spring has continued to recede until the flow of both springs is now the same. Both springs record 1122 gallons per day.

Spring Development: Work on the Wupatki Spring development was given first priority for the month. The entire trench was opened and the upper portion lowered. With the removal of about 12 cubic yards of sandstone,

General: The progress of the National Park Service for the month  
was in line with the general work of the National Park Service.  
The general work was with the National Park Service for the month.

1911

shale and clay, it was possible to cut down through several layers of rock, establishing a good grade from the upper end to the settling sump. Good seepage was brought in all along the trench. Six inch, perforated, asphalted pipe was laid in the bottom and was covered with several inches of coarse gravel. This in turn was covered with coarse cinder and then filled in with several feet of clay. A plan was drawn, indicating the location of the line, depth, approximate location of the main seeps and pertinent information. Thanks to Coconino County, who allowed us to rent a compressor for a few days, the job of cutting down through the rock was relatively simple, with the use of one of Walnut Canyon's jack-hammers.

A test hole was also made near the present pump house. It was found that water come in approximately 3 feet below the level of the present collecting sump, indicating that more water is below our present development. It was also observed that several hundred yards farther up the slope from the present spring, a heavy growth of grass and salt bush persists the year around, no doubt fed by another seep.

Special Activities: What appeared to be a leg bone of a prehistoric mammal was reported recently by one of the neighboring Navajos. It was found partially covered by a sand bar along the margin of the Little Colorado. Tentative identification indicates that it is possibly the tibia of a Mastodon or Mammoth. Although not in evidence at the present time, it would seem likely that other bones may be buried near.

Newsworthy Visitors: Thomas Clements, Professor in Geology of the University of Southern California, was a Wupatki visitor on the 27th. He was accompanied by his class on their geology spring field trip. Professor H. T. Getty, with members of his class in Archeology from the University of Arizona visited Wupatki on the 31st.

General: Rough drafts of the Development Outline for the Master Plan were completed for Wupatki and Sunset Crater. Ranger Upton spent several days the latter part of the month assisting Ranger Aubuchon at Walnut Canyon. Collaborator Buchenberg returned to Wupatki on the 23rd, after spending what he described as a most pleasant winter in Florida with relatives and friends. Buchy seems happy to be back in Arizona and it was good to see him again.

NAME Meredith M. Guillet

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as:  
"Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE  
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.  
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.  
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historic areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may represent a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME Homer J. Farr

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Ted C. Sowers

TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Don W. Eggermayer  
TITLE Custodian

MARKS: (Please note below any factors influencing interpretive service, such as: museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

Visitor contact maintained by Custodian's wife on one day, when Custodian and Ranger both on sick leave.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as:  
"museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)  
No personnel on duty during month

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME David J. Jones  
TITLE Custodian

MARKS: (Please note below any factors influencing interpretive service, such as: museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

Region Three  
Santa Fe, New Mexico

May 7, 1938.

MEMORANDUM for the Regional Director, Region Three.

Following is the narrative report for the naturalists of the Southwestern National Monuments for the month of April 1938:

Staff Activities - General

Naturalist Dale T. King was in the office except for a two-day trip to White Sands and Fran Pulvira, April 7-8.

Archaeologist Charlie E. Steen left Casa Grande on April 1, returning to Santa Fe on the 3rd, via Walnut Canyon.

Public Relations and Extension Services

Several groups of Kodachrome slides were selected and mailed to various educators who requested them for lectures.

A manuscript prepared by John Harrington, formerly Temporary Ranger at Grand Canyon, written about Hopewell National Monument, was edited and returned to the author, who will publish it in a trade journal.

Progress of Exhibit Plans and Projects

King had several discussions concerning policy and planning with Dr. Fred Flannery, formerly of the Peabody Museum of Harvard University. Dr. Flannery is writing his doctoral dissertation on the function of anthropological exhibits in scientific museums, and is quite interested in museum possibilities in the Southwest.

Accessions - Other than Library

A request was received from a small eastern museum for archaeological material to be loaned from the Southwestern National Monuments. This was regrettably refused because of the lack of such material, plus the difficulty of assembling and shipping it.

Research and Observations

King accomplished slightly more than three days of progress on the

archeological excavation report of Malakihu by working on week-ends.

Several meetings were held and some time spent in preparing advanced committee work for the Northern New Mexico Boy Scouts Plaza Jamboree, for which King is Publicity Chairman, and the Region Three staff is providing facilitation.

#### Region Three Office Loan Library

Library accessions for the month were 13 books, 32 periodicals, and 114 reprints and pamphlets.

##### Principal books received were:

Chenault, Richard S. -- Advertising Layout.  
Ronald Press Co., New York, 1948.

Cookling, Roscoe P. and Margaret S. -- The Butterfield Overland Mail. Two Volumes and Atlas.  
Arthur H. Clark Co., Glendale, 1947.

Pollansbee, Robert, and L. R. Sawyer -- Floods in Colorado  
U. S. Geological Survey, Water Supply Paper 927,  
Washington, 1948.

Gladwin, Harold -- Men Out of Asia.

Holbrook, Stewart R. -- The Story of American Railroads.

#### Southwestern Monuments Association

The Executive-Secretary conferred with representatives of Postage Meter and Multigraph companies concerning the possibility of obtaining machines in the future.

Page proofs on material for the mailing list were received from the printer and returned.

An illustrator was interviewed concerning the possibility of preparing improved illustrations for the booklet "Poisonous Inhabitants of the Desert." Correspondence was initiated with a cooperating photographer with a view toward obtaining photographs of Indian handicraft to be used in a future publication.

During the month, the Association continued contributing a considerable amount of postage to the Regional Office to answer informational requests.

Treasurer Alan C. Vedder worked every work-day, due to increased activity. Much time was spent on turn-ins, some posting, and about two days receiving and arranging headquarters stocks for mail sales. He made the trip to White Sands and Arroyo Quivira, and prepared one disbursement and two deposits, which included 43 items.

#### Ruins Stabilization

The stabilization report on Chetro Kettle for 1947 was received from Archeologist Gordon Vivian. It is an excellent job, and Vivian deserves congratulations.

Steen performed a great deal of work on the stabilization report for Casa Grande, analyzed remaining funds for this fiscal year, and made some changes in allotments to various monuments.

Projects for May

King will be in the office, being occupied the first part of the month with a somewhat large task of issuing the Southwestern Monuments Association's first large-scale mailing. He hopes to spend some time later on museum planning.

Steen will go to Gran Quivira during the second week of the month to survey stabilization needs, and help the custodian in a rehabilitation of an interpretive station. He plans a short trip to Navajo at the end of the month.

19.....

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches and Natural Bridges National Monuments for the month of April, 1948:

GENERAL: Travel showed a substantial increase despite heavy winds and inclement weather. The out-of-state-cars are now becoming more evident and we are looking forward to our big travel year.

WEATHER: The March winds are a month late but are making up for lost time. Extremely high winds were in evidence on numerous occasions during the month and today they snapped off a lumbardy poplar tree about 20 feet high at quarters. The first part of the month was unseasonably cold with rain and snow on several occasions but it has become much warmer during the latter part of the month. The Colorado River has been rising rapidly and oldtimers predict the highest water experienced for some years due to heavy snows in the LaSals.

TRAVEL: Our visitor register showed a total of 201 cars and 777 people for the month as compared with 133 people last month and 559 people for April, 1947. Easter Sunday recorded the heaviest daily travel for the monument with 88 cars and 447 people. Most of the travel was from Utah and Colorado but the out-of-state-travel is increasing.

INTERPRETIVE SERVICES: Our contacts increased during the month with 113 people contacted at headquarters and 172 people contacted in the Windows section. Two hikes were taken with parties to Klondike Bluffs and the Devils Garden section. A total of 6 people were included in these parties. Several requests for information were received and answered.

COOPERATING GOVERNMENTAL AGENCIES: Grand County completed the construction of approximately 12 miles of access roads to the Devils Garden and Delicate Arch on April 27th. Funds ran short toward the end of the job and they were not able to do all the surfacing contemplated but it is an excellent road and will certainly make the area more readily accessible to visitors. Mileage and directional signs have been installed. The local Lions club is holding an outing and barbecue in the area on May 8th to

NATIONAL PARK SERVICE  
ARCHES NATIONAL MONUMENT

Page 2, Arches Narr. Rpt., April, 1948.

celebrate the completion of this work.

ROADS: The approach road to the Windows section of the monument is in good condition. The State maintenance crew spent two days grading same during the month. Grand County enlarged the Windows parking area with a bulldozer and improved one hazardous curve by drilling and sheeting.

TRAILS: The Delicate Arch trail signing and improvement has been completed. A rope handrail has been installed on the approach to the arch thereby improving the hazardous climb to the arch proper.

The Devils Garden trail has been signed from the parking area to Double O Arch and The Dark Angel, a distance of 2 miles. Features along this trail are Tunnel Arch, Pine Tree Arch, Landscape Arch, Wall Arch, Partition Arch, Pin Canyon, Double O Arch and the Dark Angel.

Signs have been completed for the trail and features in the Windows section and we hope to have them in place during the first week in May. Signs have also been mapped out for the Courthouse Towers trail and will try to get them made and in place before our heavy travel starts.

NATIONAL PARK SERVICE VISITORS: Ranger Paul Steel of White Sands National Monument arrived on April 17th to deliver a surplus house trailer assigned to Natural Bridges National Monument. He was shown over a portion of the monument.

MAINTENANCE: Material has been purchased for the reroofing of the warehouse and it is hoped that we will get this job completed the first week in May.

NATURAL BRIDGES NATIONAL MONUMENT: The approach road to this area is still closed by heavy snow. The last report received stated that there were still 5 feet of snow on the Bears Ears on the Elk Mountain and it would probably be May 10th before the road could be opened.

(in trip.)

*Russell L. Mahan*

Russell L. Mahan  
Custodian

Page 2, Bureau Report, April, 1948.

celebrate the completion of this work.

NOTE: The proposed road to the Western section of the monument is in good condition. The State Highway Commission has been studying the road during the month. Great County entered the Western section with a bulldozer and improved the entrance road by filling and grading.

TRAIL: The Dalman's Arch trail sign and improvement has been completed. A rope railing has been installed on the approach to the arch thereby improving the entrance view to the arch.

The Dalman's Arch trail has been signed from the parking area to Dalman's Arch and the Arch sign, a distance of 2 miles. The trail along this trail and around Arch, is a fine trail, especially for Arch, Dalman's Arch, the Canyon, Dalman's Arch and the Arch sign.

Signs have been completed for the trail and entrance to the Western section and we have been in place during the first week in May. Signs have also been placed on the Dalman's Arch trail and will try to get them ready and in place before our next survey.

NATURAL AREA SURVEY: The survey of the Dalman's Arch area was completed on April 17th to collect a series of natural area survey data to include Dalman's Arch and Canyon. The survey was a success in many ways.

WATERWAYS: Material has been purchased for the completion of the waterway and it is hoped that we will get this job completed this week in May.

WATERWAYS: The waterway project is being completed and it is hoped that we will get this job completed this week in May. The waterway project is being completed and it is hoped that we will get this job completed this week in May.

DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
AZTEC RUINS NATIONAL MONUMENT  
AZTEC, NEW MEXICO

24 April 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows the report of activities in Aztec Ruins for April 1948.

WEATHER: Excellent sunshiny days have prevailed, marred only by a few days of storm, yet our travel for the month is 240 less than April last year. Just 0.47 inch precipitation has been recorded which blew in on a few scattered days of high wind.

MAINTENANCE: We have spent considerable time in repair to the storage tanks of the water system and will find it necessary to do more as time allows in May.

The refrigerator motor was removed and repaired.

The residence sewage line was cleaned when all drains became occluded.

The lateral ditch from the main Farmers Ditch canal was cleaned.

Roadside burning of grass and other flammables, to reduce fire danger, was begun.

SPECIAL ACTIVITIES. The Custodian presented illustrated talks to two local county schools and another to the Aztec Parent Teachers Association. The Custodian accompanied Architect, Raymond Lovelady to Farmington, N.M., Cortez and Durango, Colorado to interview building contractors, relative to the proposed construction at Aztec.

TRAVEL. The trend in travel is decidedly down from last year, despite favorable climatic conditions, yet the overall travel year is trailing only by 17 visitors.

There were 584 visitors in 199 cars from 28 states, Brazil and Canada.

INTERPRETIVE SERVICES: There were 418 visitors in 103 trips conducted thru the ruins, and 584 visitors in 186 groups shown thru the museum.

Memorandum: For the Regional Director, Region Three.

There follows a report of the activities at Bandelier National Monument for the month of April, 1948.

#### WEATHER

Spring weather prevailed for the most part during the month with temperatures ranging from 20 degrees on the first day to 85 degrees on the 17th. Although spring was late this year, the trees had leafed out by the end of the month and some of the flowers were in bloom.

#### ACTIVITIES

The Custodian attended the Building Fire Control and Forest Protection Conference at Grand Canyon National Park from April 5 to 14. The Conference was very much worth-while and much valuable information was received. Wupatki, Walnut Canyon and Petrified Forest National Monuments were visited en route to and from the Conference.

A trip was made to Albuquerque, New Mexico for the purpose of investigating the possibilities of securing a new stove unit for the lodge kitchen.

#### NEW CONSTRUCTION

The two expandable house trailers that were purchased from the Atomic Energy Commission at Los Alamos, New Mexico were set up at the edge of the campground in preparation for occupancy by seasonal rangers.

#### MAINTENANCE

Maintenance-man Valencia spent most of the month working on re-arrangement of the Lodge kitchen to improve working conditions and to make it safer. The cook stove, steam table and refrigerator were moved to new locations.

The approach road was graded and finally put in fair condition following the spring thaw.

April 25, 1955

Enclosed for the Board of Directors, Boston, Mass.,  
is a report of the activities of the American  
Committee for the South of Africa, 1954.

Summary

The American Committee for the South of Africa, 1954, was organized in New York City on April 25, 1954. The Committee was organized to support the anti-apartheid struggle in South Africa. The Committee has been active in the United States and abroad in support of the anti-apartheid struggle. The Committee has been active in the United States and abroad in support of the anti-apartheid struggle.

## CONCESSIONS

Mrs. Frey, the operator of Frijoles Canyon Lodge, spent most of the month in getting ready to open by the first of May. However, travel on weekends was sufficient to justify opening the coffee shop earlier and it was opened on the 24th for serving sandwiches and drinks.

## INTERPRETATION

Nine hundred fifty visitors were guided through the ruins in 111 parties at an average party time of 71 minutes. With good weather the average time spent with each party increases to some extent.

As the Museum was still uncomfortably cold for a good part of the month, only 30 parties were taken through.

One evening lecture was given during the month in the lobby of the Museum to the senior Boy Scouts of Los Alamos and their guests.

## MUSEUM

The Pueblo Government case was completed and installed during April. The new case labels will help it greatly when we get them.

The Pueblo Religion case was dismantled for photographing and reinstalled. It is hoped that this case may be redone soon to make it more understandable.

The Seasonal Ceremonies case is all but complete. Mrs. Fablita Velarde Hardin had to leave because of the shortage of funds, but she took the paintings home with her to finish them on her own time. A gesture which, needless to say, is deeply appreciated.

## TRAVEL

This April showed a 23% increase in visitors over last April. Sunday the 18th, was the largest day in the history of the Monument with 539 people coming in between 8 A.M. and 5 P.M. This exceeded by some 35 persons the largest day of last summer. If this is any indication of the coming season, this one will top them all.

## VISITORS

Miss Laura Gilpin, photographer and author of the book "The Pueblos," spent a day in the area. She was accompanied by Mr. and Mrs. Paul McPharlin, publishers.

1. 0.2540

and during the early part of the year, the company of the 1st Cavalry, 1st Division, 1st Army, was in the process of being organized. The 1st Cavalry, 1st Division, 1st Army, was in the process of being organized. The 1st Cavalry, 1st Division, 1st Army, was in the process of being organized.

## RANGER SERVICE

Ranger Keefe spent the week of the 19th in attendance at a Forest Service Fire Training school near Jemez Springs. It proved to be a very fine school and will materially aid in planning and conducting fire prevention and suppression training for the other employees of this area.

## FOREST FIRE PROTECTION

The fire danger began to move upward toward the end of the month and reached the "high" mark during the last few days. Plans are being made to man the lookout station early in May.

A meeting was held in this area on the 27th with representatives of the Forest Service and Atomic Energy Commission at which a co-operative fire detection and suppression agreement was worked out between the three agencies. The meeting was attended by Assistant Regional Forester Hatchliff and Ranger Keefe of the Park Service, Supervisor Flock and Rangers Stephens and Cutler of the Forest Service, and Mr. Bliss, forester for the Atomic Energy Commission.

## STABILIZATION

Twenty four and a half days were spent on wall packing in Tyuonyi. Nine man days were spent hauling dirt and materials and the remaining days were spent packing the walls of 30 rooms.

One burial was uncovered in the excavation for dirt for the soil cement. The condition of the bones precluded the removal of the skeleton, so photographs were taken to show as much detail as possible.

## PERSONNEL

Mr. Cipriano Ramirez, Albuquerque, New Mexico, entered on duty as clerk on the 13th. He spent two weeks in the Regional Office getting acquainted with his duties. It is with pleasure that we welcome Mr. Ramirez to the Park Service and we hope that he will enjoy his Associations.

(SGD) FRED W. BINNEWIES

SIGNED:

Fred W. Binnewies, Custodian

A meeting was held in 1938 with the purpose of discussing the work of the Committee on the part of the various departments of the Government. The meeting was held in the Department of the Interior, and was attended by the following: Mr. C. E. Smith, Director of the Department of the Interior; Mr. J. H. Brown, Director of the Bureau of Land Management; Mr. W. H. Henshaw, Director of the Bureau of Reclamation; Mr. L. B. Nichols, Director of the Bureau of Mines; Mr. J. E. Smith, Director of the Bureau of Geology and Water Resources; Mr. J. H. Brown, Director of the Bureau of Land Management; Mr. W. H. Henshaw, Director of the Bureau of Reclamation; Mr. L. B. Nichols, Director of the Bureau of Mines; Mr. J. E. Smith, Director of the Bureau of Geology and Water Resources.

Canyon de Chelly National Monument  
Chinle, Arizona

April 27, 1948

MEMORANDUM for the Regional Director, Region three.

The following is a report on activities at Canyon de Chelly National Monument during the month of April, 1948.

Weather

April weather was about normal with a Maximum temperature of 84 degrees, and a minimum temperature of 22. There was .60 inches of moisture. After the cold weather of March and February, the late spring was welcome. The Canyons are running higher than normal due to the heavier winter moisture in the higher elevations. Nights have been cool and thawing has not been too rapid. If we get a few warm days and nights, I look for some damage to our soil and moisture work.

Administration

Office work got a little behind while I was working with a crew of Navajo laborers on road, trail, and building repair, but I am rapidly catching up.

Two trips were made to Gallup, New Mexico during the period, one for supplies and equipment, and the other to attend a meeting of the Gallup Chamber of Commerce with custodians Wilson, McNeil, and myself.

Maintenance

A crew of four men were put on helping me with road, trail, and building repair. Due to a more severe winter than normal, much more work was necessary than was anticipated last fall. Outside plastering of quarters and repair of parapets was completed. The trail to White house was worked from top to bottom and is now in excellent condition. Sixty-one dump truck loads of dirt were hauled to fill the worst of the holes in the road. The large cottonwood trees at thunderbird ranch were closely trimmed by the concessioner, and I hauled the branches and logs to reinforce the dam at the mouth of the canyon, and to partially protect some of our plantings. I finally had to hire an additional man who could drive a car as my office work was getting behind.

A new toilet bowl and shower was installed in the trailer house, and it is being remodeled to conform with plans sent from the regional office.

REMARKS OF THE PRESIDENT, 1941

The following is a report on the progress of the work of the President's Committee on the Administration of the Government, 1941.

1941

The President's Committee on the Administration of the Government was organized in 1941 to study and report on the efficiency of the Federal Government. The Committee was composed of members of the Executive, Legislative, and Judicial Branches of the Government. The Committee's work was directed by the President, who appointed its members. The Committee's first report was submitted to the President in 1941. The report contained a number of recommendations for improving the efficiency of the Federal Government. The President accepted the recommendations of the Committee and directed the necessary action to be taken. The Committee's work was continued in 1941, and its second report was submitted to the President in 1941. The President accepted the recommendations of the Committee and directed the necessary action to be taken.

The President accepted the recommendations of the Committee and directed the necessary action to be taken.

A cleanup of grounds was made but with the high winds always prevalent during the month it is a continuous job.

### Travel

With the exception of two periods during which we had heavy rains, roads have been in fair condition and our travel picked up considerably. We have been falling a little behind last years figures although our Fiscal year to date shows a slight increase.

### Visitors

Mr. Ainsworth of the Los Angeles Examiner and an associate were in several days getting material for publication of articles on the Navajo Indian situation. Ranger and Mrs. M.S. Johnstone of Yellowstone National Park also were among the visitors this month.

### Cooperating Non-Governmental Agencies

At the request of a committee formed by the Gallup Chamber of Commerce, a meeting was held in Gallup attended by Custodian Wilson of El Morro, McNeil of Chaco Canyon, and myself. This organization proposes to establish daily conducted caravans to the points of interest around Gallup New Mexico. They also plan a local School for members of business organizations and requested our assistance in giving talks or lectures in order to help these members get better acquainted with our areas.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE  
SOUTHWESTERN NATIONAL MONUMENTS

~~MCCOOLIDGE~~ ARIZONA Capulin N.M.

April 27, 1948

Memorandum for the Regional Director,  
Region Three, National Park Service,  
Santa Fe, New Mexico,

There follows a report of the activities in and  
around Capulin Mountain National Monument  
for the Month of April 1948.

Approximately twelve hundred visitors to the Volcano  
during the Month, This brings the total visitors  
for the Travel year to date six thousand six hundred  
and the total visitors for the fiscal year to  
twenty six thousand one hundred,

Weather,

has been ideal in the vicinity thru the  
month, with some slight snow and rain.  
Rather heavy winds have prevailed most of the month  
but no extremely heavy winds have occurred,

Flora and Fauna.

The early flowers are blooming  
and all grasses and trees are showing a shade  
of green. The entire country here is blessed with  
an abundant deep moisture and prospects are very  
bright for a good season.  
Our animals in the Park are in good condition altho  
I have found two dead deer this spring It is  
thought likely that there were caught by the  
coyotes as some damage was done by them all over  
the country during the big deep snow,

Roads and Trails,

are all open again and are in  
splendid condition to the top of the Volcano  
The park road has required considerable  
attention after the big snows of the winter.

Very Respectfully,  
Homer J. Farr,

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
CASA GRANDE NATIONAL MONUMENT  
COOLIDGE, ARIZONA

April 25, 1948.

**MEMORANDUM for the Regional Director,  
Region Three.**

There follows the narrative report for Casa Grande National Monument for April, 1948

**General:** The coming of spring has brought with it the usual increase in temperatures and the decrease in travel. For the first time in many months we have fallen below the same period of a year ago in total number of visitors. The main problem of city folk and farmers alike is the water situation. There are new wells all around us pumping for the first time and it is hard to predict the outcome, it has been reported that the water level in some wells has dropped over five feet just since the new wells started pumping. Coolidge Dam now has 15,000 acre feet of water compared to 6,000 a year ago, but that is just twenty days supply of water more than last year at this time. With the lack of water comes the shortage of electricity and they are asking the public to leave their coolers off several days each week so it promises to be a rough summer for all concerned.

**Weather:** Summer appears to be just around the corner with the thermometer reading above 95 for ten days in a row, three days above 100 with the highest reading 103. The low minimum was 35 and the high minimum 62. High winds and dust storms have made several of the days disagreeable. There has been no precipitation this month, only one inch has fallen so far in 1948.

**Visitors:** April 1948- 3238 : April 1947- 3703. Travel year to date 1948-28,013 : Travel year to date 1947- 25,785. This is a drop of 465 from April of last year. Travel has been out in half since last month but Sundays are still big days with a good turnout, mainly Arizonians.

**Interpretive Services:** Of the 3238 visitors to the area, 2294 made the ruins trip in 210 groups, averaging 47.5 minutes per trip. 944 people visited the area for a quick look but did not make the ruins trip.

**Maintenance:** With the help of Steen's stabilization crew the 5 stall wooden garage was reduced to a two stall garage and moved back to the rear area. New screen doors were added and other minor repairs were completed on quarters 3-5. The heating stoves were taken out, cleaned and stored for the summer. The cooler for the museum was rebuilt and mounted. The area around the quarters, museum and picnic area has been completely cleaned up.

1941, 1942, 1943

**Ruins Stabilization:** Archeologist Steen and his crew finished putting the caliche cap on the walls and ended operations here on April 1. They did a very good job and the new caliche cap looks much better than the old cement cap. Two of Charlie's crew took the dump truck up to Tonto and are now working on the roads and trails there.

**Administration and Protection:** Two inspection trips were made to the Adamsville site and the warning signs that were put up last month appear to have done their job as there are no new signs of "pot hunting".

**Trips Taken:** On April 19, Mechanic Stenshocker took a load of lumber which was salvaged from the torn down garages to Organ Pipe Cactus National Monument, returning the next day. On the 21st he went to Phoenix to pick up some repair parts.

**N.P.S. Visitors and Visitors of Note:** On March 27, Archeologist Hendricks from Tonto was in to get their pick up which was in for repairs. On April 14, Custodian and Mrs. Cooke from Chiricahua were in to get a 3 KW light plant and visited the ruins while they were in the area. On April 18, Mrs. Hill, wife of Chief Clerk Hill, Yosemite N.P. and Miss Heimback, visited the ruins. The packer from Saguaro brought in a water pump engine to be repaired on April 21.

**Mechanics Activities:** General repairs were made to the following equipment:

Area From.	Equipment.
Tonto Nat'l Mon.	Light Plant
Region Three	Concrete Mixer Panel Truck
Saguaro Nat'l Mon.	Ford Stake Truck Water Plant Pump Engine
Casa Grande Nat'l Mon.	Chevrolet Pickup Ford Pickup Autocar Tractor and trailer Kitchen Range for Quarters 5-5
Organ Pipe Cactus Nat'l. Mon.	Lumber and Supplies delivered Electrolux Refrigerator Horse Trailer

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

~~Chaco Canyon~~-----NATIONAL MONUMENT

-----Bloomfield, New Mexico-----

-----April 25,-----, 1948-----

MEMORANDUM for the Regional Director, Region Three,  
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of April, 1948.

This month, there were 67 visitors came to Chaco Canyon. Of these, there were 63 paid admissions and 4 children less than 12 years of age. They came from the states of:- Colorado - 1 car, 4 visitors; District of Columbia - 1 car, 2 visitors; Iowa - 1 car, 5 visitors; Maryland - 1 car, 2 visitors; Michigan - 1 car, 1 visitor; Montana - 1 car, 2 visitors; New Mexico - 12 cars, 46 visitors; Texas - 1 car, 3 visitors and Utah - 1 car, 3 visitors. These people formed 23 ruins parties with 67 visitors, and 14 museum parties with 39 visitors. Archaeologist Aldo Hixey spent 5 hours and 5 minutes with some of them, and the custodian spent 29 hours and 10 minutes with others.

The approach roads to the Monument have been in good shape for the past few weeks. On Friday, April 9, the Custodian addressed the Directors of the Gallup Chamber of Commerce, at a dinner, regarding, in part, the Chaco roads. Immediate action was taken by the Chamber, and the roads from Gallup have remained in good shape. Incidentally, Custodians Wilson, Guillet and this one, were invited in by the Gallup Chamber of Commerce on April 21, to talk over and discuss with some of the men the problems in enticing those tourists passing through Gallup to stay a while and visit some of the points of interest near the city. It was a profitable meeting. The Gallup Officials have a well laid plan which should increase the visitor travel for these Monuments as well as help Gallup.

The weather this month has been much more pleasant than for the past three or four. The coldest was 16 degrees on the 28th of March, while the warmest was 82 degrees Fahrenheit on the 16th and 17th of April. Rain and/or snow fell on six different days which formed a total precipitation of .79 of an inch.

Various jobs about the Monument were begun, continued or completed. The exterior wood work of the residence, the oil house, the doors on the engine room,

THESE FILMS ARE LOANED TO MEMBERS OF THE BOARD OF DIRECTORS  
AND THE BOARD OF DIRECTORS OF THE BOARD OF DIRECTORS

1. The first of these is the fact that the majority of the population of the United States is of European descent. This is true of the United States, Canada, and the United Kingdom. The second is the fact that the majority of the population of the United States is of European descent. This is true of the United States, Canada, and the United Kingdom. The third is the fact that the majority of the population of the United States is of European descent. This is true of the United States, Canada, and the United Kingdom.

[illegible]

The meeting, which was held in the afternoon, was attended by a large number of the members of the Society, and the following resolutions were adopted:

[illegible]

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

the fuel oil storage room, and the garage, and the two Chic Sales were painted.

Several days were spent on the roads within the Monument. Most of this was grading.

About 14,000 willows were planted in the arroyo for erosion control. This job was completed. Nearly 1,000 were planted last month. Last Friday, Regional Soil Conservationist Balch and the custodian made a short inspection trip. Almost all of these plantings noted at that time were leafing out. Also, a large percentage of the willow post size cuttings set in last fall were leafing out.

Small jobs, such as reroofing part of a cess pool, after collapse, and covering, digging up and cleaning another sewer line; digging up and straightening the support posts under the ramada; cleaning the stable and horse lot; building a drain for the water in the campground; putting the blown-down radio aerial back up and others were done at odd moments.

A start was made on the Flood Diversion Project. Paul Balch went over the ground with Archaeologist Vivian and the custodian. Posts were contracted for and delivery is expected soon.

New hinges for the gates have been delivered but not yet installed.

One trip was made to Aztec and Farmington and two to Gallup.

The detached section on which Pueblo Pintado is located was visited.

National Park Service visitors included Assistant Superintendent and Mrs. Johnson from Yellowstone National Park; Custodian and Mrs. Bowen from Grand Quivira National Monument in on the 5th and 6th; Ranger Steel from White Sands in on the 18th and Paul Balch in on the 22nd through the 24th.

The trader reports that he has rented his cabins on a number of occasions this month. As the visitor season is getting underway, he has a good stock of rugs on hand and is getting more. Also, for the visitor trade, he is having the local Indians make small looms, about 2 or 3 feet high, with a small rug about half woven in each. They are quite novel, and he is hoping they will sell well.

There follows the report of Archaeologist Gordon Vivian.

  
Irving McNeill, Jr.  
Custodian

THEY ARE ALL THE SAME, AND THE ONLY ONE THAT IS NOT THE SAME IS THE ONE THAT IS THE SAME.

ALL THE TIME - THROUGHOUT THE WHOLE OF THE YEAR - ALL THE TIME -

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United Kingdom regarding the progress of its investigation into the activities of the British Security Co-ordination Committee (BSCC) in the United States. This is a matter of great importance, as the BSCC was the main instrument of British intelligence operations in the United States during the Second World War. The Commission is therefore unable to provide a full and complete report on the activities of the BSCC in the United States at this time.

[illegible]

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to solve the problem and determining the resources that will be needed to implement the plan. Once a plan of action has been developed, the final step is to implement the plan. This involves carrying out the steps that have been identified in the plan and monitoring the progress of the implementation.

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED

...effect of not the largest but the widest of other low level groups

There are several other ways to print the data:

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United Kingdom regarding the proposed changes to the law of the United Kingdom regarding the treatment of the British Commonwealth countries.

THE FIRST REPORT THAT HE HAD RETURNED WAS ON JANUARY 20, 1941. HE WAS THEN IN THE ARMY AND WAS SERVING IN THE 1ST INFANTRY DIVISION. HE WAS THEN IN THE ARMY AND WAS SERVING IN THE 1ST INFANTRY DIVISION. HE WAS THEN IN THE ARMY AND WAS SERVING IN THE 1ST INFANTRY DIVISION.

Chaco Canyon NATIONAL MONUMENT

Bloomfield, New Mexico

April 27 1948

MEMORANDUM for the Custodian,  
Chaco Canyon National Monument.

There follows the report of Mobile Unit activities in your area for the month of April 1948.

With the improvement in weather conditions stabilization work was resumed on March 29th. The crew was started with three men and has been increased at this time to six with an additional three in the offing. Men are a little hard to find right now since this is lambing season and it will be followed by shearing time. Recruiting by the railroads has also increased. The labor supply seems definitely lower than it was at this time last year.

Some cleanup was done and minor patches made around Pueblo Bonito in preparation for the visitor season. A new weed burner was tried out and appears very satisfactory on small growth at least.

The repairs made at Bonito included small patches, mainly on the benches, of seven kivas, A, C, D, E, H, I and P. Wall patches were made in 332 and 106B where accumulating surface water had washed out a small area. A new ladder was built for visitor traffic on the east side.

In addition to the regular work experiments continued on materials. Two sections of wall were built to test various waterproofing for mortars and a small piece of wall was laid with Aquella treated stone. Archeologist Aide Rixey continued to turn out reinforced concrete lintels and many of these have been incorporated in repair work.

At Chetro Kettle two small patches left unfinished at the start of freezing weather were finished ; one of the doorways on the north and below ground level where flood waters entered was dug out and sealed.

A large buttress section some 12 feet high was completed in the northeast corner of 55 to hold two unsupported wall corners. This included the rebuilding of a doorway in the east wall.

A bulged area in 44 was taken out in sections and rebuilt and a door opening in 53 is in the process of repair now. Also in progress is the

Chaco Canyon

Blanco, New Mexico

April 27

April 27

There follows the report of the activities in your area for the month of April 1948.

With the improvement in weather conditions stabilization work was started on April 27. The crew was started with three men and has been increased at this time to six with an additional man in the office. Men are a little hard to find right now since this is a busy season and it will be followed by a busy season. The weather has also increased. The labor supply seems definitely lower than it was at this time last year.

Some cleanup was done and minor catches made around Pueblo Bonito. Preparation for the visitor season. A new word pattern was tried out and appears very satisfactory on small growth at least.

The repairs made at Pueblo Bonito included small patches, mainly on the benches, in seven rivers, A, B, C, D, E, F, and G. All patches were made in 1947 and 1948 where sandblasting repairs were made and a small area. A new ladder was built for visitor traffic on the east side.

In addition to the repair work experiments continued on materials. Two sections of wall were built to test various waterproofing for masonry and a small piece of wall was built with locally treated stone. In this way continued to improve and replace concrete blocks and many of these have been incorporated in repair work.

At Pueblo Bonito two small patches left unfinished at the start of the season were finished; one of the doorways on the north and below ground level where flood waters entered was dug out and sealed.

A large patchwork section some 12 feet high was completed in the northeast corner of 55 to help two unsupported wall corners. This included the rebuilding of a doorway in the west wall.

A single area in 44 was taken out in sections and rebuilt and a door opening in 55 is in the process of repair now. Also in progress is the

removal and rebuilding of the north wall of Kiva G. This is a major job and will require most of the next month. The wall is one that has settled and moved outward continually since the flood though the water did not reach it. In the thirteen feet of wall that are exposed on the north exterior of the kiva settlement has been three to four inches and outward movement at the top has reached one foot four inches.

Office work in the main has been trying to extract Loyalty Data from the Navajo hired and completion of the stabilization records for 1947 as well as keeping the current records up.

Gordon Vivian  
Archeologist

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

~~CHIRICAHUA~~ NATIONAL MONUMENT

~~Do~~ Dos Cabezas, Arizona

April 26, 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows a report of activities at Chiricahua National Monument for April.

Weather Conditions. Dry and windy. .06 inch of rain fell during the report period.

Special Activities. The Custodian made a trip to Casa Grande National Monument on April 13, 14 and 15, to secure another 3 KW light plant. With two of the 3 KW plants we hope to keep one of them in working order. The 10 KW plant burned more gas than we could afford.

Inspections. Three inspectors, Mr. George R. Bartlett, Mr. Kenneth M. Westerling, and Mr. Walter L. Malone, from the General Accounting Office, Los Angeles, representing the Comptroller General's Office, gave the Chiricahua office an inspection on April 23. Everything was OK we think and hope.

General Publicity. Chiricahua was favored with eight pages of pictures and story in the April issue of the Arizona Highways.

Maintenance. The entire 18 miles of telephone line has been brushed out this spring. This includes the line from Headquarters to Portal and the Massai Point--Sugar Loaf branch. The underground passage where the Sugar Loaf branch goes under the road to join the main line is not working. We expect to replace this in a day or two. Then the whole line should be in good working condition. A new portable telephone has been received and is a great help in checking the telephone line.

A man was hired April 5 to help Marble get caught up on the road and trail maintenance and the enlarging of the parking area. This man lasted 15 working days and another started work today.

New Construction. With the help of a laborer, Operator Marble has accomplished most of the work planned on the enlarging of the parking area, at Headquarters.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
Chiricahua, Page 2.

Approaches to Monument. Roads are dry and dusty, and numerous complaints are received about State Highway 181 where the state is preparing the road for oiling.

Concessioners. The Silver Spur Ranch is changing management again on May 1. While this ranch is not a concessioner, it does furnish meals and lodging to many monument visitors.

Interpretive Services. Six conducted trips with 26 visitors were made. One lantern slide talk to 15 persons was made at the Silver Spur Ranch. 1424 visitors in 344 parties were contacted in the museum.

Travel. 1622 visitors were recorded for this month. This compares with 1577 for April of last year. The travel year is now 6647 as compared with 7244 at this time last year. We hope to catch up with last years travel when the approach road from Douglas is oiled.

Forest Fire Protection. The forest is very dry both on the monument and on the surrounding National Forest land. The local forest ranger plans on putting on some lookouts on May 3 and we plan on putting Lookout Windes on Sugar Loaf about the same time.

*Clair V. Cooke*

Clair V. Cooke,  
Custodian.

Summary. These facts of annual leave was taken on a trip to the monument for and two trips to the monument were made for collection. Several other work and projects construction projects and other have taken up the time since visitors were not around.

DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

-----El Morro----- NATIONAL MONUMENT

-----Ranch, New Mexico-----

-----April 25,-----, 19 48-----

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in El Morro National Monument for the month of April, 1948.

WEATHER: High winds and overcast skies made this April feel a bit cool although the maximum temperature did reach 80 degrees. A minimum of 10 degrees was recorded. The total precipitation amounted to .70 inches and five inches of snow fell.

TRAVEL: During the first two weeks of the report period we had very few visitors, however, as road conditions improved so did our travel count. From 10 different states, District of Columbia, Sweden and Holland came 92 visitors in 32 cars and one airplane. The tour of the inscriptions was made by 76 people in 23 trips and the total guide time amounted to 24 hours and 15 minutes. Sixteen lost souls stopped for information.

APPROACH ROADS: Another historical event has occurred, i.e., a county grader actually came within two miles of the monument on the Grants road. Both roads are in fair shape now, inspite of the visitor's greeting, "Well we made it!"

EDUCATIONAL ACTIVITIES: It is the intention of the Gallup Chamber of Commerce to organize and conduct tours to Canyon de Chelly, Chaco Canyon and El Morro National Monuments this summer and on April 20th. a meeting was attended in Gallup to discuss plans for these tours and also an educational program of informing all hotel personnel, store clerks, filling station attendants, etc. about these areas, so that they can give the tourist correct information. Custodians McNeil and Guillet were present and a tentative schedule for talks and tours was made.

GENERAL: Three days of annual leave was taken on a trip to Santa Fe and two trips to Gallup were made for supplies. Current office work and Project Construction Program revisions have taken up the time when visitors were not around.

THE NATIONAL MONUMENT

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the Americas (CLA) in the United States.

• 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 2626, 2627, 2628, 2629, 2630, 2631, 2632, 2633, 2634, 2635, 2636, 2637, 2638, 2639, 2640, 2641, 2642, 2643, 2644, 2645, 2646, 2647, 2648, 2649, 2650, 2651, 2652, 2653, 2654, 2655, 2656, 2657, 2658, 2659, 2660, 2661, 2662, 2663, 2664, 2665, 2666, 2667, 2668, 2669, 2670, 2671, 2672, 2673, 2674, 2675, 2676, 2677, 2678, 2679, 2680, 2681, 2682, 2683, 2684, 2685, 2686, 2687, 2688, 2689, 2690, 2691, 2692,

GRAN QUIVIRA

GRAN QUIVIRA, B. MEXICO

APRIL 25 1948

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of April 1948.

General. April has been a dry month with considerable wind. Travel has picked up, but does not equal that of last year. This is probably due to inaccurate counts while the custodian was away from the area.

Weather Conditions. Dry and warm for the most part with some wind and drifting sand. A total of 0.54 inches of moisture was received during the report period. A maximum of 83° was recorded on April 18; a minimum of 25° on April 2.

Special Activities. On April 5, 6, and 7 the Custodian went to Chaco Canyon to exchange the near-exhausted Ford coupe for a 1940 Chevrolet pickup. The Chevrolet is in excellent shape and our full appreciation goes to the McNeills for their hospitality and the 100% overhaul on the Chev.

April 8 to 11 were spent at White Sands assisting in Playday. A gala occasion and quite a contrast to the relative peace and quiet of Gran Quivira.

On April 21 in response to a telephone call from Mr. Davis, I joined Mr. Ratcliff at Encino and accompanied him to Big Bend on a fire call. It was the ideal fire, being under control when we arrived on the morning of the 22d. One day was spent at Big Bend, and I returned to Gran Quivira on the 24th. Contact work and general coordination of the repair and rehabilitation program was handled without a hitch by Mrs. Bowen while I was gone.

Repair and Rehabilitation. Repair was begun on the old custodian's residence on April 14 with four local men. Work has gone very well, but the money has gone faster. The mud chinking was removed and walls pointed inside and out with cement. Work is now progressing on redapping the walls preparatory to placing the plate to tie the roof to. Formerly the roof was held on with wire. Considerable wall had to be torn out and relaid which is time consuming to say the least.

No bids were received for roofing materials; however, I was able to obtain the entire order from the Markey Lumber Co. at Carrizozo at a 10% discount.

It is hoped that funds can be found to put on the new roof and run a cement floor on all but the restroom section at this time. The restroom floor will have to wait until funds are available for the necessary plumbing connections.

An emergency wage was approved for hiring a platerer to refinish the living room. Now the plasterer has reneged, and I am trying to locate another one.

Approaches to Monument Area. The Mountainair approach is in average shape, a bit rough but not too discouraging. The 8 $\frac{1}{2}$  miles under construction is about ready for oil.

Sand has periodically closed Hiway 10 to Claunch. A sign routing people west and north was placed at Claunch on April 13 and has kept some visitors from getting stuck.

Interpretive Service. 36 parties totalling 128 people were guided through the ruins. Average trip time 42 minutes. A considerable part of this was done by Mrs. Bowen during the latter part of the report period.

Research and Observations. First rattlesnake on Easter Sunday, March 28. More since then. The cool weather still has them hunting their holes at night and staying close in the daytime. Ah! the mixed blessings of spring at Gran Quivira.

New bird records for the Monument this month:

Evening Grosbeak	March 26
Ladder-backed Woodpecker	March 27
Spurred Towhee	April 17

Increase or Decrease in Travel. A continued but lesser decrease this month. Since no one was here for 7 days of the report period, it is very possible that enough cars were missed to make up the deficit. A "sing" at the local church on April 4 brought 10 cars and 44 visitors for a "big" day.

	<u>CARS</u>	<u>VISITORS</u>
April 1948	57	174
April 1947	69	220
Decrease	12	46
Percent Decrease	17.39	20.91
This travel year	227	656
Last travel year	285	954
Decrease	58	298
Percent Decrease	20.35	31.24

Visitors. Dr. C. L. Sonnichsen, College of Mines, El Paso, Texas on March 27. Dr. Sonnichsen is gathering material for a book on this region.

Dale King and Mr. & Mrs. Allan Vetter on April 8. Plans for a future museum and interpretive program were discussed.

Ranger Paul Steel, White Sands on April 12. Mr. Steel picked up a stove for Arches which is to be delivered along with a trailer house in the future.

William L. Bowen,  
Custodian.

[illegible]

about ready for all.

Hand has previously shown that the  
people and the people of the world are not the same.

Information received from the above sources is being used to develop a plan of action for the future. The plan will be based on the findings of the above studies and will be subject to review and revision as more information becomes available.

1. The first of these is the fact that the  
2. second of these is the fact that the  
3. third of these is the fact that the  
4. fourth of these is the fact that the  
5. fifth of these is the fact that the  
6. sixth of these is the fact that the  
7. seventh of these is the fact that the  
8. eighth of these is the fact that the  
9. ninth of these is the fact that the  
10. tenth of these is the fact that the

that amount was added to the deficit. A list of the  
names of one or more of the persons named, is a very valuable  
reference or picture in travel. A detailed list of persons who were  
involved in the case is a very valuable reference.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE  
GREAT SAND DUNES NATIONAL MONUMENT  
MOSCA, COLORADO.

April 26, 1948.

MEMORANDUM for the Regional Director,  
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for April, 1948.

WEATHER. Spring is trying to return to the San Luis Valley, but is having a hard time overcoming winter.

A minimum of 10 was registered on March 31. The maximum of 76 was reached on April 17.

Snow fell on March 30,31; April 11,12,23,24 and 25. Four inches of snow fell on the 25. Our 6th northeast storm occurred on March 31.

Showers fell on April 21 and 22. There were 11 clear days; 9 partly cloudy days; 11 cloudy days; and strong winds blew on 16 days.

The Medano is running very high and is covering the entire eastern side of the Sand Dunes. The water in the Rio Grande is also at a high level and there is still a threat of flood in the valley.

The Sangre de Cristo range is beautiful with a deep covering of snow. The farmers and ranchers are having great difficulty in planting their crops of potatoes and alfalfa, due to excessive amount of water in the fields.

A Taylor minimum-maximum thermometer was purchased by the custodian for his personal use in recording the weather variations at this area. For a long time correspondence has been carried on with the Denver Weather Bureau in an attempt to obtain a weather station, but this non-cooperating government agency does not believe we need a station here. It might surprise them to know we have had some interesting data recorded on a minimum thermometer bought from the Army Signal Corp.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE  
WATER RESOURCES DIVISION  
WASHINGTON, D. C.

April 28, 1964

Memorandum for the Regional Director,  
Pacific Division

Re: Water resources of the Pacific Northwest  
National Park Service, April, 1964.

1. The Pacific Northwest is a region of great  
diversity in its water resources.

2. A number of the water resources of the Pacific  
Northwest are of great importance.

3. The water resources of the Pacific Northwest  
are of great importance to the people of the  
Pacific Northwest.

4. The water resources of the Pacific Northwest  
are of great importance to the people of the  
Pacific Northwest.

5. The water resources of the Pacific Northwest  
are of great importance to the people of the  
Pacific Northwest.

6. The water resources of the Pacific Northwest  
are of great importance to the people of the  
Pacific Northwest.

7. The water resources of the Pacific Northwest  
are of great importance to the people of the  
Pacific Northwest.

TRAVEL. Five hundred twenty-one visitors in one hundred forty-five cars visited the Sand Dunes during this report period. Twelve states were represented. Two hundred twenty-six people took advantage of the picnic area. One written request was received for six leaflets.

INCREASE IN TRAVEL. With a change in the weather, travel suddenly spurted to a new high in comparison to last year's travel. For April, 1947, there were 107 cars and 382 visitors.

ROADS. The State graded the approach road on March 27 and April 24. However, due to the last snow storm on the 25, the road became badly rutted in the valley and several heavy trucks were stuck in the mud. Four miles of the approach road needs draining and graveling. There has been some talk of either the state or county doing this work this spring.

Talk has sprung up again about completing the road over Mosca Pass and oiling the approach road to the monument.

The monument road is in excellent condition to headquarters, but the road to the dunes and picnic area is in poor condition.

N.P.S. VISITOR. Architect Saunders was in on April 19, to inspect work started on installing the oil burning furnace.

ACTIVITIES. Usual routine duties of hauling water, fuel oil, gasoline, wood, ashes and garbage. Office matters were kept current.

TRIPS. A trip was made to the Saguache County Court House on land matters for the NPS-L-3 forms for this monument. Data was obtained on the legal description in deed book and page for the following: TWP 41 N, R.12E; T.26S, R.73W and T.25S, R73W of state land. Also data was obtained on land owned by G.L. Zeigler; J.W. Williams and G. White.

A further check was made on boundary lines with W. Williams who made a trip with me to the upper sand dunes, to check on the south boundary of Section 23. The land here is in poor condition due to the encroaching and shifting sands.

A trip was made to Monte Vista for information on the furnace and propane projects at headquarters.

Several trips were made to Alamosa for information on propane installation and the hauling of gasoline, supplies, mail and etc.

THIRTY. Five hundred twenty-one visitors in one hundred  
thirty-five cars visited the local house during this report  
period. Twelve guests were represented. Two hundred  
twenty-six people took advantage of the picnic area. One  
written request was received for six tentists.

UNUSUAL IN TRAIL. With a change in the weather, travel  
entirely ceased to a new high in comparison to last year's  
travel. For April, 1947, there were 107 cars and 225 visitors.

ROAD. The State finished the approach road on March 22 and  
April 22. However, due to the fact snow came on the 21, the  
road became badly rutted in the valley and several heavy  
trucks were stuck in the mud. Two miles of the approach  
road were finished and gravelled. There has been some talk  
of either the state or county doing this work this spring.

This was spring up again about completing the road. The  
space was and still the approach road to the monument.

The monument road is in excellent condition to handle traffic,  
but the road to the house and picnic area is in poor condition.

N.E. 3. VISITOR. Archivist Buchanan was in on April 19, to  
inspect work started on installing the oil burning furnace.

ACTIVITIES. Local routine duties of handling water, fuel oil,  
gasoline, wood, axes and traps. Office matters were kept  
current.

TRIP. A trip was made to the Republic County Courthouse on  
land matters for the 1941-42 term for this monument. Data was  
obtained on the legal description in land book and page 100  
the following: Twp 41 N., R. 12E., T. 22N. and T. 23N., R. 12E.  
of state land. Also data was obtained on land owned by W.L.  
Belcher; L.V. Williams and J. White.

A further check was made on boundary lines with W. Williams  
who made a trip with me to the upper land there, to check on  
the north boundary of section 33. The land here is in poor  
condition due to the encroaching and shifting sands.

A trip was made to Santa Vista for information on the  
furnace and propane projects at headquarters.

Several trips were made to Alamosa for information on  
propane installation and the handling of gasoline, kerosene,  
oil and etc.

INSTALLATION OF FURNACE. Work was begun on April 7 in the installing of the 120,000 BTU oil burning furnace. To date almost 80% of the work is completed. Register holes were chipped and chisled for a 16 inch register to the living room; 12 inch to kitchen; 10 inch in both bedrooms; 10 inch to dining room; and 8 inch to bathroom. Cold air ducts were also chisled. Much difficulty was encountered in this work by the thickness of the cement floors which ranged from 10-12 inches. The steel reinforcing rods were another headache and when exposed, were cut by a torch. It is hoped that another week of work will put the furnace into operation.

INSTALLATION OF PROPANE SYSTEM. The propane tanks, copper tubing, valves and other parts were installed and the Servel refrigerator was in operation at noon on April 27. This box will bring us much joy and save us money and also the government in cutting down trips to town for ice and supplies.

WATER SYSTEM. Another song of rejoicing on our part was the thawing of the water line on April 16. The mud and sand, mixed with some water flowed again in the residence. Both tanks were cleaned and the water should clear after more usage. It is hoped that this system can be placed in A-1 condition for next winter.

LIGHT PLANTS. Both plants have been in constant operation for the most part of this report period, to furnish light and power for electric tools needed for the installation of furnace and propane system. No. 2 plant is operated during the day and No. 1 at night. Weekly checkups are made and parts were obtained for the No. 1 plant which has a worn fan pulley and crankdog. This will be installed as soon as time permits. With increased usage of these plants, it was necessary to haul more gasoline since there is no storage facilities at this area.

ELECTRICAL SYSTEM. The system received much abuse due to increased usage and several wall receptacles were damaged. These were shorted and began burning which caused smoked spots on the wall finish. These will be replaced as soon as time permits.

PROJECTS FOR THE ENSUING MONTHS. Completion of the installing of furnace; repairs to light plants; repairs on electrical system; cleanup of basement and house after the furnace is installed; painting walls and floors throughout the residence; obtain revised wage board rates for this area; check all fire fighting equipment; check south boundary;

INSTALLATION OF PUMPS. Work was begun on April 7 in the installation of the two oil burning pumps. Today a second set of the work is completed. Another pump was ordered and shipped for a later period in the spring. It is to be installed in the oil room. This is to be a diesel pump and a tank to be installed. Work is also being done in the installation of the second oil pump. In this work by the installation of the second oil pump, pumps from 10-12 inches. The steel reinforcing rods were another pump and then exposed, and by a pump. It is hoped that another set of work will put the pumps into operation.

INSTALLATION OF PUMPS. The pumps have been ordered. The valves and other parts were installed and the pump reinforcement was in operation as soon as April 20. This has will bring us into the new and new and the pump reinforcement is being done to show the new supplies.

WATER SYSTEM. Another set of piping on our part was the piping of the water line on April 18. The main and main, with some water flow again in the installation. Both tanks were cleaned and the water supply clear after more work. It is hoped that this system can be placed in a condition for next winter.

WATER PLANT. Both plants have been in constant operation for the most part of this report period. To install light and power for electric tools needed for the installation of furnace and propane system. No. 1 plant is operated during the day and No. 2 at night. Weekly changes are made and parts were ordered for the No. 1 plant which was a new fuel pump and chimney. This will be installed as soon as the parts. The furnace range of these plants, it was necessary to have more gasoline since there is no storage facilities at this time.

WATER PLANT. The system receiver was moved to increased usage and several well perforated were damaged. These were stopped and began drilling with small holes. Spots on the well filled. These will be replaced as soon as the pump.

WATER PLANT. Completion of the installation of furnace; repairs to light plant; repairs on electric system; cleanup of basement and house after the furnace is installed; painting walls and floor throughout the residence; check revised wage board rates for this year; check all the lighting equipment; check again security.

Ted C. Sowers,  
Custodian.

Amalgamation. Visitors expressed how much work we are doing with aid to women, but they say again on this work. I am very much trying to do to do visitors and change up the BBL. Except on Sunday we offer an guided tour at noon and start the tour was for this day at 4:00 P. M. With these restrictions and the limit of 2 visitors per party every week, visitors who are disappointed when they cannot visit into the Nation. Although we have had 2 per week more visitors to the Nation than the BBL guided last year, we have had 10 per week less visitors through our radio program than we were offering guided trips at noon and 4:00 to 4:00 P. M.

Other administrative and technical staff will come up a "catch-up" basis with employee scheduling. Management time is being set aside to handle these matters.

One grade of twisted railings was checked and it was discovered that although the type of railing used is made by the Iron Foundry Co. of Chicago, Ill., the railing is not made by the same firm. The railing is made by the Chicago Iron Foundry Co. of Chicago, Ill., and is made of a different material than the railing used in the other buildings.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Montezuma Castle National Monument  
Camp Verde, Arizona

April 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report for Montezuma Castle National Monument for the month of April, 1948.

Visitors this month to Castle and Well - 2482; this travel year to date, 10,777. Travel figures from Montezuma Well are incomplete since the employee there spent most of his time getting the quarters ready for occupancy.

Administration Visitor contact has taken most of our time with six to seven hours per day spent on this work. Week days usually bring 50 to 70 visitors and Sundays up to 200. Except on Sunday we offer no guided trip at noon and start the last one for the day at 4:00 P. M. With these restrictions and the limit of 9 visitors per party there are many visitors who are disappointed when they cannot climb into the Castle. Although we have had 5 per cent more visitors to the Castle than the 2003 counted last year, we have had 27 per cent less visitors through the ruins, because then we were offering guided trips at noon and 5:00 to 6:00 P. M.

Office administration and maintenance are being done on a "catch-as-catch-can" basis with employees contributing considerable time before and after hours and on days off.

Our quota of franked mailings was checked and it was discovered that through an error we had exceed the quota of 175 for 7 months by 9. Since that time this custodian has personally paid postage on all pieces of mail sent for three cents.

Bids have been circulated for re-roofing the custodian's residence.

Considerable effort has been spent in locating a candidate for our temporary ranger position. Trips were made to Cottonwood and to Flagstaff and correspondence has finally resulted in the recommendation of W. Wayne Boyle, student at the University of Arizona, Tucson.

Weather The weather has remained unusually cool with recent snow storms in Flagstaff and Prescott. The maximum was 92 degrees and the minimum 30 degrees on the 1st, 12th, and 24th.

DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Montezuma Castle National Monument  
Montezuma, Arizona

April 14, 1941

Memorandum for the National Director, National Park Service

Re: Montezuma Castle National Monument, Montezuma, Arizona  
Subject: The results of April, 1941.

Visitors to the monument in April and May - 1941. The total number of visitors to the monument in April and May was 1,777. The total number of visitors to the monument in April and May was 1,777. The total number of visitors to the monument in April and May was 1,777.

Administration. Visitor comfort has been one of our main aims. To secure more comfort for the visitor we have made many improvements. We have made many improvements to the monument. We have made many improvements to the monument. We have made many improvements to the monument.

Public administration and maintenance are being done on a regular basis. We are doing a good job of maintaining the monument. We are doing a good job of maintaining the monument. We are doing a good job of maintaining the monument.

The results of the April and May visit are as follows. The results of the April and May visit are as follows. The results of the April and May visit are as follows. The results of the April and May visit are as follows.

This report was prepared for the National Park Service.

Montezuma Castle National Monument has been visited by many people. Montezuma Castle National Monument has been visited by many people. Montezuma Castle National Monument has been visited by many people. Montezuma Castle National Monument has been visited by many people.

Weather. The weather was very good during the visit. The weather was very good during the visit. The weather was very good during the visit. The weather was very good during the visit.

Visitors There were 2107 visitors to Montezuma Castle and 375 to Montezuma Well. Cars counted at the Castle - 659; Montezuma Well - 115. Tickets sold at the Castle - 578; tax but no ticket - 36; children who climbed free - 63. We had to disappoint one middle-aged lady with a broken arm who wanted to climb into the Castle. She stated the arm had been broken three weeks and had not kept her from doing anything she wanted to yet but she was informed we could not let a handicapped person climb the ladders.

Contact Time Total contact hours - 193. Hastings - 100.50; Leding 92.50. No contact time was recorded at the Well. One hundred and sixty trips were made through the Castle for 677 visitors and 824 visitors saw the museum in 118 groups. Many visitors were uncounted and unattended in the museum. Five hundred and twenty-two visitors received information outside the ruins or museum.

Maintenance At Montezuma Well the contractor completed his work of remodeling the quarters and museum on March 31 and Archaeologist Schroeder spent most of the month completing work necessary to make the quarters habitable. He is expected to move there April 28 and 29. Connections for the gas range and water heater have been checked and these appliances vented. Difficulty was experienced with the new water pump due to damage from freezing and corrosion from non use for several months. The pump is still not functioning properly.

The modern irrigation ditch at Montezuma Well was cleaned out by the various water users on April 12 and 13.

At Montezuma Castle a new automatic water heater was installed in Residence No. 1. Work was completed in giving all our wooden signs a coat of raw linseed oil.

Newsworthy Visitors Dr. Getty, Dept. of Anthropology, University of Arizona visited both Montezuma Castle and Montezuma Well.

The custodian spent about three hours on a day off with A. W. Jarrett, Information Specialist, Soil Conservation Service, Albuquerque who wanted pictures of the Castle and the Indians activities in the valley. He plans to tie this in with a project at Cottonwood to completely re-make a delapidated farm in one day to demonstrate conservation practices.

Unusual Activities Flood waters in Beaver Creek stranded Mrs. John Palmquist in a little shack across the creek on the old Davis property. Her husband is a veteran in the hospital and for more than a week we ferried mail and supplies across to her on a wire. This was done after hours and on days off or by the Custodian's family.

Research Paul Spangle and David Goodwin, students at Arizona State College, Flagstaff are continuing their project to collect herbarium specimens at Montezuma Well.

NAVAJO NATIONAL MONUMENT  
TONALEA, ARIZONA

April 25, 1948

MEMORANDUM for the Director, Region Three

There follows a monthly report of activities in this area for the month of April 1948.

VISITORS: 22 visitors reached this area in six cars. Five parties totalling 18 people were guided on Sandal Trail to Betatakin Point. One party of 5 was shown Scaffold House from Segi Point using the telescope. One party to Betatakin and one to Scaffold House and a party of one was guided to Inscription House.

WEATHER: Maximum temperature 76 degrees on the 17th, minimum temperature 19 degrees on the 12th. Snow fell on the 11th and 23rd. A thunder storm occurred on the 21st. Total precipitation for the month 0.23 inches. High winds on the 10th 21st and 22nd have made the country quite dry and dusty.

ROADS: The approach road is in better than average condition excepting 100 yards in Klethla Valley. This is impassable for inexperienced drivers. The windblown sand dune has moved directly across the road. Three lengths of drift fence are fighting a losing battle. (See Co-operating Government Agencies). On April 5, Bob Black, Keith Shepard and I removed three lengths of drift fence from the West side of the Shonto and erected it on the West side of the approach road in Klethla Valley. While working in the Valley we were able to commandeer the USIS road grader to push the sand off the road. Some blow-sand and much dryness has rendered this stretch of road difficult. A sign stating "Shonto Road Is Better" was erected at the junction.

ROADSIDE DIRECTIONAL SIGNS: In addition to the above mentioned sign two new routed signs were placed on the Kayenta Road at the Shonto turn-off. All signs (11) not including Shonto or Headquarters were dyed and repainted. Two signs were moved to better locations.

The large two-post three-panel sign for the Rainbow Bridge turn off (6 miles East of Tonalea) is being painted and is almost ready for installation. Two additional signs are complete and ready for installation. The Headquarters signs are to be dyed and repainted this week.

Page 2

CO-OPERATING AGENCIES: The USIS approved our plan to move the drift fence from Shonto (where it was holding no sand) to Klethla Valley. the services of Keith Shepard (Navajo) were furnished by USIS.

MAINTENANCE: Our leaking 950 gallon gas tank was excavated and the gasoline soaked soil seemed to be concentrated below the bottom man-hole. We stretched the excavation large enough to roll the tank a quarter turn and remove the cover plate from the man-hole. The gasket, asphaltum and asbestos, had permitted a capillary action and loss of gasoline. Where to get a gasoline-tight gasket presented us with a problem. We did not wish to rush to town simply to get gasket material and found the problem an interesting test of our ingenuity. Consulting the Book of Formulas we were intrigued by the Chinese Cement Formula. This starts out, "To 37½ parts of beaten Bullocks blood, etc.," We found it easier in the long run to get litharge and glycerine from the Hospital in Tuba City than to find a 'beaten bullock'. (anyway, Ida had asked me to please stop staring at her).

PERSONNEL: We had a nice visit here from former Custodian Bill Wilson on the seventh. Bill brought Kathryn, Sonia, and Lois Lee of Los Angeles.

MUSEUM & RESEARCH: To some interested visitors who wanted to learn about pottery I applied the Tom Sawyer whitewash technique and had them wash the Palmer collection. Demonstrating the method of restoring sherds to vessels I got three broken pots assembled. Some of these broken vessels are ample proof of the damage an amateur can do. Before the balance of the collection can be reassembled the edges must be cleaned of the assorted experimental cement failures. To date alcohol, gasoline, xylol, water and brushing has failed. We are going to try varnish remover.

MISCELLANEOUS: Word has just reached us that the USIS is bulldozing the sand dunes in Klethla Valley.

Late last month we made a four day reconnaissance trip gathering road information enroute to Mesa Verde National Park and Aztec National Monument. We gathered up a worthy load of material and equipment surplus to the needs of Aztec National Monument. Things seemed to be ticking off in fine shape at both of these areas and we were happy to see old friends.

Tomorrow we are making our first trip to Flagstaff since March 3, 1948.

APR 28 1964

1. The first group of people who are interested in the study of the history of the world are the historians. They are people who study the past and try to understand what happened and why it happened. They use a variety of sources, including books, documents, and artifacts, to reconstruct the past. They also try to understand the people who lived in the past and how they thought and felt. Historians are interested in the past for a variety of reasons. Some are interested in the past because they want to know what happened and why it happened. Others are interested in the past because they want to understand the people who lived in the past and how they thought and felt. Still others are interested in the past because they want to learn from the mistakes of the past and avoid them in the future.

ORGAN PIPE CACTUS NATIONAL MONUMENT

Box 38, Ajo, Arizona

April 25, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of April, 1948.

WEATHER:

During the middle of the month it seemed that hotweather was upon us when the temperature reached 101 on the 18th but after a few days it cooled to our normal spring temperatures. The minimum for the month was 35 on the first of April. Several days of high winds led us to believe we might have some precipitation but no rain fell during the month. While several days were quite windy for this section and dust filled the air, we did not get the strong storms that have been reported around us. Zero visibility due to dust storms has stopped traffic on some highways for hours at a time and caused numerous accidents through Southern Arizona.

GENERAL:

Administratively the month has been routine with office and contact work keeping one man tied down.

The 4000-gallon tank was assembled and elevated to the platform and given a rust proof coat. It is now ready to be hooked in to our water system.

Three members of the Sierra Club of Southern California, accompanied by Ranger Bean, climbed Montezuma Peak on April 5, and then on April 6 climbed Diaz and Santa Rosa Peaks. They had hoped to get first ascents on these three but a tobacco can was found on Montezuma and a survey station on Santa Rosa; however, Diaz apparently was a first ascent. Register sheets were placed in aluminum tubes on the peaks.

Ranger Bean is spending a week at Saguaro National Monument to assist new personnel in office routine.

Mr. and Mrs. John Sperry and Dr. and Mrs. Melander have been spending their vacations on the monument working moths and flies for the Organ Pipe collection.

## DEPARTMENT OF THE INTERIOR

TRAVEL:

Travel has remained steady with desert flowers bringing a great many people to the area to see the desert in bloom. While annuals have been disappointing, cactus and ocotillo are very good. The campground has continued to be well used during the entire month.

VISITORS:

Visitors to the area include Lon Garrison, John Cook, James Clancy, and John McKee, of Grand Canyon National Park, who camped overnight on their return from a Gulf fishing trip.

Pima County Engineer George Grove paid a visit to the area.

PUBLICITY:

Phelps Dodge Corporation is backing a publicity film of Arizona including its industries and scenic attractions. It is being produced by Atlas Film Company under the direction of Mr. Ward who has his staff on the monument now making his Organ Pipe shots for inclusion in the reel.

COMMUNITY DEVELOPMENT:

While not directly affecting Organ Pipe, new developments are taking place in Ajo which will be a contributing factor for greater use of this area. The Phelps Dodge Corporation has under construction about 200 houses in Ajo and announced this month that five million dollars has been allotted to Ajo for a smelter. A great many improvements are being made by the P.D. Corporation in the New Cornelia mine and it is stated by them that 11 million dollars will be spent in Ajo within the year. This of course will make many modern improvements and considerable increase in population and activities in the vicinity. It will probably bring about the completion of the Tucson-Ajo Highway at an earlier date than would otherwise be expected. There is also a proposal of a Highway from Douglas to Yuma along the International Boundary, passing through Nogales, Sells and Ajo.

William R. Supernauth,  
Custodian.

THE NEW YORK TIMES

1914

General has remained steady with almost tireless industry a great many people to the work he has done in the past. His energy and determination, and his ability to do well what he sets his mind to.

1914

There is no one in the world who has done more for the world than the man who has done it. He has done it in the past, and he will do it in the future.

John County, England, has been a great help to the world.

1914

NATIONAL PARK SERVICE

SAGUARO NATIONAL MONUMENT  
Tucson, Arizona

April 26, 1948.

**MEMORANDUM for the Regional Director, Region Three.**

There follows the monthly narrative report of activities at Saguaro National Monument for the month of April, 1948.

Weather

The weather has been pleasant for the most part with a high temperature of 98 degrees registered on April 16. It was reassuring however, to learn that this phenomena was unusual at such an early date. Then on Friday, April 23 a wind storm of considerable velocity blew several tons (estimated) of gravel and sand past the headquarters area, to be deposited in the general direction of the Catalina Mountains.

Special Activities

The custodian made several trips through the Saguaro Forest and elsewhere over the monument to become acquainted with the terrain.

Inspections

Assistant Regional Director John Davis and Land Planner John Kell were at Saguaro over the period April 22 and 23. Mr. Davis went over fiscal and improvement matters and discussed the coming fire season with the custodian. Mr. Kell investigated the status of private lands contained within the boundaries of Saguaro National Monument.

Maintenance

The trail crew has completed repair work on the lower portion of the Madrona - Grass Shack Trail and have located a new base camp below Grass Shack. This should make for more economical operation.

All mules were brought in from the X9 pasture and shod; six are being retained for the pack string based at Madrona Ranger Station and four put in the mountain pasture.

The directional sign (Saguaro) at the Broadway intersection has been repainted and an arrow added. This will assist prospective visitors to the monument considerably.

NATIONAL PARK SERVICE  
WASHINGTON, D. C.

April 22, 1934.

MEMORANDUM FOR THE NATIONAL PARK SERVICE, National Park Service.

There follows the monthly narrative report of activities as  
conducted during the month of April, 1934.

Summary

The month has been pleasant for the most part with a high  
percentage of the weather favorable to April 12. It was generally  
warm and this season was marked as such on many days. The  
month, with its mild spring weather, was generally very  
warm (average) in April and was the warmest of the month  
reported in the monthly narrative of the National Park Service.

General Activities

The month was marked by the fact that the National Park Service  
closed over the month of April as usual with the National

Administration

During the month of April the National Park Service was  
very active with the month of April 12. The month was  
marked by the fact that the National Park Service was  
closed over the month of April as usual with the National  
Park Service. The month was marked by the fact that the  
National Park Service was closed over the month of April  
as usual with the National Park Service.

Recreation

The month was marked by the fact that the National Park Service  
was very active with the month of April 12. The month was  
marked by the fact that the National Park Service was  
closed over the month of April as usual with the National  
Park Service. The month was marked by the fact that the  
National Park Service was closed over the month of April  
as usual with the National Park Service.

The month was marked by the fact that the National Park Service  
was very active with the month of April 12. The month was  
marked by the fact that the National Park Service was  
closed over the month of April as usual with the National  
Park Service. The month was marked by the fact that the  
National Park Service was closed over the month of April  
as usual with the National Park Service.

Repairs are being made on the headquarters telephone; the hook-switch was faulty and is being replaced. In addition, representatives of the Mountain States Telephone and Telegraph Company have effected necessary repairs on the various hook-up schemes leading into Madrona Ranger Station. There was a heavy ground on the line at that point, due to improperly installed switches. With this improvement, there should be no further difficulty.

The small air cooled engine used to pump water at Madrona Ranger Station was taken to the Park Service Shop at Casa Grande for repairs. It is operating in a satisfactory manner once more.

The contract for repair operations on the various monument buildings was awarded to the Tucson Roofing and Supply Company. It is anticipated that they will commence operations in the near future as the starting date of the contract is April 26.

#### Travel and Interpretive Service

A total of 2110 persons visited Saguaro during the month. Forty one states were represented and Canada. This is a decrease of 1219 persons or approximately 37% less than last month. Travel figures disclose an increase of 328 persons or 18% over the corresponding month of 1947.

The contact station has been in operation throughout the month and keen interest is shown by visitors in the arboretum and multiplex photograph display. A total of 1119 persons in 345 parties were given interpretive service at headquarters. This amounted to 100½ hours for an average of 17 minutes per party.

#### Forest Protection

Park Ranger Wilde and Maintencemman Ollie Barney are beginning repairs on the Madrona Ranger Station - Mica Mountain phone line as of this date.

A temporary fire plan is being formulated for interim use until Regional Forester Carlson can visit the area to make revisions. The custodian expects to appraise the physical aspects of fire protection on the forested area as quickly as possible.

It is contemplated to man the Mica Mountain Lookout Tower on May 1 as previously planned. The lookout will be on duty 7 days per week throughout May.

#### Visitors

Noteworthy visitors to Saguaro during April were: Mrs. Inez Townsley, wife of the late F. S. Townsley, Chief Ranger, Yosemite National Park for many years; Ranger Merritt Johnson and wife, Yellowstone National Park; Dr. and Mrs. Alfred O. Gross, visiting Saguaro in connection with bird

[illegible]

... ..

...the ... of ...

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the Americas (CLA) in the United States. This is a serious matter, as the CLA is a known and active organization in the United States, and its activities are of great concern to the Commission.

The contract stated that there is no obligation on the part of the Government to purchase any of the material produced by the contractor and that the contractor shall be responsible for the disposal of the material.

1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 2626, 2627, 2628, 2629, 2630, 2631, 2632, 2633, 2634, 2635, 2636, 2637, 2638, 2639, 2640, 2641, 2642, 2643, 2644, 2645, 2646, 2647, 2648, 2649, 2650, 2651, 2652, 2653, 2654, 2655, 2656, 2657, 2658, 2659, 2660, 2661, 2662, 2663, 2664, 2665, 2666, 2667, 2668, 2669, 2670, 2671, 2672, 2673, 2674, 2675, 2676, 2677, 2678, 2679, 26

THE UNIVERSITY OF CHICAGO PRESS

4. Summary: The plan is being formulated for the future and will be  
discussed further during the year to come. The summary  
experts to examine the physical aspects of the problem in the future.

It is anticipated that the new business location will be in the area of the old location. The location will be in the area of the old location.

1997

[illegible]

studies; Dr. W. Taylor Marshall, Curator, Papago State Park Cactus Gardens, Tempe, Arizona; and Mr. and Mrs. H. T. Roberts, Denver, Colorado, working on bird book in collaboration with Clyde Fisher.

### Lands

A "for sale" sign has been erected on the land immediately north of headquarters and facing the road. The information reads: 320 acres for sale, \$85.00 per acre, R. E. Dunn, c/o Arizona Trust Company, Tucson, Arizona.

### Personnel

Ranger Glen Bean was assigned to duty at Saguaro for a week to assist the custodian with general office procedure. Glen has imparted a wealth of information and brought us up to date on fiscal matters. He will be welcomed at any future date.

Ranger Marvin Frost, Sr. took annual leave April 22 and 25 to accompany his son to Los Angeles during the latter's illness.

The newly appointed custodian has found the assignment to Saguaro a most unique and interesting experience and from all indications it will continue to be a source of mental and physical stimulus.

Both Mrs. King and myself are looking forward to becoming acquainted with the southwest and especially the Service areas.

### Wildlife

Marvin Frost, Sr. observed a golden eagle feeding on the remains of a jack rabbit about 2 miles south of Madrona Ranger Station, observation date April 20, 1948.

On April 21, Mr. Frost observed a male and female rattlesnake in the act of mating. This is an accurate indication of the mating season.

The first white wing dove was observed on April 14, 1948.

Gambel Quail are numerous in the Saguaro Forest and the general vicinity around headquarters.

Sunset Crater National Monument

Flagstaff, Arizona

April 28, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities of Sunset Crater National Monument for the month of April, 1948.

Visitors this month: 1302

Travel Year to date: 5344

Travel: Visitation on the basis of actual registration indicates a decrease of 16% for the same period a year ago, with 521 persons registered compared to 627 for April of last year. Travel year to date shows an increase over last year this time of 40%. A number of visitors have been traveling over the connecting road to Wupatki.

Weather: April is its usual windy month, with few showers. The snow has all melted except for an occasional protected spot.

Roads: The entrance and approach road from Highway 89 is in fair condition. However the continued dry weather with average travel for this time of the year is causing the road to become more rough with many chuck holes. The first week of the month several man days were spent repairing the road through the monument and the connecting road to Wupatki, hauling 54 yards of clay and coarse cinder and filling the worst places. Considerable use is being given the back road, with most of the traffic going from Sunset to Wupatki. The deep cinder is rapidly becoming dry and soft.

General: More information concerning the Rural Electrification Development indicates that the power will be brought even closer to Sunset than was at first anticipated. It is understood that the plan is for the electric power to be brought down to the S. I. Richardson place, which lies in Bonita Park, approximately two miles from the present western boundary. It is also contemplated that a new telephone line will be constructed from Flagstaff out along Highway 89. This will also come down to the Richardson place, thus providing both electricity and telephone within a relatively short distance of the Monument.

On the 26th a house trailer arrived at Sunset Crater. This will provide much more satisfactory and comfortable temporary housing for the personnel. A location was chosen on the west side of the Monument. It will provide greater protection and also will give a shorter approach to Highway 89 over a road relatively free from the deep cinder.

Tonto National Monument  
Roosevelt, Ariz.

April 26, 1948.

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for April, 1948.

Weather. Most of the month has been hot and dry. Temperatures on 3 consecutive days managed to reach the 95 mark, and there were a number of days when the temperature passed 90. Clouds were a rarity, and the hot sun made short work of the annual flowers so that we had a poor display this year. We had our only rain of the month, a very light sprinkle, the afternoon of the 23rd.

Approaches to monument. The Apache Trail is a little rough. The long dry spell has made it difficult for the graders to accomplish much on the hard corrugations.

Interpretive Service. Visitor contact and interpretation took a little less time this month than last as the travel fell off with the coming of the hot weather. Of the 2174 visitors to Tonto this month only 789 made the climb to the Lower Ruin. No trips were made to the Upper Ruin, and that ruin still remains closed to visitors unaccompanied by a Ranger.

Travel. 2174 persons in 595 vehicles visited Tonto this month. This compares with 1912 persons for the month a year ago. The travel has been very heavy on Sundays and seems to be due to the new Arizonians getting out to see the sights.

Roads and Trails. On April 5, Raymond Frazier and Vestus Roberson entered on duty as the trail crew. They have made a remarkable showing in the short time they have worked. The entrance road has been partially regravelled, the ditches cleaned out, "tire busters" removed, and the most of the mile long road has been raked to remove the coarser gravel. The ruins trail has been reconditioned from the top to the half way point; water breaks have been rebuilt, ditches cleaned out, narrow places widened, and the protruding rocks covered with a new dirt surface. Mention must also be made of the work, amounting to the better part of a working day, done by the State grader-man, Ab Sanders, in cleaning out the ditches and grading the entrance road.

Special Activities. On Sunday, April 11, the Custodian accompanied the Dons Club of Phoenix on a trip to visit a very interesting group of Salado ruins located in the Mazatzal Mts.

## DEPARTMENT OF THE INTERIOR

## NATURAL RESOURCES SERVICE

Special Activities (contd). The Forest Service sponsored the trip and we cooperated by furnishing our truck and all the archaeological interpretation that we were able. This affair has been covered in a special report to the Director.

Complaints. A stuffy, short-tempered visitor, a W. F. Langton, who introduced and described himself as a very important "press photographer" protested in rather uncouth language when the Ranger refused to drop everything on a busy Sunday afternoon and take him on a specially conducted trip to the Upper Ruins.

Wildlife. One large rattlesnake was killed in front of the Custodian's house. Several Gila monsters have been seen around the houses but have been allowed to go about their business unmolested.

The most interesting sight this month related to the wildlife was the very odd antics employed by a raven in coming after a fruit cake set out for him by the Ranger. The raven spent a full 1½ hours working his way up to the cake, testing everything on his way to make sure that there was no trap. He completely cleared the ground ahead of him, pulling out the grass, throwing aside stones, and spading the ground with his beak. When he finally reached the cake, he cautiously jerked it back onto the cleared area. When nothing happened he tried it again. Not until then did he attempt to take it in his claws and fly away. The entire performance was a most remarkable display of caution and intellect.

A pair of Palmer Thrashers have utilized an old Cactus Wren nest in a cholla alongside the ruin trail. The two blue eggs have hatched into a couple of very hungry babies that keep the parents on the jump.

We are having the usual trouble with people killing the little harmless snakes. So far, two have been found dead along the trail. The idea is ridiculous.

General. Two trips were made into town this month for gasoline and butane.

A NO FIRES sign was installed at the bridge with the hope of preventing a fire in the upper part of the canyon. With the dry conditions and high winds a fire would burn up the canyon before we could raise a hand to stop it.

Rancher Lyal has finished moving the drift fence on the east side of the monument back to the old location. He did most of the work, but we helped whenever we could find the time.

While travel was down this month from last, nearly as much time was spent in contact as before. As much time is taken in conducting a party of 2 thru the ruins as with a party of 20. The travel comes just steady enough to prevent any serious work on needed maintenance.

Charles C. Sharp  
Custodian

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE  
Tumacacori National Monument  
Tumacacori, Arizona

April 26, 1948.

MEMORANDUM for the Regional Director,  
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of April, 1948:

WEATHER CONDITIONS: Extremely dry, with only .01 precipitation. Temperature ranged from a low of 31 on March 27 to 99 on April 16th. April 13th brought an unusually late freeze, at 32 degrees. Range conditions are rapidly deteriorating. Much high wind, and two bad dust storms hit us during the month.

MAINTENANCE: The trail to the mission church was given a coat of pea gravel and rolled. Ground adjoining the northeast side of the museum was graded and trail improved. Holes in the road to the residences were filled with gravel and dirt. The patio garden fish pond was given its annual cleaning out. The safe was moved from the shop up a flight of stairs, across the museum building, and into the office. An excellent incinerator, of adobe, cement capping, pipe grate with removable center bars, was built in the utility area, and reduces fire hazard and objectionable smells. Spring planting was continued in the Patio garden, with one sizable patch of genuine Papago corn planted and well up. Oleanders, which suffered badly from the winter cold, were pruned drastically, and we are now struggling to decide whether the grubs, which have root-cut and killed several shrubs, are to take over the garden, or whether we will continue. We are hard at it, and expect to win a decision.

INTERPRETIVE SERVICE: 1321 visitors went on 201 guided trips through the mission church and grounds, receiving an average of 37.53 minutes per trip. 2395 persons saw the museum, and the same number received combined Information and Interpretation Service.

INCREASE OR DECREASE IN TRAVEL: 2,480 visitors came to the monument this month, compared with 2,080 for April of last year. This figure has been twice exceeded, first by April of 1938 with 2,571 visitors, and by April of 1939, with 4,850 visitors (this last was the month the museum was dedicated).

VISITORS: March 25 - District Ranger and Mrs. Hank Schmidt, of Sequoia National Park.

March 25 - A group of 37 persons from San Jose, California, sponsored by a Jesuit activity.

April 3 - 37 student fliers from Williams Field, Phoenix.

PUBLICITY: April 13 - William F. Langton and Geraldine Hamilton, taking educational movies for the state of Utah.

THE SECRETARY OF THE ARMY, WASHINGTON, D. C. 20315

RECEIVED  
JAN 10 1968

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 3, 1862. It is a message of condolence to the people of the State of California, who have been afflicted by a severe drought. The President expresses his sympathy for the suffering and his hope that the Congress will take prompt action to relieve the distress.

SECRET, CONTAINED WITHIN THE FBI FILE - ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED DATE 10/10/00 BY 60322 UCBAW/STW

DEPARTMENT OF THE INTERIOR

MAJOR REPAIR AND REHABILITATION: Tucson Roofing and Supply Company finished a contract job here with installation of a 4" high ramp at our museum entrance. This will prevent driving rains from sending pools of water into the museum lobby. (If and when we get rains again).

ROADS: Regional Highway Engineer Sam Hendricks arrived on April 19 to seal coat our badly weathered and pitted parking area and entrance roads. With a crew of four men and rented and borrowed equipment the job was completed on April 25. It looks as though a good workmanlike job has been done.

STABILIZATION OF MISSION CHURCH AND ADJOINING STRUCTURES: On April 13th the stabilization work which was discontinued in November of last year was resumed. The work this month has been on the mortuary chapel, and only one man has been used so far, for a total of 56 man hours this month. We are having to do extremely careful work, removing the inadequate temporary cement-stabilized mud which covered weathered surfaces, and bracing many sections of original plaster which are so ready to fall off that they move under the slightest hand pressure. The weakest sections of old plaster have now been stabilized with this large-scale "dental work" of filling cavities and binding edges. Am putting on another man now, and work on the chapel should go right along.

SOUTHWESTERN MONUMENTS ASSOCIATION: A very ornate and handsome display case for publications was received, stained, and installed in the corner of the lobby. This fits very well with the period furniture already here, and is a credit to the Association.

EXTRA-CURRICULAR: The custodian has almost dislocated on arm patting himself on the back. He gave a couple of evening talks on First Aid to our local and very new Boy Scout troop. The boys then attended a Camporee in Nogales, and stole all the First Aid demonstration honors from the much older and more experienced troops in Nogales!

GENERAL: We have been BUSY. That should be underlined twice. And every time we stick our heads up for air, the mail brings some more government reports to fill out. The monument seems to be ticking along in good order.

Earl Jackson,  
Custodian

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The second is the fact that the majority of the population of the United States is now living in the South and West. This is a result of the process of migration, which has been going on since the beginning of the 20th century. The third is the fact that the majority of the population of the United States is now living in the middle class. This is a result of the process of social mobility, which has been going on since the beginning of the 20th century.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

-----TUZIGOOT----- NATIONAL MONUMENT

-----CLAREDALE, ARIZONA-----

-----APRIL 28,-----, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tusigoot National Monument for April, 1948.

Travel Data: More people are travelling on the nation's highways than ever before, and the 1727 visitors at Tusigoot for April exceeded both previous April highs--1296 in 1947 and 896 in 1946. Extremely high winds toward the latter part of the month, which in some sections of the state neared hurricane proportions, greatly inconvenienced visitors due to dense clouds of dust which blew from the smelter tailings pond directly onto the Monument.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 3541 for the month. 1581 people in 507 parties were given an orientation lecture in the museum, and 1494 people in 490 parties were conducted through the ruins. The average time spent by each party in the museum was 21.9 minutes, while the conducted tour required 21.1 minutes per party. Because of a severe back injury incurred while digging a ditch across the Monument approach road for the water line, Custodian Bright is presently on sick leave. Two days were spent by the Acting Custodian repairing leaks in the old pipeline. Our thanks goes to Mrs. Bright, who, with some assistance by Mrs. Richert, assumed a good share of the burden of keeping the museum open and answering questions 8-10 hours a day.

Personnel Time: Museum: 185 hours 25 minutes. Ruins: 172 hours 45 minutes. Total time for Custodian (and Mrs.) Bright: 175 hours 40 minutes. Total time for Archeologist Richert: 182 hours 30 minutes.

NPS Visitor: On April 4, Miss O'Neil from the Region Three Office visited Tusigoot accompanied by her sister and brother-in-law from Sedona.

Maintenance and Administration: 16½ feet of sewer pipe were installed by Custodian Bright on his lieu days to replace a corresponding section of the sewer line leading from the museum to the septic tank which had broken and clogged due to root growth.

The Verde Hardware Co. has now supplied the Monument with all but four 21 foot sections of water line out of an original order of 1200 feet contracted for nearly two years ago. Custodian Bright again contributed of his lieu day's time to help with the two-man job of digging a ditch across the county road and coupling the pipe. Since traffic had to be detoured around the the project it was decided to do the job in one day, working from early until late. While engaged in digging through the packed gravel road surface which is as hard as asphalt, Custodian Bright suffered a torn muscle or ligament in

Monthly report for Tuzigoot, page 2.

his back. He has since been under the treatment of the Phelps Dodge Company physician. A detailed report of injury is being forwarded your office separately.

Besides handling over 1700 visitors and experiencing all the grief with the water line, it was found possible to complete the following jobs:

- 1) Oil the large entrance door to the museum including lintels and casement.
- 2) Re-letter and oil the Monument's "No Cat and Dog" sign.
- 3) Paint and re-letter a Tuzigoot directional marker on US Highway 89A at Clarkdale.

Items of Local Interest: The economy of this community has apparently received a new lease on life. According to a special press release, Mr. Robert G. Page, President of the Phelps Dodge Corporation, on April 22 told the public lands sub-committee investigating U.S. metal supplies that mining operations at Jerome, on the basis of present operating and price conditions, will continue two years instead of one as previously announced. In the same testimony he declared that Jerome's output could be boosted 5,000,000 pounds a year by treatment of some low grade ore at a copper price of around 30¢ a pound. (The smelter at Clarkdale processes all ore mined at Jerome.) Page's announcement extending the life of Jerome another year was the second time the mine's life had been extended by the Company. Originally it was scheduled to close down last year.

Monthly Report for February, page 2.

At the time of the report, the monument is in the hands of the National Park Service. A detailed report of the progress of the work is being prepared and will be submitted to the Department of the Interior.

The following is a list of the work done during the month of February:

1. The monument is being surveyed and mapped.
2. The monument is being protected from poachers and hunters.
3. The monument is being protected from fire.
4. The monument is being protected from flood.
5. The monument is being protected from other natural disasters.

The monument is being protected from poachers and hunters. The monument is being protected from fire. The monument is being protected from flood. The monument is being protected from other natural disasters.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Walnut Canyon National Monument,  
Flagstaff, Arizona.

April 27, 1948.

MEMORANDUM for the Regional Director, Region Three.

19

There follows a report of activities in Walnut Canyon National Monument for April, 1948:

Weather. We had many days of heavy wind and a few with enough snow to whiten the ground.

Visitors. We had over a hundred visitors per day when we had good weather, less than thirty per day on some of our stormy days. Of the 1,821 total, 1,477 were contacted, and it is estimated that 1,360 made the ruins trip unattended. There were 26 picnic parties with 128 people.

Naturalist Dodge brought John E. Doerr in for a very brief inspection of the museum building. Several of the "boys" stopped for a few moments on their way to or from the fire school at Grand Canyon.

Activities. Ranger Ambushon worked four days at Walnut, attended the fire school at Grand Canyon, kept time for two days on a USFS fire near Sunset Crater and has been on leave the remainder of the month.

The Custodian returned to duty from annual leave April 1, and has been trying to keep the routine chores current since. The meter at the head of Walnut's water line was cleaned when the water line failed. Several contractors were contacted about bidding on our rehabilitation of Admin. Bldg. job. A lot of visitors were contacted at the "Point" when I would rather have been writing to Region about the PCP.

NATIONAL MONUMENT  
Flagstaff, Arizona.

April 27, 1944

MEMORANDUM FOR THE REGIONAL SUPERVISOR, Flagstaff, Arizona.

Enclosed follows a report of activities in the Flagstaff National Monument area for April, 1944.

During the month of April, there was a fair amount of activity in the monument area. The following is a summary of the activities:

Visitors. There were a number of visitors to the monument during the month. The most interesting was a party of four from the University of Arizona, who spent several days in the monument area. They were accompanied by a guide from the National Park Service. The trip was very successful and the party was very much interested in the monument.

Research. There was a great deal of research work done in the monument during the month. The most interesting was a study of the vegetation of the monument, which was made by a party of four from the University of Arizona. They were accompanied by a guide from the National Park Service. The study was very successful and the party was very much interested in the monument.

Education. There was a great deal of educational work done in the monument during the month. The most interesting was a series of lectures given by a party of four from the University of Arizona. They were accompanied by a guide from the National Park Service. The lectures were very successful and the party was very much interested in the monument.

Conservation. There was a great deal of conservation work done in the monument during the month. The most interesting was a study of the wildlife of the monument, which was made by a party of four from the University of Arizona. They were accompanied by a guide from the National Park Service. The study was very successful and the party was very much interested in the monument.

April 23 48

MEMORANDUM for the Regional Director, Region Three.

APRIL TRAVEL 1948  
Visitors 13,645 Cars 3003

1948 TRAVEL YEAR TO DATE  
Visitors 45,710 Cars 11,958

Winds, dust, rain, cold, heat, and lots of people enter into a record breaking April at White Sands. The Easter Service and Play Day both contribute to our total although neither event this year was a record. Our weather went as low as 17 and as high as 94 for the month with little rain mostly only traces. The new picnic area was officially opened this month upon the abandonment of the one used for the past several years. We opened it on an Easter Sunday and it turned out to be a beautiful day with over two thousand people and our new seventeen table area proved the first day to be too small for the use that we may expect of it. Last Sunday we ran throughout the entire day over a thousand and again the area was too small.

As stated in my last months report, I made arrangements to borrow a bulldozer from the Army at the White Sands Proving Grounds and had hopes of getting it prior to Play Day to widen the road all possible for the occasion and we do not have it yet. Likely the winds that have caused us so much trouble are doing likewise to our neighbors. Ranger Steel is away on an assignment in moving some trailer houses to a few of the region areas. This leaves us very short handed and we just let a few things go that he would have done had he been here. Just the loss of one of my men for a few days really shows up in the odd jobs that I never realize they accomplish from day to day. This applies to all of the boys not just any one. I am the only one that can be gone for any length of time and the area not suffer from the absence.

The Easter Service was attended by a little less than four hundred and it was cold, but the balance of the day made up for it and by night we had run over twenty two hundred. Play Day of course was the big event of the month with almost five thousand people. This is not a record but again the winds spoiled the afternoon and many people doubtless would have attended that failed to show up. We were favored this year by a Play Day visit from Mr and Mrs Tillotson, Mr and Mrs Patraw and their family, and Mr and Mrs Charles Watson of Santa Fe. Custodian and Mrs Bowen of Gran Quivira were on hand also and did yeomans service in assisting with the crowds. This is the first time that I can remember Play Day being favored by a visit from one of our Members of the Congress.

April 23

Respectfully to the National Museum, Washington, D.C.

Very truly yours,  
Director, National Park Service

Enclosed for the National Museum are two copies of a report on the results of the investigation of the White Mountain National Monument, New Mexico, made by the National Park Service, during the summer of 1914. The report contains a description of the monument, its geology, its natural history, and its present condition. It also contains a list of the plants and animals found on the monument, and a list of the people who live on the monument. The report is written in a simple and straightforward manner, and is intended to be of use to the National Museum in its work of collecting and preserving the natural history of the United States.

The report is written in a simple and straightforward manner, and is intended to be of use to the National Museum in its work of collecting and preserving the natural history of the United States. The report is written in a simple and straightforward manner, and is intended to be of use to the National Museum in its work of collecting and preserving the natural history of the United States.

Mrs Georgia Lusk attended and gave a brief talk on the day and its potential possibilities. She has for some time been very interested in the event and this year requested that we supply her with information covering the Day. Mr. Tillotson authorized me to supply her office with this information and I wrote a brief letter covering the material she requested. I hope that the Regional Office group will not judge our appreciation of their visit but the attention we gave them. I did not even get to tell Mr and Mrs Patraw goodbye and it seems that I did not get to spend near the time with any of them that I had hoped to. They will have to come back some day other than Play Day and allow us to put out a little of the hospitality that we try to show all of our visitors.

The area has been flooded with photographers. Mr Drouse working on a travel picture was down early for Play Day and several of his pictures appeared in the local papers ( El Paso and Alamogordo ). Philippe Halaman and his wife from Life magazine were in for two pictures of White Sands to appear in an article to be released later. He took twenty I bet and then complained because the sun insisted on setting leaving him with little light. He expressed a hope that he might be assigned to feature the White Sands similar to the one recently given the Grand Canyon National Park. Numerous other photographers were in including one from the newly organized Las Cruces Tourist Bureau. Dozens of requests are received for information on the sands and I am trying to answer all that I can under postage.

High winds have kept Joe virtually buried in his road. By constant effort we are able to keep a one way road through the dunes, but if for any reason we would be forced to miss a day or two the road would be blocked. I have been wondering all month just how much longer my men and equipment can take the strain. As I mentioned last Sunday we ran over a thousand visitors and the day was quite windy. With crowds of that size we can not give even fair service with our personnel no larger than it is.

The concession shared the same experience that we have in not being able to properly serve all the people as we would like but no complaints were received of any nature. For this we are thankful.

But instead of crying over a situation we know you are well aware and are doing all possible to relieve it, I shall conserve my effort and do what I can for the seven or eight thousand that we are expecting next month.

No accidents of any kind were reported for the month of April.

  
John H. Paris  
Custodian.

**Wupatki National Monument**

**Flagstaff, Arizona**

**April 28, 1948**

**MEMORANDUM for the Regional Director, Region Three.**

There follows a report of activities at Wupatki National Monument for the month of April, 1948.

**Visitors this month: 376**

**Travel Year to date: 1745**

**Weather:** April brought few showers but lots of wind. Total precipitation of .13 inches was recorded. Winds with accompanying dust storms have been the rule. What moisture there was is rapidly disappearing.

**Roads:** The entrance road, in fair condition until now, is rapidly drying out and blowing away, leaving the usual heavy corduroy. The deep cinder has become very dry, but in spite of this numerous cars are entering via the Sunset road. During the early part of the month, several days were spent hauling cinder and clay into some of the worst places on the connecting road between Wupatki and Sunset.

**Travel:** Visitation for April was slightly below that recorded for the same month a year ago. The travel year continues to show an increase over last season of 22%.

**Grazing:** Practically all of the CO Bar cattle were taken out early in the month. Kirby has discontinued hauling water from Heiser and will be moving his stock out of the Coconino Forest, adjoining our south and west boundaries, in a few days. Joe Kellam has moved his cattle to the summer range, so that we are no longer bothered with trespass stock.

**Spring Flow:** Wupatki Spring shows a decrease with 1028 gallons per day, compared to 1122 gallons recorded for March. Heiser Spring, on the other hand, had a slight increase of 94 gallons per day over that of last month, which recorded 1216 gallons per day.

**Spring Development:** The spring at Heiser was given some badly needed attention the early portion of the month. Free man power was recruited from Emmett Kellam, Kirby and his hired man and numerous neighboring Navajos, all users of the spring. Emmett also contributed a supply of groceries for the noon lunches of the Navajos that worked. The spring was cleaned out, rocked up on the sides and a concrete cover poured. The pipe leading from the spring to the concrete catchment tank was removed and a new pipe installed. The old pipe had almost completely corroded full of scale, so that only a small stream of water could pass through. The remainder was flowing over the old dirt wall and escaping. A new wire fence was erected around the spring, so that straying

Flagstaff, Arizona

April 22, 1946

MEMORANDUM for the National Director, Bureau of Indian Affairs

There follows a report of activities of Special National Movement for the month of April, 1946.

Visitors this month: 108

Travel: April brought the same old story of the Special National Movement. It is a story of the same old story of the Special National Movement. It is a story of the same old story of the Special National Movement.

Local: The National Movement is still active in the local area. It is a story of the same old story of the Special National Movement. It is a story of the same old story of the Special National Movement.

Travel: Visitation for April was slightly below last year's record for the same month. The travel year continues to show a downward trend.

Local: Visitation all of the 10 local areas were below the level of the month. It is a story of the same old story of the Special National Movement. It is a story of the same old story of the Special National Movement.

Local: Visitation all of the 10 local areas were below the level of the month. It is a story of the same old story of the Special National Movement. It is a story of the same old story of the Special National Movement.

Local: Visitation all of the 10 local areas were below the level of the month. It is a story of the same old story of the Special National Movement. It is a story of the same old story of the Special National Movement.

stock could not contaminate the water.

Special Activities: The Custodian and Joe Bean attended the Coconino Fire School, which was held during the first week of the month. There was a departure from the usual routine, with more general discussion and less detailed study of fire plans. Greater concentration was given to the organization for large fires and demonstrations of various types of equipment.

Dr. Colton and Miss Katherine Bartlett, of the Museum of Northern Arizona, visited Wupatki on the 22nd and investigated sites in Black Hawk Valley and Crack-in-the-rock areas, to select locations for excavation this summer. Early Pueblo III sites were considered and particularly those Anasazi sites having kivas. They would also like to investigate possible kivas near Crack-in-the-rock. Application for permit will be made shortly.

Ranger Upton made a trip to Tuba City on the 17th, taking Rex Lee, one of the local Navajo children to the hospital.

Cooperative Services: An old burn on O'Leary broke out again on the 22nd. High winds from the south and west for several days, caused particular concern and constituted a definite threat to Wupatki. Had the wind changed it would also have threatened Sunset Crater, which was only a mile or so away. Custodian Jones and Joe Bean with several Navajos joined suppression crews during the high fire danger period.

NPS Visitors: Edward S. Zimmer, Chief, Major Roads Division, Director's Office and Charles D. Carter, Landscape Architect of the Regional Office, stopped for a short time at Wupatki on the 28th, while making an inspection of roads. Custodian F. W. Binnewies and Ranger Aubuchon visited Wupatki on their return from the Fire School at Grand Canyon. Paul Steele, Ranger at White Sands, brought in two house trailers from Bandelier. We were both glad to see Paul and also the house trailers.

Other Visitors: Dr. P. F. Van Weeralt, Mrs. E. Seythouwer, Miss F. Tollenaar, Mr. H. W. E. Croockewit and Dr. G. F. Van Oordt of the Netherlands were here on the 18th. The party, bearing a letter of introduction from the Director, were making a study of the American National Parks.

Publicity: A well written article entitled "Boom Town", featuring Wupatki, written by a former Ranger Harrington, appeared in the May issue of the 'Ford Times'.

General: The outer walls of the Custodian's residence were repaired, plastering those spots where the stucco had fallen off. A new roof of slate paper was placed on the warehouse at Heiser. Two trailers arrived the latter part of the month, one to be used at Wupatki and the other at Sunset Crater. Upton made a trip to Zion Park on the 12th and brought back surplus equipment. A five year lease of the Heiser property was received the early part of the month.

REMARKS: (Please note below any factors influencing interpretive service, such as:  
"museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

\*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE  
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATED. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

#### INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE TO THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME \_\_\_\_\_  
TITLE Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)  
The Montezuma Well Trail was not in use this month, because guide leaflets ordered March 4, 1948 have not been received.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

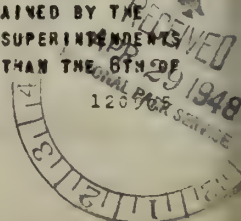

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.  
**Approach road closed due to snow.**

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historic areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Data due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

No personnel in residence during the month.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may be considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME Charles C. Sharp  
Custodian  
TITLE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES. "ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION. "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

NAME Robert F. Upton

TITLE Acting Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as:  
museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

Region Three  
Santa Fe, New Mexico

June 3, 1948.

**MEMORANDUM for the Regional Director, Region Three.**

Following is the narrative report for the Naturalists of the Southwestern National Monuments for the month of May 1948:

**Staff Activities - General**

Naturalist Dale S. King was in the office for the entire month.

Archaeologist Charlie R. Steen was in the office except for 5 days spent at Gran Quivira.

**Interpretive Administration**

Field men were circularized to determine how many needed English two-fold leaflets which are available in the Director's Office.

**Public Relations and Extension Services**

A letter of introduction to Southwestern National Monuments field men was furnished to Miss Bertha Dutton, Curator of Ethnology at the Museum of New Mexico. Miss Dutton traveled through several of the areas to make preliminary arrangements for a field trip which will be organized to reward outstanding Girl Scouts of the Region for their accomplishments during the year. This plan was inaugurated last year and was very successful.

King spent considerable time as publicity chairman for the annual Boy Scout Plaza Jamboree which was held in Santa Fe May 15. Results were only mediocre, for the event conflicted with the world premier of a motion picture which managed to monopolize most newspaper space.

**Progress of Exhibit Plans and Projects**

Steen spent 5 days at Gran Quivira working with Custodian Bowen on repair and rehabilitation of an old building which will serve as a stop-gap office and exhibit room.

Label copy for the Native Government case at Bandelier was received from the monument, edited, and forwarded to Washington for printing.

NATIONAL PARK SERVICE

Wash. D.C.  
June 12, 1941

Dear Sir:

Reference is made to your letter of June 10, 1941.

Following is the material which has been furnished to the National Park Service for the purpose of the above mentioned letter.

General Information - Summary

General information is being furnished to the National Park Service for the purpose of the above mentioned letter.

Information is being furnished to the National Park Service for the purpose of the above mentioned letter.

Information furnished

Information is being furnished to the National Park Service for the purpose of the above mentioned letter.

Other Information and Extension Services

A letter is being furnished to the National Park Service for the purpose of the above mentioned letter.

Information is being furnished to the National Park Service for the purpose of the above mentioned letter.

Progress of the work

Information is being furnished to the National Park Service for the purpose of the above mentioned letter.

Information is being furnished to the National Park Service for the purpose of the above mentioned letter.

Museum Preparator Pablita Mardin finished the paintings for the Seasonal Ceremonies case at Bandelier, and these were photographed in Kodachrome.

On Monday, May 31, King replaced bulbs in 4 museum cases at Bandelier.

### Research and Observations

Some correspondence was had with Student Jack Turney of Adams State College of Alamosa, Colorado. Mr. Turney has completed his master's thesis which is a study of excavated material from Bandelier National Monument, and arrangements were made to duplicate the thesis for the monument and regional libraries.

King accomplished only one half day of additional research of the Nelskihi excavation report, although Steen was able to check and correct the final draft for the survey report which will appear as an appendix.

### Region Three Office Loan Library

Accessions for the month totalled 48, consisting of 2 books, 28 pamphlets, and 18 periodicals.

### Southwestern Monuments Association

The first major mailing of the Association was mostly accomplished during the month, a project which practically monopolized the time of Naturalist King and the Association employees.

Treasurer Vedder worked 19 days, mostly on the problems involved in the mailing, such as supervision of stuffing envelopes, wrapping packages, and making arrangements with the Post Office. A total of 5,117 envelopes were taken to the Post Office on May 14, and a second batch of 4,588 on May 20. The first three replies arrived May 20, and since then much time has been spent in filling orders.

He made one disbursement and two deposits, and mailed 187 covers, not counting the large mailing broadside, but including 28 letters and 38 purchase orders.

Barbara Vedder worked 112 hours and was in the office 17 days. She spent 3 days at the addressing machine, and 2 days were spent in stuffing envelopes. The rest of the time she spent filing and putting the files and stencils in order. The last few days of the month were spent in taking care of incoming orders and wrapping packages, as well as processing business reply cards.

A numbering machine and a stencil file cabinet with 35 stencil file drawers was received during the month, and the latter was rehabilitated and placed in operation. One of the major processes was complete refilling of stencils by geographic location.

Dr. Barker, my friend, was not in a position to be able to do this. He was not in a position to be able to do this. He was not in a position to be able to do this.

Some correspondence was had with Robert Lee, Jr., of the College of Business, University of Illinois, Chicago, Illinois, who was contacted and advised that the University of Illinois, Chicago, Illinois, was not a member of the National Industrial Conference Board and that correspondence was made in duplicate for the National Industrial Conference Board.

and the American Association of Youth and also participated in the  
National Youth Council, although I have not been able to  
follow up on the subject since we have been in the country.

BUREAU OF LAND MANAGEMENT  
Arrangements were made with other Associations at Zion, Rocky Mountain, and Grand Canyon, to stock their publications which are listed on our list, and are being ordered rather extensively.

#### Photography and Visual Aides

A total of 51 excellent Kodachrome slides were received from Saguaro. These were taken by Seasonal Ranger Marvin Frost, and constitute a valuable addition to our files.

#### Ruins Stabilization

Steen accomplished routine duties of filing reports and photographs.

#### Projects for June

King will be in the office most of the month spending some time in supervision of the mailing of an additional 3,000 envelopes for the Southwestern Monuments Association; working with Architect Levelady on a proposed preliminary plan for a model at Montezuma Castle; completing the museum plan for Walnut Canyon; writing the annual report for the department; etc. If arrangements can be made for lights for Walnut Canyon Museum, King plans to go to that monument late in the month or early in July to make temporary installations in the Museum there.

Steen will be in the office on ruins stabilization recordation and various miscellaneous jobs, going to Navajo for several days late in the month to inspect cliff dwellings there and salvage archeological material now being destroyed by stream erosion.

**MEMORANDUM for the Regional Director, Region Three:**

The following is a narrative report for Arches National Monument for the month of May, 1948:

**GENERAL:** The Moab Lions Club held a barbecue at the parking area in the Devils Garden section on May 8th to celebrate the completion of the new roads to Delicate Arch and the Devils Garden. It is estimated that approximately 250 people were in attendance including, representatives from the Utah State Department of Publicity and Industrial Development, Grand County Commissioners and the National Park Service was represented by Mr. Davis and Mr. Kell from Regional Office. Delegations from Monticello, Greenriver and Price, Utah and Grand Junction, Colorado were also in attendance. All present were very much impressed with the new road and the areas made accessible by its construction and also the excellent barbecue which was served.

**WEATHER:** Rain fell on April 26th and 27th and again on May 27th. High winds have blown intermittently all month. The Colorado River run-off has started and the present water level is the highest it has been in the last four years.

**TRAVEL:** The travel for the month was again way above normal with 322 cars and 1016 people visiting the area, as compared with 117 cars and 397 people for May 1947. We had representation from 29 states, England, Japan and Sweden.

**INTERPRETIVE SERVICES:** Our contacts showed a decided increase over the previous month. Two caravan trips were taken with a total of 30 people. 5 guided trips to the various features with 58 people. A total of 183 people were contacted at headquarters and 219 people were contacted in the Windows and Devils Garden sections. There were 797 people that visited the various sections unattended.

**NEWSWORTHY VISITORS:** Mr. Jack White, staff photographer for the Salt Lake Tribune, visited the area from May 15th to 19th. He covered all areas shooting pictures for the next scenic edition of the Tribune.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL MONUMENT  
Mesa, Utah

Memorandum for the Regional Director, Region Three

The following is a narrative report of the investigation conducted for the week of May 1947:

Summary: The Mesa area has been a part of the region since the early 1940s. The area is located in the south-western part of the region and is bounded by the Colorado River to the south and the Utah-Arizona border to the west. It is a small area, approximately 100 square miles in extent, and is mostly composed of desert land. The area is of interest to the National Park Service because of its location near the border of the United States and Mexico. The area is also of interest to the National Park Service because of its location near the Colorado River. The area is also of interest to the National Park Service because of its location near the Utah-Arizona border.

History: The Mesa area has been a part of the region since the early 1940s. The area is located in the south-western part of the region and is bounded by the Colorado River to the south and the Utah-Arizona border to the west. It is a small area, approximately 100 square miles in extent, and is mostly composed of desert land. The area is of interest to the National Park Service because of its location near the border of the United States and Mexico. The area is also of interest to the National Park Service because of its location near the Colorado River. The area is also of interest to the National Park Service because of its location near the Utah-Arizona border.

Geography: The Mesa area is located in the south-western part of the region and is bounded by the Colorado River to the south and the Utah-Arizona border to the west. It is a small area, approximately 100 square miles in extent, and is mostly composed of desert land. The area is of interest to the National Park Service because of its location near the border of the United States and Mexico. The area is also of interest to the National Park Service because of its location near the Colorado River. The area is also of interest to the National Park Service because of its location near the Utah-Arizona border.

Vegetation: The Mesa area is located in the south-western part of the region and is bounded by the Colorado River to the south and the Utah-Arizona border to the west. It is a small area, approximately 100 square miles in extent, and is mostly composed of desert land. The area is of interest to the National Park Service because of its location near the border of the United States and Mexico. The area is also of interest to the National Park Service because of its location near the Colorado River. The area is also of interest to the National Park Service because of its location near the Utah-Arizona border.

Wildlife: The Mesa area is located in the south-western part of the region and is bounded by the Colorado River to the south and the Utah-Arizona border to the west. It is a small area, approximately 100 square miles in extent, and is mostly composed of desert land. The area is of interest to the National Park Service because of its location near the border of the United States and Mexico. The area is also of interest to the National Park Service because of its location near the Colorado River. The area is also of interest to the National Park Service because of its location near the Utah-Arizona border.

Page 2, Arches Narr. Rpt., May, 1948.

Mr. Peter Alt, and party, of the Eastman Kodak Co., Rochester, New York, arrived at the monument on May 27th to shoot colored movies and stills of the area. He hopes to cover all features of the monument.

Word has been received that Mr. Jack Breed will be in on June 1st to cover the area again. He also hopes to get complete coverage on Monument Canyon and Natural Bridges.

PRIVATE LANDS: A trip was made to Sapinero, Colorado on May 26th to contact Mr. Emmett Elizondo on the purchase of the Turnbow Homestead. His signature was obtained on the deed and the voucher for payment. The deed will be recorded and sent to Regional Office for final action.

Mr. J. Fred Pingree of the Utah State Land Board was a visitor at the monument in the last week. He stated that he was making a trip to Washington, D. C. in September and would contact the Bureau of Land Management regarding the status of the exchange of State lands in the monument.

NATIONAL PARK SERVICE VISITORS: Assistant Regional Director Davis, Park Planner Kell and Chief Clerk Castellum arrived on May 6th. Mr. Castellum left the next day but Mr. Davis and Mr. Kell remained until May 9th, attending the Lions Barbecue in the Devils Garden on May 8th.

Forester Carlson and Chief Ranger Wade, from Santa Fe and Mesa Verde, paid us a short visit on May 11th.

RANGER SERVICE: Mr. Thomas Earl Werthington of Nephi, Utah entered on duty as temporary ranger on May 16th, 1948 for the summer season.

PUBLICITY: Word was received that the Desert Magazine plans to run an article on Delicate Arch, by Catherine and Dick Freeman, in an early issue. Information on the new road, etc was furnished at their request.

MAINTENANCE: Under rehabilitation of buildings we accomplished the reroofing of our warehouse and office building and also lined the pump and power unit room with asbestos and sheet rock to reduce our fire hazard and protect the equipment from the ever present sand.

A used pit toilet was purchased during the month and installed in the headquarters area for the convenience of our visitors.

TRAILS: Trails signs were installed on the Windows section trail, white arrows were painted on the slick-rock portions and mounted on posts over the sandy portions of the trail. Name signs were placed

Mr. Peter Alf, and party, of the Eastern Land Co., Rochester, New York, arrived on the morning of May 15th at about 10:00 a.m. They were met by the ranger and taken to the ranger's office. The ranger then showed them the various points of interest in the monument.

Word has been received that Mr. Jack Reed will be in on June 1st to cover the area again. He also hopes to get some coverage on Monument Canyon and Natural Bridge.

PRIVATE LANDS: A trip was made to Garfield, Colorado on May 28th to check on the progress of the purchase of the private lands. His agent was checked on the land and the contract for purchase. The land will be recorded and sent to National Office for final action.

Mr. J. Fred Hughes of the Utah State Land Board was a visitor at the monument in the last week. He stated that he was making a trip to Washington, D. C. in September and would contact the Bureau of Land Management regarding the status of the exchange of lands in the monument.

NATIONAL PARK SERVICE VISIT: Assistant Regional Director, Mr. J. H. Brown, and his wife arrived on May 28th. Mr. Brown was in the monument for the day and night. He was accompanied by his wife and Mr. J. H. Brown. They were in the monument for the day and night.

Regional Director and Chief Ranger, Mr. J. H. Brown, were in the monument for the day and night. They were accompanied by their wife and Mr. J. H. Brown.

RESEARCH SERVICE: Mr. Thomas Hunt Hamilton of the U.S. Geological Survey was in the monument for the day and night. He was accompanied by his wife and Mr. J. H. Brown.

RESEARCH: Word was received that the Forest Service is planning to make a study of the monument. The study will be made by the Forest Service and the National Park Service.

RESEARCH: Under supervision of biologist we accomplished the removal of our watershed and other points and also the removal of our watershed and other points and also the removal of our watershed and other points.

A good bit of time was spent during the week and finished in the last part of the week for the completion of our visit.

TRAILS: Trails were installed on the various points of interest. The trails were installed on the various points of interest and were found to be of great value to the visitors.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
ARIZONA NATIONAL MONUMENT  
ALBUQUERQUE, NEW MEXICO

Page 3, Arches Narr. Rpt., May, 1948

at Cove Arch, Double Arch, Parade of the Elephants, North and South Windows and Turret Arch. This should eliminate considerable complaint regarding our trail in this section.

Signs have been completed for the Courthouse Towers Trail and features and we hope to have them in place shortly after the 1st of June.

ROADS: The State crew spent two days hauling shale to the bad spots on the approach road and at this writing they are grading this road and also the roads within the boundaries of the monument.

Several days were spent by Laborer-Leadman Winbeurn hauling shale to rough spots on the road in the monument. Slow and stop signs have been placed at road junctions and rock guardrail has been installed at several points along the loop road in the Devils Garden to keep cars from tearing up the area.

(in trip.)

Russell L. Mahan  
Custodian

Very truly yours,  
Custodian

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
AZTEC RUINS NATIONAL MONUMENT  
AZTEC, NEW MEXICO

MEMORANDUM for the Regional Director,  
Region Three.

24 May 1948

There follows the report of activities in Aztec Ruins for May 1948.

WEATHER. Pleasant days with an occasional wind storm have been ours during the month. The weather and the season of the year have brot increased numbers of people to the Ruins.

SPECIAL ACTIVITIES. Messers. Davis, Kell, Castellum and Allen from the Regional Office visited during the month. The Custodian presented a short talk on the NPS, illustrated with colored film, to 125 members of an inter-state conference of the Rebecca Lodge.

INSPECTIONS. Castellum and Allen made an inspection of accounts and sales during the <sup>period</sup> May 5 to 17, 1948.

MAINTENANCE. Work on construction of a sump to drain our underground water storage, construction of a roof over the excavated area and the installation of a draining system have been completed.

Arrangements have been made to obtain a number of cedar logs for repair to our Kiva "E" in the plaza of the main ruin. The repair work it is expected will be completed by the Chase stabilisation crew during June.

NEW CONSTRUCTION. Bids have been let for the construction of a new residence, which work it is believed will begin in the early part of June by a Farmington, N.M. contractor.

INTERPRETIVE SERVICE. There were 748 visitors in 153 parties guided thru the ruins and 1058 visitors in 202 groups were shown the museum.

INCREASE IN TRAVEL. This month travel has increased approximately 19% over May 1947 with 1058 people in 311 cars from 36 states, Canada, El Salvador, China and Japan. We have enjoyed several school groups from Colorado, Utah and New Mexico.

PROTECTION. A member from one of the school groups entered a room in the ruins and removed an exhibit. Altho there had been another school class present the same day, we felt we knew the offending ones and made a plaster cast of the foot print left in the soft soil of the room from which the object had been removed, and forwarded the cast to the principal of the school for his detection of the guilty party. Apparently he had little difficulty in locating the person responsible, for the artifact was returned quite promptly with due appologies from the entire class.

*Irving D. Townsend*  
Irving D. Townsend,  
Custodian.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1950, and the majority of this increase has been in urban areas. This has led to a concentration of population in a few large cities, which has in turn led to a number of problems, such as overcrowding, pollution, and traffic congestion.

There is a great deal of interest in the world today in the question of the future of the world. The future of the world is a subject which has been discussed for many years, and it is a subject which will continue to be discussed for many years to come. The future of the world is a subject which is of great importance to all of us, and it is a subject which we should all be interested in. The future of the world is a subject which is of great importance to all of us, and it is a subject which we should all be interested in.

1. The first group of people who are interested in the study of the history of the United States are the people who are interested in the history of the United States.

It is suggested that the Commission should be authorized to conduct a study of the feasibility of establishing a permanent office in the United States to coordinate the activities of the various agencies concerned with the problem of the alienated and abandoned children of the United States.

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED  
DATE 08-11-2010 BY 60322 UCBAW/SJS

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United Kingdom regarding the proposed changes to the law of the United Kingdom in relation to the treatment of the British Commonwealth of Nations.

BANDELIER NATIONAL MONUMENT

SANTA FE, NEW MEXICO

May 31, 1948

**MEMORANDUM for the Regional Director, Region Three.**

There follows a report of the activities at Bandelier National Monument for the month of May, 1948.

WEATHER

Beautiful spring weather prevailed during most of the month with rain occurring only 5 days and amounting to one and fifty-five hundredths inches. Temperatures ranged from 25 degrees on the 8th to 91 degrees on the 16th. The abundant moisture this spring has made the Canyon very beautiful with numerous wild flowers in bloom and the grass and shrubs are putting out a good new growth. The cactus started to bloom during the month and made its usual beautiful display.

MAINTENANCE

The work of reducing the fire hazard in the Lodge kitchen was completed with the exception of the installation of a ventilating fan and the new stove unit. Bids for both stove and the fan were opened on the 20th and we are now waiting delivery of both items.

The improvement of the water intake was completed during the month and consisted of digging out the intake pipe and repacking it with gravel. Both of the comfort stations were repainted on the inside and generally put in good condition.

INTERPRETATION

One talk was given outside of the Monument by the warden to 250 students of the Los Alamos Grade School on the geology of the Monument and of the surrounding area. Fourteen members of the Physiography class of the Los Alamos High School were given a talk at the Monument on the Jemez Crater.

Due to the manpower shortage, parties to the ruins on weekends still run far too large with 40 to 50 people making up the groups. They do not get nearly the enjoyment or benefit from the trip that they would if the parties were limited to 30 or less.

In the 13 days that the Fire Lookout was manned, 53 parties of

THE UNIVERSITY OF CHICAGO

177 visitors spent an average time of 23 minutes looking over the area and receiving instruction in the operation of the Lookout and the story of Forest Preservation. In this way the Lookout served the dual purpose of contacting visitors and educating the public as well as performing the normal function.

An illustrated film talk on Alaska was given on the night of the 25th by Mr. W. H. Krouse, who was in the Monument for 4 days taking pictures for a travel film of the Southwest.

### MUSEUM

The 4 Seasonal Dance and six animal paintings for the Seasonal Ceremonies case in the Museum, were finished by Pablita Velarde Hardin. The dance paintings were finished on donated time by Mrs. Hardin, and the Southwestern Monument Association donated the money for the animal paintings. Labels have been ordered and the case will be installed early in June.

### VISITORS

Associate Regional Director Patraw with Messrs. Greenwood and Booker of the Bureau of the Budget, made an inspection of the area on May 1.

Architect Saunders spent May 3rd inspecting the work that was being done on the rehabilitation of the lodge kitchen.

Mr. and Mrs. Werner from Lowell, Massachusetts spent 4 days in the Monument from May 10 to 13 taking pictures.

Mr. W. H. Krouse, Glassboro, New Jersey, who is making a travelogue of the Southwest, spent 4 days in the Monument from May 23 to 26 taking pictures of the important features of Bandelier. New Mexico weather was not very cooperative with Mr. Krouse and it was cloudy during most of the time that he was here.

Other Park Service Officials who visited the Monument during the month were; Regional Engineer Lassiter, Regional Forester Carlson, Assistant Regional Forester Ratcliff, Assistant Forester Walker from the Director's Office and Archaeologist Steen.

It is evident from the above that the purpose of the investigation is to determine the effect of the various factors mentioned above on the growth of the various species of fish. The results of the investigation will be published in a separate report.

RESULTS

The results of the investigation are as follows: The growth of the various species of fish was determined by measuring the length and weight of the fish at regular intervals. The results show that the growth of the various species of fish is affected by the various factors mentioned above.

CONCLUSIONS

The results of the investigation show that the growth of the various species of fish is affected by the various factors mentioned above. The results also show that the growth of the various species of fish is affected by the various factors mentioned above.

The results of the investigation show that the growth of the various species of fish is affected by the various factors mentioned above. The results also show that the growth of the various species of fish is affected by the various factors mentioned above.

## STABILIZATION

Laborer Foreman, Sam Orem, received an appointment to Chaco Canyon as Seasonal Ranger, and reported for duty there on the 9th. Romolo Cordero has been appointed Laborer Leadman to assist in supervision of the remaining stabilization of the Big Community House ruin. Three additional laborers were hired from Santa Domingo Pueblo and work is progressing at a fast pace. Mr. Steen delivered a small cement mixer to the area on the 20th and this has helped to speed up the work to quite an extent.

## FOREST PROTECTION

A fire training school was held on the 10th and 11th for all Bandelier personnel including employees of the Concessioner. The instruction included Building Fire Protection, First Aid and Forest Fire Control.

Maintenance-man Valencia took the spray truck to Canyon de Chelly National Monument from the 7th to 13th to spray the trees there to prevent insect damage. The entire campground area in Bandelier was also sprayed with DDT solution to prevent insect damage. A few tent caterpillars were observed during the month on the choke-cherry trees, but the DDT soon made short work of them.

Fire danger has been generally high during most of the month with a few days approaching extreme. However, no fires occurred within the Monument although four were observed in Atomic Energy Commission land north and west of the Monument.

The Bandelier Lookout cooperated with the Forest Service and the Atomic Energy Commission by furnishing bearings and other information on the fires.

## WILD LIFE PROTECTION

Fresh beaver cutting on the new dam were found about 3 miles up Pijoles Canyon from the Headquarters area. One dead beaver was found below the falls in the lower part of the Canyon. This seems to be an annual occurrence for one or two of the animals to go over the falls and be killed.

## ROADS and TRAILS

The approach road was getting rough toward the last of the month due to rain and lack of grading. Grading of the road was delayed in anticipation of the completion of the overhaul of the big caterpillar-12 grader at Los Alamos. By the end of the month the work on the grader had been completed with the exception of the ~~installation~~ <sup>installation</sup> of the cab and a few minor adjustments. It was decided to not wait for the cab but to put the grader in use and the cab can be installed later when it is repaired.

Most of the trails in the Monument have been inspected and some loose rock removed from them. However, a great deal of drainage and improvement needs to be done that will have to be delayed until

1917

[illegible]

Most of the critics in the movement have been interested in the  
house and removed from them. However, a great deal of criticism and  
improvement would be done that will have to be done.

additional funds are secured.

Construction was started by the Atomic Energy Commission on the new road that runs through Sandia Canyon on the Otowi section. This road is to provide access to the new Technical area at Los Alamos.

### CONCESSIONERS

Business at the Frijoles Canyon Lodge was a little disappointing during the month. Even though there was a considerable increase in the visitors for the area, there were fewer lodgings and meals served at the Lodge than for the same period last year. The total was 93 lodgings and 648 meals.

### THE LODGE

The concessioner placed on top this month an idea to improve the kitchen and to get a new set of tables. The kitchen is a small building and the tables are old and worn. The concessioner is planning to get a new set of tables and to get a new set of chairs. The concessioner is also planning to get a new set of chairs. The concessioner is also planning to get a new set of chairs.

Fred W. Binnewies  
Custodian

### WATER SUPPLY

Water supply was a problem at the Frijoles Canyon Lodge. The concessioner is planning to get a new set of tables and to get a new set of chairs. The concessioner is also planning to get a new set of chairs. The concessioner is also planning to get a new set of chairs.

The concessioner is planning to get a new set of tables and to get a new set of chairs. The concessioner is also planning to get a new set of chairs. The concessioner is also planning to get a new set of chairs.

Canyon de Chelly National Monument  
Chinle, Arizona

May 25, 1948

MEMORANDUM for the Regional Director, Region Three.

The following is a report on activities at Canyon de Chelly National Monument during the Month of May, 1948.

Weather

The weatherman passed us up this month as far as moisture was concerned but gave us a bit of wind. The canyon stream continued flowing until May 18th at which date our first trip was made by car. The month has been comparatively warm with a maximum of 90 degrees and a minimum of 19 degrees.

Administration

Annual leave was taken on five days during the month due to the illness and death of my Father in law. Heavy travel coupled with maintenance and repair work left little time for administrative work during office hours but we're gradually catching up.

One trip was made to Gallup, New Mexico to speak to a Chamber of Commerce group, but the trip was in vain other than to pick up needed supplies as the meeting was cancelled after my arrival.

Maintenance

The Navajo Service must have felt sorry for me after watching me trying to drag my road with the old piece of iron I use for this purpose, for they sent over a patrol grader which made one trip from headquarters to Saw mill. Although dusty, our roads are in the best condition they have been for some years.

The trailer house was remodeled to conform with plans and cabinet work installed. This is practically completed. Cleanup work around headquarters was made.

Soil and Moisture.

Repairs were made to the revetment at Antelope house and also to the plantings at both Antelope and White house.

Report on the progress of the work done during the month of May, 1911.

May 11, 1911

Enclosed for the Biological Division, London, are two reports.

The following is a report on the work done at the Biological Station, London, during the month of May, 1911.

Work done.

The work done during the month of May was of a very different character from that done during the month of April. The work was of a more practical character, and was directed towards the completion of the work on the "Life of the Fishes" and the "Life of the Birds".

Work done on the "Life of the Fishes".

During the month of May, the work on the "Life of the Fishes" was directed towards the completion of the work on the "Life of the Fishes". The work was of a more practical character, and was directed towards the completion of the work on the "Life of the Fishes".

Work done on the "Life of the Birds".

The work done during the month of May was of a very different character from that done during the month of April. The work was of a more practical character, and was directed towards the completion of the work on the "Life of the Birds".

The work done during the month of May was of a very different character from that done during the month of April. The work was of a more practical character, and was directed towards the completion of the work on the "Life of the Birds".

Work done on the "Life of the Birds".

Reports were made to the Government of the work done during the month of May, 1911.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL MONUMENT SERVICE

Insect Infestation

The area of cottonwood trees around headquarters were sprayed with a solution of lead arsenate. Equipment was brought from Bandelier National Monument for this job which was completed in a day and a half. The infestation of the Cottonwood leaf beetle has extended into the canyons beyond the point where we could safely take the heavy equipment and the new plantings are being sprayed by hand to protect them until such time as we can go over the whole infested areas. The equipment was brought in by Tony Valencia who assisted with the spraying

Travel

Although slightly below last years travel, we still show a sizeable increase in or Fiscal year to date. Poor road conditions and the lateness of the season probably account for some of our decrease.

Visitors

Mr. and Mrs. Joseph Muench, Jorared Lauritsen.

May 27, 1948

ADDRESS REPLY TO  
THE SUPERINTENDENT

Memorandum for the Regional Director  
Region Three, National Park Service  
Santa Fe, New Mexico

The following is a report of the activities in and around Capulin Mountain National Monument for the month of May, 1948.

There were approximately fifteen hundred visitors to the Volcano during the month making a total of eight thousand one hundred visitors for the travel year to date and a total of twenty seven thousand six hundred for the fiscal year.

The weather has been cool, with some high winds and about two inches of rainfall reported during the month.

Some of the early flowers are still blooming, trees are all leafed out and the grass is growing fast, due to the good showers. The animals in the Park are in wonderful condition, which is very surprising, considering the hard winter they have just gone through.

The roads and trails are again in top condition, ready for the many expected summer visitors.

Very respectfully,

Homer J. Farr

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

CASA GRANDE NATIONAL MONUMENT

COOLIDGE, ARIZONA

May 25, 1948.

MEMORANDUM for the Regional Director,  
Region Three.

These follows the narrative report for Casa Grande National Monument for May, 1948.

General: The water situation here is still acute and there is no indication of better conditions in the future. New wells are going in all around us and this can only result in further lowering of the water table. In addition to lack of water, cotton farmers were plagued by two rather severe dust storms which removed valuable topsoil from around the young cotton plants. So far the electricity has been adequate and the power has not been turned off for short periods every day as was earlier rumored. What the situation will be after June 1 is another matter.

Weather: Temperatures have been quite comfortable so far but we are expecting the mercury to start soaring at any time now. We had two days with a thermometer reading of 101 which is a slight drop from last month. The high minimum was 73 and the low minimum 44. A dust storm hit us on the 18th making things disagreeable.

Visitors: May 1948 - 2197; May 1947 - 2043. Travel year to date 1948 - 30,810; Travel year to date 1947 - 27,828. This is a gain of 154 over May of last year. Travel is steadily decreasing however, now that hot weather is here.

Interpretive Services: Of the 2197 visitors to the area, 1340 made the ruins trip in 175 groups, averaging 46.5 minutes per trip. 857 people were here for a quick look but did not make the ruins trip.

Administration and Protection: One routine inspection trip was taken to the Adamsville site to check on trespassing and "pot hunting". Five letters requesting information were answered by the custodian. The region put out bids and a purchase order has been received for the purchase of an electric water heater.

NPS. Visitors and Visitors of Note: On May 5, Custodian Supernauth and Ranger Bean of Organ Pipe Cactus National Monument were in to pick up their horse trailer, bid for a two wheel trailer and a power saw. On May 6, Superintendent H.C. Bryant and Mrs. Bryant stopped in to say hello to

1000

There follows the report of the investigation and analysis of the evidence.

Summary: The following have been left unclassified as they do not appear to contain information of a classified nature. We had two copies of the information, one of which is a copy of the original. 1. The following information was obtained from the records of the U.S. Fish and Wildlife Service, Bureau of Land Management, and the U.S. Geological Survey, and is being furnished to you for your information. The information is being furnished to you for your information and is not to be used for any other purpose. The information is being furnished to you for your information and is not to be used for any other purpose. The information is being furnished to you for your information and is not to be used for any other purpose.

Ranger Arnerberger and family. Dr. Bryant was returning from the installation ceremonies of President McCormick at the University of Arizona at Tucson. Mr. J.R. Whitting Jr., husband of Nancy Pinkley Whitting Jr., was here on May 12, to pick up part of her belongings that have been stored here since the Boss's death in 1940. Jimmy Rogers, former CCC guide here at the ruins in 1938-39, paid us a visit on May 22.

Mechanics Activities: General repairs were made to the following equipment:

Area From.	Equipment.
Organ Pipe Cactus Nat'l Mon.	Horse Trailer Tool box for Dodge Pickup Bed for two wheel trailer Tractor Pipe vise bench Welding Carriage
Saguaro Nat'l. Mon.	Refrigerator
Casa Grande Nat'l. Mon.	Ford dump truck Steam Cleaner Auto Car Tractor Hydraulic Press Chlorinator Chevrolet Pickup Welding Table Three screen doors

Personnel: Archeologist and Mrs. Dan Davis are the parents of a baby boy born April 28, at Florence. The baby weighed 7 pounds 6 ounces and has been named Daniel Bruce.

Nature Notes: Our desert flora and fauna are really putting on a show for us this month. All of the cacti had a colorful display of blossoms for our visitors but are now through blooming. The giant cactus blossoms are just opening however. The birds in particular have been interesting this month. We have a nest full of four young sparrow hawks in a niche just over the east doorway to the ruins which are beginning to attract attention by the noise they make. A Palmer Thrasher has a nest with a two week old youngster in it in a cholla just in front of the Administration Building. A group of Gilded Flickers have finally left their nest in the giant cactus on the path to the ruins.

**Leaves Taken:** Maintenance Men C.D. Barnett and wife Betty left April 30, on annual leave. They are going to Iowa to visit relatives.

COMMISSIONER FOR THE NATIONAL BUREAU OF AGRICULTURE  
National Bank Services  
**A.T. Bicknell,**

NATIONAL PARK SERVICE

Chaco Canyon National Monument  
Bloomfield, New Mexico  
May 26, 1948

MEMORANDUM for the Regional Director, Region Three,  
National Park Service.

There follows the report of activities in Chaco Canyon National Monument for the month of May, 1948.

There were 112 visitors to Chaco Canyon this past month. They came in 37 automobiles from the states of:- Arizona - 1 car, 2 visitors; California - 6 cars, 14 visitors; Colorado - 11 cars, 38 visitors; Kansas - 1 car, 3 visitors; New Mexico - 11 cars, 42 visitors; New York - 1 car, 2 visitors; Texas - 2 cars, 4 visitors; Virginia - 1 car, 1 visitor, and Washington - 3 cars, 6 visitors. The visitors formed 27 ruins trip parties, 25 museum parties and one information seeking party. Archaeologist Aide Rixey spent 3 hours and 20 minutes guiding part of these visitors, Ranger Sam Orem spent 12 hours guiding others and the custodian spent 22 hours and 30 minutes guiding still others.

The coolest this month was 27 degrees Fahrenheit on the 25th of April and the warmest was 90 degrees on the 16th of May. The total precipitation was .89 of an inch.

The approach roads remained dry, passable, but rough most of the period. However, the last few days have brought rain and slippery roads. Working through the Chamber of Commerce in Farmington, we have definite aid promised us by the State Highway Department for this summer. The Gallup Chamber of Commerce is planning to run regularly-scheduled, sponsored tours to Chaco once each week this summer.

The road job is being pushed to completion before the end of the fiscal year. Several culverts have been placed and the road built over them. The spillway on the south side of the bridge has been built of stone, concrete and several sections of culvert. It functioned satisfactorily after the last rain.

The Soil and Moisture Crew, job 882, have cut down a large number of tamarisk for erosion control work on the mesa. In the 834 job 15, they have been repairing revetments.

Samuel A. Orem reported for duty as temporary ranger on May 10, 1948, and took hold as the veteran he is.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Chaco Canyon National Monument  
Albuquerque, New Mexico

The Padilla family was moved out of the Monument. Of the Navajo families which had at one time lived within the Monument boundaries, this was the last to leave. The moving of this family was accomplished only through the cooperation of every one in the canyon, especially Gordon Vivian.

The well, it was discovered one day, had silted to the top with sand. About 15 man days were spent in digging it out and putting it back in shape.

National Park Service visitors included John Davis, Luis Castellum and John Nell.

The Trader reports a larger number of overnight visitors. He has finished with wool season, and, incidentally, bought twice the amount he bought last year. He already has a small stock of jewelry on hand for the summer season. Rugs are coming in slowly, due to the planting and shearing season.

Projects for the ensuing months:- finish with the road repairs; wind up the 882 job by placing the tamarisk in strategic spots on the mesa and repair as many more revetments as possible before the end of the fiscal year.

The weather has continued favorable though the night with heavy clouds and at times it rains. The weather is still all right.

Irving McNeill, Jr.  
Custodian

Since July has given the weather this month with great and breaks in pouring the accumulation of water. Several days the weather is in clearing and the well.

At the two major jobs undertaken this month the ditch and revetment work of Section 882 is approximately 80 percent completed. A large part of this work was accomplished with the only two men available. The amount there has been much greater to a ditch of 12 feet along the upper part of a typical section of the mesa. The trench for the ditch is 12 feet wide and 12 feet deep. The trench for the ditch is 12 feet wide and 12 feet deep.

Finally several of the points for the revetment have been located and are in place. The ditch has been cleared this far. Slightly less than half of the work has been finished. Heavy work was concentrated in clearing the ditch from the water table. Several feet of the ditch has been cleared from the water table. Several feet of the ditch has been cleared from the water table.

NATIONAL MONUMENT  
Chaco Canyon National Monument  
Bloomfield, New Mexico  
May 25, 1948

MEMORANDUM for the Custodian,  
Chaco Canyon National Monument.

There follows the narrative report of Mobile Unit activities in your area during May, 1948.

I spent the first 16 days of the month on a short detail to Grand Canyon National Park in connection with the stabilization of Tusayan Ruin and following that visited Navajo, Wupatki, Walnut Canyon, Tusigoot and Montezuma Castle National Monuments checking data for the stabilization manual. In my absence Archeologist aide Rixey and Custodian McNeil continued the work of the Mobile Unit.

Progress was excellent though they were hampered both at Chetro Kettle and the flood control channel and revetment by the continued labor shortage. The shortage as noted last month has been more pronounced than it was at this time last year.

The weather has continued favorable though there was one night with below freezing temperatures and as this is written the crews have been laid off due to heavy rains.

Some help was given the custodian this month with crew and trucks in removing the accumulation of Navajo across from the headquarters and in cleaning out the well.

Of the two major jobs undertaken this month the ditch and revetment east of Chetro Kettle is approximately 50 percent completed. A large part of this work was accomplished with the only two men available. The channel there has been rough graded to a width of 15 feet using the motor patrol and a fresno obtained from a local rancher. The trench for the wire basket, slightly over 200 feet in length was done with a small slip and hand finished.

Ninety percent of the posts for the revetment have been hauled and are in place. The wire basket has also been carried this far. Slightly less than half of the rock has been hauled. Heavy sand was encountered in hauling by truck from the nearby talus slopes and so far most of the rock has been hauled from the south gap -- including the hogans, stone house, corrals etc of the family removed there.

NATIONAL PARK SERVICE

NATIONAL MONUMENT  
Chaco Canyon National Monument  
Albuquerque, New Mexico  
May 22, 1948

MEMORANDUM FOR THE CHACOS  
Chaco Canyon National Monument

There follows the narrative report of Mobilis Unit activities in your area during May, 1948.

I spent the first 16 days of the month on a short detail to Grand Canyon National Park in connection with the stabilization of Tuzigoot and following that visited Navajo, Hopi, and Montezuma Castles. In my capacity as National Monument checker, I checked the work of the Mobilis Unit and the Navajo and Hopi units. The Mobilis Unit.

On progress was excellent during the month. They were kept busy at Chaco Canyon and the flood control channel and movement by the continued labor shortage. The situation as noted last month has been improved from it was at this time last year.

The weather has continued favorable though there was one night with below freezing temperatures and as this is within the snow belt it was a heavy rain.

Our help was given the mobilis unit with crew and truck in removing the accumulation of Navajo across from the headquarters and in cleaning out the well.

Of the two major jobs undertaken this month the ditch and movement work of Chaco Canyon is approximately 50 percent completed. A large part of this work was accomplished with the only two men available. The channel there has been rough graded to a width of 12 feet using the motor patrol and a Fresno obtained from a local rancher. The trench for the wire basket, slightly over 200 feet in length was done with a small slip and steel finished.

Ninety percent of the tests for the movement have been hauled and are in place. The wire basket has also been carried this far. Slightly less than half of the rock has been hauled. Heavy sand was encountered in hauling it from the heavy rains along and so far most of the rock has been hauled from the south gap -- including the hogans, stone house, corral etc of the family removed there.

The heavy rains of yesterday and today have poured considerable water over the cliff northeast of Chetro Kettle. None has ponded behind the ruin but the heavy runoff down the drain channel partially silted in the lower end of the trench cut to hold the wire basket. It will have to be dug out by hand. No other damage was found and the channel and revetment appear to contain the flood water satisfactorily.

At Chetro Kettle two small jobs were completed before work started on Kiva G -- resetting the facing and placing lintels in the lower doorway, 53 E and completing a buttress section at the juncture of 47/52 south.

The entire overhanging north section of Kiva G was removed to the level of the bottom of the bench. It will be recalled that G is the kiva superimposed over the excavated Kiva H and that the bench was rebuilt and supported on planks and pipes at the time of excavation. It overhangs, in this section, some 7 feet of wall in the lower structure.

With the bench removed a large crack was repaired in the 7-foot height of the lower wall. The overhanging bench was rebuilt, supported on sections of rail and steel tie plates. Bench and outer wall are reinforced with heavy steel; the bench has been completed and the wall is 80 percent done.

In the coming month all drainage work will be finished since the crew has been recently increased to five, the south walls of the rooms outside Kiva G will be raised to retain the fill around the kiva and a low section of wall on the north exterior of the site will be raised as bracing for cracked sections there.

Gordon Vivian  
Archeologist

The heavy rain of yesterday and today have caused considerable water  
over the left bank of the river. The water has reached the level  
and the heavy rain has caused the water to rise in the river  
and of the river out to the left bank. It will have to be dug out  
and the river bank was found and the channel was widened to the  
the flood water satisfactorily.

In the river bed two small islands were connected by a narrow strip  
of land. The river bed was found and the channel was widened to the  
and the river bed was found and the channel was widened to the

The entire overlying earth section of the river was removed to the level of  
the bottom of the bank. It will be revealed that the river was removed from  
the existing river bed and that the river was removed from the  
and given at the level of excavation. It is expected, in the future, that  
it will be the river bed.

With the bank removed a large crack was revealed in the river bed at  
the river bed. The overlying earth was removed, and the river bed was  
will not affect the river. The river bed was removed from the  
about the river bed has been completed and it will be the river bed.

In the coming month all drainage work will be finished along the river bed  
and recently increased to five, the water level of the river will be  
will be raised to reveal the river bed and a new section of river  
on the river exterior of the river will be raised, as shown in the plan  
shown.

May 25, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in Chiricahua National Monument for May.

Weather Conditions. No rain has fallen since last report. Only .24 inch of moisture has fallen since February. High dry winds have combined with the dry weather to make this a very dusty season.

Maintenance. Several days were spent ironing out difficulties on the Sugar Loaf Lookout telephone line. It is now working satisfactorily. A laborer has been helping Operator Marble on roads and trails. The Headquarters parking lot has been enlarged and the road and trail work is getting fairly well caught up.

Approaches to Monument. State Highway 181 is closed for oiling. This makes it necessary for visitors approaching from the south to go via Rodeo or Willcox. All approach roads are very rough and dusty.

Interpretive Service. Two all day trips were made with well known photographers, Mr. Josef Muench and Mr. Whipple. A two hour field trip was made by Ranger Ringenbach with a group of 33 seventh grade school children. 1,075 visitors in 251 parties were contacted in the museum.

Travel. 1,215 visitors came to Chiricahua this month. This is an increase of 139 over May of 1947. It is thought that travel would be much heavier if one of our main approach roads was not closed for construction.

Forest Fire Protection. Fire Control Aide Windes began work on Sugar Loaf Lookout on May 3. The forest floor is undoubtedly much drier than usual at this time of the year. This combined with continued windy weather makes us hope we don't get any fires before the rainy season.

Special. Funeral Services were held May 9 for Mr. John Ball, Bisbee photographer and friend of the Park Service. Mr. Ball took many pictures of Chiricahua in it's early history and was an influence in having the area proclaimed a National Monument. Custodian and Mrs. Cooke attended the funeral services. Mr. Ball requested before passing away that his ashes be scattered over Chiricahua National Monument.

El Morro NATIONAL MONUMENT

Ramah, New Mexico

May 26, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in El Morro National Monument for the month of May, 1948.

WEATHER: With only .05 inches of precipitation and high winds most every day, this whole country has become very dry. Maximum temperature reached 84 degrees and the minimum went down to 25 degrees.

TRAVEL: From 18 different states came 208 visitors in 51 cars. The tour of the Inscriptions was made by 199 people and 9 people arrived for information about roads and the whereabouts of local gente.

APPROACH ROADS: Both roads were dry and passable during the entire report period. The survey for improvement of State Highway #53 was started on May 15th., but it is doubtful if actual construction will be started this summer. It is encouraging, however, to see a line of survey stakes.

EDUCATIONAL ACTIVITIES: On May 18th. I attended a dinner and meeting of the business men of Gallup. Details of plans were outlined for their tourist school (training of personnel coming directly in contact with tourists) and establishment of daily conducted tours to El Morro, Chaco Canyon and Canyon de Chelly. On May 19th. I was scheduled to conduct two classes giving correct information about El Morro and Zuni. Both classes were held with an enormous total attendance of five people, so due to this lack of interest the programs to be conducted by Meredith Guillet and Irving McNeil were cancelled. However the Gallup Chamber of Commerce is going ahead with their conducted tours and have engaged a guide.

RADIO CONTACT: Poor with both Chaco Canyon and the Regional Office.

GENERAL: The grass planted by the Motion Picture Co. made a good showing until this dry spell came along, but if it can survive until our summer rains we will have a fair ground cover even around the base of the Rock. The wiring of the Ranger Cabin was started on May 23rd. Both this job and the painting will be completed before May 31st.

Number of copies of free publication on hand as of the end of May, 1948.

10/15/25

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

MAY 25

48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of May 1948.

General. Continued dry weather is delaying bean planting and worrying the farmers. This does; however, serve to keep the local residents interested in Gran Quivira's repair and rehabilitation program.

Weather Conditions. Dry and windy. Dust storms have been frequent and the farmers are having a hard time holding their fields. There has been only .15 inches of moisture during the report period, .14 of which fell on May 24. A maximum of 87° was recorded on May 22; a minimum of 34° on May 6.

Special Activities. During the month the custodian completed the work attendant to transferring the Special Use Permit, for tying a stub telephone line onto the NPS spur, from Dean Miller to D. B. Chaney.

Inspections. Architect Saunders was here several hours on May 23 going over the repair and rehabilitation program and advising on completion of the job.

Publicity. Wm. H. Krouse visited and photographed Gran Quivira on May 19. Mr. Krouse is preparing a travelogue on New Mexico.

Maintenance. On the 20th and 21st the new weed burner was unlimbered and the entire mission cleaned up. The burner does a much better and faster job than the hoe and rake method formerly used. Approximately 6 gallons of kerosene will do the entire job.

A new radiator was installed on the Chev. pickup.

A new door jamb was installed in the kitchen door to replace a rotten one. Door jambs are meant to be placed first and the house built around them. Since replacing one runs contrary to this formula, certain difficulties were encountered.

Repair and Rehabilitation. The job of repairing the old residence accounted for most of the custodian's time this month. Repair of walls was completed, a new roof put on and cement floors run. Installation of doors, windows, plumbing and wiring, plus a paint job should about finish the project. The \$500 allotted for the work was exhausted early in the month and regular accounts had to be used to carry on the job. Charlie

RE: ALIEN, AND OTHERS

TO: SAC, NEW YORK  
FROM: SAC, NEW YORK

RE: ALIEN, AND OTHERS, (NY 100-100000)

The following is a report of activities of the above named persons during the month of May 1944.

General. Continued all activities in New York City and vicinity. The Bureau has been advised that the above named persons are still in the area and are continuing their activities.

Activities. The above named persons have been observed in New York City and vicinity during the month of May 1944. It is noted that the above named persons are still in the area and are continuing their activities. It is also noted that the above named persons are still in the area and are continuing their activities.

Special Activities. During the month of May 1944, the above named persons were observed in New York City and vicinity. It is noted that the above named persons are still in the area and are continuing their activities. It is also noted that the above named persons are still in the area and are continuing their activities.

Investigation. The above named persons were observed in New York City and vicinity during the month of May 1944. It is noted that the above named persons are still in the area and are continuing their activities. It is also noted that the above named persons are still in the area and are continuing their activities.

Reference. The above named persons were observed in New York City and vicinity during the month of May 1944. It is noted that the above named persons are still in the area and are continuing their activities. It is also noted that the above named persons are still in the area and are continuing their activities.

Remarks. The above named persons were observed in New York City and vicinity during the month of May 1944. It is noted that the above named persons are still in the area and are continuing their activities. It is also noted that the above named persons are still in the area and are continuing their activities.

A new project was initiated in the New York City area.

A new project was initiated in the New York City area. It is noted that the above named persons are still in the area and are continuing their activities. It is also noted that the above named persons are still in the area and are continuing their activities.

Project and Activities. The above named persons were observed in New York City and vicinity during the month of May 1944. It is noted that the above named persons are still in the area and are continuing their activities. It is also noted that the above named persons are still in the area and are continuing their activities.

Steen aided materially May 10 to 14 by supplying his services and a cement mixer for running the floors.

Necessary material has been purchased for wiring the building and for roughing-in the rest room plumbing. The plumbing rough-in is held up pending delivery of the fixtures obtained from War Assets at Bruns Hospital.

Approaches to the Monument. The 8½ miles of new oiled road from Mountainair was completed early in the month. The remainder of the road suffers from lack of maintenance.

The Carrizozo approach continues to blow full of sand periodically. This does not hinder local residents too much, but invariably catches a visitor unversed in sand traps.

Interpretive Service. 42 parties totalling 144 people were guided through the ruins. Average trip time 44 minutes.

Increase or Decrease in Travel. The number of cars entering the Monument this month was exactly that of a year ago; however, there were fewer passengers. Travel for the year remains below that of last year.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE  
GREAT SAND DUNES NATIONAL MONUMENT  
MOSCA, COLORADO.

May 27, 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for May, 1948.

WEATHER. Most unusual for this time of the year. All cottonwoods and aspen have leafed out, but the grass has not yet turned green. An excessive amount of moisture continues to fall and this in turn has nearly flooded the San Luis Valley. All crops are retarded and there is little prospect for a bumper potato crop.

The Medano is running very high and continues along the eastern edge of the sand dunes as far as the eye can see. Local people make special trips out to see the "disappearing river" which is not living up to its name as was the case last year.

The Farmer-Union Dam is causing much concern as the spill-ways are open and there is the danger of the entire dam going out. The National Guard of Monte Vista was called out to strengthen a dike which protects that town. Vigil is being kept at all bridges crossing the Rio Grande, and the Rio Grande Railroad has a special train on the east side of their railroad bridge in case of flood and the bridge should be damaged or swept away.

A minimum of 27 degrees registered on May 11. The maximum of 80 was reached on May 16.

Snow fell on May 3,9,10,11 and 12. Rain fell on May 17,18,19,20,24 and 25.

There were 16 partly cloudy days, 9 cloudy, 5 clear and 9 days of intense winds.

Snow still covers the Sangre de Cristo Range.

TRAVEL. One thousand two hundred and eleven visitors in two hundred seventy cars visited the Sand Dunes during this report period. Eighteen states were represented. Seven hundred six people took advantage of the

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE  
BUREAU OF LAND MANAGEMENT  
WASHINGTON, D. C.

Aug. 17, 1944

Memorandum for the Regional Director,  
Region Three.

There follows the report of activities in Grand Teton National Monument for July, 1944.

Weather. Most unusual for this time of the year. All summer long and again have had cold, but the snow has not yet begun to melt. An extensive amount of moisture continues to fall and this is due to the heavy flooding of the Snake Valley. All rivers are flooded and there is little prospect for a bumper potato crop.

The season is running very high and continues along the eastern side of the mountain as far as the eye can see. Good people were especially glad to see the "Yellowstone River" which is not living up to the name as was the case last year.

The Forest-Union has its coming with women as the girls are now and there is the danger of the winter has come on. The National Guard of Snake Valley has called out to strengthen a line which protects them from. This is being kept at all points around the Snake Valley and the 100th Cavalry has a general order on the east side of their military bridge in case of flood and the bridge should be damaged or swept away.

A list of 27 anglers reported on Aug. 11. The number of 17 was recorded on Aug. 12.

Wolf kill on May 2, 10, 11 and 12. Wolf kill on May 17, 18, 19, 20 and 21.

There were 18 partly cloudy days, 5 clear, 3 clear and 2 days of intense rain.

There will be some 100 to 150 birds.

Incident. One Grizzly bear killed and eleven wolves in the vicinity recently were killed the week before last. This report was given by the Grizzly bear hunter. There is some talk of the Grizzly bear being killed.

picnic areas and of these, two brave souls camped overnight.

INCREASE IN TRAVEL. Travel is still increasing and reaching a new high for this area. For May, 1947, there were 199 cars and 1065 visitors.

ROADS. The State graded the approach road on April 30 and May 17. The past week has seen much damage done to this road as the water has overflowed ditches and made many long stretches of water, often seeming impassable to those not familiar with the road. The state sent out bull-dozers in an attempt to divert the water and save the road from becoming badly washed and rutted. It was learned at the Heide Garage at Mosca, that he had several calls to bring his tow-truck and extract visitors from their wet, muddy resting place.

The monument road is in excellent condition, with the exception of the road leading to the lower picnic area.

N.P.S. VISITORS. On April 28, Ranger Paul Steel of White Sands National Monument delivered the house trailer, which is now reposing in the head-quarter parking area. On May 10, John Davis and John Kell paid a too short visit. On May 18, Kenneth Saunders and wife, came to give the final inspection on the furnace installation.

NEWSWORTHY VISITORS. The Canyon City Trail and Saddle Club and the Alamosa Riding Club with 230 people in attendance brought out 110 horses in trucks. The Western State Geology Class on a field trip with 25 in the group. The Hooper School with a group of 76; La Jara School with 18; and the Mosca School with 20 in the group.

ACTIVITIES. Usual routine duties of hauling gasoline, wood, ashes and garbage. Office matters were kept current.

With the increase in visitor usage, the merry-go-round has started up again in a vain attempt to keep the picnic areas and comfort stations clean. Kleenix rides again!

The house and basement were finally cleared of cement and cement dust. The oil stoves were removed from basement and front hall. The hole where stove pipe entered chimney in the front hall was plastered up. The office also received a thorough clean up job. The electric wall receptacles which were burnt out were replaced with new ones.

Debris was cleaned out of the drains at garage, parking area and front yard. Installed a new water line for visitor use at headquarters. Repaired all garden hoses. Sealed the eight outside vigas of residence with cellulose fiber filler and gave all a coat of linseed oil.

Checked the entire south boundary fence and posted new boundary signs along entire length.

...and the ... of the ...

Excluded the entire 1970-71 season from the new season.

## DEPARTMENT OF THE INTERIOR

Put up the junction sign for the Blanco road turnoff.

Checked and put into shape all fire tools.

Checked and changed oil in both light plants.

Replaced the master cylinder for brakes on the Dodge 4x2 and had tail-gate welded on.

Purchased paint for walls and floors of residence. Sent out bids for automatic hot water heater.

**WILDLIFE.** Many deer are to be seen just east of residence and along the woody section of south monument boundary. Our two eagles are back to spend the summer.

Wood tick season is in full swing and visitors are warned to watch for them. We are taking our spotted-fever vaccine shots. Gnats and mosquitos are also getting thick.

**PROJECTS FOR ENSUING MONTH.** Paint interior residence as time permits; wait for installation of toilets in headquarter public restrooms; repair the generator on the Dodge 4x2, if possible; and continue contact with visitors on Sundays.

Ted C. Sowers,  
Custodian.

NATIONAL PARK SERVICE

Montezuma Castle National Monument  
Camp Verde, Arizona

May 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report for Montezuma Castle National Monument for the month of May, 1948.

Visitors this month to Castle and Well - 2547; this travel year to date, 13,324. The travel count at Montezuma Well covers only 15 days since Archaeologist Schroeder was occupied with other duties the rest of the month.

Administration Increased visitor travel and administrative duties have kept us very busy this month. Six to seven hours spent each day on visitor contact leaves little time for anything else. Archaeologist Schroeder was moved to the Well on April 28 and 29. A qualified veteran has at last been lined up for our temporary ranger job and is due to report June 8. The application of W. Wayne Boyle was rejected because he is not a veteran.

The increase of 200 franked mailings allowed all monuments will permit us to complete the fiscal year within our quota.

The leased meadow land at Montezuma Well has produced a good crop of forage and the fields are usually dotted with grazing cattle.

Special On May 13, 10:03 P. M. a baby daughter, Christine Ann, 7 lbs. 1 Oz. joined the Schroeder family at the Well. Very considerably she made her approaching arrival known while Mrs. Schroeder was making a routine visit to the hospital.

Weather Unusually cool weather with no moisture has prevailed throughout the month. The maximum temperature was 98 degrees on May 16 and the minimum was 30 degrees on April 24.

Visitors Several bus loads of school children have visited the ruins and picnicked on the area.

On May 2 the Verde Valley Pioneer Association held their semi-annual picnic at the Well. About 200 attended.

There were 1861 visitors to Montezuma Castle and 686 to the Well. Cars counted at the Castle, 619; at Montezuma Well, 221. Tickets sold at the Castle, 530; tax but no ticket, 67; children admitted free, 36; visitors admitted by waiver, 3.

REPORT FOR THE REGIONAL DIRECTOR, Flagstaff, Arizona

There follows the monthly report for Montezuma Castle National Monument for the month of May, 1934.

Visitors to the monument in May were 1,234. This figure was based on the number of automobiles counted at the entrance to the monument. The average number of passengers per automobile was 1.5.

Incidents: There were no incidents of any kind reported during the month of May. The weather was generally clear and pleasant. The roads were in good condition. The monument was well maintained. The staff was efficient. The visitors were well served.

The income of the monument during the month of May was \$12.50. This was an increase over the income of the month of April.

The income from the sale of tickets was \$8.00. The income from the sale of refreshments was \$4.50.

On May 13, 1934, a party of 10 persons, consisting of 7 men and 3 women, visited the monument. They were accompanied by a guide. They were very interested in the monument and its history.

Weather: Generally clear and pleasant with no wind. The temperature was 75 degrees on May 13 and the humidity was 60 percent on May 14.

Incidents: There were no incidents of any kind reported during the month of May. The weather was generally clear and pleasant.

On May 15, 1934, a party of 10 persons, consisting of 7 men and 3 women, visited the monument. They were accompanied by a guide. They were very interested in the monument and its history.

There were 1,234 visitors to the monument during the month of May. This was an increase over the number of visitors during the month of April. The average number of passengers per automobile was 1.5.

On May 17 Milo B. Wible, an 86 year-old visitor who couldn't see very well insisted on making the Castle trip against the advice of his son, daughter-in-law, and the custodian.

Contacts Total contact hours, 194; Hastings, 100; Leding, 84; Schroeder 10 at the Castle. One hundred and sixty trips were made through the Castle for 636 visitors and 727 visitors were counted in the museum in 140 groups. 516 visitors received information outside the ruins or museum.

Protection Our annual battle with bats in the Castle has been resumed. Their droppings must be swept up and removed from the inside ladders frequently. On two different occasions visitors have commented that the Castle has an odor like Casa Grande.

The portable "Closed" sign used at our entrance gate disappeared May 16. Time and materials needed to replace it are estimated at about ten dollars.

Schroeder repaired about 100 feet of fence at the northwest corner of the Montezuma Well property.

Fire Protection Dry foxtail in the creek bottom is again presenting a hazard. A 4-gallon decontaminating unit that is being used as a fire extinguisher was chained and padlocked to a tree near the visitor register where it will be handy for use.

Repairs and Construction Painting the interior of the residence at Montezuma Well was completed April 26 and the outside of the house has been given a prime coat except for facings around doors and windows. Wherever the interior of the Montezuma Well museum will not be covered by cases, the walls have been painted.

On May 20 E. G. Broughton, Cottonwood contractor, started to remove the old roof from Residence No. 2 and replace it with a new roof. A layer of earth used for insulation and varying from 4 to 8 inches in thickness has been removed from the old roof. This made a total weight of about 13 tons and the roof had sagged so much that deep pools of water would collect after a rain. The earth is being replaced by Kimsul, a treated wood fiber insulation. This is being covered by framing and a built-up roof.

Interpretation Mimeographed sheets and some very attractive covers for our Sycamore Trail pamphlets have been received. Three transplanted specimens at numbered markers on the trail have been kept alive through the month by carrying water to them.

New guide leaflets for the trail at Montezuma Well have not been received although they have been on order since early in February. Consequently we have had no interpretive facilities to offer at Montezuma Well. We were informed some time ago that the sticker used in making the leaflets had broken down and we are anxiously awaiting its repair because we need the leaflets.

and I believe you will find it very interesting to read  
all the letters and feelings that are put in your hands  
and which are the result of the

On 10/10/68, the following information was received from the 100th Airborne Air Division, Fort Campbell, Kentucky:

The Castle has an area of 700 acres.  
The castle was built by King Edward I.  
It was destroyed by fire in 1892.  
The ruins are now a National Monument.

The contents of this report were used as the basis for the report of the Committee on the Status of the Negro in the United States, which was published in 1944.

[illegible]

Exhibits have been planned and lumber purchased for cases in the Montezuma Well museum.

Supplies and Equipment A worn out Grunow refrigerator was transferred to Grand Canyon and from Walnut Canyon we received 20 rolls of Kimsul insulation.

Research On May 15 the Museum of Northern Arizona sponsored the investigation of Montezuma Well by a diver, H. J. Charbonneau of Flagstaff. The depth of the Well as 55 feet was confirmed and the inlet was not located. Numerous leeches were encountered below a depth of 30 feet. A complete report of this was submitted separately.

Fauna On May 17 a diamond backed rattle snake was caught on the visitor trail and another near Residence No. 2 on May 21.

National Park Service Visitors Engineers Edward S. Zimmer, Director's Office and Charles D. Carter, Regional Office were here April 29. Mr. Carter made his first trip through the Castle since the catwalks were installed in 1939.

Gordon Vivian arrived the night of May 12 to study completed and needed stabilisation at the Castle and the Well.

Custodian Jackson and family arrived May 12 to spend several days fishing and vacationing in the Verde Valley.

Assistant Superintendent Lon Garrison and family from Grand Canyon camped over night on our picnic ground on May 20. Ranger Moore and family were also here from Grand Canyon on May 20.

Dr. Erik Reed visited Montezuma Castle and the Well on May 19 to discuss museum exhibit plans.

In triplicate.

Homer F. Hastings,  
Custodian.

19.....

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Natural Bridges National Monument for the month of May, 1948:

GENERAL: The State maintenance crew opened the approach road to the monument on May 8th. Several wet spots along the route made travel hazardous. The road was again graded on May 18th and it is now in good shape.

RANGER SERVICE: John Wiley Redd of Blanding, Utah entered on duty as temporary ranger on May 17th and opened the area for the season.

TRAVEL: A total of 15 cars and 30 people visited the area from May 8th to May 22nd.

ROADS: The portion of the approach road in the monument is rough and it is hoped that sufficient shale can be hauled in the near future to place this in good shape.

TRAILS: A portion of the trail between Kachina Bridge and headquarters has been badly washed out and the balance of the trail needs considerable work. To date we have been unable to hire a laborer to make the necessary repairs but hope this can be accomplished by July 1st.

(in trip.)

May 27, 1942

Memorandum for the National Monument, Glacier House

The following is a narrative report for National Monument  
Glacier, Montana for the month of May, 1942:

General: The Glacier National Monument was opened to the public on May 27th. Several new trails were also opened. The road was again closed on May 27th and it is now in good shape.

Glacier House: The Glacier House was opened on May 27th and again on May 28th and opened the area for the season.

Trail: A total of 16 miles and 20 people visited the area from May 27th to May 28th.

Remarks: The opening of the monument is much  
and it is hoped that sufficient trails can be opened in the near future  
to give this its best shape.

Trail: A portion of the trail between Glacier House and Lake Louise  
has been fully opened and the balance of the trail needs maintenance  
work. It was found that there is a fire in the area  
between the house and the lake and it is being investigated by the fire.

NAVAJO NATIONAL MONUMENT  
TONALEA, ARIZONA

May 25, 1948

MEMORANDUM for the Regional Director, Region Three

There follows the narrative report of activities in this area for the month of May 1948.

VISITORS: Only 26 visitors reached this area in 10 cars.

N.P.S. Visitors--Gordon Vivian of the Chaco Canyon Stabilization Unit on the 8th and 9th.

WEATHER: Exceedingly dry and dusty with high winds on the 7th, 16th and 19th--only a trace of precipitation recorded on the 18th. Maximum temperature 86 degrees on the 16th, minimum temperature 30 degrees on the 1st.

ROADS: The bad condition of outlying roads is responsible for the light travel to this area. Dust storms, high winds and blown sand have discouraged some visitors. On several days the sand storms were such that cars travelling between Tonalea and Kayenta were using their headlights at noon. A number of cars were stalled overnight near White Mesa wash and remained there until the USIS Road Patrol removed the dunes. The road between Shonto and Betatakin is in better condition than any of the roads in the surrounding area.

ROADSIDE DIRECTIONAL SIGNS: A large two-post four panel road sign was erected at the Rainbow Bridge fork of the Tuba City--Kayenta road. The legend emphasizes the fork North for Rainbow Bridge and Inscription House and East for Navajo National Monument Headquarters or Monument Valley.

The two-post sign in Shonto and all signs at the headquarters area were repainted and relettered. The Register Sign was remounted as well as repainted.

A new single post sign was placed at the approach to Little Salt Canyon indicating Betatakin two miles.

WATER WORKS: Gordon Vivian helped us diagnose our pumping troubles on the 9th. With Gordon in the tunnel and us at the power house we were able to blame our failure on the motor. On the 16th we placed the standby motor into service and have been pumping efficiently since that date. Today we are packing the faulty motor out of the canyon.

We are rehabilitating the 5000 Watt D.C. LeRoi plant transferred from Walnut Canyon National Monument. We will press it into service while the Climax undergoes a complete overhaul.

1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 25

There follows the narrative report of activities in this group for the month of May 1944.

Classification: Only SA's who are in the field are to be given this information. Only SA's who are in the field are to be given this information.

[illegible]

Notes: The first condition of activity was a responsibility for the  
time of day to this area. Each evening, after which and which was  
have throughout some visitors. On several days the same visitors  
were seen that were travelling between London and London were  
using their headlights at night. A number of cars were stalled  
overnight near the main road and remained there until the  
road patrol removed the cars. The road between London and  
London is in better condition than any of the roads in the  
surrounding area.

MONTANA NATIONAL GUARD: A large two-story log cabin was situated at the terminus of the line of the City - in the road. The hotel contained the first floor for the National Guard and the second floor for the National Guard.

A new mine was located at the base of the mountain and was named after the mine.

service while the U.S. maintains a complete neutrality.

**WORKS PROGRESS:** After putting 500 gallons of gasoline into the converted water tank (at 11 P.M.) and observing no loss of gasoline after four days--we filled the excavation and re-covered the tank.

**MAINTENANCE:** The road to Sho to was dragged twice.

The contact station was cleaned up thoroly and additional artifacts were placed on display as we reorganized part of the miscellaneous uncatalogued collection.

Two picnic tables were re-dyed and insect-proofed.

A new cylinder-head gasket was installed on the in-service Kohler on the 6th.

Kitchen and Service porch walls were washed.

The lawn in the patio was turned over and re-seeded.

Files, correspondence and fiscal matters are current.

**GENERAL:** With things pretty well caught up around the headquarters area we are going to concentrate on rebuilding the badly eroded foot trail to Betatakin.

If material is available we hope to get the telescopes set up before our next report.

~~ORGAN PIPE CACTUS~~ NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

May 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of May, 1948.

Weather

The maximum temperature for May was 103 on May 16 and the minimum of 41 occurred on May 3 and 20. No precipitation occurred and relatively clear skies prevailed for the entire month.

Travel

Out-of-state travel has fallen to very little but occasional stop-over of international travel occurs.

General

Most of the time was spent with maintenance and rehabilitation work including work on the water tank and Quonset.

1948 grazing fees were collected from the Grays and remitted.

The custodian made one trip to Tucson for supplies. One trip was made to Coolidge for equipment worked on in the shop.

A call was made on Father Regis at Ajo for information about the Papagos.

Roads

Two flush coats of oil have been made along the Sonoyta highway. Many disgruntled people have complained about the methods of spreading free oil over the entire width of the road. The oil splashed on all cars traveling through the monument for at least two days after each application. A sand coat on top the oil was used outside the monument to prevent the splashing.

Personnel

Ranger Bean returned to duty from Seguro on April 29.

NATIONAL PARK SERVICE

SAGUARO NATIONAL MONUMENT

Tucson, Arizona

May 26, 1948.

MEMORANDUM for the Director,  
Region Three.

There follows the monthly narrative report of activities at Saguaro National Monument for the month of May, 1948.

General

The weather was moderate during the early part of the month, with rising temperatures about the middle of the month. May 13, marked the turning point with a maximum temperature of 101 degrees at headquarters. With the advent of warmer weather, there has been a perceptible drop in visitor travel.

Many of the Saguaros are now in bloom as well as other species of cacti, the chollas are at their genith for beauty at this time.

Special Activities

During the period May 3, through May 5, Mr. E. Zimmer of the Directors Office, Mr. Charles Carter of the Regional Office and Mr. Jack Brannon of the Public Roads Administration, made a reconnaissance survey of a proposed road within the monument.

Assistant Regional Forester H. M. Ratcliff was at Saguaro during the period May 27 to May 29, in connection with the fire protection program for the ensuing season.

Maintenance

The trail crew is still employed in relocating and repairing the upper part of the Madrona-Grass Shack Trail. Many tons of rock have been removed in order to establish a proper tread, and make it safer for pack trains. On May 21, we were able to hire three additional laborers for trail work and expect to utilize their services from a base at Grass Shack.

Interpretive Service

We have not been able to devote as much time with visitors as formerly, due to the necessary preparations for the coming fire season. However an effort is made to be available over the week ends, when we usually have a considerable influx of visitors.

NATIONAL PARK SERVICE  
NATIONAL MONUMENT  
Tucson, Arizona

May 23, 1941.

MEMORANDUM for the Director,  
Region Three.

There follows the monthly narrative report of activities of  
Sagaro National Monument for the month of May, 1941.

General

The weather was moderate during the early part of the month,  
with rising temperatures about the middle of the month. May 11,  
marked the turning point with a minimum temperature of 41 degrees  
at headquarters. With the advent of warmer weather, there has been  
a perceptible drop in visitor travel.

Many of the rangers are now in bloom as well as other species  
of cacti, the cholla are at their best for early at this time.

Special Activities

During the period May 3, through May 5, Mr. J. L. Smith of the  
Director's Office, Mr. Charles Carter of the National Office and  
Mr. Jack Brennan of the Public Works Administration, made a re-  
naissance survey of a proposed road within the monument.

Assistant Regional Forester E. W. Kesteliff was at headquarters  
during the period May 17 to May 23, in connection with the first  
section program for the summer season.

Maintenance

The trail crew is still employed in relocating and repairing  
the upper part of the Lehman-Clegg Goshute Trail. Many tons of rock  
have been hauled in order to establish a proper trail, and while it  
seems far back trails. On May 11, we were able to fire three aban-  
doned lanterns for trail work and expect to utilize their lanterns  
from a base at Goshute.

Interpretive Service

We have not been able to devote as much time with visitors as  
formerly, due to the necessary preparations for the coming fire  
season. However an effort is made to be available over the week-  
ends, when we usually have a considerable influx of visitors.

## Travel

A total of 1,375 persons visited Saguaro during the month. Thirty states were represented and Washington D.C., together with visitors from Hawaii, Canada and Mexico. This is a decrease of 735 persons or approximately 35% less than last month.

## Interpretive Service

A total of 432 persons in 136 parties were given interpretive service at headquarters. This amounted to 34 hours for an average of 15 minutes per party.

## Forest Protection

Ranger Wilde and Fire Control Aid Newell Bundy, distributed supplies and equipment to the various secondary lookouts during the first week of May. The telephone lines are in working order and the various patrol trails have been cleared of logs.

On May 20, the custodian met with Captain V. J. Zielinski, Post Adjutant, Davis-Monthan Air Base, to discuss the recruitment of personnel in case of forest fires on Saguaro National Monument. Captain Zielinski was most cooperative and agreed to release men for fire suppression duty, whenever their services were needed. They have a duty officer available at all times at their headquarters, who will dispatch the men, when a request is made from this office.

Conditions in the forested area are extremely dry at this time. On May 8, the fire danger percent reached 77, for a classification of "High". Regular daily radio contact has been established with Organ Pipe National Monument and Chiricahua National Monument.

The U. S. Forest Service reported a fire on the Coronado National Forest, on May 17, amounting to 75 acres.

## Wildlife

On May 17, Mr. and Mrs. H. T. Lester local residents, observed a mountain lion about one mile south of our headquarters, and not more than seventy five feet from the road. Mr. Lester is a long time resident of this vicinity and I have no doubt but what his observation was correct.

Summary

A total of 1,375 persons visited the islands during the month. Thirty states were represented and Hawaii, Alaska, and the District of Columbia were the most numerous. This is a record of visitors from Hawaii, Alaska, and the District of Columbia. The persons on approximately 100 boats from June 1st to June 30th.

Investigative Service

A total of 113 persons in 100 boats were given investigative service at Henderson. This amounted to 34 hours for an average of 18 minutes per party.

Forest Protection

Patrol Wills and Five Patrol Aid (Wills, Bunty, and Wills) and equipment were sent to the various islands during the first week of May. The telephone lines are in working order and the various patrol trails have been cleared of logs.

On May 20, the expedition met with Captain W. J. Lillie, Post Adjutant, Davis-Monthan Air Base, to discuss the removal of personnel in case of forest fires on the National Monument. Captain Lillie was most cooperative and agreed to release men for fire suppression duty, whenever their services were needed. They have a duty roster available at all times at their headquarters, and will dispatch the men, when a request is made from this office.

Conditions in the forested areas are extremely dry at this time. On May 2, the fire danger became serious. For a short time, the fire danger was reduced but it has been reduced. The fire danger is still serious and the fire danger is still serious.

The U. S. Forest Service received a letter on the National Forest, on May 17, amounting to 75 acres.

Wildlife

On May 11, Mr. and Mrs. E. J. Lester, local residents, observed a mountain lion about one mile south of our headquarters, and not far from seventy-five feet from the road. Mr. Lester is a big game hunter and I have no doubt that his observation was correct.

Sunset Crater NATIONAL MONUMENT

Flagstaff, Arizona

May 28, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Sunset Crater National Monument for the month of May 1948.

Visitors this month: 1960      Travel Year to date: 7304

Travel: On the basis of actual registration travel shows an increase of approximately 20% over this same month last year; a total of 744 persons registered.

Weather: Weather during the past month has been hot and dry with very little precipitation. Roads show very definite effects of this lack of moisture.

Fires: The O'Leary Fire on Coconino National Forest broke out again in the latter part of April. Wind direction was such that it could have entered the Monument, but it was checked in the early stages. Road Maintenance man Bean assisted on this fire with a small crew of Wupatki Navajos.

On the 16th of May visitors traveling between Sunset Crater and Wupatki stopped for a picnic. Careless handling of their fire burned 25 acres before it was discovered and controlled. Names of persons traveling this road and registering at Wupatki have been furnished the Forest Service.

Personnel: Ranger Bob Euler has been approved for a temporary appointment and will be resident on the area early in June to take the place of Ranger Upton who transferred to Petrified Forest.

Housing: At this writing the trailer house is not quite half completed for occupancy. This will be done early in June.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument  
Roosevelt, Arizona

May 26, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is the report of activities at Tonto National Monument for May, 1948.

Weather. Daily maximum temperatures averaged 90 - 95° for the month, with nights cooling to 65 - 75°. No rain. The month was bright, dry, and hot.

Approaches to Monument. The Apache Trail was in good condition, the Payson road fair, but rough in spots. The entrance road has considerable loose gravel, needs a rain.

Interpretive Service. Due to Archaeologist Hendricks being on special assignment at Tumacacofi, the Monument was on a one-man status most of the month. Slightly over one-third of the visitors made the trip to the Lower Ruins, in small parties. Enough cars came in to take up much of the Custodian's time in visitor contact. Trips to the Ruins were made on more than half of the Custodian's lieu days, and the Museum kept open on all days.

Travel. 937 persons in 276 cars visited Tonto this month, compared with 743 in May last year. Most of the travel is from out of state. Sunday, Mother's Day travel was very light. First thing I ever saw that would keep the people home on Sunday.

Roads and Trails. Road & trail crew Roberson and Frazier completed their assignment on May 13. They reconditioned the Lower Ruins trail (one-half mile) completely, improved and partially resurfaced the entrance road, and helped with a few projects which required more than one man to accomplish. All we need now is a gentle rain and a few grader patrol trips.

Visitors. Mr. & Mrs. C. D. Barnett and party from Casa Grande were in awhile May 24, and visited the cliff dwelling. Miss Bertha Dutton, Curator of Ethnology, Museum of New Mexico, was in on May 24, making arrangements for the Girl Scout tour this summer. Miss Dutton, and the Custodian & wife made an early hike Tuesday morning to look at the Salado hilltop sites in the Four Peaks area.

Fire Danger. Fire danger was high most of the month. "No Fires" and "No Smoking While Traveling" signs were posted. The Custodian helped about 2 hours on a small fire at Roosevelt, the afternoon of May 15.

Ranger Service. Archaeologist Lawrence J. Hendricks resigned as of June 6, to take a job with a State Fish and Wildlife Commission. Mr. Hendricks is a qualified aquatic biologist, and wanted to get into that kind of work.

General. The Annual Report was completed and mailed, as well as a Master Plan Development Outline. The Globe Plumbers came out and began work on bathroom facilities in the rangers quarters. At present the affair is strewn around the quarters waiting a return trip to complete the job.

TUMACACORI NATIONAL MONUMENT

Tumacacori, Arizona  
May 26, 1948

MEMORANDUM for the Regional Director,  
Region Three.

We submit the following narrative report for the month ending  
May 24th, 1948:

WEATHER CONDITIONS. No precipitation since .01 of an inch of rain fell on March 30th; several days of drying winds during the month have intensified the dry condition of the surrounding range land, and made thorough soaking of planting on the grounds necessary.

The temperature has ranged from 34 degrees on April 25 to 99 degrees on May 15; 19 days during the report period have had a maximum temperature in the 90's.

Judging from the Papago corn we planted in the eastern section of the patio, May has been fine growing weather--if you had enough water. The corn has grown 30 inches in the past month.

INCREASE IN TRAVEL. This May, with travel at 1,756, saw more visitors at Tumacacori than any previous May, an increase of 260 over May of 1947, and of 1,491 over the war-time low (265 visitors in May, 1943).

Out-of-state travel is holding up fairly well, with cars from 38 states and two foreign countries represented; California jumped to its springtime lead; Illinois, Indiana, Michigan, Ohio, and New York continue to account for the bulk of the outstate visitors.

INTERPRETIVE SERVICE. There were 157 guided trips through the mission, for 868 visitors. Information and orientation service was given to 1,715 visitors; 1,698 people saw the mission from the view window, the museum, and the patio garden.

An example of successful interpretation was the senior high school class from the Phoenix Indian School; they almost balked at the class sponsor's idea of interrupting their ditch day trip to Nogales for a visit to an old mission, but became so interested they overstayed the allotted time.

UNITED STATES

TIMOTHY M. MALLORY

Washington, D.C.  
May 22, 1944

Memorandum for the National Director,  
National Park Service.

Re: Submit the following narrative report for the month ending  
May 15, 1944:

GENERAL SUMMARY. No investigation since May 15 of this  
year. Several days of light rain during the month  
have interrupted the dry condition of the surrounding area. The  
and have caused a condition of plants on the ground.

The investigation was begun from the station on May 15 to 22.  
Station on May 15. It was during the report period that a most  
was completed in the area.

Station from the station was begun in the station station  
of the station. It was during the report period that a most  
was completed in the area.

STATION IN THE AREA. This was, with travel of 1,700, was more visitors  
at the station than any previous day, an increase of 100 over May 15, 1944,  
and of 1,400 over the previous day (1,300 visitors in May, 1944).

Out-of-state travel is being up fairly well, with some from  
the states and the local counties represented; California, Oregon,  
its neighboring states; Illinois, Indiana, Michigan, Ohio, and New York  
continue to account for the bulk of the outside visitors.

INTERESTING VISITORS. There were 187 guided trips through the station  
for the visitors. Information and educational service was given to  
1,715 visitors; 1,600 people saw the station from the view window, the  
museum, and the radio station.

An example of successful interpretation was the center high school  
class from the Hiram School; that class spent at the station  
approximately 45 minutes of interesting their trip to the station for a  
visit to the station. They seemed to be interested in the station and  
enjoyed their visit.

NPS INSPECTIONS AND VISITORS. Edward S. Zimmer and Charles D. Carter visited us on May 2.

Custodian and Mrs. Sam King from Saguaro arrived later on the same afternoon; we're very glad to have them as Park Service neighbors.

Mr. and Mrs. Carroll Barnett from Casa Grande brought friends down on May 22; Barnett was on annual leave, but he donated some time to our water problem (see Water System).

Kenneth M. Saunders arrived (two days ahead of schedule!) on May 25; he inspected the recent installation of butane tank and lines, and gave some help on the problem of stabilizing the mortuary chapel.

PERSONNEL. Custodian Jackson started annual leave May 7; there's been no word so we assume fishing is good along the Verde, and expect him back on duty June 2.

Joe Hendricks came down from Tonto to help run the Monument during Earl's absence; Joe has gotten a fair sampling of the variety in a Ranger's life--from digging ditches, through discouraging treasure hunters, to identifying snails.

STABILIZATION OF MISSION. Two men continued the work of patching the walls of the mortuary chapel (as described in the April Report), and had the first repair coat on about two-thirds of the chapel by May 21. On that date a temporary shut-down was made necessary by lack of funds. Fortunately for the mortuary chapel, whose still-exposed adobe walls were in no condition to stand another July rain, we received word today that we will be able to finish that job, and we were able to get Orozco and Vega back for one more week's work.

CONTRACT INSTALLATION OF BUTANE TANK AND LINES. The Home Gas & Fuel Company of Tucson were awarded this contract. The work was performed on May 12. One section of pipe was left exposed, and there were several details which did not come up to the specification standards, but the workmen were on the job until dark and the system has been operating satisfactorily. Mr. Saunders expressed approval of the job as a whole when he inspected it on May 25.

WATER SYSTEM. The Monument ran out of water on May 21. It now appears that the temporary pump failure was caused by overheating due to very low voltage in the lines that day. We have had water in the pressure tanks since, but are conserving it as much as possible!

For some time we've suspected that the pump is not working efficiently; Mr. Barnett gave some advice on operation and maintenance, but

THE INVESTIGATION OF THE CASE OF THE MISSING  
visited us on May 8.

Questioned and Mr. and Mrs. King from Denver arrived later in the  
same afternoon; we're very glad to have them as they have no relatives.

Mr. and Mrs. Carroll arrived from San Francisco brought friends  
down on May 22; Carroll was on annual leave, but he devoted some time  
to our water problem (see later section).

Harold H. Bennett arrived (two days ahead of schedule!) on  
May 25; he suggested the present installation of water tank and lines,  
and gave some help on the problem of stabilizing the mortuary chapel.

RESEARCH. Questioned Jackson started around May 7; there's been  
no word so we assume fishing is good along the Verde, and expect him  
back on duty June 2.

Joe Lindbergh came down from Santa Fe to help run the Klamath dam  
early's absence; Joe has given a fair handling of the variety in a number's  
life--from flying fishes, through disappearing treasure hunters, to  
identifying animals.

RESEARCH OF LINDBERGH. Two men continued the work of preparing the  
walls of the mortuary chapel (as described in the April Report), and  
had the first repair coat on about two-thirds of the chapel by May 21.  
On that date a temporary shut-down was necessary by lack of funds.  
Unfortunately for the mortuary chapel, which will be closed some time  
will be in no condition to stand another July rain, we received word that  
that we will be able to finish this job, and we were able to get things  
and help back for one week's work.

QUESTIONS LATER. WITH THE LINDBERGH. The same was a fair  
amount of time was devoted to this subject. The work was continued  
on May 12. One section of pipe was left exposed, and there were several  
details which did not come up to the specifications at all, but the  
workmen were on the job until dark and the question has been answered.  
Unfortunately, Mr. Bennett expressed approval of the job as a whole  
when he inspected it on May 22.

THE LINDBERGH. The moment ran out of water on May 21. It was reported  
that the temporary pump failure was caused by overworking the too very  
low volume in the line that day. We have had water in the presence  
for a while, but the conserving is as much as possible.

For some time we've suspected that the pump is not working effi-  
ciently; Mr. Bennett gave some advice on operation and maintenance, but

feels, as we do, that the depth of water in the well may be the chief source of trouble. The lowering of the water table in this vicinity is probably going to force us to have another look at the depth of our well.

MAINTENANCE. Some repairwork was done on both refrigerators during the month. Mr. Noon of Nogales installed the motor in the refrigerator for Residence #1 and the regulator for the refrigerator for Residence #2 (both parts had earlier been taken out for repair); a second trip was made to work on the latter box, which continues to alternately freeze too low and defrost.

Pruning was done on cold-killed plants in the patio, and on mesquite branches that hung too low in the parking area and driveway.

Cleanup was done on the problem area along the south boundary, where oil drums, scrap lumber, and odds and ends had accumulated; six drums were hauled to the dealers in Nogales, arrangements were made with Shell Oil Company to pick up the propane cylinders we will no longer need, wood was piled in one spot, and a good deal of trash was hauled to the adobe pit.

The mission model in the view room got minor repairs, where eager visitors had pulled off doors, seeing if they really worked.

FAUNA. A skirmish with the bats was won by Hendricks when he used an Aerosol bomb on a small crack in the sacristy wall; twenty or more bats were disturbed by the vapor and left there; the crack was sealed with plaster.

Workmen installing the butane tank reported a large rattlesnake disappearing into the brush of the adobe pit; it hasn't been seen since, but we suspect we have a permanent resident there. Two harmless snakes, which the Acting Custodian cannot further identify, have been making themselves at home near the view room and in the cemetery.

A good specimen of scorpion, probably *Centruoides*, was sent to Dr. Stahnke for plastic mounting; several solpugids have been collected answering Mr. King's request for specimens to use in illustrating "Poisonous Dwellers of the Desert".

Two Arizona Vireos have to date built three nests in the patio, abandoning the first two with eggs in them. The second nest was deserted after what we suspect was a Cowbird laid a large egg in the same nest; that egg and the three Vireo eggs from the abandoned nest are being preserved for identification.

PUBLICITY. Joseph Muench took eight 4x5 color pictures of the mission on May 9. O. Roach, photographer from Denver, spent two hours on the Monument May 14. Three photographers making a movie of Tucson and vic-

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
BUREAU OF LAND MANAGEMENT

nity worked half a day on the Monument on May 31.

Special Activities. With spring, the fraternity of the seekers of Spanish treasure seems to be gathering. There are of course the three permanent camps where earnest people work the year around; there are one or two seasonal excavators; and this month we have talked with a good many newcomers to the field, who have just gotten hold of their old map straight out of the vaults of a monastery in Spain. An encouraging sign, for us, is that most of them seem to feel that the treasure is not near the church; they usually just want to sight from a certain door toward a certain landmark. On the other hand, if our well should need deepening, we might do well to spread word of midnight lights seen in the vicinity of the well; one of our neighbors now had a good well over 100 feet deep on a previously unwatered part of his range, thanks to the perseverance of some people who know where Spaniards fleeing Mexico hurriedly cached their loot.

Sallie Pierce Brewer,  
Acting Custodian.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT

CLARKDALE, ARIZONA

MAY 26, 1948., 19.....

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for May, 1948.

Visitors this month, 1423:

Travel year to date, 9303.

Travel Data: Each month of the present travel year continues to break all visitor records of corresponding monthly highs of 1947. Although the Arizona Immigration Service report a sharp decline in tourist travel, visitation to this area is running 25% greater than any previous record year since the monument was established. Extra hard winds and heavy dust storms, which prevailed throughout the first half of the month, failed to dampen the desire of people to see this ancient city.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 2996 for the month. 1240 people in 402 parties were given an orientation lecture in the museum, and 1251 people in 397 parties were conducted through the ruins. The average time spent by each party in the museum was 22 minutes, while the conducted tour through the ruins required 21 minutes per party. Three groups of students totaling 93, from various high schools in Arizona, visited the monument and were given special contact programs designed to carry out the interest of the individual class groups, such as Pueblo art for art classes, geology for geology classes, and Pueblo economy and life in general.

Personnel Time: Museum: 151 hours 35 minutes. Ruins: 139 hours 55 minutes. Total time for Bright: 136 hours 45 minutes. For Richert: 154 hours 45 minutes.

NPS Visitors: Edward S. Zimmer from the Director's Office and Charles Carter, Region Three Office on April 28. Dean Dasey, Ranger, Grand Canyon on April 30. Gordon Vivian, Chaco Canyon, on May 12, and Erik Reed on May 18. Valuable suggestions were given by Erik on museum display rearrangement and the interpretive culture of the early Verde Valley people.

Maintenance and Administration: Several leaks were repaired on the water line during the month. Our old rusty line does not offer a very encouraging picture nor a pretty one. However, we hope to complete the laying and connecting up of the remaining 1200 feet of new 2-inch galvanized pipe within the next 30 days. The completion of this project will eliminate the most deteriorated section and should help materially our water supply to the monument. Several informational and directional highway signs were relettered and given a coating of linseed oil. Between guided tours Ranger Richert has managed to remove all weeds from the rooms in the ruins.

*Everett W. Bright*  
Custodian.

May 28, 1948.

MEMORANDUM for the Regional Director, Region Three.

, 19.....

Weather. No precipitation and many days of heavy wind. Two pinyons blew down on entrance road, a large Douglas fir came down the cliff to block the ruins trail, light fixtures on Admin. Bldg. porch were damaged, the radio antenna was down twice, one door of Admin. Bldg. was badly damaged, the telephone line was down in several places, etc.

Visitors. Of the 2,169 total, 1,571 were contacted, and it is estimated that 1,626 made the ruins trip unattended. There were 41 picnic parties with 165 people.

Park Service people who were here on official business included Gordon Vivian, Erik Reed, Leland Ramsdell, Raymond Russell, Charlie Carter, Edward Zimmer, Albert Schroeder, James Clancy, Jimmy Brewer and David Jones.

Activities. The picnic tables have been painted, our fire suppression equipment overhauled, and some repair work done on telephone line in addition to the routine chores.

Our 1934 Ford dump has been put up for sale, and a new International dump is supposedly on its way.

Master Plan & PCP. A new Master Plan was received during month, and several new projects added to the PCP.

Rehabilitation. A contract was awarded for the re-roofing of the Administration Building.

Personnel. Ranger Aubuchon returned to duty from sick leave May 13, and this became a 2-man monument except for twodays he spent at an USFS fire in Kendrick Park.

Last year's seasonal Ranger, Robert H. Viklund, entered on duty as a trail laborer May 24. Six drums of bitumuls have been procured for him to sprinkle on the trails around the parking area.

MAY TRAVEL - 1948  
Visitors 6768 Cars 1699

1948 TRAVEL YEAR TO DATE  
Visitors 62,478 Cars 13,655

-----

This month does not break all records but is well ahead of last year. Six thousand seven hundred sixty-eight visitors in sixteen hundred ninety-nine cars visited the Monument during the hours we were open. A few trial checks show us we are missing a large number who come in after hours but neither funds nor personnel permit spreading out much thinner than we are now. We will start split shifts next month, however, which will help this some.

Heavy winds have prevailed throughout the month and many picnics were ruined as a result. No doubt visitation has been affected some by these storms. Roads have been kept open but in some cases only one way and even this by great effort on the part of my road man.

No official trips were made by the Custodian. Ranger Steel returned from his trip to some of the northern areas and Ranger Chittum immediately left for Pyote, Texas after some more war surplus property. Considerable trouble was experienced on the latter trip and it was necessary to order a trailer tire from Los Angeles with a resultant delay of a few days. Joe Shopperd went down with Harold after the tire was received. Chittum is now on a trip to Taos for the Lions State Convention, Harold works hard in his Lions Club and we were proud he was chosen as a delegate.

Many school groups from points in Texas, New Mexico, Oklahoma, Kansas, Colorado, and Arizona have been in and, of course, all seemed to have a good time. Several scheduled Army picnics have taken place and the New Mexico Public Health Service visited White Sands for the picnic closing their annual meeting.

Seasonal Ranger Schaffner is taking leave without pay this week to complete work for his Master's at New Mexico A. & M. at Las Cruces.

18. ... ..

1942 - 1943  
1944 - 1945

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the situation.

Monthly Report May 25, 1948  
(2)

He will report for the summer stretch next Saturday. Ray assists in our museum contacts and certainly "assists" on questions regarding our plant life. I believe I mentioned before, his thesis for his Master Degree is "Plant Life of the White Sands".

Concession gains continue and, like ourselves, they are confronted with long hours and little help. No complaints have been received in this Office of this, or any other phase of our activity.

We have had several visitors from our own Service. John Doerr of the Washington Office, Matt Dodge and Bennett Gale; Mr. & Mrs. John Nell, Paddy, and Mrs. Nell's sister; Benny and Elsie Saunders; Carter and Ed Zimmer were in a few minutes; and former ranger and Mrs. Reid of Astec Ruins.

Surfacing of U. S. 84 from Tularosa to Carrizozo is now virtually completed giving us a paved short cut to Albuquerque and the central part of the state. This should help some on travel too.

Joe Sheppard met with a little trouble in helping Ranger Chittum change a tire on our big trailer. The heavy tire and wheel slipped and caught the end of Joe's little finger between it and the trailer bed so now his little finger on his left hand is truly a "little finger", the tip being donated to the great state of Texas.

John Will Paris,  
Custodian.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

May 28 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the month of May 1948:

Visitors this month: 448      Travel Year to date: 2193

Weather: The past month has been warm, dry and windy broken only by three days in which any precipitation occurred- a total of .06. The maximum temperature was 92°, the minimum 41°. Fire danger is high.

Roads: The roads, while not acceptable to most visitors, are in fair condition for this time of year. The approach through Sunset Crater is passable, although no traffic is being routed from Wupatki up to Sunset.

Travel: Previous records for the month of May were exceeded and our figures show a 27% increase over last year. Almost half of the Wupatki Ruin visitors come through from Sunset Crater.

Cooperation-Outside Agencies: A total of 69 man hours was spent on fire fighting for Coconino National Forest. The O'leary Basin Fire broke out again the last of April and Maintenanceman Bean assisted along with some of our Navajos. At the request of the Forest Service Custodian Jones and Mr. Bean assisted on the supervision of the Kendrick Park Fire. The disadvantage of this cooperative agreement is that it takes us away from our normal duties, but it does give experience on large fires in varying capacities and provides us with more experienced fire crews among the Wupatki Navajos.

Publicity: Apparently we received a five minute broadcast from KTAR in Phoenix this month over Howard Pyle's program. The Flagstaff station prepared some excellent programs from material furnished them. Considerable newspaper publicity was received prior to the visitors guided by the Cavaliers, a local organization promoting travel to scenic spot of this region.

It is a very comfortable and convenient place for tourists to stay, and is well equipped with all the necessary amenities.

Glacier House was opened for the season on May 1st. The house is a small, one-story building, situated on a hillside overlooking the Yosemite Valley. It is a very comfortable and convenient place for tourists to stay, and is well equipped with all the necessary amenities. The house is situated on a hillside overlooking the Yosemite Valley. It is a very comfortable and convenient place for tourists to stay, and is well equipped with all the necessary amenities.

Personnel: Ranger and Mrs. Bob Unton left on May 17 for Petrified Forest National Monument where Bob takes over the job as Assistant Naturalist. We shall miss Bob on the job and both of them for their friendly way of living.

Bob Euler of Arizona State College is temporarily filling the job at Sunset Crater, having entered on duty the 24th. A graduate student in economics and archeology, Bob is planning to continue his work at the University of New Mexico.

Custodian Jones took one week of annual leave in April to work on the editing of a movie of this area.

Visitors: Nps personnel visiting the area included Gordon Vivian of the Stabilization Unit at Chaco, L. F. Ramsdell of the Director's Office accompanied by Ray Rundell of Grand Canyon. We also had the pleasure of meeting NPS Collaborator and Mrs. Louis B. Lundborg of San Francisco.

Organized groups visiting the area included the Flagstaff Cavaliers and party and fifteen Forestry students from Colorado Aggies.

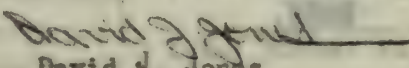

Crazing: A few of the CO Bar cattle occasionally drift over on our land, but the majority have already been moved to summer range. No difficulty was experienced with Kellams cattle this past month and he has recently moved most of his stock up into higher elevations. Chick Kirby, permittee on Coconino National Forest in this vicinity, has moved all of his stock and very likely will not be back next winter.

Spring Flow:

The flow of Wupatki Spring tumbled this month from 1028 g.p.d. to 421 gallons. As usual Hieser did not show as sharp a decrease, the flow being 1085 g.p.d. compared to 1216 gallons last month.

Activities of Outside Agencies: Applications for archeological excavation permits were received from the Museum of Northern Arizona and forwarded.

General: Rehabilitation of house trailers has been the major interim project of the month. One of our Onan Light Plants has been giving us considerable trouble. Twice during the month it broke valve springs. Repair facilities for automotive equipment provide by the Forest Service Regional Repair Shop in Flagstaff have been very satisfactory to date. It is a convenient and economical arrangement for us.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD ON INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

Irving McNeil, Jr.

TITLE

Custodian

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

Approach roads best shape this calendar year, but still not good shape!

\*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATED. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

"museum closed for repairs", "closed for season", "naturalist on sick leave", etc.  
An additional 43 people, local residents, here to use telephone or on other  
business were also contacted.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE  
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as:  
Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

Approach road to area opened on May 8th. Temporary ranger entered  
on duty May 17, 1948.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.  
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.  
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

### EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.

"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.

"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

### INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as:  
museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

Santa Fe, New Mexico

July 8, 1948.

**MEMORANDUM for the Regional Director, Region Three.**

Following is the narrative report for the naturalists of the Southwestern National Monuments for the month of June 1948:

Staff Activities - General

Naturalist Dale S. King was in the office during the entire month except for a one day trip to Bandelier, June 12.

Archeologist Charlie R. Steen took five days sick leave, made one trip to Bandelier and one to Navajo.

Interpretive Administration

A short descriptive statement was made concerning duties of the P-1 Archeologist at Tonto National Monument.

Several applicants for seasonal employment were interviewed in the office, and some letters written concerning the subject.

Interpretive Overhead

An unusual number of informational requests were answered, including one asking about Spanish Treasure at Tumacacori.

A set of slides were selected for use by the Regional Director in an outside talk.

Planning - Other Than Museum

Master Plans were reviewed and signed for Wupatki and Sunset Crater.

Public Relations and Extensive Services

Several sets of photographs were selected and mailed to authors upon their requests.

Custodians of archeological areas were circularized to instruct them to send kiva stones to La Junta, Colorado, where a boy scout troop

famous for its study of Indian Lore is building a club house in the form of Chaco Canyon's great kivas.

### Progress of Exhibit Plans and Projects

King spent considerable time helping in the selection and purchase of fluorescent lighting for the Walnut Canyon Museum, as well as ordering materials for the museum installation there.

One set of printed labels was ordered for Bandelier Museum from the Director's Office, and Architect Raymond Lovelady, working on museum funds, hand lettered a set for another case. Installation of these two last cases will be completed during the first week of July, and will, for the first time, fill the exhibit space in the third room at Bandelier.

Considerable time was spent by King working with Architect Lovelady in completing a proposed plan for a large model to be placed at Montezuma Castle. This plan will be sent to the Director for comments and improvements by the Museum Division early in July.

King re-worked the prospectus and preliminary museum plans for Walnut Canyon which he had begun in 1942. At the end of the month the plan was in the hands of a typist. It will go to the Custodian for review early in July. Architect Lovelady completed the illustrations for the last five of twelve pages.

### Research and Observations

Steen made the trip to Havaajo to see whether anything could be done about salvaging prehistoric burials which are washing from the valley fill below Inscription House. During the last ten years the arroyo in Nitsie Canyon has advanced up the canyon more than a mile, and, in front of the ruin, has cut a channel 35 feet deep and 50 feet wide. Most of the cutting was done in the early 1940's and at present the arroyo contains a good stand of cottonwoods, willow, and carrizo. After rains the burials wash from freshly eroded sections of the vertical arroyo walls, but the expense of salvaging the artifacts which remain in the fill would be too great for the National Park Service to attempt at the present time.

An excellent reconnaissance report was received from Dr. D. Elden Beck of Brigham Young University describing a trip made last summer at Arches National Monument. It is unfortunate that there are no available funds to duplicate this report for wide distribution.

Considerable time was spent in assembling equipment to be used by the survey and excavation party from Adams State College, working this summer at Bandelier National Monument. An attempt was made to find bronze markers with which to mark permanently important sites found in the survey.

NEW YORK 36, N.Y.

The following information was obtained from the records of the Bureau of Prisons, Washington, D.C., dated June 10, 1964.

and the fact that the Government has not yet decided whether to accept the offer of the United States to purchase the rights in the patent. It will be the responsibility of the Government to decide whether to accept the offer of the United States to purchase the rights in the patent.

The above information was obtained from the files of the Federal Bureau of Investigation, Department of Justice, Washington, D.C., and is being furnished to you for your information.

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United Kingdom regarding the proposed changes to the law of the United Kingdom regarding the treatment of the British Commonwealth countries.

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to solve the problem and determining the resources that will be needed to implement the plan. Once a plan of action has been developed, the next step is to implement the plan. This involves carrying out the steps that have been identified in the plan and monitoring the progress of the implementation. Finally, the last step in the process is to evaluate the results of the implementation. This involves determining whether the problem has been solved and whether the resources have been used effectively.

King spent one half day on the pottery section of the Nalakiha report. The pottery section as well as the bibliography are now typed, and the report probably will be submitted to the Museum of Northern Arizona early in July for printing.

A conference was held with David De Harport of Harvard University, who will work at Canyon de Chelly National Monument under official permit this summer, making an archeological survey there.

#### Region Three Office Loan Library

Received during the month were 22 books, 40 periodicals, and 46 reprints and leaflets, making a total of 108 accessions.

The more important books received were:

Ashton, Ruth E. - Plants of Rocky Mountain National Park.  
Government Printing Office, Washington, 1948.

Brookman, C. Frank - Flora of Mount Ranier National Park.  
Government Printing Office, Washington, 1948.

Cummings, Byron - Finishta, A Prehistoric Pueblo of the Great Pueblo Period. Hohokam Museums Association and the University of Arizona. Republic and Gazette Printery, Phoenix, 1940.

Poster, George M. - Empire's Children, The People of Tzintzuntzan. Smithsonian Institution, Institute of Social Anthropology, Publication No. 6. Imprenta Nuevo Mundo, S. A., Mexico, 1948.

Fitzpatrick, George (editor) - This is New Mexico  
The Rydal Press, Santa Fe, 1948.

Gibson, Charles - The Inca Concept of Sovereignty and The Spanish Administration of Peru. The University of Texas Institute of Latin American Studies, Latin American Studies No. 4, Austin, 1948.

Howells, William - The Heathens. Primitive Man and His Religions. Doubleday and Co., Inc., Garden City New York, 1948.

Lillard, Richard G. - The Great Forest,  
Alfred A. Knopf, New York, 1948.

O'Neale, Lila M. and Bonnie Jean Clark. Textile Periods In Ancient Peru. III: The Gauze Weaves. University of California Publications in American Archeology and Ethnology, Vol. 40, No. 4, Berkeley and Los Angeles, 1948.

and the report probably will be submitted to the House of Representatives before early in July this year.

A conference was held at the State Department on August 10, 1944, at which time the following members of the Joint Committee on the Organization of the Executive Branch of the Government were present: Mr. Clegg, Mr. Glavin, Mr. Ladd, Mr. Nichols, Mr. Rosen, Mr. Tracy, Mr. Carson, Mr. Egan, Mr. Gurnea, Mr. Harbo, Mr. Hendon, Mr. Pennington, Mr. Quinn, Mr. Nease, Mr. Gurnea, Mr. Harbo, Mr. Hendon, Mr. Pennington, Mr. Quinn, Mr. Nease.

# Executive Branch of the Government

Executive Order No. 9862, dated August 11, 1944, authorized the following:

The following departments and agencies are authorized to:

Department of the Interior - Bureau of Land Management, Bureau of Reclamation, Bureau of Indian Affairs, Bureau of Geographical Names, Bureau of Fish and Wildlife Service, Bureau of Mines, Bureau of Prisons, Bureau of Reclamation, Bureau of Indian Affairs, Bureau of Geographical Names, Bureau of Fish and Wildlife Service, Bureau of Mines, Bureau of Prisons.

Area, Smithsonian Institution, Institute of Cultural  
Anthropology, Publication No. 7. Government Printing  
Office, Washington, 1948.

#### Southwestern Monuments Association

The most important news of the months activities is that receipts from mail sales were considerable, are still coming in, and probably will enable us to expand our mailing list rapidly. Details are given below in the Treasurer's report.

Proclamation No. 2787 by President Truman, May 28, 1948, added to Aztec National Monument the Hubbard Property which was donated by this Association.

An excellent set of photographs taken by William Lippincott, Indian trader at Wide Ruins, Arizona, was received for inclusion in a proposed booklet this Association probably will publish during the autumn months. Also received was the complete manuscript from Arthur Foodward of the Los Angeles Museum.

Correspondence was had with Reverend Victor E. Stoner, of our Board of Directors, concerning a project whereby he will prepare and write a chronology for Tumacacori National Monument.

The full report of Treasurer Alan Vedder follows:

"During the month of June I worked 21 days. Most of the time was spent on filling orders from the mail broadside (we took in \$722 to June 30th), taking care of mail, working on quarterly inventory turn-in from the monuments, and making HQ turn-ins (two), each of which takes a half day due to increase in sales. This month we sent out an additional 2,899 envelopes with our enclosures, including book list, etc. This really completes our first mail broadside, which amounted to 12,527 envelopes. Those working on the mail list or giving advice had a chance to guess how much money we would take in, with the prize a choice of any book we sell. Approximately an advisor won, our Chairman, Mr. Davis.

"Two disbursements were made this month, due to special requests and the fact our fiscal year ends June 30th. Two deposits were made; 325 covers, not including our mail list, sent out, including 75 letters and 34 purchase orders.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

"Barbara Vedder worked 68 hours. Her time was spent at the addressograph machine, stuffing envelopes, filing stencils and cards, classifying business reply cards and filing. Also much time spent on wrapping packages and mailing them."

Visitors

Jack Turney, Thomas Onstott, Drs. Herbert E. Gregory and Harry P. Hens, Helmut de Terra, and Chief of Information Herbert Evison.

Ruins Stabilization

Stabilization of Tyuonyi Ruin at Bandelier National Monument was completed at the end of the month. A small crew of Cochiti and Santo Domingo Indians, supervised by Ranger Onstott, have done an excellent job. Work will continue at Bandelier during July to complete stabilization of Long House Ruin.

On the return from Navajo, Steen visited Walnut Canyon and discussed with Custodian Beaubien a ruins stabilization job which will be started this autumn.

Projects for July

King will leave Santa Fe July 3 to go to Walnut Canyon where he will spend more than a month making a preliminary museum installation and visiting several Arizona monuments on side trips.

Steen will spend most of the month handling office overhead, but will take short trips to Bandelier and Chaco.

Charlie R. Steen,  
Archeologist.

Approved for Distribution \_\_\_\_\_, July 8, 1948.  
Acting Regional Director.

Monument Circulation (2).

"The first thing I noticed when I stepped out of the plane was the heat. It was a relief after the cold of the plane. The sun was shining brightly, and the air was warm. I took a deep breath and felt the sun on my face. It was a beautiful day, and I was happy to be here. The first thing I did was to go to the beach. The sand was soft and the water was clear. I walked along the shore, feeling the sun on my skin. It was a perfect day, and I was lucky to be here. The first thing I did was to go to the beach. The sand was soft and the water was clear. MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Arches National Monument for the month of June, 1948:

GENERAL: A trip was made to Wupatki National Monument from June 16th to 18th to pick up a water tank for use at Natural Bridges National Monument. A stop was made at Monument alley on the return trip.

TRAVEL: Travel to this area again hit an all time monthly high with 423 cars and 1407 people visiting the area. In checking actual daily travel against the registers on several days it was found that we are losing from 35% to 50% of our travel due to non-registration. At present we add 25% to the actual registration for the monthly travel figure. We had 1158 visitors at the Windows section, 314 in the Devils Garden and 107 at Delicate Arch, the figures for the Devils Garden and Delicate Arch are actual register figures.

INTERPRETIVE SERVICES: Our contacts approximately doubled these for May, with 258 people being contacted at headquarters, and 530 people were contacted at the Windows, etc. A total of 877 people visited the area unattended. Three caravans were conducted in the various sections with 14 people and 18 parties with a total of 133 people were conducted through the various sections of the monument.

WEATHER: The weather continues unusually cool for this time of year. Good rains fell on June 2nd, 7th, 11th, 21st and 22nd. The storm of the 21st and 22nd laid a cover of new snow on the LaSal mountains. High winds blow on two occasions during the month.

ROADS: Our roads have been in good shape throughout the month. The state graded all roads, both approach and monument, from June 3rd to 5th and graded the approach road again on June 22nd and 23rd, after our heavy storm on June 21st. This storm washed out several spots along the approach road and also two culverts in the Windows section.

TRAILS: The Courthouse Towers trail was signed during the first part of

1990

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. The following is a summary of the results of the study:

1. The first of these is the fact that the  
2. second of these is the fact that the  
3. third of these is the fact that the  
4. fourth of these is the fact that the  
5. fifth of these is the fact that the

3. third of these is the fact that the  
4. fourth of these is the fact that the  
5. fifth of these is the fact that the  
6. sixth of these is the fact that the  
7. seventh of these is the fact that the  
8. eighth of these is the fact that the  
9. ninth of these is the fact that the  
10. tenth of these is the fact that the

1. The weather was very good today. We went to the park and had a picnic. The children were very happy and played for hours. We also had a picnic basket with us. The food was very good and we all enjoyed it. We had a very good time and it was a very nice day. We had a picnic basket with us. The food was very good and we all enjoyed it. We had a very good time and it was a very nice day.

1. The first of these is the fact that the Government has been unable to secure the necessary funds to carry out its policy. This is due to the fact that the Government has been unable to secure the necessary funds to carry out its policy.

*[Faint, illegible text]*

Page 2, Arches Narr. Rpt., June, 1948

of the month. Arrows mark the trail for the entire distance from headquarters and name signs have been placed at all important features. This completes our trail marking program for this year and makes the Windows, Devils Garden, Delicate Arch and Courthouse Towers sections readily available to visitors without a guide.

INSPECTIONS: An inspection was made at Natural Bridges National Monument on June 7th and 8th. All trails were gone over at this time and it was found that the trail from headquarters to Kaibito Bridge was badly washed out. It has been impossible to employ labor to improve this condition. The headquarters area was in good shape.

PRIVATE LANDS: All papers have been completed on the purchase of the Turnbow Homestead from Mr. Emmett Elazondo and have been sent to Regional Office for final action.

NATIONAL PARK SERVICE VISITORS: Mr. Jesse Nusbaum of Regional Office, in company with Mr. and Mrs. Wentworth of California, spent May 31st in the monument and made a trip to Grand Point on June 1st.

Richard Sias of Regional Office, with Mr. Philip Ruderer of the Director's office, visited the area on June 15th. A trip was made with them to Gray's Pasture and Grand Point on that date.

Ralph Lassiter of the Regional Office arrived in Moab on June 20th with his wife and daughter. They were shown over the monument on the 21st and on the 22nd a trip was made to Deadhorse Point with the Lassiters and Superintendent Rose of Mesa Verde National Park.

NEWSWORTHY VISITORS: Jack Breed of Tucson, Arizona arrived on June 1st. He intended to cover Monument Canyon, The Needles and Natural Bridges but received word that the pictures taken on his Escalante trip, about three weeks duration, had not turned out well, so he returned to Tucson on June 6th to check on this matter. I recently received word that he would return in the near future.

WILDLIFE: A visitor from Salt Lake City reported seeing a female mountain lion, with two cubs, in the Courthouse Towers section on May 30th. Stated he watched them for several minutes with field glasses.

Rattlesnakes seem to be more prevalent this year than they have in the past. Visitors have reported them on two occasions in the Windows section. One was found along the slick-rock trail to Delicate

... ..

of the results. However, with the level of the analysis, the  
hypotheses and some signs have been shown as well as the  
results. The completed and final analysis of the data, and  
under the findings, results, and conclusions.

REMARKS: The investigation was made at the United States National Academy of Sciences, Washington, D.C., on the 10th and 11th of June, 1941. The results of the investigation are given in the report of the United States National Academy of Sciences, Washington, D.C., on the 10th and 11th of June, 1941. The results of the investigation are given in the report of the United States National Academy of Sciences, Washington, D.C., on the 10th and 11th of June, 1941.

Arch on June 11th.

A family of eagles nested in the vicinity of Balanced Rock this year. Two young eagles were seen flying in that vicinity during the month.

**VANDALISM:** On two occasions during the month we have found names carved on the rock near Double Arch. One party was apprehended before they left the area and were given the job of eradicating their handiwork. The other party was traced and advised by mail regarding the rules and regulations of the Service.

DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
AZTEC RUINS NATIONAL MONUMENT  
AZTEC, NEW MEXICO

24 June 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows the report of activities in Aztec Ruins for June 1948.

WEATHER. The usual fine weather for this time of year has prevailed, altho rather unusual rainfall has occurred with a total of 1.89 in. Travel has increased quite rapidly and for the fiscal year is some 8% ahead of last year.

MAINTENANCE. Unable to obtain logs for repair to our small kiva in the plaza of the Ruins we have been cutting them ourselves and during the month have cut a sufficient number for this job.

We removed our domestic well pump and motor for repair after it failed due to burning and shorting of field coils. For the interim we are using a rented pump and motor.

INTERPRETIVE SERVICE. There were 1640 visitors guided thru the ruins in 247 parties and 1905 visitors in 309 groups visited the museum.

MUSEUM ACTIVITIES AND EXHIBITS. Museum cases were cleaned and exhibits requiring it were treated with moth repellent chemicals. Various exhibits were rearranged for better presentation.

INCREASE IN TRAVEL. Travel this month has increased approximately 17% over June last year with 1905 visitors from 41 states, Alaska, Hawaii, Canada, Japan, Spain, Switzerland; they arrived in 5999 Cars.

RANGER SERVICE. Donald T. Rippey, temporary park ranger, entered on duty for the summer season, June 7. Mr. Rippey is a Univ. New Mexico student and GI.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
BANDELIER NATIONAL MONUMENT  
SANTA FE, NEW MEXICO

July 1, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of the activities at Bandelier Nat'l Monument for the month of June, 1948.

WEATHER

The weather was ideal here in the Monument during the month of June. Fifteen days of the month registered a maximum below 90 degrees. The other fifteen days balanced between 95 and 90.

A cloudburst on the 19th threatened to wipe our roads and trails off the map. A rainfall of .56 was measured that day at Headquarters, but was much heavier along the eastern edge of the Monument. We have enjoyed a few light showers, but, these were so light that they just kept our fire danger between moderate and high.

SPECIAL ACTIVITIES

Maintenanceman Tony Valencia made a trip to Carlsbad Caverns National Park on June 20 for the purpose of spraying DDT on trees and shrubbery there. The work done by Mr. Valencia was highly praised by the Superintendent at Carlsbad Caverns.

COOPERATIVE AGENCIES

The archaeological field school from Adams State Normal of Alamosa, Colorado moved in on the 24th and by the end of the month were well started on their summer program. The excavation of the small pueblo ruin near headquarters, L. A. 217, was started and final details for the survey of the Ramon Vigil Grant were worked out with the Atomic Energy Commission.

ROADS AND TRAILS

Except for the day of the afore-mentioned deluge on the 19th, our roads have been maintained in fairly good condition. The overhauled grader brought to the Monument this month, is being kept busy by Maintenanceman Wendland, and the only complaints we hear are mostly about the dusty condition.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
BANDOLIER NATIONAL MONUMENT  
SANTA FE, NEW MEXICO

July 1, 1948

MEMORANDUM FOR THE REGIONAL DIRECTOR, REGION THREE.

There follows a report of the activities at Bandolier National Monument for the month of June, 1948.

WEATHER

The weather was ideal here in the monument during the month of June. Fifteen days of the month registered a maximum below 90 degrees. The other fifteen days ranged between 75 and 91.

A cloudburst on the 15th threatened to wipe out roads and trails all the way. A rainfall of .50 was recorded that day at Bandolier. The rain was heavy along the eastern edge of the monument. We have enjoyed a few light showers, but there were no rain clouds here for the last few days.

STATE OF THE MONUMENT

Mr. Jameson Tony Valenzuela made a trip to Santa Fe, New Mexico, on June 10 for the purpose of applying for a license to hunt and trap. The trip was successful.

TOURIST INFORMATION

The archaeological field school from the State Museum of Alaska, Colorado, moved in on the 15th. The school is well equipped and is doing a fine job of excavating the site. The school is well equipped and is doing a fine job of excavating the site.

ROADS AND TRAILS

Except for the day of the state-organized picnic on the 15th, our roads have been maintained in fairly good condition. The only complaint from the monument staff is that the roads are mostly about the same condition.

## UTILITIES

Definite word was received from the Atomic Energy Commission at Los Alamos that they will construct a power and telephone line to within approximately 1½ miles of the headquarters area. By finishing the line we may soon have power and telephone service for which we have been hoping so long. Trouble that developed with the big generator at the end of the month only served to emphasize the need for dependable power.

## INTERPRETATION

In spite of the revised schedule of ruins trips including 6 to 7 parties a day instead of the 10 daily last year, there were 166 conducted tours through the ruins. Although the main usage of the Monument is by local people, there were 2513 people through the ruins.

Due to the shortage of personnel, the evening lecture program was not begun, and only one program was given. Some new film was obtained from the Regional Office to be incorporated with some on hand for new talks when the program gets under way.

## MUSEUM

The labels for the Seasonal Ceremonies case were received during the month and that case is now all but ready for installation. The label explaining the figures on the glass front of the Pueblo Government case was also received.

## TRAVEL

Total visitors for the month of June almost doubled that of May, and was 61% greater than the same month last year. We had a total of 5284 visitors compared to 2957 for last month. This gave us the highest single month in the history of the Monument. Most of our visitors were local, however, we note that as the days go along we are registering more out of state travelers.

## CONCESSIONS

Business of Frijoles Canyon Lodge was not as good as was expected and a total of 434 lodgings were reported. This is low in comparison with the number of visitors to the area.

Some difficulty was experienced with the oil water heaters but they have been adjusted temporarily pending the revision of the existing system.

## VISITORS

Dr. Helmut De Terra, noted geologist and Archaeologist, visited the Monument on June 23. Dr. De Terra is conducting research on early man under the auspices of the Viking Fund, and his visit to Bandelier National Monument was to secure Kodachromes for assem-

Deliberate and was considered from the inside security standpoint  
at Los Angeles that they still maintained a strong and deliberate line  
to which undoubtedly is a line of the post-war years. It  
indicated the line as they were taken from the post-war years  
the same as were taken from the years. It was a line of the years  
side the line of the years of the years of the years of the years  
between the years of the years of the years of the years of the years

REMARKS

In view of the revised schedule of public time indicated  
on 7 days, as a day instead of the 10 days last year, there were  
100 minutes taken from the years. It was a line of the years  
the same as were taken from the years. It was a line of the years  
side the line of the years of the years of the years of the years

One of the changes of personnel, the same as last year, was  
from was not taken, but only one person was taken. It was a line  
It was a line of the years of the years of the years of the years  
the same as were taken from the years. It was a line of the years

REMARKS

The change for the General Government was not taken  
during the years and that same is not all but only for public  
time. The same as were taken from the years. It was a line of the years  
the same as were taken from the years. It was a line of the years

REMARKS

bly in a Southwest Slide Film for educational use.

Mr. and Mrs. Howendobler made Bandelier the 175th. area of the National Park System that they have visited when they spent two days here during this month.

#### PERSONNEL

Seasonal Ranger Robert Morris reinforced the Protective personnel staff, entering on duty the 19th. "Bob" is an old hand for this area and we were pleased to welcome him back for this season after he had spent the winter in school at Colorado A & M.

We have been having difficulty in finding applicants for the third seasonal ranger position, after three early applicants decided to go back to school, but it is expected that the position will be filled early in July.

#### MISCELLANEOUS

The Bandelier staff was very pleased to be hosts to about 30 members of the Regional Office, their families and friends, and Chief of Information Herbert Evison, at a buffet supper and an evening of dancing and cards at Frijoles Canyon Lodge on June 12. The event was sponsored by the NPS Womens Club.

Fred W. Binnewies  
Custodian

Canyon de Chelly National Monument  
Chino, Arizona

June 25, 1948

MEMORANDUM for the Regional Director, Region three.

The following is a report on activities at Canyon de Chelly National Monument during the month of June, 1948.

Weather

Weather during June was about normal but with slightly more rainfall than usual. A maximum of 94 and a minimum of 42 degrees was registered during the month with .67 inches of rainfall. High winds and dust storms were prevalent throughout the month and were usually followed by light showers. Canyon travel was possible during the greater part of the period but is quite difficult at present.

Administration

Administrative and Fiscal matters were taken care of but heavy travel and maintenance work precluded a great deal of time in the office. One trip was made to Gallup, New Mexico on June 11-12 for supplies and equipment.

Maintenance

Installing of cabinet work and painting in the ranger quarters was practically completed. Cleanup of garages and storage hogan along with checking and repair of fire tools etc. was completed.

Repair to the soil and moisture revetment was completed at Antelope house and continued spraying of new plantings against the Cottonwood leaf-beetle was carried on.

Trails to the Spider rock area and to the White house were made and the ruin cleaned of dead twigs branches, debris, etc. Minor repairs were also made to the ruin.

Insect Infestation

Although the headquarters area which was sprayed in May shows a considerable decrease in infestation, the canyon areas are rapidly being infested and more spraying may be necessary. A swarm of insects closely resembling the squash bug moved in on Mary Farms located 17 miles north, in the last two days.

The Navajo Service is taking steps to control this by dusting and thus attempting to save the Navajo crops. If the infestation reaches the canyons, control measures will undoubtedly be taken there also.

### Travel

Although slightly below last years monthly travel, we close our Fiscal year with an increase of 343 or a little over 11 %. Travel year figures continue to show a decrease.

### Visitors

Mr. and Mrs. Frank Wentworth conducted by Dr. Jesse L. Musbaum spent several days at Canyon de Chelly, Dr Musbaum returning to Santa Fe.

Mr. and Mrs. A.W. Werner, taking pictures and getting material for National Parks Magazine, Mr. Roman Hubbell and Party. Mr. and Mrs. Ray Manly and Clay Lockett and wife of Tucson spent some time in the canyons getting photos for a feature story on Mr. Lockett.

### N.P.S. Visitors

Assistant Regional Director Davis, Mrs. Davis and Ann visited the area on June 22 and 23, leaving for Walnut canyon on the 24th. We enjoyed their visit a great deal.

### Ranger Service

Mr. Zorro A. Bradley entered on Seasonal duty as Park ranger on June 6, We were glad to see him as we needed his help.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE  
SOUTHWESTERN NATIONAL MONUMENTS

COOLIDGE, ARIZONA  
Capulin, New Mexico

June 25, 1948

MEMORANDUM for the Regional Director,  
Region Three, National Park Service  
Santa Fe, New Mexico

There follows the narrative report for Capulin Mountain  
National Monument for the month of June, 1948.

Visitors: there were three thousand visitors to the monument  
during June, exactly doubling the number of visitors of last month.  
A total of eleven thousand one hundred visitors for the travel year  
to date and thirty thousand, six hundred for the fiscal year.

Weather: Temperatures have remained low for this time of the  
year, resulting from the unusual amount of four inches of rainfall  
which was reported.

Flora and Fauna: the flowers, trees and grass are all beautiful  
from the heavy rainfall during the month.

Ranger Homer J. Farr encountered six of his pet  
deer near the Monument road yesterday.

Roads and Trails: The custodian has been rather busy during the  
month keeping the roads in good condition, because of the heavy rains.

Approach to Monument Road: On June 24 the new highway marker  
was erected at the intersection of Monument road and highway 64. The  
well made and nicely painted marker is quite an attractive addition.

Interpretive Service: On June thirteenth Homer J. Farr went on  
continuous duty as seasonal Ranger, serving in this capacity Monday  
through Friday each week, contacting the ~~XXXXXXXXXXXX~~ visitors  
~~XXXXXX~~ personally.

Homer J. Farr  
Ranger

RECEIVED

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

CASA GRANDE NATIONAL MONUMENT

COOLIDGE, ARIZONA

June 25., 1948.

MEMORANDUM for the Regional Director,  
Region Three.

There follows the narrative report for Casa Grande National Monument for June, 1948.

General: The water situation and the heat seem to be the main topics of conversation, and both promise to get much worse. The new Coolidge radio station which we reported would be in operation the first of June, still hasn't gone on the air but it should in the near future. Our fears of an acute shortage of electricity haven't been realized as yet but there is still a lot of summer left.

Weather: The weather has been getting steadily warmer with over half of the days of June over 100 degrees F. and the others had enough humidity to be uncomfortable. The maximum temperature was 107 with a high minimum of 65 and a low minimum of 51.

Visitors: June 1948 - 1944: June 1947 - 1905. Travel year to date 1948 - 32,154; Travel year to date 1947 - 29,733. This is a gain of 39 over June of last year.

Interpretive Services: Of the 1944 visitors to the area, 1,211 made the ruins trip in 156 groups, averaging 44.7 minutes per trip. 733 people were here for a quick look but did not make the ruins trip.

Administration and protection: The Adamsville site was checked for trespassing and vandalism and the warning signs still appear to be doing their job. Twelve letters requesting information were answered, including one from an amateur falconer who wanted to "quietly remove" our four young sparrow hawks from the nest in the ruins and train them, promising to give them a good home and loving care.

NPS Visitors and Visitors of Note: Regional Architect Saunders was in to check our rehabilitation work. On June 11, Mr. Erik Reed was here with a group of students from Arizona State College at Tempe taking an extended tour of Compound A, B and the Hohokam Ball Court. On June 2, 56 members of the Maricopa 4-H club, state winner at the Tucson convention visited the ruins. Devereux Butcher, of the National Parks Association visited the ruins, so Casa Grande, one of our better known Monuments may get some mention in the next edition of "Exploring our National Parks and Monuments".

• 1984 •

There follows the narrative report in two columns without comment.

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED

When this, I, some day of tomorrow will not be required, my father will  
 have it. I will be satisfied to be put in the hands of the Lord, and I will be  
 happy to be put in the hands of the Lord, and I will be happy to be put in the hands of the Lord.

[illegible]

**Maintenance:** On the night of June 16 our water pump motor burned up. Maintenance man Barnett discovered and extinguished the fire. The fire was apparently caused by the failure of the switches to operate properly. The heaters on the pump switch failed to operate and the thermal switch failed to cut out when the motor overheated. The motor had to be resound and new switches installed. Recirculator pumps were purchased and installed in all of the coolers. This should cut down our water usage considerably and should help get us through the summer, although the water dropping is due to adjacent irrigation pumps rather than the small amount we use. Mr. Barnett checked the water level and it has dropped 10 feet since March. We still have about 30 feet left to go. Three of the residence roofs were painted and the outside trim and windows on quarters 2-5 were painted. The range in quarters 2-4 was overhauled and all new parts put in.

**Mechanics Activities:** General repairs were made on the following equipment:

**Area From.**

**Equipment.**

Casa Grande Nat'l. Mon.

Ford Dump Truck  
Chevrolet Pick up  
Building and Shop Maintenance  
Painting and Repairs of Utility area  
Water pump and Sewage pump  
Oil barrel rocker stand  
Repair roof of quarters 5

**Nature Notes:** The night blooming cereus bloomed on June 14 and several blossoms were still in good condition at 9:00 the next morning, so they apparently weren't bothered too much by insects.

**Leaves Taken:** Maintenance man Barnett returned from annual leave on May 28. Mechanic Stonehooker has been on sick leave since June 23 due to a strained back.

**Trips Taken:** Mechanic Stonehooker went to Phoenix for pump parts on June 18. Custodian Bicknell went to Phoenix on June 24 for parts for the two tractors.

A.T. Bicknell,  
Custodian.

**Chaco Canyon National Monument**

**Bloomfield, New Mexico**

**June 27, 1948**

**MEMORANDUM for the Regional Director, Region Three,  
National Park Service.**

**There follows the report of activities in Chaco Canyon National  
Monument for the month of June, 1948.**

There was a total of 220 visitors to Chaco Canyon this past month. They came from the states of:- Arizona - 1 car, 2 visitors; California - 8 cars, 23 visitors; Colorado - 7 cars, 33 visitors; Florida - 1 car, 2 visitors; Indiana - 1 car, 2 visitors; Iowa - 1 car, 4 visitors; Maryland - 1 car, 3 visitors; Massachusetts - 1 car, 8 visitors; Michigan - 1 car, 2 visitors; Nebraska - 1 car, 5 visitors; New Mexico - 36 cars, 129 visitors; Ohio - 1 car, 4 visitors; Pennsylvania - 1 car, 1 visitor and Texas - 1 car, 4 visitors. These people formed 51 ruins trips with a total of 235 persons (some Boy Scouts made more than one trip), and 40 museum parties with 179 persons. The time spent with them was divided as follows:- Ranger Cram:- 40 hours, Ranger Maxson - 13 hours and 45 minutes and the custodian - 28 hours and 20 minutes.

The coolest this month was 41 degrees on the 5th and the warmest was 95 degrees Fahrenheit on the 10th of the month. There was a total precipitation of 1.10 inches.

The approach roads have remained dry for the greater part of the month. Last week, one of the new graders spent three days on the short stretch between here and Seven Lakes. We are finally getting some action. Several days ago, a transient grader came by the Monument, and it was found that it was to be here idle for 36 hours. The Trader put his own gas in it, climbed aboard and graded the road out north!

The Monument roads have been worked over by the Soil and Moisture grader and have had other work done upon them. The spillway next to the bridge is working in fine fashion. If it does not rain in the next few days, we will finish the fiscal year with the roads in good shape.

1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 26

There was a total of 100 children in the village of Krasnoyarsk. The children were divided into 10 groups of 10 children each. The children were named as follows: 1. Krasnoyarsk, 2. Krasnoyarsk, 3. Krasnoyarsk, 4. Krasnoyarsk, 5. Krasnoyarsk, 6. Krasnoyarsk, 7. Krasnoyarsk, 8. Krasnoyarsk, 9. Krasnoyarsk, 10. Krasnoyarsk.

THE UNITED STATES DEPARTMENT OF THE INTERIOR  
BUREAU OF LAND MANAGEMENT  
WASHINGTON, D. C. 20250

[illegible][illegible]

Soil and Moisture job number 882 was continued this month. Several thousand tamarisk were hauled to the mesa and placed in strategic points in an effort to retard erosion.

Some revetments were repaired with the remaining money in Soil and Moisture project 884 job 15.

The Gallup Chamber of Commerce sent the first of its sponsored tours to Chaco yesterday. The Chamber plans to send regular tours throughout the summer.

A fire training program was conducted one morning to acquaint the men with the fire extinguishers, fire tools and fire procedure and prevention. Twenty-four men attended.

Harmon E. Maxson reported for duty as temporary ranger on June 16. This is his first National Park Service experience. He is working hard and enjoying his work.

No radio contact with El Morro National Monument was made. The aerial broke, so that it was necessary to take down the towers. Before they were replaced, they were painted.

National Park Service visitors included Assistant Regional Director and Mrs. Davis, Superintendent and Mrs. Bryant, Architect and Mrs. Saunders and Dr. Jesse L. Nusbaum.

The 4000 gallon water tank, which was brought in last fall and assembled, was caulked and connected. Nevertheless, many leaks developed, but we are gradually finding them. When we first put the water in, the little Dutch boy who put his finger in the dike would have had a tough time for lack of enough fingers.

The new automatic water heater was installed and is functioning perfectly. The custodian appreciates it, but not nearly so much as the HEMP.

Dr. Paul Heiter, of the University of New Mexico, was out on the 5th and 6th to pick up some equipment from the Summer School for camps being held elsewhere.

1. The first group of people who were arrested in the early 1950s were those who were active in the Communist Party of the United States (CPUSA). They were arrested because they were considered to be a threat to the national security.

THE UNIVERSITY OF CHICAGO PRESS

The United States of America has the honor to acknowledge the receipt of the letter of the 12th of the month of June, 1900, from the Honorable Secretary of the United States Department of the Interior, in relation to the proposed extension of the boundary of the National Monument, and in reply to inform you that the same has been forwarded to the proper authorities for their consideration.

THE FIRST PART OF THE REPORT IS A SUMMARY OF THE  
WORK DONE DURING THE YEAR 1964. THE SECOND PART  
IS A SUMMARY OF THE WORK DONE DURING THE YEAR 1965.

...the whole country with its various political movements and parties. The people were so that it was necessary to take from the houses - before they were engaged, they were engaged.

THE UNIVERSITY OF CHICAGO  
CHICAGO, ILLINOIS 60637  
U.S.A.

The above information was obtained from the records of the Federal Bureau of Investigation, Department of Justice, Washington, D.C., and is being furnished to you for your information.

The new electronic order system was installed and is functioning properly. The problem we noticed in the past was mostly the result of the lack of communication between the two systems.

It is a very good idea to have a copy of this letter in your file.

There follows the report of Archaeologist Gordon Vivian.

NATIONAL PARK SERVICE

NATIONAL MONUMENT  
Chaco Canyon National Monument  
Bloomfield, New Mexico  
June 25, 1948

19

MEMORANDUM for the Custodian,  
Chaco Canyon National Monument.

There follows the narrative report of Mobile Unit activities in your area during June 1948.

Working conditions have generally remained good except that the sand storms are a little thicker than usual at this time of year. One half day was lost to rain. The squaw dance season is with us again and as was expected a few of the crew have never returned from the first one. The Navajo Police are doing a fine job this year in policing these often drunken brawls and as a result of their good efforts our best truck driver is spending 15 days in the Fort Defiance jail.

All of the bids put out for cement were refused but we have been able to beg enough on the open market to keep the concrete work going. Four trips have been made out to Gallup and Durango for cement and freight. Another trip was made to Farmington to tow the Chevrolet dump truck in for clutch and transmission repairs. An additional four trips were made to the San Juan for sand and gravel and two loads of poles for the revetment east of Chetro Kettle were hauled from Otis.

Raymond Rixey took five days annual leave, May 28th to June 4th. I took one day on the 16th.

The major project of last month, the repair of the north half of Kiva G, was completed during the first week of the report period.

The remainder of this month at Chetro Kettle was spent in the central area of flood damage -- where the water entered the ruin through rooms 45 and 46.

The overhanging and broken sections of the long south walls of 36 and 37, the walls which retain all of the fill against the north half of kivas G and H, were taken down and rebuilt with reinforced horizontal members. Forty two man days were expended here.

The north exterior wall of the ruin where it was reduced below ground level was cleaned up, shattered sections removed and the central part of the break relaid to a level just above the present outside surface. Partition walls of rooms 44, 45, 46 were brought up to buttress the repaired section.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

NATIONAL MONUMENT  
Zaco Canyon National Monument  
Alamogordo, New Mexico  
June 22, 1948

MEMORANDUM for the Custodian,  
Zaco Canyon National Monument.

There follows the narrative report of Mobile Unit activities in  
your area during June 1948.

Working conditions have generally remained good except that the sand  
storms are a little thicker than usual at this time of year. The half day  
was lost to rain. The sparrow hawk season is well on again and as was  
expected a few of the crew have never returned from the first one. The  
Navajo police are doing a fine job this year in helping these often  
stranded travelers and as a result of their good efforts our best driver  
is spending 15 days in the Fort Belknap jail.

All of the ideas put out for comment were refused but we have been able  
to get enough on the open market to keep the concrete work going. Four  
trips have been made out to Gallup and Navajo for cement and gravel.  
Another trip was made to Farmington to buy the Chevrolet truck in  
for cash and transmission repairs. An additional four trips were made to  
the San Juan for sand and gravel and two loads of poles for the replacement  
east of Chetro Kettle were hauled from Olla.

Raymond Hines took five days annual leave, May 25th to June 1st.  
Look one day on the 10th.

The major project of last month, the repair of the north half of five  
A, was completed during the first week of the report period.

The remainder of this month at Chetro Kettle was spent in the removal  
area of flood damage -- where the water entered the ruin through rooms  
A2 and A4.

The overhanging and broken sections of the four south walls of A2 and  
A3, the walls which retain all of the fill against the north half of five  
A and B, were taken down and rebuilt with reinforced horizontal members.  
Forty two man days were expended here.

The north exterior wall of the ruin where it was reduced below ground  
level was cleaned up, shattered sections removed and the central part of the  
breach raised to a level just above the ground outside entrance. Twelve  
walls of rooms A4, A5, A6 were brought up to surface the reported section.

All retaining walls and buttress sections are laid in reinforced concrete mortar; those which will receive less thrust, in soil-bitumen.

In this immediate area there still remain to be laid support sections for the ends of the two and a half story exterior wall, room 46.

#### FLOOD CONTROL::

The Soil and Moisture job # 16 is being brought to completion. The diversion channel and revetment east of Chettro Kettle, reported some 50 percent complete last month was finished, with an enlarged crew, toward the middle of the month.

The total cut made for the diversion channel was 500 feet in length. It is 19 feet in width with a maximum cut of 2.7 feet. Average cross sectional area is 43.7 square feet.

The rock and wire revetment on the west side of the channel is 260 feet long with a double row of posts every 4 feet. Rock fill between the posts is 3.3 feet wide and total depth of the rock filled basket 4 feet with an average of two thirds of the basket below the channel bottom.

The low area north east of Chettro Kettle where water ponded during the flood was drained with a channel 243 feet in length to empty into the new cut on the east. Most of the material from this work was hauled some 200 feet westward to fill the lowest area of the pond and to build an earth dike between Chettro Kettle and the cliff at the north east corner of the ruin. The dike is completed and is being covered now with rock filled rubble to prevent it from blowing.

Gordon Vivian

**CHIRICAHUA NATIONAL MONUMENT**

**Dos Cabezas, Arizona**

**June 26, 1948**

**MEMORANDUM for the Regional Director, Region Three.**

There follows a report of activities at Chiricahua for June.

Weather Conditions. Weather continues to be dry and windy. .01 inch of rain was recorded on the 8 th. accompanied by our first large scale lightning storm.

Inspections. Forester Ratcliff spent the 25th and 26th of May at Chiricahua inspecting fire fighting equipment.

Maintenance. In addition to our current general maintenance, our 3 KW light plant was overhauled by Operator Marble: the second time in six months. Approach road signs were repainted, several moved, and some replaced. Approximately ten man days were spent on the telephone line, changing the section from Headquarters to Paradise through the heavy timber from a metallic to a grounded line. It is hoped that this experiment will give us good service and prevent the line going out every time a limb or tree falls on it. A new telephone was received and installed in Ranger Ringenbach residence.

Approach Roads. The work on the approach road from Douglas off Highway 666 is progressing rapidly and should officially be opened the latter part of July. Gravel and oil have been laid to a point about 5 miles from the monument boundary, two thirds of which has been totally completed by seal coat and dust palliative. Other entrance roads remain in poor condition, dusty and rough.

Interpretive Service. Thirty three members of the Workshop Group of New Mexico were given a conducted tour of two hour duration on the 15th.

Travel. Travel fell slightly below that of June of 1947 but increased over that of last month. 1,371 visitors overlooked the poor approach roads to enter Chiricahua, 1,190 of whom were given interpretive service.

Forest Fire Protection. 3,000 acres of grassland and chaparral were destroyed by fire on May 27 on Forest Service land located some thirty miles east of the monument boundary. Terrific high winds made control difficult and an estimated 250 fire fighters were employed.

~~El Morro~~ NATIONAL MONUMENT

~~Ramah, New Mexico~~

~~July 26,~~ 19~~48~~

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities in El Morro National Monument for the month of June, 1948.

WEATHER: The unusual amount of precipitation, 2.96 inches, has brought out an abundance of green grass and flowers and the whole country looks like it normally does in mid-July. Maximum temperature reached 89 degrees and the minimum dropped to a near freezing of 34 degrees.

TRAVEL: For the fiscal year of 1948 there is shown a decrease in travel of 13% and also a decrease of 30% for the travel year to-date. These decreases can be attributed to the very heavy snows which made our roads impassable to most tourists during four months of winter. This month's travel show an increase of two visitors over the same period last year. During the report period, from 21 states and two foreign countries came 361 visitors in 113 cars. The tour of the inscriptions was made 350 people and 11 people came for information only

APPROACH ROADS: Both roads were graded by county and state graders and are in, what we term, excellent condition, although the tourist doesn't agree with us. Line and grade stakes are coming up like asparagus between Ramah and the Ice Caves, but there is no definite dope on when or how much construction will be done this summer.

NPS Visitors: On May 31st. John & Ruth Aubuchan with their daughter and son-in-law arrived and made a flying tour of the inscriptions. We hope next time they come they will have a little more time. Kenney & Elsie Saunders arrived shortly after John & Ruth's departure and I prolonged the inspection of the Rehabilitation project so ~~that~~ we had them trapped for lunch. On June 21st. Mr. & Mrs. John Davis and daughter Ann arrived and spent the night, but after the rough treatment they ~~had~~ received I don't think they will ever want to return. Mr. Davis suffered a wrenched back, painful insect bites and all spent a sleepless night getting in and out of the rain. We are sorry all this had to happen at El Morro and promise to hide all wheelbarrows, DDT the whole area, and have the weatherman on the ball next time.

GRAN QUIVIRA

GRAN QUIVIRA, NEW MEXICO

JUNE 25

48

MEMORANDUM for the Regional Director, Region Three.

The following is a report of activities at Gran Quivira for the month of June, 1948.

General. Rains during late May revived the farmers' hopes for a bumper bean crop. Beans in the vicinity are up and look good. Heavy winds on June 21 "sanded out" several hundred acres around Claunch, and did some damage in this area.

Weather Conditions. Favorable. Rain for the period totalled 1.50 inches. A maximum of 94° was recorded on June 16 and 17; a minimum of 39° on May 27.

Special Activities. The custodian was in the Regional Office June 8 & 9 discussing Monument business. War Assets plumbing fixtures were picked up at Bruns.

On June 14 & 15 we visited Carlsbad Caverns National Park.

June 20 to 22 to Big Bend National Park on a fire call.

Maintenance. On May 26-28 a plasterer from Mountainair replastered the living room. It was necessary to remove the plaster down to the scratch coat, as the previous finish coat applied when the house was built, was too soft to hold a refinish.

On June 18 the pin which holds the intake valve on the deep-well pump broke. This allowed the valve to go inside the cylinder where the piston promptly made a pretzel out of it. On June 19th the custodian spent the day canvassing Albuquerque for new parts, but with no luck as Corbers who formerly handled Witte engines gave up the agency in 1941. An order was forwarded to the factory in Kansas City, but no reply as yet.

On June 14 Ranger Steel, White Sands, delivered the old White Sands contact station to Gran Quivira. This will be converted to a storage shed as soon as possible, and should alleviate some of the present congestion.

GENERAL

1. On June 14, 1948, the following is a report of activities for the month of June, 1948.

2. The following is a report of activities for the month of June, 1948.

3. On June 14, 1948, the following is a report of activities for the month of June, 1948.

4. On June 14, 1948, the following is a report of activities for the month of June, 1948.

5. On June 14, 1948, the following is a report of activities for the month of June, 1948.

6. On June 14, 1948, the following is a report of activities for the month of June, 1948.

7. On June 14, 1948, the following is a report of activities for the month of June, 1948.

8. On June 14, 1948, the following is a report of activities for the month of June, 1948.

9. On June 14, 1948, the following is a report of activities for the month of June, 1948.

10. On June 14, 1948, the following is a report of activities for the month of June, 1948.

The same rains that brought the beans up have greatly encouraged the weeds in the Mission, necessitating another burning this month.

Repair and Rehabilitation. Not much was accomplished on repairing the old custodian's residence due to lack of funds and difficulty in securing a plumber. Plumbing rough-in should, however, be completed this week.

Approaches to Monument. Maybe election year has no bearing but the road to Mountainair was graded twice this month. The Carrizozo approach has not been worked but is in fair shape.

Interpretive Service. 51 parties totalling 186 people were guided through the ruins. Average trip time 44 minutes.

Increase or Decrease in Travel. There was a noticeable increase in cars entering the Monument this month as compared to last year; however, they brought only 5 more people. Travel for the year remains below that of last year.

	<u>CARS</u>	<u>VISITORS</u>

Visitors. Joe & Betty Toulouse on June 20

Forest Fire Protection. A trip to Big Bend on June 20-22. The fire was OK when we arrived.

Building Fire Protection. Fire extinguishers were recharged this month and enough more ordered to adequately protect the buildings.

William L. Bowen,  
Custodian.

The same value that brought the house up here is being maintained the week in the season, necessitating another further sale week.

Repair and Rehabilitation. But much was accomplished on repairing the old building's condition due to lack of funds and difficulty in securing a plumber. It is being rough-in now, however, he completed this week.

Approached to Payment. Maybe election year has no bearing on the trend to bookkeeping was raised twice this month. The previous approach has not been raised but is in fair shape.

Administrative Services. 31 parties totaling 127 people were invited through the mail. Average call time 45 minutes.

Insurance or otherwise is in hand. There was a noticeable increase in one existing the amount this month as compared to last year; however, they brought only 5 more people. I will let the year continue below that of last year.

Visitors. Joe a Betty Louisa on June 20

Interest rate fluctuations. A trip to the bank on June 20-22. The rate was as when we arrived.

Political fire. The situation was not as bad as it seemed and enough more ordered to help prevent the situation.

William L. Brown,  
President.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE  
GREAT SAND DUNES NATIONAL MONUMENT  
MOSCOW, COLORADO

June 27, 1948

MEMORANDUM for the Regional Director,  
Region Three.

There follows the report of activities in Great Sand Dunes National Monument for June, 1948.

WEATHER. Still remains most unusual for this report period. The grass has finally turned green and all vegetation is thriving with the excessive amount of moisture. The San Luis Valley is still flooded with water, but the flood tension has lessened since the Rio Grande River is lower and within its banks.

The Medano continues to run at its high clip and out-of-state visitors think a bridge should be constructed to allow them to reach the sand dunes with dry feet. However, they are most enthusiastic about the area and the fun they had when they went wading, and come back to headquarters to wash off the accumulation of sand between their toes.

A minimum of 34 degrees was registered on June 30. The maximum of 85 degrees was reached on June 6 and 16. The high minimum was 58 degrees on June 17. The low maximum was 46 on June 19, when a severe hail storm struck and dropped the mercury from 76 to 46 in less than an hour.

Snow fell on June 22, melting immediately at headquarters, but recovering the Sangre de Cristo Range. Rain fell on May 31, June 2, 7, 11, 19 and 22; hail storms on May 31 and June 19.

There were 9 partly cloudy days, 8 cloudy days and 14 clear days. The wind blew very strong on 9 days.

Too much water is as bad as not enough and we will exchange Colorado rain for Arizona sunshine, (At present).

TRAVEL. One thousand nine hundred fifty-six visitors in four hundred seventy-six cars visited the Sand Dunes during this report period. Thirty states and the District of Columbia were represented. Eight hundred twenty-six people took advantage of our picnic areas and of these, ninety-one people camped over night.

TRAVEL FOR THE FISCAL YEAR. Figures for this fiscal year are much higher than anticipated. 1948: Cars, 3,943; Visitors, 15,989; Visitor days, 24,400. 1947: Cars, 2,496; Visitors, 10,790; Visitor days, 12,831.

[illegible]

DECREASE IN TRAVEL. There is a decrease of twenty-seven visitors in comparison with this report period of a year ago. For June, 1947, there were 427 cars and 1983 visitors. This reduction in visitors was due entirely to the poor condition of the approach roads.

CONTACT. Contact was carried on during week days as work permitted and also on Sundays, as has been the custom.

Three hundred fifty-seven cars were contacted, with a total of one thousand five hundred five visitors. An average time of ten minutes was spent with each contact, amounting to fifty-nine hours and thirty minutes.

ROADS. The approach road was last graded on May 28. The machine broke down and has been ever since in the shop awaiting repairs. Hence the road is, like last year, in very poor condition. The dry sections are full of chuck-holes and the wet sections have bogged down many a car.

One mud hole turned back many visitors, who later returned to the Sand Dunes via the Blanco road. This is rough but passable.

One irrate visitor from Tennessee stormed into the Alamosa Chamber of Commerce and aired his views on the monument approach road. Mr. Wilbur Foshay wrote of this incident in a letter to me and requested a weekly report on the road condition. This will be done, but how much easier for everyone if the road were repaired and kept at least in fair condition.

The monument road from the entrance sign to headquarters was dragged with the rail-section drag and visitors have commented that the road is good. However, the road to the lower picnic area is in its usual poor condition. A load of gravel was hauled to a bad sandy spot in this area.

Weather has little affect upon our travel, but we know by the number of cars coming in the morning, just how conditions are on the approach road.

WE'RE LUCKY. From an article in the Rocky Mountain News, dated Alamosa, May 25. "A search was launched today for an insane man who tried to parachute over sand dunes near here while on a flight with pilot Norman Kramer. Kramer said the passenger paid a fare from here to Denver Sunday and sat with the pilot. While in mid-air the man attempted to parachute over the sand dunes, Kramer said. He kept his passenger aboard until reaching Pueblo where he made an emergency landing. Police believe the unidentified passenger was an insane man who escaped from Monte Vista."

NEWSWORTHY VISITORS. The Monte Vista Girl Scout Troop of thirty, out for a picnic on May 27. The University of Kansas, Geology Class on field trip with forty members, who camped over night.

There is a balance of approximately \$100.00 in the account of the company. The balance is as follows:

For information, please refer to the following information: Information  
on the subject of the above mentioned information, please refer to the following information: Information

Three hundred fifty-seven cars were contacted, with a total of one thousand five hundred five visitors. An average of one visitor per car was obtained, according to fifty-nine cars.

1. The research was first published on May 12, 1964. The results were  
shown and have been set forth in the accompanying report. I want to point  
out that this report is very much preliminary. The data are preliminary and will be  
published in the near future. I am sure that the results will be of great  
value to the community.

One was told that some of the men who were in the  
 "Cave" were the same men who were in the "Cave".

On this matter, the Government has been very cooperative and has been very helpful in the investigation of this case. The Government has been very cooperative and has been very helpful in the investigation of this case. The Government has been very cooperative and has been very helpful in the investigation of this case.

1. The purpose of this report is to provide information on the results of the study conducted by the Department of the Interior, Bureau of Land Management, in the area of the proposed project.

...the ... ..  
... ..  
... ..  
... ..  
... ..  
... ..  
... ..  
... ..

[illegible]

COMPLAINTS. Many verbal complaints about road conditions and indirect complaint from visitor to the Alamosa Chamber of Commerce.

Few complaints on lack of public restrooms at headquarters from May 26 to June 7.

WILDLIFE. The tick season seems to be slackening. However, the gnats and mosquitos are steadily increasing. Most wild-life remains under cover. The first Western Tanager ever observed at this area, showed up the morning of June 23.

CORRECT FACTS. A short piece in True Magazine under Truly Yours, sets the facts straight about Michigan's sand dunes and Colorado's sand dunes. Figures supplied by the Washington Office. Oh yes, White Sands is mentioned too.

ARTICLES. Pictures and articles on Great Sand Dunes appeared in the Rotogravure of the following papers: Milwaukee Journal, Cleveland Plain Dealer, Minneapolis Tribune, Philadelphia Inquirer and the Denver Post.

PUBLICATIONS. The Colorado W.P.A. Guide books were received after being on order for nearly seven months. Eighty copies of Poisonous Dwellers of the Desert were returned to the SWNM Association as they were not selling here, and it was understood other areas were sold out.

BIDS. The Monte Vista Heating Company received the bid to supply this area with an automatic hot water heater. It has not yet been delivered.

Since "There is no hope for the satisfied man", this custodian hopes someday to have an unfreezable water line and the HCWP speaks up for a propane stove. Then Life would be Beautiful!

Bids were sent to twelve prospective bidders in the San Luis Valley for sale of the Dodge 2x4 pickup. Glenn Curtis Chevrolet Co., of Monte Vista was the successful bidder with a price of \$527.75. He will probably take possession of the car early in July.

ACTIVITIES. Usual routine duties, including hauling of gasoline, wood, ashes, garbage, and etc. Office matters were kept current.

Weekly check-up made on both light plants. Weekly clean-up of both picnic areas is usually a major day's job, especially when visitors play with the 55 gallon barrels which serve for garbage and debris. One barrel was rolled out into the Medano and "stuff and things" were scattered to---- and gone.

The office windows and doors were painted on the interior.

CONFIDENTIAL. This report contains information that is confidential and should not be released to the public without the approval of the Director of the FBI.

The following is a list of the names of the persons who were interviewed on June 1, 1964.

**INTERVIEW.** The first interview was conducted on June 1, 1964, at the home of the subject. The subject was interviewed by Special Agent in Charge [Name] and Special Agent [Name]. The interview was conducted in the subject's home at [Address].

**CONDUCT OF.** A search of the files of the FBI in the New York City office revealed that the subject had been interviewed on June 1, 1964, at the home of the subject. The interview was conducted by Special Agent in Charge [Name] and Special Agent [Name].

**RESULTS.** The results of the interview are as follows: The subject was interviewed on June 1, 1964, at the home of the subject. The interview was conducted by Special Agent in Charge [Name] and Special Agent [Name]. The subject was interviewed in the subject's home at [Address].

**DISCUSSION.** The subject was interviewed on June 1, 1964, at the home of the subject. The interview was conducted by Special Agent in Charge [Name] and Special Agent [Name]. The subject was interviewed in the subject's home at [Address].

**REMARKS.** The subject was interviewed on June 1, 1964, at the home of the subject. The interview was conducted by Special Agent in Charge [Name] and Special Agent [Name]. The subject was interviewed in the subject's home at [Address].

**CONCLUSION.** The subject was interviewed on June 1, 1964, at the home of the subject. The interview was conducted by Special Agent in Charge [Name] and Special Agent [Name]. The subject was interviewed in the subject's home at [Address].

**RECOMMENDATION.** The subject was interviewed on June 1, 1964, at the home of the subject. The interview was conducted by Special Agent in Charge [Name] and Special Agent [Name]. The subject was interviewed in the subject's home at [Address].

**REFERENCE.** The subject was interviewed on June 1, 1964, at the home of the subject. The interview was conducted by Special Agent in Charge [Name] and Special Agent [Name]. The subject was interviewed in the subject's home at [Address].

**APPENDIX.** The subject was interviewed on June 1, 1964, at the home of the subject. The interview was conducted by Special Agent in Charge [Name] and Special Agent [Name]. The subject was interviewed in the subject's home at [Address].

The above information was obtained from the files of the FBI.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

Several days were spent on road work and painting signs to be placed along road and at picnic areas.

The toilets were installed in the public rest-rooms at headquarters on June 7. The next day was spent in working over the childish plumbing job on the hand bowls. The installation of the toilets, incidentally, was a major job because of the enormous amount of lead that had been used on the stands of the previous bowls. This had to be chisled out carefully.

The storage barrel for the fuel oil for the furnace was placed in the light plant room and hook-up was completed with half inch copper tubing. Furnace was tested and functioned o.k.

The walls of the two bedrooms in the residence received a coat of paint which covered the damage done to walls in the installation of the furnace. The front hall was also painted.

Floors in both bedrooms were painted a tile green which is a decided improvement over "rest-room" gray.

A trip was made to Monte Vista for the extra parts of furnace, such as grates, etc. In case of fuel oil shortage, the furnace can be changed over to coal.

The oil stove in the office was cleaned and repaired after it ceased to function properly.

The settling tank on the water supply system was cleaned again and less sand is caught in the kitchen sink filtering device.

Cleaned and rearranged tool storage shed. The hail storms damaged the paper roof on this shed and it was given a coat of Zone roofing compound.

A coating of Zone was put around the chimneys of the office building in an attempt to stop leaks in the ceiling which occur after heavy rains.

The generator on the Dodge pickup was successfully repaired. This was a lucky break, as there are no longer any such parts on the market.

PROJECTS FOR THE ENSUING MONTH. Continue painting interior of residence as time permits, touch-up painting on exterior woodwork of residence, more road work and continue to contact visitors on Sundays and during week as work and time permits.

Ted C. Sowers,  
Custodian.

Several days were spent in work and building plans to be placed along road and to plant trees.

The following were included in the building work: a new house at the corner of the road and in building over the old building on the road. The building of the house, including the new house, was in the corner of the road and in building over the old building on the road. This had to be done and completed.

The bridge across the river at the corner of the road was built in the spring of 1941 and was completed in the fall of 1941. The bridge was built and completed in the fall of 1941.

The walls of the two buildings in the residence were built in the spring of 1941 and were completed in the fall of 1941. The walls were built and completed in the fall of 1941.

There is a new building at the corner of the road in the spring of 1941 and was completed in the fall of 1941.

A trip was made to the corner of the road in the spring of 1941 and was completed in the fall of 1941. The trip was made and completed in the fall of 1941.

The old house in the corner of the road was built in the spring of 1941 and was completed in the fall of 1941. The house was built and completed in the fall of 1941.

The building in the corner of the road was built in the spring of 1941 and was completed in the fall of 1941. The building was built and completed in the fall of 1941.

Secretary.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Montezuma Castle National Monument  
Camp Verde, Arizona

June 24, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows the monthly report of activities at Montezuma Castle National Monument for the month of June, 1948.

Visitors this month to Castle and Well - 3021. This travel year to date - 16,345.

Administration During the fiscal year we have had 20,437 visitors to Montezuma Castle with 7680 through the Castle. From them we collected \$1883.75 in fees and taxes. These figures do not include visitors to Montezuma Well. Travel for the fiscal year is more than 10 per cent above the figure for last year.

Beginning on May 27 and continuing through June 9 we were obliged to discontinue offering a guided trip at 8:00 A. M. Since June 10 with the help of our temporary ranger, we have been able to offer 9 hours of guide service each day including the noon hour and 5:00 to 6:00 P. M.

Ranger Leding was the only employee on duty May 31 which brought more travel than Decoration Day. Numerous visitors turned away disappointed when they could not wait their turn to climb in our parties of 9 visitors per hour.

On June 3 we got an emergency call to send fire fighting equipment to Camp Verde where Barkers store and filling station were being destroyed by fire. Later the same day Mrs. Hastings took some equipment to Camp Verde in our personal car to help suppress a brush fire.

Total book sales for the quarter amounted to \$362.60. Total cash collected from these sales amounted to \$340.90. Our nature trail booklet has been selling for 5¢. We tell visitors that the booklet is to be used as their guide on the nature trail. They may borrow it or if they wish to take it home, we ask a nickel to cover the cost of printing. Nearly everyone who uses the booklet pays for it.

Personnel Ranger Leding was on sick leave June 3.

Donald P. Jewell, a Navy veteran, reported for duty as temporary ranger June 8. He is a senior student at Arizona State College, Tempe and has had considerable archaeological experience. He quickly learned our routine and has since spent most of his time on visitor contact.

Repairs and Construction On May 20 E. G. Broughton, Cottonwood contractor,

started repair of the roof of the custodian's residence. The old roof and its 15 tons of earth insulation was removed and replaced with treated wood fiber insulation covered with a built-up roof. Work was completed May 26.

On June 1 two Indians were hired to continue roads and trails maintenance. They worked five days at the Castle and one day at the Well but lacked a few days to complete the work undertaken. Mechanical failures of both pick-ups hampered this work.

Fence at the picnic ground was repaired and the chain used at our gate was repainted.

Visitors There were 2387 visitors in 740 cars to Montezuma Castle and 634 visitors in 184 cars to Montezuma Well. The count at Montezuma Well represents 17½ days of contact. Tickets sold at the Castle 760; tax but no tickets, 86; children who climbed free, 93; waiver, 1.

Contacts Total contact hours, 241.50. Hastings, 80.50; Leding, 89.00; Schroeder, 7.00; Jewell, 65.00. One hundred and ninety-five trips were made through the Castle for 960 visitors and 984 visitors were counted in the museum in 173 groups. Visitors who received information outside the ruins or museum totaled 1163.

Publicity An article by Kenneth Cornish featuring Montezuma Castle appeared in the Arizona Times for May 20.

Montezuma's Wonderful Waters was the subject of an article on Montezuma Well by Nat McKelvey in the Ford Times for July, 1948. This article was accompanied by an exceptionally good picture of the Well.

On June 19 the Hastings and Leding families attended a picnic at Flagstaff sponsored by the Museum of Northern Arizona.

On June 1 McKenzie Ward and Harry Peterson took pictures of the Castle as part of a series sponsored by the Phelps Dodge Corporation for the Bureau of Mines.

Custodian and Mrs. Hastings and Ranger and Mrs. Leding participated in an excursion from Clarkdale to Drake and back via Santa Fe Railroad in honor of Howard Pyle, program director of radio station KTAR, Phoenix. Upon their return to Clarkdale all those who had gone on the excursion were interviewed for a wire recording broadcast over Station KTAR on June 23.

National Park Service Visitors Custodian Jackson and family visited this monument and friends in the Verde Valley May 12 to 26th.

Architect Saunders checked our roof repair job on May 28.

Administration Daily duty was maintained except for lieu days and as follows: May 24 at Castle; June 12, trip to Cottonwood in A. M. June 21 at Castle.

A supply of printed Montezuma Well Trail Pamphlets and Montezuma Well and Castle postcards were received, and sales were inaugurated June 4.

A register book was started June 3 on the first anniversary of taking up daily duty at the Well.

Museum In the course of the month the frame and back for the museum exhibit and storage space were constructed, monks cloth was tacked on for background, and two case titles were cut out. A portion of the exhibit on the geology of the Well has been installed, and it is planned to complete this panel and others next month.

A register and pamphlet stand was constructed and set up by the museum building for use on lieu days, and three additional signs were carved and set up to aid visitors, particularly on lieu days.

Publicity A well written and accurate article on the Well appeared in the June 3 issue of the Verde Independent newspaper covering the Museum of Northern Arizona-sponsored diving project. This article has had its effect in increased travel as is gathered from conversations with visitors.

Research Mr. A. G. Healey (sp?) of the U.S.C. & G. S., who was gauging the flow of Beaver Creek, was approached by Ranger Leding at the Castle with the idea of checking the flow at the outlet of the Well. (The figures have been received and are shown as 1,500,000 gallons per day which may be compared with the 1,565,000 gallons per day determined by a representative of the Salt River Valley Water User's Association in June, 1947.)

One visitor this month remarked that when he had visited the Well in the 1890's, the outlet cave had a complete wall with only one small doorway across the entire opening. Others in the past have made similar remarks, and Mr. Bramm, editor of the Verde Independent, who is interested in the archaeology of the area, inserted a smallbox in the June 27 issue paging old timers in this connection. I had passed this information on to him not expecting to see it in print.

Homer F. Hastings,  
Custodian.

ADDITIONAL: Only two are retained except for their own use in  
the 1950s. The 1950s are retained in 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 262

MEMORANDUM for the Regional Director, Region Three:

The following is a narrative report for Natural Bridges National Monument for the month of June, 1948:

GENERAL: One of the most interesting and outstanding landmarks in Southeastern Utah, "The Goblet or Venus", situated on the approach road to Natural Bridges National Monument, fell on June 17th or 18th and is now nothing but a mass of rubble. Ranger Rodd investigated and stated that a pine pole was found among the rubble making it look like some visitor had tried to climb to the top of the goblet.

TRAVEL: Travel to this area practically quadrupled that for the same month last year, with 428 visitors as compared 120 visitors for June, 1947. The out-of-state travel is increasing rapidly and many of the visitors came by way of Hite, Utah, now that the new ferry over the Colorado River is in operation.

INTERPRETIVE SERVICES: Of the 428 visitors 361 were contacted at headquarters and received information regarding the trails, etc. Sixty seven people visited during the absence of the ranger. Two trips were taken to the various bridges with a total of 6 people. Two contacts were made with 3 people at Blanding, Utah. The campground was used by a total of 33 people for an overnight stop.

WEATHER: The weather was ideal practically all month. Warm days but the nights were cool. Heavy rains fell on June 21st and 20th which slowed travel down for that period.

TRAILS: It has been impossible to hire a laborer on trail maintenance and Ranger Rodd has found little time accomplish any of this work due to heavy travel. The trails are still passable and few complaints have been received.

ROADS: The approach road to the monument was in excellent shape during most of the month. The rains of June 20th and 21st caused some damage but the State maintenance crew have again put it in shape.

ACQUISITIONS: A 500 gallon water tank was received from Hupatki National Monument for a water supply. This will replace the two 15 gallon logs which have been used for the last several years.

TOMALEA, ARIZONA

June 25, 1948

MEMORANDUM for the Regional Director, Region Three

There follows the narrative report of activities in this area for the month of June 1948.

WEATHER: Generally, the weather has been more like July than the usual dry June. Maximum temperature was 89 degrees on the 10th. Minimum temperature was 36 on the 22nd. Precipitation totaled 1.07 including .64 on the 2nd. Thunderstorms were recorded on the 11th and 21st, hail on the 22nd.

APPROACH ROADS: All approach roads suffered storm damage from .64 inches of rain on the 2nd. The U.S. Indian Service road patrol came in on the 22nd. We dragged out the high centers on the 23rd and 24th. Roads at this time are in better than average condition.

VISITORS: 115 visitors arrived in 60 automobiles and 3 motorcycles.

N.P.S. Visitors: Former Custodian Bill Wilson and Kathryn visited the area on the 1st to 3rd.

Archaeologist Charlie Steen visited this area on the 22nd and made a survey at Inscription House on the 24th and 25th.

NATURALIST ACTIVITY: 162 visitors received Museum and Orientation service.

79 visitors were guided to Sandal Trail in 16 parties.

62 visitors were guided to Betatakin in 8 parties.

46 visitors were guided to Keet Seel in 3 parties.

Three campfire talks were given by the Custodian. The Custodian also arranged to have 11 Navajos sing at the Campfire meeting of 42 members of the Sierra Club. Songs from the Entah (Squaw Dance) were sung for more than an hour.

The largest horseback party ever to visit Keet Seel was outfitted by our Navajo neighbors. 41 members of the Southern group of the Sierra Club rode to Keet Seel on the 21st. With guides and wranglers the party totaled 45 people, all mounted.

On the 22nd, 21 of the above group rode to Scaffold House while 17 hiked to that fine site.

On the 23rd this party departed for Inscription House enroute to Rainbow Bridge. Archaeologist Steen reported a clean area there, with no vandalism apparent. Charlie also picked up a key case and left it at Inscription House Lodge.

**WORK PROGRESS:** Our attention this month has been concentrated on repairing the storm damage to our roads and trails and to resurfacing the switch-back trail descending from Segi Point. Many hours with pick and shovel and much dragging has been required to put these roads and trails into their above advertised condition.

**PUBLICITY:** The May 1948 issue of Desert Magazine carried a complimentary article entitled "Trail to Inscription House" by Honey Richardson.

Custodian Givens of Joshua Tree National Monument very kindly furnished this area a copy of Desert Spotlight. An article describing Betatakin occurred in this June issue.

General

Nothing at the monument has particularly changed the last month. The weather has been very good through the summer. The weather is good at this time of year. The weather through the last month has been very good. The weather is good at this time of year. The weather through the last month has been very good. The weather is good at this time of year.

~~ORGAN PIPE CACTUS~~ NATIONAL MONUMENT

P. O. Box 38, Ajo, Arizona

June 25, 1948.

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities for Organ Pipe Cactus National Monument for the month of June, 1948.

Weather

Summer heat has restrained itself thus far to comfortably warm temperatures most of the month with the maximum readings of the thermometer mostly in the nineties. The maximum reached 103 on June 16, though, and the minimum fell to 48 on June 3. The warmest night to date was marked by the minimum of 66 on June 9. Clear skies and no moisture prevailed.

Travel

Visitation to the monument has practically stopped for the summer but international travel through the monument is ahead of that for last year. 7292 passed through the immigration station at the south end of the monument in June 1947 while 8127 passed through in the same period this year. 75043 visitors this travel year is the record to date.

General

Forester Ratcliff visited the monument from May 31 to June 4 on grazing survey and permittee problems.

Survey of the range conditions east of the Ajo Mountains was made in the area on Indian permit.

Work on the Quonset Hut quarters took nearly all the time this month.

Assistance was given Charles E. Shaw of the San Diego Zoo and in return a complete file of reptile pamphlets covering the reptiles of this section was received for the monument library (11 pamphlets).

A dead deer was found near edge of the highway. It had evidently been hit by a car.

Personnel

One day each sick leave was taken by Ranger Bean and Maintenance-man Guinn because of severe colds.

Organ Pipe Cactus N. M.

William R. Supernaugh,  
Custodian.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Saguaro National Monument  
Tucson, Arizona

June 26, 1948.

MEMORANDUM for the Regional Director,  
Region Three.

Submitted herewith is the monthly report of activities at Saguaro National Monument, for June 1948.

General

The mild temperatures of May were supplanted by higher temperatures during June, on several occasions the temperature at headquarters reached a maximum of 106 degrees. However, during the latter part of the month, high winds have been an influencing factor in bringing more moderate temperatures. On June 6, some .12 of an inch of precipitation was recorded in the forested area on the Rincons, while at headquarters it was estimated at .05 of an inch.

Travel to the monument during June has been greater than anticipated, we are averaging about eleven cars a day, with a good percentage from out of state.

The approach road from Vail Junction was graded during the month, it is much improved at this writing and several visitors have commented on its smoothness.

Special Activities

Mr. Kenneth M. Saunders, Region Three Office, made an inspection of the recently repaired roofs at Madrona Ranger Station and headquarters.

On June 4, the custodian made a trip to the Papago Indian Agency at Sells, to confer with the superintendent, regarding the recruitment of Indians for fire suppression activities.

The custodian spent the period June 11 to June 13 in the forested area, inspecting trails and facilities.

Maintenance

The Tucson Roofing and Supply Company have completed repairs on the various roofs, including the porch roof at headquarters.

New directional signs were fabricated and placed at all intersections, on both the Broadway approach and Vail Roads. We feel that much less difficulty will be experienced by visitors to the monument, with this added convenience.

General Management  
Washington, D.C.

June 15, 1945

MEMORANDUM FOR THE DEPARTMENT OF THE INTERIOR  
June 15, 1945

Submitted herewith is the monthly report of activities at Mammoth National Monument, for June 1945.

General

The mild temperatures of May were replaced by higher temperatures during June, and several occurrences of high winds were recorded. However, during the latter part of the month, high winds have been an infrequent factor in weather conditions. On June 4, some 12 of an inch of precipitation was recorded in the forecast area on the Indian, while at Mammoth it was estimated at .05 of an inch.

Travel to the monument during June has been greater than anticipated, we are averaging about eleven cars a day, with a peak of twenty on out of state.

The approach road from Trail, Indian was closed during the month, it is now closed at this writing, and several vehicles have been turned on its approach.

Special Activities

Mr. Kenneth M. Smith, of the Indian Service, made an inspection of the recently received road at Indian Ranger Station and Mammoth.

On June 4, the stationer made a trip to the Indian Service at Trail, to confer with the Indian Service, regarding the removal of Indians for live collection activities.

The stationer spent the period June 11 to June 12 in the Indian area, inspecting trails and facilities.

Remarks

The Indian Service and Indian Ranger Station have submitted reports on the various trails, including the main trail at Mammoth.

Two additional signs were fabricated and placed at the trailhead, on both the Indian and Trail roads. It was estimated that approximately 150 visitors to the monument, with their automobiles.

## Forest Protection

As of June 1, the regular program for fire detection and suppression was initiated. Routine patrols have been established and the Mica Mountain Lookout Tower is manned daily from 8 A. M. to 5:30 P.M. We are fortunate in having three competent Fire Control Aids, to carry out the all important work of our fire detection requirements.

On June 8, all employees except the packer and custodian, were assembled at Manning Camp, for a one day fire training program. The school was conducted under the direction of Ranger Wilde and Maintenance man Ollie O. Barney. Following is a brief outline of the subjects covered:

1. A review and discussion of the Saguaro Fire Plan by Ranger Wilde.
2. A review and discussion of Chapter Seven, Western Fire Fighters Manual, by the three Fire Control Aids.
3. The use and care of equipment by Ollie O. Barney.
4. Practical demonstration of fire tool use, fire line construction, and telephone line repair.
5. Safety factors and proper clothing in relation to fire fighting by Ranger Wilde.
6. Group discussion, question and answer period, on all phases of fire protection.

The .12 inch rainfall on June 6, afforded some reduction in the fire danger, momentarily, but this moisture has since been dissipated due to drying winds.

Considerable difficulty was experienced with two of our radio sets during the month, however, repairs have been effected and they are now working properly.

## Wildlife

The parade of birds and small mammals to the water supply in back of headquarters, continues to be an unending source of interest. On several occasions, visitors have had an opportunity to observe Road Runners, Gambel Quail and White-Winged Doves, close at hand, for the first time. Several coveys of quail make daily visits to the water pans.

## Visitors

Mr. and Mrs. A. W. Werner, Lowell, Mass., members of the National Parks Association, taking photographs in the interests of the Park Service.

Forest Protection

As of June 1, the region presents for fire protection and forest  
protection was initiated. Forests have been established and are  
now being looked after in a most satisfactory manner. It is very  
fortunate in having three competent fire wardens, in every  
one of the all important work of our fire protection program.

On June 2, all employees except the regular and seasonal, were  
assembled at Laramie, Wyo., for a one day fire training program. The  
school was conducted under the direction of Forest Warden and Forest  
Engineer W. C. Hardy. Following is a brief outline of the work  
which was covered:

1. A review and discussion of the progress of the fire protection  
work.
2. A review and discussion of the fire laws, forest fire laws,  
and the forest fire laws of the State of Wyoming.
3. The use and care of equipment by the fire wardens.
4. Practical demonstration of the use of the fire extinguisher,  
pump, and telephone line system.
5. Safety factors and proper clothing in relation to the protection  
of the forest.
6. Group discussion, questions and answers period, by all present.

The 12 inch rainfall on June 1, effected some reduction in the  
fire danger, however, but this reduction has since been eliminated  
due to drying winds.

Considerable difficulty was experienced with the fire wardens  
during the month, however, repairs have been effected and the work  
working properly.

Wildlife

The range of birds and small mammals in the western region is  
back at headquarters, a number of the western birds of interest.  
In several instances, the birds have been observed in the western  
region, and the birds have been observed in the western  
region. Several cases of birds have been reported in the western  
region.

Visitors

Mr. and Mrs. A. E. Brown, Lowell, Mass., members of the National  
Game Association, visited the Game Warden in the Forest of the West  
Service.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Travel

A total of 896 persons visited Saguaro during the month. Thirty five states were represented and Washington D. C. This is a decrease of 479 persons or approximately 35% less than last month. However, this is an increase of 124 persons over the corresponding month of June 1947, or 16%.

Interpretive Service

It has been possible to afford interpretive service to a good percentage of our visitors, although this activity has been necessarily less than desirable.

A total of 339 persons in 99 parties were given interpretive service at headquarters. This amounted to 22-1/6 hours for an average of 14 minutes per party.

Roads and Trails

The maintenance work and relocation on the Madrona-Grass Shack Trail, has progressed satisfactorily during the month. A total of one hundred and forty-five man days have been expended on this trail, during the last thirty days. The crew now working out from Grass Shack, will be moved this week-end, to a new location at Spud Rock Ranger Station. The water supply at Grass Shack is exhausted. About eight and one half miles of the Madrona-Grass Shack Trail have been worked to date. It is planned to work the lower unfinished portion during the winter months, with regular personnel.

The other trail crew, quartered at Manning Camp, will begin work on the Cow Head Saddle Trail, within the next few days.

Personnel

Newell A. Bundy resigned his position as Fire Control Aid at the close of business, May 31, 1948.

Mr. Jessie C. Hymer resigned his position as Laborer on May 31, 1948.

/s/ Samuel A. King  
Samuel A. King  
Custodian

A total of 11 persons visited during the month.  
Thirty five visits were made during the month.  
A number of the visits were made by the same person.  
The number of visits made by the same person was  
corresponding to the month of June 1941.

Interpretive Service

It has been possible to afford interpretive service to a  
number of our visitors, although the activity has been  
less than desirable.

A total of 333 persons in 11 parties were given interpretive  
service at the museum. This amounted to 11-1/2 hours for the month  
of 14 minutes per party.

Boats and Trails

The maintenance work and relocation of the Nelson-Grass Boat  
Trail, has progressed satisfactorily during the month. A total of  
one hundred and forty five man hours have been expended on this trail,  
during the last thirty days. The work now working on the trail  
Shack, will be moved this week-end, to a new location at the  
Nelson Station. The water supply at this place is abundant. About  
eight and one half miles of the Nelson-Grass Boat Trail have been  
worked to date. It is planned to work the lower half of the trail  
during the winter months, with regular personnel.

The other trail crew, consisted of Nelson-Grass, will begin work  
on the Cow Trail and the Trail, within the next few days.

Personnel

Mr. A. L. Smith resigned his position as the Controller of the  
State of business, May 31, 1941.  
Mr. Leslie D. Palmer resigned his position as laborer on May 31,  
1941.

SUNSET Crater

Flagstaff, Arizona

June 28, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Sunset Crater National Monument for the month of June 1948:

Visitors this month: 4250      Travel Year to date: 11,554

Weather: The month of June was unusually cloudy with occasional light showers which reduced the daily maximum temperatures, but did little to alleviate the fire danger.

Roads: The results of the road work performed this month will not be too apparent until the coming of the rainy season. A total of 135 cubic yards of dirt was hauled onto the soft portions of the entrance road and spread to form a thin layer. The cost of this material was very little in comparison to most of our hauling, since we obtained the dirt from a Highway Department shovel cleaning ditches in Black Bill Park. It will take rain to pack this material to form a solid surface.

Visitor Travel: With a total of 1700 persons registering visitor use increased more than thirty percent over last June. Travel for the fiscal year totaled 20,699, a figure almost double that of last year. Part of this increase reflects our using an additional 30% as the estimated non-registrants during the past fiscal year, but otherwise it is a bona fide increase.

Visitors: NPS visitors included Assistant Regional Director and Mrs. Davis with their daughter Ann and Collaborator E. D. McKee and family. Photographer Joseph Muench and family visited the area to take a few photographs.

Vandalism: Even when personnel is present in the area vandalism goes on at an alarming rate. Everyone seems to want to take away a rock specimen, those making the trip to the top of the crater return with

specimens of the hot springs minerals, flowers and shrubs attract the eager hands of would-be botanists. It seems to be an impossible task for one man to control this situation; one is always saying: "DON'T".

Activities of Outside Agencies: The Atlas Film Corporation had a crew filming Sunset Crater to be used in a Bureau of Mines movie on the Natural resources of Arizona.

Application is being made by the residents of Black Bill Park and other outlying Flagstaff areas for a Rural Electrification Project. This would bring electricity to within at least four miles of this area.

General: Cleanup, trailer rehabilitation, road work has limited visitor contact to week-ends primarily. In spite of our efforts there are complaints on the roads.

 Director

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

Tonto National Monument  
Roosevelt, Arizona

June 26, 1948

MEMORANDUM for the Regional Director, Region Three.

Following is a report of activities at Tonto National Monument for the month of June, 1948.

Weather. Daily maximum temperatures ranged from 90 to 104 degrees, averaging above 95. No rain, as usual. Days are very hot in this canyon. This is the third year of drought in this area.

Approaches to Monument. Same old story. The Apache Trail is in fair condition, the Monument road needs rain & dragging, but most of the visitors say the roads are not bad.

Interpretive Service. The museum has been open all days of the month, but guide service has not been available on part of the Custodian's lien days, especially when a trip to town for supplies was necessary. Most of the week-day visitors are from out of state, and want to see the Ruins, so that considerable time is required for interpretive service despite the low number of ruins visitors. Six or seven cars of visitors can and often do take up the whole day.

Travel. 960 persons in 271 cars visited Tonto this month, a slight increase over May travel, and about 20% more than June last year. Most cars are from out of state. The visitors do not seem to mind the heat as much as the Custodian does.

Fire Danger. Fire danger ranges from high to extreme during the day, creeping down to moderate at night. Since I would have to help on any big fire in the surrounding Tonto National Forest, I am as jumpy as anyone who really has a fire problem on his area.

Visitors. A Conservation Workshop group from Tempe was in Monday June 21. Tonto Forest Supervisor Jack Lillevig, Mrs. Ruth B. Jones of the USFS Information Service, and B. Ira Judd of Tempe were with the group.

General. The plumbing job was completed by the Globe Plumbers, thus making civilization effective at Tonto. The spring was cleaned out and a new intake screen installed. Visitors, reports, and maintenance took up the Custodian's time for the month.

Charles C. Sherry  
Custodian.

1994

UNITED STATES  
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tumacacori National Monument

Tumacacori, Arizona

June 26, 1948.

MEMORANDUM for the Regional Director,  
Region Three.

Follows the monthly narrative report for Tumacacori National Monument for the month of June, 1948:

WEATHER CONDITIONS: For a month in which no rain is expected, we were surprised to receive .14 of an inch of rain on June 6. No other moisture fell. Low temperature was 47 degrees on May 27 and 28. High temperature was 105 on June 16. Three days of high winds were experienced.

INCREASE OR DECREASE IN TRAVEL. Our 1,426 visitors this month has been exceeded once, by the figure of 1,429 for June, 1937.

INTERPRETIVE SERVICE. 792 persons went on 150 guided trips through the mission church and grounds, receiving an average of 36 minutes per trip. 1,392 persons saw the museum, and the same number received combined Information and Interpretation service.

VISITORS. June 21 - James M. Robinson and his wife and daughters, from Carlsbad Caverns National Park.

PUBLICITY. June 8 - Albert D. Runkle, photographer, taking pictures for a movie on adobe making, which he hopes to have released through colleges and universities.

PERSONNEL. Custodian Jackson returned to duty from annual leave June 1. On this same day Archaeologist Hendricks from Tonto departed from temporary detail here. Ranger Brewer took two days of annual leave. Per diem laborer Rafael Martinez Vega was terminated from ruins stabilization work COB June 10. Per diem laborer Ramon Sandoval Orozco, on the same work, was terminated 2:00 p.m. June 11.

ACTS OF GOD. A giant spineless cactus, at least 25 years old, located conspicuously on the trail to the mission church, was completely uprooted by high winds June 1 and thrown flat on the ground. There remained nothing that could be done except removal of the corpus delicti with a truck and a somewhat pagan semi-inhumation ritual in another portion of the monument.

INSPECTIONS. Immediately upon the custodian's return to duty from annual leave he was met by General Accounting Office investigators Kenneth M. Westering and George R. Bartlett. They spent about two and a half days here conducting an exhaustive investigation into the

Enclosed for the National Park Service  
are three copies.

Enclosed the monthly narrative report for the month of June, 1943:  
for the month of June, 1943:

Section 1 - Summary: For a month in which no rain is expected, we were surprised to receive 1.4 of an inch of rain on June 5. The temperature fell. Low temperature was 42 degrees on May 27 and 28. The temperature was 105 on June 15. Three days of high winds were experienced.

Section 2 - Summary: The 1,442 visitors this month has been exceeded once, by the figure of 1,442 for June, 1943.

Section 3 - Summary: 783 persons went on 134 guided trails through the national park and grounds, receiving an average of 30 minutes per trip. 1,044 persons saw the museum, and the same number received combined information and interpretation services.

Section 4 - Summary: James H. Robinson and his wife and daughter, from California, visited the National Park.

Section 5 - Summary: Robert H. Smith, photographer, visiting for a month on study leave, which he hopes to have followed through college and university.

Section 6 - Summary: Jackson returned on July 1st from a month's leave. On this date the zoological collection from the National Park Service was moved to the new building. The new building was completed on June 15. The new building was completed on June 15. The new building was completed on June 15.

Section 7 - Summary: A large collection of birds, at least 10 years old, located on the trail to the station house, was completely up-rotted by this time. The birds were found on the ground. The birds were found on the ground. The birds were found on the ground.

Section 8 - Summary: Immediately upon the completion of the report on the birds, he was met by General Accounting Office officials. The report was completed on June 15. The report was completed on June 15.

UNITED STATES  
DEPARTMENT OF THE INTERIOR

affairs of the monument. This was my first meeting with GAO investigators. While extremely courteous, these gentlemen were the most inquisitive humans I have ever seen. They now know everything about the monument, I think, except that apparently through some oversight they neglected to discover that I have a mole under my left shoulder blade. I believe they have given the monument a good bill of health.

MAINTENANCE. A number of minor plumbing repairs have been made, in the interests of water conservation. The water level in the patio garden fish pond has been raised about an inch with minor alteration of the four drains, to give better coverage to water lilies. The six air pump on our deep well water pump blew a gasket, and after considerable experimenting with homemade gaskets I found they will not stand the pressure. The system is working all right now. Routine maintenance, janitor work, and cleanup, has been kept current.

UTILITIES. We have had a good deal of trouble with a sealed-unit refrigerator in the ranger house. After repairs had been made on it, and it continued to function poorly, we complained to the power company. After a couple of adjustments to the transformer they got the voltage to run between a low of 108 and a high of 128. The refrigerator works better, but there is still some difficulty.

STABILIZATION OF MISSION. 142 man hours of work were expended in completing the scratch coat on the mortuary chapel, and in putting on the finish coat. The laborers were laid off, cleanup done, and stabilization stopped for the balance of the fiscal year because of lack of funds.

North and east sides of the sacristy are all that remain in need of permanent exterior stabilization on the church now, unless an adequate lime plaster preservative is found which can be used to impregnate all original lime surfaces with.

Much stabilization work is needed on remnants of room structures of the old patio area east of the church, but detailed consideration of that problem is for other pages than this.

Earl Jackson,  
Custodian

*Earl Jackson*

affairs of the monument. This was my first meeting with the livestock-  
owners. While extremely courteous, these gentlemen were the worst  
inquisitive humans I have ever met. They know how everything works  
the monument, I think, enough that they can find out anything  
they wanted to discover that I have a mole under my hat. I believe  
I believe they have given the monument a good deal of trouble.

There is a number of minor electrical repairs have been made, in  
the interests of water conservation. The water level in the pond  
which has been raised about an inch with water conservation  
of the four drains, to give better coverage to water illness. The  
water on our deep well water pump has a gasket, and after  
considerable expenditure of money and time I found they still  
and still the problem. The water is working all right now. Another  
maintenance, a minor work, and almost, has been kept out.

There is a good deal of trouble with a water pump  
which is in the pump house. Other repairs have been made on  
it, and it continues to function poorly, so continued to the pump  
company. After a series of adjustments on the pump, they  
got the water to run between a low of 108 and a high of 110. The  
water pump was better, but there is still some difficulty.

There are four hours of work were arranged  
in completing the survey work on the four ponds, and in  
putting on the final coat. The laborers were paid off, cleaned  
down, and stabilization stopped for the balance of the fiscal year  
because of lack of funds.

There are four sides of the security are all that remain in  
need of permanent exterior stabilization on the north side, which  
an absolute time pressure situation is found which can be used  
to improve all original line markers with.

Each stabilization work is needed on remains of rock structures  
of the site ever since of the survey, but detailed consideration  
of that problem is for other pages than this.

MEMORANDUM for the Regional Director, Region Three.

Following is the monthly narrative report for Tuzigoot National Monument for June, 1948.

Visitors this month, 1800

Travel year to date, 11,403

Travel Data: This month brought the amazing total of 1800 visitors as compared with 1220 for June of last year. Each month of the current travel year continues to break all previous corresponding highs. More and more people are discovering the varied natural attractions to be seen on Alternate 89A Highway between Flagstaff and Prescott. Although travel in Arizona as a whole, according to the Arizona Port Authorities, is declining, visitation to Tuzigoot consistently shows a sharp increase. The 1800 visitors arrived in 558 cars. There were several loads of school children.

Guide and Contact Service: Museum, ruins and orientation contacts totaled 4660 for the month. 1648 people in 512 parties were shown through and given an orientation lecture in the museum, and 1662 people in 515 parties were conducted through the ruins. The average time spent by each party in the museum was 23 minutes, while the conducted tour through the ruins required 21 minutes per party.

Personnel Time: Museum; 185 hours, 05 minutes. Ruins; 180 hours, 40 minutes. Total time for Bright; 191 hours. For Richert; 174 hours 45 minutes.

NPS Visitors: Kenneth Saunders on May, 29 and Dean Dasey, Grand Canyon, on June 24.

Special Activities: The Custodian was selected by the Clarkdale Fire Dep't., of which he is a member, to serve as delegate to the Arizona State Firemen's Convention at Holbrook. The trip was made on his two day's off.

Southwestern Monuments Association: A "Spot Light" lighting system was recently installed over our publications display case, and as a result, a substantial increase in sales.

Maintenance and Administration: As may be observed from the above-mentioned contact figures we have had little time left for maintenance work. In-between parties, however, Ranger Richert has managed to complete the repainting and relettering of all informational and directional signs on Alternate Highway 89A. Also, the relettering of all monument area informational signs. If contact time permits we propose to complete the laying and connecting-up of new 2-inch pipe through the deteriorated section of the water line from Clarkdale.

*Everett W. Bright*  
Custodian.

designed to provide a basis for future action and to provide a basis for future action. The design is based on the principle of the "one-to-one" relationship between the user and the system. The design is based on the principle of the "one-to-one" relationship between the user and the system.

1. The first part of the report is a general statement of the purpose of the study. This is followed by a brief review of the literature on the subject. The third part of the report is a description of the methods used in the study. This is followed by a presentation of the results of the study. The final part of the report is a discussion of the results and their implications.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

\* If only one copy is made, please mark "1" and no additional copies should be made.

1. The first part of the report is a summary of the work done during the year. It is a brief statement of the results of the work, and is intended to give a general impression of the progress made.

[illegible]

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the People of the South (CLPS) in the United States. The Commission is therefore unable to determine whether the CLPS is a legitimate organization or a subversive group. The Commission is therefore unable to determine whether the CLPS is a legitimate organization or a subversive group.

Walnut Canyon National Monument, ~~Monument~~ ENT  
Flagstaff, Arizona.

June 26, 1948.

MEMORANDUM for the Regional Director, Region Three.

19

There follows a report of activities in Walnut Canyon National Monument for June, 1948:

Weather. The only precipitation since the snows of March occurred June 6 when we had about .3 of an inch of rain.

Visitors. Of the 4,227 total, 3,909 were contacted, and it is estimated that 3,165 made the ruins trip unattended. There were 39 picnic parties with 591 people. The faculty, with families, from A.S.T.C. formed one large picnic while the largest was by the B.P.O.E. Lodge from Winslow where a state convention of Elks was held.

Inspections. Mr. Saunders was here twice in connection with the rehabilitation projects. Mr. Davis arrived the 24th to discuss many problems. Mr. Ratcliff stopped by to leave some fire extinguishers and prepare a "want list" of fire suppression equipment and supplies.

Rehabilitation Projects. The Admin. Bldg. and the Comfort Station were re-roofed during month. Neither job was entirely satisfactory, and will have to be re-done in part to be accepted.

Roads & Trails. Foreman Bean, of Wupatki, moved to Walnut for a few weeks stay. He, with Walnut's Trail Laborer Viklund, spent a week hauling dirt to cover some of the cinders on the Sunset Crater Road. Then weather-proofing some of Walnut's trails began. To date, most of their time has been hauling cinders and preparing the trail for an application of bitumuls.

Cooperating Governmental Agencies. The surrounding National Forest, with two large fires this month and two others earlier, is experiencing their worst fire year since 1922. Ranger Aubuchon has gone to all four of their big fires.

Miscellaneous Activities. With more than 4,000 visitors and almost 600 picnickers, most of our activities have just been the routine chores.

MEMORANDUM for the Regional Director, Region Three.

TRAVEL MONTH: June, 1948

TRAVEL YEAR TO DATE: 1948

Visitors 12,309 Cars 2738

Visitors 64,084 Cars 16,453

-----  
June, in keeping with several recent months, surpasses any previous June in Monument history in total visitation. 12,309 visitors entered the Area during the hours the checking station was open. For the fiscal year just ending we are 16,800 ahead of last year. We felt we were doing good in approaching 100,000 for the fiscal year and now find ourselves 8,000 over our goal.

The weather has been unusually hot with the temperature reaching 105° for a couple of days. Winds have been high for this time of the year but some 2.68 inches of rain helped hold the sands down.

The Custodian took some annual leave early in the month and during a trip to Oklahoma City visited briefly with Superintendent Miller at Platt and Don Eggenyer at Lake Texoma. An official trip was made by Ranger Steel to El Paso to pick up a cab for our road patrol, he also made a trip to Gran Quivira with a small house needed by that area. The Custodian made a hurried trip to the Regional Office on concession matters. He was accompanied by Mrs. Tom Charles and her son Ward who operate the White Sands Service Co.

Little time has been available for any phase of our activity other than the checking station and contact work. We entered the split shift a month early and this, of course, cuts down on the hours we can spend on maintenance. We did install a new pump jack at the sands well replacing one from W. P. A. days. Through the combined efforts of Paul and Ray we now have both comfort stations at Headquarters repainted, and Harold and Joe have repaired most of our screen doors. Picnic area clean up is becoming a major problem with the heavy use it receives. The new and greatly enlarged public use area is filled to capacity nearly every evening.

1. The following information was obtained from the records of the Department of the Interior, Bureau of Land Management, regarding the land owned by the United States in the State of California:

the following are some examples of the work done by the various departments of the Government of India during the year 1934-35.

[illegible][illegible]

DEPARTMENT OF THE INTERIOR

(2) Monthly Narrative Report, June 22, 1948

Due to the high winds road work has been heavy and we were fortunate, at times, in keeping our road open at all.

No complaints have been received by this office on any angle. Not even a verbal one among the visitors has been overheard. The concession is also well ahead of last June, about in keeping with the increase in attendance.

Ranger Chittum was elected President of the local Lions Club for the coming year, Ranger Schaffner has just received his Master of Science degree, and Ranger Steel has been offered a promotion by transfer so my force has done well by us in honors conferred. My only contribution has been an admission of age and finally getting glasses fitted. Now if I will break down and get a hearing aid perhaps I can carry on for another year or so.

And, speaking of age, I guess I better ring off and get rested up for the rush of visitors always promised us in July.

John Will Paris,  
Custodian.

NATIONAL PARK SERVICE

Wupatki NATIONAL MONUMENT

Flagstaff, Arizona

June 28, 1948

MEMORANDUM for the Regional Director, Region Three.

There follows a report of activities at Wupatki National Monument for the period of June 1948:

Visitors this month: 830      Travel Year to date: 4999

Weather: Precipitation totaling more than two tenths of an inch and a large proportion of partly cloudy and cloudy days is in sharp contrast to the usual clear, hot days of June. One of the Navajos predicts a short summer because he saw a certain seven stars in the sky the other morning. We will go along with him to the extent that this has been an unusual June.

Roads: Lack of adequate precipitation precluded maintenance other than filling holes and soft portions of the road. Although "washboarded", the approaches from both Hiway 89 and Sunset Crater are passable.

Travel: Visitor use of this area increased almost 40% over that of last month with 602 persons registering at Wupatki and 226 at the Citadel. If this continues travel will be well above that of last year; it is still averaging thirty percent above. One factor has been the fact that the Sunset Crater approach has been passable at all times.

Special Activities: In cooperation with Arizona State College at Flagstaff a one hour lecture was given on the History and Organization of the National Park Service for the class in Natural Resource Management.

Considerable time had to be spent on the sale of the pickup I-13869 and one trip had to be made to assure the purchaser that the heater was still in the truck. Sale price totaled \$225.00 which is about one third of the purchase price in 1937.

Activities of Outside Agencies: The Atlas Film Corporation movie crew spent an afternoon in the area shooting for a movie on the Natural Resources of Arizona for the Bureau of Mines and securing shots of prehistoric beams for use in a movie on the tree ring method.

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE

..... NATIONAL MONUMENT

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Cooperation: An Indian Service car returning one of our Navajos from the hospital at Tuba City got stuck in the cinder on a side road in Wupatki Basin. In trying to get out they managed to break the rear axle. The nurses and the driver were driven back to Tuba City in our pickup, as it was on a Saturday and the Indian Service could not furnish a mechanic.

Publicity: The local radio station KWBZ is very much interested in obtaining material for preparing broadcasts on National Park Service areas, particularly of northern Arizona, for their travel promotion program. They were referred to your office for possible use of the articles which appeared in the July 1948 Arizona Highways Magazine. We loaned them the 1938-39 Radio Broadcast Series prepared in the Director's Office, as they want this sort of material for use during the winter months.

Radio Station KTAR in Phoenix was provided with information on Sunset Crater and Wupatki for their summer travel promotion program.

Research: The Museum of Northern Arizona expedition began test excavation of NA 660 in Black Hawk Valley on June 21. Watson Smith of Peabody Museum is in charge assisted by Milton Wetherill, three students and two Hopis. The site is a small lava boulder pueblo of the early PIII period and with predominant Anasazi influence. As yet no evidence of a kiva has been found. They are working in three rooms and trenching in the "courtyard" has revealed what is probably a pithouse.

Collaborator E. D. McKee and his assistant Bob Ellsworth spent the better portion of two days on the paleogeography of the Moencopie, a project which will probably be finished this year. One afternoon was spent with them by the custodian.

Spring Flow: Wupatki Spring decreased during the past month a total of 183 gallons per day. The flow is now 268 gallons. Reiser Spring also decreased from 1085 to 960 gallons per day.

NPS Visitors: The only N S visitor this month was Assistant Regional Director Davis and family- almost forgot that Russ Mahan came in from Arches to pick up a WAA surplus water tank.

Among the other visitors was Miss Ruth D. Simpson who is on the curator staff of the Southwest Museum, and Dr. Gladys Reichard, anthropologist from Barnard College.

General: Rehabilitation of house trailers continued to be the major project aside from routine maintenance. The bulk of our time was devoted to visitor contact, as it will be for the rest of the summer. Road signs were repainted and in the past this would have been a major project; now it is only a matter of several hours.

REMARKS: (Please note below any factors influencing interpretive service, such as:  
"museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE  
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.  
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.  
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

REMARKS: (Please note below any factors influencing interpretive service, such as: "museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

\*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE  
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.  
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.  
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

TITLE Custodian.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

An additional 48 people, local residents, here to use telephone or on other business were also contacted.

\*INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE  
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME Ted G. Sowers

TITLE Custodian

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

### EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

### INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

"museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE  
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE  
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.  
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.  
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

FILL OUT ONLY THOSE BLOCKS THAT APPLY

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.  
"ADMINISTRATIVE" ARE CUSTODIANS, SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.  
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

CONDUCTED TRIPS: TRIPS CONDUCTED BY N.P.S. PERSONNEL IN THE FIELD OR THROUGH RUINS, TO HISTORIC STRUCTURES, OR OTHER FEATURES OF THE AREA.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA. NUMBER OF REPLIES IN RESPONSE TO WRITTEN REQUESTS FOR INTERPRETIVE DATA SHOULD BE INDICATED.

INSTRUCTIONS FOR FILLING OUT THE FORM

COLUMN #1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF DAYS ON WHICH INTERPRETIVE STATIONS AND DEVICES ARE OPEN TO THE PUBLIC.

COLUMN #2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN ALL BLOCKS.

COLUMN #3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS IN THE LOWER RIGHT-HAND CORNER OF THE FORM.

TOTALS: A SUMMARY OF INTERPRETIVE SERVICES FURNISHED VISITORS WITHIN THE AREA IS PROVIDED FOR IN THE LOWER RIGHT-HAND CORNER. TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING ANY INTERPRETIVE SERVICES. SEND TWO COPIES TO THE REGIONAL DIRECTOR WHO WILL FORWARD ONE TO THE DIRECTOR. ONE COPY SHOULD BE RETAINED BY THE SUPERINTENDENT OR CUSTODIAN OF THE AREA IN WHICH THE REPORT ORIGINATES. COORDINATING SUPERINTENDENTS ALSO SHOULD BE PROVIDED WITH A COPY. DUE IN THE REGIONAL DIRECTOR'S OFFICE NOT LATER THAN THE 6TH OF THE MONTH FOLLOWING THAT COVERED BY THE REPORT.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE  
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).
